1. Crossposting Permitted to rec.radio.amateur.moderated

Newsgroup: rec.radio.amateur.equipment
Date: 2010-01-01 07:00:03 UTC
From: rram@panix.com
Message-ID: <radio/ham-radio/moderated/crossposting-1-1262329201@panix.com>
Source record: 1369
Cross-posted to: rec.radio.amateur.antenna,rec.radio.amateur.dx,rec.radio.amateur.equipment,rec.radio.amateur.homebrew,rec.radio.amateur.misc,rec.radio.amateur.policy,rec.radio.amateur.space,rec.radio.info

```
Posted-By: auto-faq 3.3.2 beta (PGPMoose V2.0, Perl 5.005)
Archive-name: radio/ham-radio/moderated/crossposting
Revision: 1.1 2009/04/12 19:42:04
Posting-Frequency: posted monthly
URL: http://www.panix.com/~rram/usenet/rram/index.html

Changes followed by "|".

After a 30-day public discussion and feedback period to gauge reader
opinions in March of 2009:

http://groups.google.com/group/rec.radio.amateur.moderated/browse_thread/thread/d7d337db35
f23326

the rec.radio.amateur.moderated Moderation Team has decided to consider
amending its charter, and permit limited simultaneous crossposting to
rec.radio.amateur.moderated and one other unmoderated
amateur-radio-related discussion newsgroup. We are currently trying
this on a temporary basis (90 days, through early July 2009), and adopt
it permanently if successful.

Approved rec.radio.amateur.* newsgroups are those that are currently
listed in the latest version of the "List of Big Eight Newsgroups" which
is crossposted monthly to news.announce.newgroups, news.groups, and
news.lists.misc.

Approved alt.radio.amateur.* and alt.ham-radio.* newsgroups are those
that have been created consistent with the suggestions in "So You Want
to Create an Alt Newsgroup" at:

http://www.faqs.org/faqs/alt-creation-guide/

Approved regional hierarchy newsgroups are those that contain either
"radio.amateur" or "ham-radio" in their names, including
uk.radio.amateur and aus.radio.amateur.misc.

We will make every reasonable effort to keep our list of approved
newsgroups up-to-date. In case we have overlooked any, and a submission
is rejected in error as a result, the rejected submitter can E-mail us
at our administrative contact address (in the signature at the bottom of
this article, and the default Reply-To for the rejection message)
requesting that it be added, and that the article be approved. We may
still choose to reject articles crossposted to any alt.* newsgroup with
an inappropriate name, including obscene language, embedded
name-calling, or encouragement of unlawful conduct.
```

Please direct any comments, questions, or criticisms to
rec-radio-amateur-moderated-request@panix.com.

2. Yaesu frg-8800 mw/lw mods

Newsgroup: rec.radio.amateur.equipment
Date: 2010-01-01 20:57:46 UTC
From: Mike Lee <swift240@gmail.com>
Message-ID: <elt%m.7027$Ma2.3340@newsfe04.ams2>
Source record: 1370

Hi all amongst other gear I use a Yaesu FRG-8800.
I have tried a google search on mw/lw mods for this receiver but no such luck as yet.
Some one has done it but I have no idea how to go about it.

Can any one please point me n the right direction for this.

TIA.

Mike.

3. wanted FT-767GX Working PSU Board

Newsgroup: rec.radio.amateur.equipment

hi all
Does anybody have a spare FT767GX working PSU board i can buy?
Fed up trying to repair mine which has been virtually rebuilt but still
the 24v output is at 42 volts
12v now working ok
Any parts considered as also any help greatly received.

Posting-Frequency: posted monthly
URL: http://www.faqs.org/faqs/radio/personal-intro/

Changes followed by "|".

The rec.radio.info newsgroup, first established in 1993, has been
recently revived by an active moderation team. We are currently seeking
suitable information, FAQ, and bulletin articles from the entire
rec.radio.* newsgroup hierarchy for simultaneous cross-posting to our
newsgroup.

We are seeking a replacement maintainer for the following information
bulletin formerly posted to rec.radio.amateur.* (and currently archived
at http://www.faqs.org/faqs/radio/personal-intro/ ):

radio/personal-intro
Subject: Guide to the rec.radio Newsgroups
Maintainer: jeffreyh@Hawaii.Edu (Jeffrey Herman)
Last Posted: 9 Nov 2001 06:18:17 GMT
Posting-Frequency: 15th of each month

One significant omission, requiring immediate updates, for this article |
is that it does not mention newer amateur radio newsgroups created since |
it was written, including: |

rec.radio.amateur.antenna |
rec.radio.amateur.boatanchors |
rec.radio.amateur.dx |
rec.radio.amateur.equipment |
rec.radio.amateur.homebrew |
rec.radio.amateur.moderated |
rec.radio.amateur.space |

We are willing to provide any technical support necessary to get this
article updated and automatically posted again at a regular interval.
This would include establishing contact with the original maintainer for
any necessary permissions. We would prefer to seek a new, dedicated
maintainer at this time, rather than start auto-posting the original
article ourselves.

For more information about our newsgroup, see:
```

http://www.panix.com/~rram/usenet/rri/index.html

Please direct any comments, questions, or criticisms to
rec-radio-info-request@panix.com.

Here is some "hep"

Palomar Electronics Corporation was a manufacturer of CB linear amplifiers
in the 1960's and 1970's that used sweep tubes (now expensive) or bipolar RF
transistors.
http://www.cbtricks.com/Amp/palomar/index.htm
These units were illegal for usage on CB (27 MHz/11 meters) ... and NOT
designed for the amateur radio service (10 meters). They sold hundreds of
thousands of these units -- most are in garages, basements or tossed in junk
with 8-track tape units.
http://www.cbtricks.com/Amp/palomar/...bile/index.htm

The company went out of business around 1980. Since that time many builders
and manufacturers in southwest USA and Mexico completely copied the earlier
Palomar design and sold these through truck stops and other CB merchants.
http://www.palomar-engineers.com/Palomar/palomar.html

If you are just starting out in Ham radio, its not a good place to start.

Here is a link to a photo of the Palomar 200 mobile:
http://www.cbtricks.com/Amp/palomar/200_mobile/index.htm
http://www.cbtricks.com/Amp/palomar/200_mobile/tour/index.htm

A warning about these things...

A few years ago, a local ham bought a tube CB amp from an estate sale, thinking he could use it on 10 meters. He asked me to check it out before
putting it on the air.

Being a paranoid type, even though the thing hadn't been plugged in for about two weeks, I kept my fingers away from the tubes & measured the voltage
on the plate caps before doing anything else.

400 VOLTS.

(I think I got as much of a shock from reading the voltmeter as I would have if I'd touched the HV circuit!)

After discharging things, I traced the wiring. And was not at all surprised to find there was NO BLEEDER. Nothing to discharge the HV after
switchoff. Obviously the filter capacitors were in good shape though!

In other words, these things are physically dangerous.

(I would imagine the signal quality wouldn't be very good either...)

OK it is a computer soundcard solution but would a netbook with a solid
state drive to cope with the foundation not be viable? Small, compact, uses
little power and will drive Hell easily and is simple to use. With a little
dismantling and repackaging, can easily be made watertight and even more
shockproof and a custom Linux build can make it a turnkey appliance.

That would surely be a bit primitive in today's world.

If your main concern is the noise cancelling and your operatives can
manage to operate a radio then the Motorola Mototrbo range of radios
have exceptionally good noise cancelling. I have installed them in
paper mills and power stations where it is impossible to speak to the
person next to you because of the noise and they still work well. On
one dem' the bosses refused to accept the operator was in the generator
hall until they saw him there because the audio quality was so good.

<http://www.radio-links.co.uk/files/1180438189DP3400.pdf>

Sorry to all the wingers on uk.radio.amateur these are digital,
hence the good audio processing. :-)

I don't use Hellschreiber, but it certainly works on a small Asus
netbook, under Linux.

Nick.

I have a PSK31 autospotter consisting of an Asus PC900A netbook ($200)
running Fldigi; an MFJ-1024 active antenna; and an ICOM R75.

http://pskreporter.info/pskmap.html

This computer has an 8 gig SSD and is very solidly constructed. I run
Puppy Linux 4.20 operating system.

Just install Wine, then Hellschrieber. I've tried it as I say, but
don't have it installed now, I use Digipan, instead.

You'll have to add it to the applications menu yourself of course, but
that isn't difficult.

I'm using it on the PC701G also with an 8Gb SSD

Nick.

Source record: 1397

Replacement belt clip for the Yaesu VX-8R hand-held radio. Replaces the stock belt clip.

Belt Clip is spring loaded, swivels, and locks with quick button release. Unlike some belt clips that will release your radio when the radio swivels 45 degrees or more, with this belt clip you "must" push the button to release the radio.

Stainless Steel bolt, washer, & Nut. Perfect for quick retrieval and replacement of the radio during field day or amateur radio operations. Leave the bet clip on your belt.

For photos and to order visit: http://HamClips.com

Only about as serious as the person selling them claiming they are a ham radio. They cover 40 channels like a CB, just upshifted into the middle of the 10m ham band. They miss the CW segment, the Novice/Tech segment (do they still exist)? and the FM segment.

I also did not see any mention of CTCSS in the ads, if it does not have it, it's not a very usefull 10m FM rig. Almost all the 10m repeaters use it.

In order to actually use them you have to spend 1 minute searching the web, which I did and found that you open the top cover, move a jumper and replace the cover. Then it becomes a real 10m rig. Unfortunatley, it becomes a high power, illegal mode, CB and freeband rig too.

On the other hand it sure is impressive, and to make modding and repair easier it uses no SMT technology, which for most hams would be a plus.

I wonder if it's any good?

Geoff.

Have you looked at the audio... just prior to mixing with the RF?
Does a medium to high level audio signal show signs of envelope
clipping?
What about a low level audio signal... does that make it through the
audio chain properly? If not, you could have a biasing issue.

They're a really good bit of kit...Be aware that all the units are hand
built, so may take a while to arrive (Mine took 3 months, but I did
order from the first batch) - I'm not sure what the turn around
currently is, they may have a number of ready built units in stock!

Its software upgradeable, now does RTTY, and I think CW isnt far off,
you can add USB to it, which makes upgrading easier, and it also does
logging..I think its probably best to look at the site for the lowdown..

The only moan I have is the battery compartment, its a bit of a fiddle
to get 2 9v/PP3 batteries in there...but once you've got the knack, its
simple!

Not used mine actually 'in the field' as of yet, but the RX performance
alone is astounding!

From: triode <triode.5a42f1d@radiobanter.com>
Message-ID: <triode.5a42f1d@radiobanter.com>
Source record: 1260

Having suffered for years with tiring audio on my R71, decided to fix
it. These are one of the best radios ever made, worth hanging on to.
The problem is the switching diode D75. The Emitter follower Q26 is
enabled for AM reception, the 3 volts or so being used to forward bias
D75, thereby passing the audio to IC6a. The current through the diode
being only a few hundred microamps is insufficient to turn it on fully,
causing the forward dynamic `resistance to be modulated with the audio,
causing distortion. The fix is simple. Replace R202, (100k) to 15k,
and replace R128 (1K) with a jumper. This increases the current to a
more satisfactory.3 mA or so. The results are great.

URL: http://www.panix.com/~rram/usenet/rram/index.html

Changes followed by "|".

After a 30-day public discussion and feedback period to gauge reader
opinions in March of 2009:

http://groups.google.com/group/rec.radio.amateur.moderated/browse_thread/thread/d7d337db35
f23326

the rec.radio.amateur.moderated Moderation Team has decided to consider
amending its charter, and permit limited simultaneous crossposting to
rec.radio.amateur.moderated and one other unmoderated
amateur-radio-related discussion newsgroup. We are currently trying
this on a temporary basis (90 days, through early July 2009), and adopt
it permanently if successful.

Approved rec.radio.amateur.* newsgroups are those that are currently
listed in the latest version of the "List of Big Eight Newsgroups" which
is crossposted monthly to news.announce.newgroups, news.groups, and
news.lists.misc.

Approved alt.radio.amateur.* and alt.ham-radio.* newsgroups are those
that have been created consistent with the suggestions in "So You Want
to Create an Alt Newsgroup" at:

http://www.faqs.org/faqs/alt-creation-guide/

Approved regional hierarchy newsgroups are those that contain either
"radio.amateur" or "ham-radio" in their names, including
uk.radio.amateur and aus.radio.amateur.misc.

We will make every reasonable effort to keep our list of approved
newsgroups up-to-date. In case we have overlooked any, and a submission
is rejected in error as a result, the rejected submitter can E-mail us
at our administrative contact address (in the signature at the bottom of
this article, and the default Reply-To for the rejection message)
requesting that it be added, and that the article be approved. We may
still choose to reject articles crossposted to any alt.* newsgroup with
an inappropriate name, including obscene language, embedded
name-calling, or encouragement of unlawful conduct.
```

Triode:

Thanks. I haven't been able to reply on RadioBanter; don't know why. I took your description from your submission to worldwidedx.com. My ref to mods.DK was a mixup with another post, sorry. Why don't you join the yahoo R71 group? We have tried and pretty well succeeded, I think, in making it the place to go for all things R71. Plus a bunch of really helpful people.

Thanks again,

Dave

49. ICOM R71a added functions from front panel

Newsgroup: rec.radio.amateur.equipment
Date: 2010-02-06 12:48:01 UTC
From: triode <triode.5b35858@radiobanter.com>
Message-ID: <triode.5b35858@radiobanter.com>
Source record: 1267

Having installed a synchronous detector board into my R71a, there was the need to select between it and the original AM detector, without defacing the radio by adding extra switches to the front or rear panel. After studying the circuitry around the mode select IC13 on the logic unit board, there is an unused pin 1 that can be used for this task. Remove Diodes D10 and D13 from pins 32 and 36 on IC14. Add a long wire to pin 1 of IC13, best done at the unused pin at J2. This wire will now go high when FUNCT/CW is pressed, ... the same way as FM is selected by pressing FUNCT/AM. For my situation, I routed this wire through to the main board, through a switching diode, cathode to AM pin on J12. This enables AM mode when high. The added`wire also connects to the base of Q25 through a series 4k7 resistor, and a switching diode, cathode to base. This disables the normal AM detector when high. The voltage on this wire also is used to enable the Synchronous detector board. In use, all mode functions are as normal, pressing FUNCT/AM will select FM, AM will select normal AM, now pressing FUNCT/CW will select the new Synch AM, The ICOM memory will also store the new synch mode together with frequency. Unfortunately, there is no spare or unused icon in the flourescent display to activate with the new mode, so when selected, no mode icon is visible. This switching arrangement has many other uses and saves having to mess up the appearance of the radio. When working on your radio, take your time, and understand what you are doing. Disconnect power first.

Changes followed by "|".

The rec.radio.info newsgroup, first established in 1993, has been
recently revived by an active moderation team. We are currently seeking
suitable information, FAQ, and bulletin articles from the entire
rec.radio.* newsgroup hierarchy for simultaneous cross-posting to our
newsgroup.

We are seeking a replacement maintainer for the following information
bulletin formerly posted to rec.radio.amateur.* (and currently archived
at http://www.faqs.org/faqs/radio/personal-intro/ ):

radio/personal-intro
Subject: Guide to the rec.radio Newsgroups
Maintainer: jeffreyh@Hawaii.Edu (Jeffrey Herman)
Last Posted: 9 Nov 2001 06:18:17 GMT
Posting-Frequency: 15th of each month

One significant omission, requiring immediate updates, for this article |
is that it does not mention newer amateur radio newsgroups created since |
it was written, including: |

rec.radio.amateur.antenna |
rec.radio.amateur.boatanchors |
rec.radio.amateur.dx |
rec.radio.amateur.equipment |
rec.radio.amateur.homebrew |
rec.radio.amateur.moderated |
rec.radio.amateur.space |

We are willing to provide any technical support necessary to get this
article updated and automatically posted again at a regular interval.
This would include establishing contact with the original maintainer for
any necessary permissions. We would prefer to seek a new, dedicated
maintainer at this time, rather than start auto-posting the original
article ourselves.

For more information about our newsgroup, see:
```

http://www.panix.com/~rram/usenet/rri/index.html

Please direct any comments, questions, or criticisms to
rec-radio-info-request@panix.com.

The detector is a homemade design using a phase detector to lock the
Icom 2nd local oscillator to the carrier. I dont know how to post pics.
Cheers.

55. FA: Harris RF-590H HF Receiver

Newsgroup: rec.radio.amateur.equipment
Date: 2010-02-09 05:07:14 UTC
From: K <K@spam.net>
Message-ID: <4b70ed8d$0$15008$9a6e19ea@unlimited.newshosting.com>
Source record: 1273

This fine RF-590H is up for bid to the highest bidder for the next 5 days. Let me know what you think its worth. I'm thinking the bidding should begin around $1500. Let me know what you will bid. Bid at Jtron2@gmail.com ... I will end it at 9:00 pm PST on Feb 12, 2010 and notify the sucessful bidder. I will leave a public note as to the outcome of this auction.

http://s1022.photobucket.com/albums/af347/n6jp/ (Be sure and click on each picture to enlarge it for a better look.)

It is my pleasure to be able to bring this Harris RF-590H premium receiver to the community as it is one that rarely comes up for sale anywhere. These receivers were built to exacting military standards using the highest quality components and modular engineering. Stability of this receiver is listed at + or - 1 part in 10-6 with a 5 Mhz TCXO standard. What does that mean? The circuitry in this receiver is rock solid!
The RF-590H was originally used in the US military (mostly Navy) and diplomatic institutions (Embassies) for communications and surveillance from 1982 to about 1998 when it was replaced by the RF-590A.

This "H" version of the RF-590 is coined the "hopping" or "agility" version due to it's special scanning of channels and the ability to zero in on frequencies from other cooperating parties much more quickly. According the the Harris patent for this model, it could take about 10 to 15 minutes to scan and locate a transmission since transmissions may be intermittent and on unknown frequecies. Harris designed special circuitry to allow the operator to locate these transmissions much more quickly. I do have a special manual for this "H" version. However, for practical listening, the included full manual should allow for most common operations. If you care to see portions of the manual prior to bidding, you may look here:

http://www.premium-rx.org/rf590.htm

This RF-590H is built for 19" rack mounting and is a heavy, rugged radio measuring a depth of 20.5 ", height of 5.25" and weight of around 40 lbs (50 lbs shipping). Inside, each stage is enclosed within a separate shielded box to minimize birdies. A large aluminum knob and numeric keypad permit tuning FM, AM, SSB, and CW signals in the 0 to 30 mhz spectrum. The frequency resolution is down to the individual Hz and is broken out to the full 3 decimal places on the bright blue vacuum flourescent display.

The RF-590H has the option of 4 AGC settings, and filters of 6.8 khz for AM, 3.2 and 2.7 Khz for SSB both upper and lower, and 300 Hz for CW. I have taken a picture of these crystal filters inside the top of the unit and it appears like there is one slot open for another filter, if desired. Just a quick note, if you think that the AM filter of 6.8 khz it too wide, based on past experience with other receivers, you would likely be correct. However,

the tuning on this Harris is so precise, you can tune into an AM signal and if a narrower bandwidth is required, switch into SSB and chose upper or lower with amazing results. I have found that there are few good receivers that will allow this without serious degradation of the sound quality, but you hardly notice with this Harris. This tactic alone has allowed me to copy AM signals on shortwave that my other highly tricked out receivers using passband or a sync detector struggle with.

The RF-590H has 100 memory channels and memory scanning of these channels. I mention this as I rarely ever use memory channels, but others find this to be a large benefit when listening.

One thing that will tell you that this is a high end receiver is the modular design. The receiver is a BITE built in test button. Once depressed, the receiver runs through a series of audio, display and circuitry tests (processor EPROM, Processor RAM, synthesizer lock, rf signal path, and IF signal path) and will either display "passed" or give a fault # on the display and light the red fault light on the front panel. The owner's manual gives the fault codes so you know where to look for the problem (called fault isolation). As you can see in my picture, this receiver passes with flying colors, but if it would not, replacing it with an available module/board would be a snap. Now if only the auto industry would do this with our automobiles instead of us trotting off to drop money for a dealer to run such a test.

Speaking of owner manuals, it comes complete with a full set of manuals that cover the RF-590H receiver. These manuals have both operating instructions and schematics covering this fine receiver.

This Harris RF-590H is microprocessor controlled receiver and due to the exacting standards in build, originally sold for $17,900 to the military. This receiver is categorized as a premium receiver and there is a group of premium receiver owners online that assist each other with questions such as operation, location of parts, repairs, mods, etc. You can find that site here:

http://www.premium-rx.org/

Other features of this Harris include a 1/4" headphone jack in the front, an RF gain, a BFO that operates + or - 9.9 khz in 10 Hz increments, and a whole series of terminals on the back that provide pre and post IF filtered 455 khz jacks and a whole host of interfaces for use with other equipment or with remote devices.

I have mentioned all the the main features of this RF-590H except for one. And from my perspective, it is one of the strongest....the audio circuitry. Unlike amateur radios or consumer shortwave radios, professional communications receivers have been designed for hours of monitoring with a minimum of knob twisting. This Harris receiver works some magic with the audio circuits, bandpass filters, and automatic gain control. Besides news broadcasts from foreign broadcasters, I have enjoyed listening to music on the shortwave bands by piping the audio into a "Sounds Sweet" speaker that

sits on my desk. The low frequency content is surprising as this is often removed from receivers to "improve" intelligibility, but Harris leaves it in. Typically, taking the audio into a larger speaker would result in a painful experience, but with this Harris receiver, the result is so pleasant. As is the custom with all communications receivers, the onboard speaker does not do justice with this receiver's audio capabilities.

I doubt that there are many better receivers built for broadcast AM audio. If I am doing work where I don't have to concentrate, it is a nice departure to tune into the 80, 40 or 20 meter bands to listen in on some of the amateur radio nets. The SSB on this receiver sounds unlike anything on my other communications receivers!

Electrically, this Harris works just beautifully. I have tested it over the past few days and it has been a joy. Cosmetically, this receiver is in very good condition. There are the usual nicks and smalI scratches that one would expect to find on a older piece of gear. However, the circuitry and internals are perfect so this is cosmetic only.

At this point, I hope I have covered anything that may be a question for you. However, if I have overlooked something, please email. Most questions will be with regards to shipping.

However, there will be a charge of $150 for double boxing and shipping this fine receiver anywhere in the lower 48 states of the U.S. This allows me to pack well so that it will arrive undamaged. Anywhere else will cost only enough extra to pay to the destination.

I can ship this unit overseas, but it is not my desire to do so due to the high cost of shipping. The cost will likely run $400, $500 or even more and I won't know until it is fully packed at the end of the sale. If you have the means to pay these high shipping charges, I don't mind working with you. However, due to the nature of the cost being tied into both the weight and the size shipping box, I am unable to give a quote for shipping until the receiver is fully packed after the auction ends. Thank you for understanding!

The winning bidder is asked to pay within 5 days. You may pay via cash (if picked up), or US Postal money order. I will not ship until full payment is received and processed.

This excellent reciver is offered as is with no guarantees implied or offered. No returns or refunds are offered to the buyer of this unit.

Contact me at Jtron2@gmail.com with your questions or bids. I live in the 93312 zip code area of the U.S.A.

regards, Jerry

Jeez. You can get a brand new K3 for $1,649 (add $250 for a couple of
XTAL filters) and you'll have the best receiver ever made. $1,500 seems
like a giant leap of faith. Where do you get parts for the thing?

58. Possible problems with Kenwood TS-820 mods.

Good day. I have had one of these transcievers for some years and have done several updates and mods to it. These include the Warc bands and published improvements to the RX front end.
Now at last 14 MHz is opening from time to time and I am working some DX on CW and SSB. However I am beginning to suspect that the front end has either too much RF gain, or its stability factor is poor. Basically hte receiver gives me the impression of having a fairly noisy RF satge with too much gain. Indeed reception is sometimes better with the RF gain backed off somewhat even on weak log path European and US signals.
Over the years I have built several communications Rx's and have a very wide experience of weak signal reception.
Has anyone else had similar problems with this or other rigs?
I would be very interested to hear, before I pull the front end apart and redesign the whole thing!!!!
73's Cliff Wright ZL1BDA ex G3NIA.

Problem Noise, static crashes in rx, all bands.
L72-0984-05 Filter TS2000
DAP202U Dual Diode
MA2S111 Diode TH79
Labor Located and replaced FL1 on Tx/rx unit which had shorted on the
input and was
pulling down the switching diodes for the filters causing noise. Also
the rx was
down about 20db in addition to the noise. Upgraded the firmware and
checked the
rx and tx on all bands. Set frequency.

http://www.youtube.com/watch?v=6EjoGKqdL8A

Yesterday I tested my TS after my friend repaired it, works just fine!
He changed faulty filter, diodes were fine.

I have an IC-Delta 100 tri-band mobile radio which has a remote
(wireless) command microphone. This same mike operates via wire when
plugged into the radio. Seeing as ICOM makes newer radios with similar
command mikes, I am curious if the data format is published or even
common between radio models.

Cliff-

I've noticed that a noise increase can sometimes be caused by the noise limiter. See if it makes any difference by turning it off.

Also, intermodulation distortion from strong signals outside the band, might be what is causing poor noise performance. Take that into consideration if you design a new RF stage.

Source record: 1290

Hi

I have a Watson W-30am 30-35 Amp peak power supply.

After using an IC-706 running 30-40 Watts on PSK31 for a few hours the power supply starts making a very load buzz/hum on keying the radio. The noise decrease's and increases turning the power up and down on the radio itself.

I have also notice the buzz/hum is still there when the radio is disconnected and a small load say 1 Amp connected to the PSU, although the noise is a lot quieter. So I don't think that the radio causing it.

When I start it all up the next morning the power supply is running fine again, no noise until I have been keying the radio in PSK31 mode for several hours when the very load concerning buzz/hum starts again.

The power supply has a top case fan that draws the heat out of the case and the power supply case doesn't feel hot to the touch. When the load noise occurs

Does anyone have any thoughts what could be causing this?

Thanks for any advise or help in advance.

How long of a cable run will you need?
What operating performance are you trying to achieve? (local communications or a station 160 kilometers away?)
How much power will you be using?
What is the highest frequency you will be using?

Use RG8 (0.405") type cable for antenna leads. Use RG8X type for jumpers.

The BEST RG8 period is Davis BuryFlex.

Without any details as to the type of operation, I agree with the Davis BuryFlex. I have several runs of it up a tower. I use it for the triband bean, 6 meters, 2 meters and 432 SSB work. While not as good as hard line, if you want to stay with a coax about 1/2 inch that is what I would use. I use the BuryFlex for all bands for the outside antennas where I use an rg-8 size coax.. It is somewhat stiff inside the house and I use another more flexable coax. I would use 8x for the low bands for jumpers but it will not handle the power I run.

If I was not going over 20 feet, then the rg-8x type is a good coax to use.

Date: 2010-02-26 09:45:53 UTC
From: Barett <barett@blueyonder.co.uk>
Message-ID: <lLMhn.174763$DL1.168776@newsfe25.ams2>
Source record: 1301

Has anyone tried one of these power supplies a and
are they any good?

How loud is the fan and is it a thermally controlled fan?

I have been looking for some reviews but I haven't found any.

Thanks

84. SB110A/ HP23 for sale

Not auction...

Clean for its age. looks non-smoking.

Pictures: (click on image for big image...)

http://dyb.com/radios/radios/1.html

http://dyb.com/radios/radios/2.html

http://dyb.com/radios/radios/3.html

details:

HEATHKIT SB-110A S/N:28839

HEATHKIT HP-23

Radio checks out at 96 watts out in tune, 102watts peak SSB

Aligned calibrator

Adjusted bias, ALC, S-Meter

LSB carried osc is flaky, and does not work most of the time, LSB is almost never used on 6 meters. Tapping on the crystal seems to bring it back.

Receiver hears .1uV.

PTT is odd, unless rig is in VOX mode. Might be V5B 6AZ8, Relay amplifier.

Surplus Sales of Nebraska has more 11 pin sockets/recepticals for the power connector.

All controls and switches need cleaning.

Included is CDROM with manual copy of rig and most of the available power supplies.

HP-23 needs (and is) to be set to the lower voltage. (rotary switch on side of supply)

Power supply was brought up slowly with variac. (unit sat for a few years. Ran it four hours after bringing it back up)

$325 plus shipping from 78701

Paypal. Money order, cash if picked up.

Domestic/USA sales only.

86. Crossposting Permitted to rec.radio.amateur.moderated

Newsgroup: rec.radio.amateur.equipment
Date: 2010-03-01 07:00:02 UTC
From: rram@panix.com
Message-ID: <radio/ham-radio/moderated/crossposting-1-1267426800@panix.com>
Source record: 1304
Cross-posted to: rec.radio.amateur.antenna,rec.radio.amateur.dx,rec.radio.amateur.equipment,rec.radio.amateur.homebrew,rec.radio.amateur.misc,rec.radio.amateur.policy,rec.radio.amateur.space,rec.radio.info

```
Posted-By: auto-faq 3.3.2 beta (PGPMoose V2.0, Perl 5.005)
Archive-name: radio/ham-radio/moderated/crossposting
Revision: 1.1 2009/04/12 19:42:04
Posting-Frequency: posted monthly
URL: http://www.panix.com/~rram/usenet/rram/index.html

Changes followed by "|".

After a 30-day public discussion and feedback period to gauge reader
opinions in March of 2009:

http://groups.google.com/group/rec.radio.amateur.moderated/browse_thread/thread/d7d337db35
f23326

the rec.radio.amateur.moderated Moderation Team has decided to consider
amending its charter, and permit limited simultaneous crossposting to
rec.radio.amateur.moderated and one other unmoderated
amateur-radio-related discussion newsgroup. We are currently trying
this on a temporary basis (90 days, through early July 2009), and adopt
it permanently if successful.

Approved rec.radio.amateur.* newsgroups are those that are currently
listed in the latest version of the "List of Big Eight Newsgroups" which
is crossposted monthly to news.announce.newgroups, news.groups, and
news.lists.misc.

Approved alt.radio.amateur.* and alt.ham-radio.* newsgroups are those
that have been created consistent with the suggestions in "So You Want
to Create an Alt Newsgroup" at:

http://www.faqs.org/faqs/alt-creation-guide/

Approved regional hierarchy newsgroups are those that contain either
"radio.amateur" or "ham-radio" in their names, including
uk.radio.amateur and aus.radio.amateur.misc.

We will make every reasonable effort to keep our list of approved
newsgroups up-to-date. In case we have overlooked any, and a submission
is rejected in error as a result, the rejected submitter can E-mail us
at our administrative contact address (in the signature at the bottom of
this article, and the default Reply-To for the rejection message)
requesting that it be added, and that the article be approved. We may
still choose to reject articles crossposted to any alt.* newsgroup with
an inappropriate name, including obscene language, embedded
name-calling, or encouragement of unlawful conduct.

> Still on dial up here.....my link times out before I can
> download a manual.

Steve-

I downloaded the manual to have in my collection. It is in 11 parts in ".rar" compressed format, of about 2 megabytes each. If you are persistent, you should be able to download it one part at a time. You would then collect the parts in one folder and decompress part one. The decompression program should automatically incorporate all into one 20 Megabyte .PDF file. (I used StuffIt Expander on a Macintosh.)

To answer your original question, the microphone is 600 Ohms impedance. I think many CB dynamic replacement microphones would work if wired correctly. Pin 1 is ground (Shield), 2 is Microphone hot, 3 is Push-to-talk and pin 4 is not used.

Changes followed by "|".

The rec.radio.info newsgroup, first established in 1993, has been
recently revived by an active moderation team. We are currently seeking
suitable information, FAQ, and bulletin articles from the entire
rec.radio.* newsgroup hierarchy for simultaneous cross-posting to our
newsgroup.

We are seeking a replacement maintainer for the following information
bulletin formerly posted to rec.radio.amateur.* (and currently archived
at http://www.faqs.org/faqs/radio/personal-intro/ ):

radio/personal-intro
Subject: Guide to the rec.radio Newsgroups
Maintainer: jeffreyh@Hawaii.Edu (Jeffrey Herman)
Last Posted: 9 Nov 2001 06:18:17 GMT
Posting-Frequency: 15th of each month

One significant omission, requiring immediate updates, for this article |
is that it does not mention newer amateur radio newsgroups created since |
it was written, including: |

rec.radio.amateur.antenna |
rec.radio.amateur.boatanchors |
rec.radio.amateur.dx |
rec.radio.amateur.equipment |
rec.radio.amateur.homebrew |
rec.radio.amateur.moderated |
rec.radio.amateur.space |

We are willing to provide any technical support necessary to get this
article updated and automatically posted again at a regular interval.
This would include establishing contact with the original maintainer for
any necessary permissions. We would prefer to seek a new, dedicated
maintainer at this time, rather than start auto-posting the original
article ourselves.

For more information about our newsgroup, see:

newoodnh@ne.rr.com

1. Elecraft KX1 "Ultra portable" CW Transceiver with added KXAT1 tuner, KXB30 30 meter capability, KXPD1 paddle. In almost new shape. Little used. Price: $250.

2. Kenwood TS 570DG Transceiver with 500 Hz CW filter. Excellent condition. Price: $450

3. Yaesu YO-100 Scope. Only used for "flat top" monitoring. Never tried other capabilities. Clean, nice appearance. Price; $90.

4. Ten Tec 40th Anniversary Edition Iambic Paddle. New. Installed cable and adjusted for my fist but never used after that. I have other paddles and do not need this one. Price: $125.

5. Yaesu VX1R 2mtr mini HT in original box with charger, lithium battery and separate AA battery adapter. Good condition...little used. Price: $65.

6. Full wave bridge Hi voltage (approx 1650 volts at 600ma) power supply with 53 mfd oil filled capacitor. Neat and heavy construction with teflon wiring, stainless hardware, K2AW's "Silicon Alley" rectifiers. You pick up or will drive reasonable distance. Selling at very low price so that it goes to someone who can use it right away or for parts. Price: $60.

Hello,
I am looking for a preamplified handy microphone for my icom ic-738.
I have a sm-20 desktop microphone and a hm-36 handy electret microphone.
With sm-20, I have nice and loud SSB modulation but I want a handheld
microphone with preamplifier built in. HM-36 has very low modulation.
I am thinking to put a preamplifier insde HM-36 or buy another with
build in preamplifier.

Opinions regarding Yaesu FT-817ND transceiver?

Seems like a great little rig, blasts out a whooping 2 watts
of RF power on batteries, do not know if I can handle
that much power, if I decide to apply for another license.

I was W6TAM 55 years ago. (extra-class license)

I have not really shopped around for a rig yet, so do not
know how the Yaesu FT-817ND rig compares to
its competitors in the $700 price range.

Any advice gratefully appreciated -

Mark Conrad

Hello Mark.

They are great fun. I believe there isn't anything directly equivalent (i.e.
HF / VHF / UHF portable) from the other manufacturers.
Best wishes,

Roger.

I use mine mainly for working satellites. I've been on the birds for nearly a year and a half and have used it to make about 1500 contacts with at least 80 different stations. I've worked over 25 American states as well as 5 Canadian provinces and one of its territories. My furthest contact with it was the K4T DXpedition a few days ago, which is about 4100 km from my QTH.

I made my first contacts with just the stock rubber duck antenna but I've been using an Arrow dual-band Yagi for more than a year.

I'd say that my FT-817ND was worth the investment.

I don't have one, though I have the 817's bigger brothers the 857D and
897D.

Two of my friends *do* have 817s, and _LOVE_ them.

The original 817 had a problem with batteries. The off switch did not
actually turn off the power and the finals being able to function
from 1.8mHz to 450 mHz went into oscilation and burned out.

Has this been fixed? The popular fix at the time was to remove the batteries
when the rig was not in use.

The biggest problem with the Yaseu is the tiny screen. The ICOM 703 has a
much larger screen. The 703 only goes up to 6m though.

The 706 does have the same frequency coverage as the Yaseu. You can adjust the
output power down to 5 watts, so it may be a viable option. It also has
a more features than the Yaesu.

If you are using it in a location where size and weight don't matter that
much and nor does the increased battery drain, it may be worth the
money for it so that you have 100 watt HF output if you need it.

The ICOM rigs include a removable front panel, so you can mount them
elsewhere and just have the control head at your operating position.

Looking at Universal radio the current price for a new rig is
$600 for the 817ND, $730 for the 703+ and $945 for the 706IIG.
So you have a big range of price, power and features to choose from.

The Yaesu is the grandson of the FT-290 and simlar rigs, which were
portable VHF/UHF multimode rigs, while the ICOM grew out of shrunken
HF rigs, the Kenwood TS-50 being the first. Surprisingly, Kenwood no
longer has anything to offer in that line.

Geoff.

Wow, thanks everyone for the great reports on
the lttle Yaesu transceiver!

I am contemplating it mainly for its ears.

I wanted to order the optional Collins 300 cycle filter
for CW work, but had hazy memories from 55 years ago
that such filters tended to cause unwanted "ringing"
of the output audio, kinda like a steady loud output "hiss".

When I left Ham Radio in 1955, the QRPp experts were
playing with "active filters" for low power QRP work.

If I remember correctly, such filters would block _all_ the
signal, noise and everything, then open up a 30 cycle "window"
for a brief while when the "start" of a dot or dash
was liable to occur.

The entire mess, transmitter and distant receiver was sync'd with
the WWV time signal, to open and close the receiver's active filters
during automatic CW transmission.

The incoming dot or dash audio would be re-generated artificially
by a separate audio circuit in the receiver.

QRP advocates claimed they could get on a crowded voice band,
and pump a low power CW signal through at a slow speed
of a few words-per-minute.

Switching Gears -
****

Does anyone know if the FCC still requires at least 50 RF watts
to legally drive a linear amplifier?

There was talk that they might change that requirement so that
low power rigs like the Yaesu could drive an amplifier.

Of course, nothing to stop a ham from building his own
intermediate amplifier, but cleaning up all the harmonics is
a major concern.

Mark

Sharp frequency-domain filter cutoff, comes along with blurry
time-domain cutoff... you can't entirely avoid that.

Narrow-bandwidth filters aren't all equal, though, even for the same
-3 dB bandwidth. Different filter alignments cause different amounts
of frequency-domain (pass-band and stop-band) ripple, and different
amounts of ringing and phase shift. Some types seem to be easier on
the ear (and the whole ear/brain system) than others.

Another, more modern approach is to use digital filtering techniques
(either with a DSP chip, or with a personal computer acting as a DSP).
By using finite-impulse-response digital filters, you can get a wider
range of time- and phase-relative behaviors than you can with an IIR
analog filter.

This sounds like the "synchronous CW" approach. As you indicate, it requires extremely careful time-base matching at the sending and receiving ends.

I do recall reading of some work being done with computer-assisted CW some years ago. It seems to have lost out in popularity to other digital modulation modes such as PSK31, which have many of the same benefits for narrow bandwidth but which don't require tightly-synchronized clocks.

At the other end of the speed range, are some very-high-speed CW and digital modes used for things like meteor scatter communications.

>Switching Gears -
>*********
>
>Does anyone know if the FCC still requires at least 50 RF watts
>to legally drive a linear amplifier?

The current standards (Part 97, sections 315 and 317) say:

- Commercially-built amplifiers capable of operating below 144 MHz must be certificated in order to be sold or modified.

- To be certificated, an external amplifier may not amplify the RF input signal by more than 15 dB.

- To be certificated, an external amplifier must not amplify signals between 26 MHz and 28 MHz at all (0 dB gain maximum).

- The above restrictions do not apply to external power amplifiers which are made by, or modified by, a licensed amateur radio operator for use at an amateur radio station.

So, yeah, if you want to buy a amplifier which can deliver "legal limit" power of 1500 watts of HF, you need to plan on driving it with at least 50 watts or so. If you want a hotter rig, you'll either have to construct it yourself, modify a commercial amplifier, add an external intermediate amplifier stage, or cheat.

>There was talk that they might change that requirement so that
>low power rigs like the Yaesu could drive an amplifier.

Well, low-power rigs *can* drive an external amplifier... just not all the way up to legal-limit in one step. A 5-watt Yaesu could drive a 15 dB linear amp up to around 150 watts of RF output - this is more output than most "barefoot" single-box HF rigs are capable of, and is less likely to accidentally ignite the neighbor's cat than a legal-limit setup.

There is an amp made specifically for the FT-817. The Tokyo Hy-Power HL45B. I use one with my barefoot K3.

Yeah, they are cute little buggers. Here, we are all way beyond
cell-phone range, so a few hams sprinkled around here can do a
lot of good in an emergency.

I will check out the 857D and 897D, just to make sure I have
covered all the bases; thanks for mentioning those models.

Thanks for the comprehensive rundown, I will check them all.

Regular telephone service in these mountains of northern CA
is unreliable, quite a few older folks here are in a real pickle
when the phones go out.

That is one of the reasons I decided to reactivate my ham ticket.

Main reason of course is just out-and-out fun :)

That sounds great, were no satellites when I was active.

Another thing I want to do is to get a quarter-wave antenna
up for the 160 meter band, to shove a ground wave.

I think that would be a vertical about 132 feet high, I had
better check the local FAA/FCC regulations in these mountains,
to see if that is legal for the helicopters that sometimes
cruise this area.

Probably not legal, so better think in terms of a top-loaded
vertical about 60 feet high, voltage-fed at the ground end.

In the old days I shoved a ground-wave 400 miles, from a
10 foot whip antenna on the rear end of a sailboat, with 10 watts.

A decent antenna should do much better.

Ahh, that is great, 100 watts of RF will keep me happy.

In the old days I had a neighbor whose porch light went on/off
when I was active. I had to crawl under his house and bond the
joints of his water pipes to get rid of his blinking porch light.

Seems to me the upper power limit in those days was 1,000 watts,
but I probably remember it incorrectly.

Thanks for the latest regulations, my 2010 ARRL handbook
has not arrived in the mail yet, due any day now.

I'm not sure when, but it changed from 1500 Watts input to 1,000 Watts output.

1,000 Watts is a lot of power and may not be of much use, depending upon what you want to do with it. The difference between 100 watts and 1,000 is not very much when the band is open and not crowded, in a contest it may be the difference between making contacts and getting lost in the pileup.

You mentioned you were in the hills of California, if you want something that is (almost) 100% reliable for an emergency a satellite phone might be better.

In another thread in an another group, I mentioned the ELT (emergency locator transmitters) that at one time were sold only for airplanes being available for hikers, etc. The original poster said they are now down to around $100 each, which makes them a viable option for your car if you think you may end up in a ditch with no cell phone coverage and out of the range of any radios.

Welcome back, btw, you can ask for your old call if it has not be taken by someone else.

73,

Geoff.

Ahh, so _that_ is what it is now, 1000 watts RF _output_ ,
okay.

> You mentioned you were in the hills of California, if you want
> something that is (almost) 100% reliable for an emergency
> a satellite phone might be better.

I used to have one about ten years ago, when a bunch of us
motorcycle riders commonly cruised the scenic mountains
here in northern California, again well beyond cell-phone
range. If one of us bikers got in trouble, it was my job
to call in a chopper.

Beware, OT Rant Coming Up
****

My 'cycle license is still valid, but now I have enough
sense to avoid motorcycles. <g>

For 7 years, I worked as a motorcycle messinger in the
Los Angeles area, never had an accident, except for
one time.

An older gentleman edged onto the freeway from an
on-ramp, going about 20 mph, cutting across all lanes
into the fast lane, where I was going the "legal L.A. speed
limit" of about 85 mph, along with all the other idiots.

I _almost_ managed to keep the bike upright, but
not quite - - - dumped the bike at the last minute with
my leg trapped underneath the heavy bike while it was
sliding to a stop.

Last I saw of the old gentleman, he was still chugging away
in the fast lane at 20 mph. <g>

I was lucky, a trucker behind me swung his rig broadside
to block the fast lane, until the ambulance arrived to scrape
me off the freeway.

Like with a horse, you have to get right back on again. I was
back on the job in a few months, but very careful to avoid
older car drivers.

What really bothers me is that the youngsters today do not
properly train themselves to ride a motorcycle. I traded in
a new heavy Honda "Valkyrie" model, for an even heavier
Honda "Gold Wing" model, the murdercycle that has
a reverse gear, because it is too heavy to back up by
using your feet, if you are on a slight downgrade.

A youngster bought my "Valkyrie" from the dealer I
sold it to.

Youngster promptly killed himself a few weeks later,
when he lost control of the Valkyrie on a turn.

I really think the laws should be changed, to force the
youngsters to take the $50 3-day course from the MSF.
(Motorcycle Safety Foundation)

MSF will not authorize a motorcycle license unless the
youngster demonstrates competence by passing some
rather stiff riding tests.

End of OT Rant -
****

> Welcome back, btw...

Thanks very much, I should have returned to ham radio
long before now, as it is a great endeavor, in my opinion.

My daddy introduced it to me when I was about ten years old,
it lead to a 34 year career in electronics, working in the
research labs of what then was called Hughes Aircraft,
later to be called Hughes Aerospace.

Many interesting projects during my career, such as
working on the old robot series of spacecraft named
"Surveyor", paving the way for manned spaceflight
to the moon.

Back to beating the bushes, the enjoyable task of deciding
which shiny new rig to purchase :)

You'll notice the K3 is the #1 transceiver in every class (depending on configuration). While it costs twice what the Yaesu does, it can grow with you. It is made in USA and is the best radio ever made.

The current limit on most bands is 1500 watts, Peak Envelope Power
(which is an output-power measurement). It has been quite a while
since the limit was specified in terms of input power to the final
amplifier.

>1,000 Watts is a lot of power and may not be of much use, depending upon

WOW !!! - Thanks, that is one serious rig from elecraft.com

Downloaded their pdf file and drooled over the features and spec's.

Egad, everything seemed so simple, now I have to decide what I
really want in a rig.

You know what this means, I will need to park my carcass in the
parking lot of the nearest Walmart, hold up my cardboard sign
begging for money for Ham Radio gear.

I do free volunteer work for the local hospitals here in N. California,
trying to beat them into submission to adopt faster/better ways of
processing their mountains of paperwork.

Presently, most of them still use chisels and clay tablets
to document their medical procedures.

Only about 10% of USA hospitals take advantage of faster
speech recognition processing of data. (SR for brevity)

As a half-vast user of SR myself, I am used to stomping out
medical data on my Macs and PCs by voice, commonly dictating
complex 600 word medical reports with zero text errors
in four minutes time, wrestling phrases such as:

"perioperative transesophageal echocardiography"

Have to admit though, sometimes my tongue gets wrapped around
my eye-teeth so I can't see what I am saying.

Back on topic -
****

Seems the Elecraft K3/100 HF Transceiver would be ideal for
expediting emergency medical data in case of a national
catastrophe - - - one problem might be that FCC reg's do not
allow encryption of sensitive medical data, if I recall correctly.

I expect in a national emergency that FCC edict would
be quickly waived, allowing common sense to prevail.

Mark

Everything works fine, till suddenly my FM audio becomes weak. Even call signal (1750 Hz) can't go trough... I switch it off, than back on, and it works fine for some 5-10 minutes.

Any clue?

Boris

Practically any modern SR software.

It is kinda like ham radio, not so much what you have,
but more important is how you use it.

In this case, I used "MacSpeech Dictate 1.5.8" on a 3-year old
MacBook Pro.

Mac has to be one of the newer Intel-based Macs, software
will not run on older Macs.

One can get the same results using "Dragon NaturallySpeaking"
- - - the "Pro" version 10.1 - - - which I also run on my
old Mac hardware, using the Vista OS from Microsoft.

About the only modern speech software that is difficult to
achieve such accuracy and speed is "Windows Speech Recognition",
(WSR) - which comes free with both Vista and Windows-7 OS.

SR is a very inexact science at the present time, best estimates are
that it will take another 20 years before it is anywhere near as good
as a human, when it comes to converting speech to text.

http://www.kurzweilai.net/articles/art0267.html?printable=1

Scroll to near the end of the above website, to this sub-section:

"Building HAL 's Language Knowledge Base"

Read all the way to the end, that will give you a good idea
what our children will be doing with SR 20 years from now.

BTW, Nuance (Dragon) recently bought MacSpeech, so they are
all one company now.

A typical newbie SR user will be lucky to get 70% accuracy.

As he gains experience, that will edge up to about 98%.

In restricted speech like medical, where the same phrases like
"perioperative transesophageal echocardiography" are used
over and over again, the raw accuracy will edge up to 99%.

...or in my case 100%, in 3 out of 4 tries on that 600 word
example - - - the bad "4th" try is invariably my fault,
for mis-pronouncing one of the 600 words.

Too much time way OT, but I gave you a decent answer
to your question.

My post immediately following this will show the entire text
of my medical dictation, with 100% raw accuracy, no correction
required, total dictation time 240 seconds.

As promised, here is the entire medical text of approx' 600 words
---

New Surgical Procedure for Ischemic/Functional Mitral Regurgitation: Mitral Complex Remodeling

Hirokuni Arai, MD, PhD*, Fusahiko Itoh, MD, Takeshi Someya, MD, Keiji Oi, MD, PhD, Kiyoshi Tamura, MD, PhD, Hiroyuki Tanaka, MD, PhD

Department of Cardiothoracic Surgery, Tokyo Medical and Dental University Graduate School of Medicine, Tokyo, Japan

* Address correspondence to Dr Arai, Department of Cardiothoracic Surgery, Tokyo Medical and Dental University Graduate School of Medicine, 1-5-45 Yushima, Bunkyo-ku, Tokyo, 113-8519, Japan Email: hiro.tsrg@tmd.ac.jp

On-pump beating heart mitral complex remodeling was performed without aortic clamping. The mitral valve was exposed through a left atriotomy posterior to the interatrial groove. Interrupted 2-0 braided horizontal mattress sutures without pledgets were placed around the annulus to optimize exposure of the subvalvular apparatus. Secondary chords to the anterior leaflet from both papillary muscles were carefully separated from primary chords with a nerve hook and were divided.

Two pairs of 5-0 and 4-0 Gore-Tex sutures (W. L. Gore & Associates, Flagstaff, AZ) were each placed to both fibrous portions of the anterior and posterior papillary muscle tips, buttressed with pledgets of autologous pericardium. Two pairs of the free arms of the 5-0 Gore-Tex sutures were twice passed through the free edge of the middle portion of the anterior leaflet about 5 mm from the margin, from ventricular to atrial side. Suture length was adjusted to be the same length as the corresponding marginal chords, and the sutures

were tied.

Each pair of the free arms of the 4-0 Gore-Tex sutures was passed through the posterior annulus at sites around the border of the lateral and middle portions and middle and medial portions of the annulus, respectively (annulopapillary suture), and was also passed through corresponding sites in the annuloplasty ring (Carpentier-Edwards Physio; Edwards Lifesciences, Irvine, CA). The 26-mm semi-rigid annuloplasty ring was then seated. The annulopapillary sutures were pulled to retract the papillary muscle tips closer to the annulus, to the point at which leaflet coaptation occurred in the plane of the mitral annulus during systole, to visually confirm no residual MR. Suture lengths were determined, and the sutures were tied.

To avoid air embolism, a vent cannula with a pressure-monitoring catheter (TOYOBO Co Ltd, Osaka, Japan) was inserted into the left ventricular apex and was connected to the suction circuit equipped with a small reservoir chamber (Senko Medical Instrument Mfg Ltd, Saitama, Japan). During the final adjustment of the annulopapillary suture length, this chamber was filled with blood, and the height of the fluid level of this chamber was adjusted to load the left ventricle. The left ventricular systolic pressure was monitored to keep it slightly lower than the systemic perfusion pressure to avoid ejection through the aortic valve.

This new technique has been performed on 3 patients with ischemic/functional MR. The patients were aged 61, 64, and 69 years; their ejection fractions were 0.34, 0.25, 0.32; their left ventricular diastolic diameters were 62, 74, and 79 mm; and tenting heights were 11, 12, and 14 mm, respectively. Preoperatively, all patients showed severe MR; perioperative transesophageal echocardiography showed disappearance of MR. Mitral valvular function has remained stable during a mean short-term follow-up of 6 months (range, 1 to 12 months), with no or trivial MR noted.

123. Mobile Dual Amateur/CB Radios, do they exist?

Newsgroup: rec.radio.amateur.equipment
Date: 2010-03-20 08:27:46 UTC
From: Stuart Longland VK4MSL <me@vk4msl.yi.org>
Message-ID: <924c72d3-12a3-40f4-9fa8-dd46fbee1011@a37g2000prd.googlegroups.com>
Source record: 1341

Hi all,

My father is busy equipping his vehicle for a few extended road trips around Australia. Coverage of mobile phone services is spotty when you get away from the major centres, and so I advised that having some sort of backup communications would be a wise idea.

I myself am a licensed radio amateur, and if I go on the trips, I bring my radios... so that satisfies that. However, I've recently joined the workforce, thus in all probability won't be going on future trips. He's expressed an interest in getting an amateur license, but even if he doesn't ... having capability of using amateur bands in an emergency is useful.

I was therefore wondering what radios are available on the market that can do both amateur frequencies, and CB. Ideally looking for both HF CB (~27MHz SSB/AM) and UHF CB (476..478MHz FM), but even HF only is still useful. What we wish to avoid is having a plethora of antennae, control heads and microphones for individual band-specific radios.

I've set up a pair of Wouxun KG-UVD1Ps to do this -- they have all 40 UHF CB simplex channels as memory channels, followed by UHF CB repeaters 1-8 as channels 41 to 48... then 49: 146.500MHz FM, 50: 439.000MHz FM... and most Australian repeaters follow on in order of frequency.

However, being handhelds, makes them awkward for mobile use -- a mobile rig would be better, one which combined HF as well would be ideal.

Queries:
(1) Does anyone know of rigs that can do this out-of-the-box (like the Wouxun handhelds)?
(2) I've heard of the "freeband" mod that's available for some radios such as the Yaesu FT-897... what other radios can this be done on, and what are the pros/cons of doing this?

Regards,
Stuart Longland VK4MSL

I haven't got a '817... I instead opted for its 100W cousin, the '897D. The catch with all of these more modern "all-band" radios though, is the high level of integration. While it does shrink the size, it does mean the radio is more complex -- and thus repairs will be more expensive and difficult.

In my case, I'm waiting to hear from the insurance company about whether they'll cover the replacement of my set following lightning damage that took out a few diodes in the power section, fried the microphone preamp and finally nuked a DDS chip responsible for generating the carrier sidetone. The end result is a radio that at first, would not run off external power (this has been fixed), won't demodulate SSB (sounds like an AM receiver with the volume turned down), won't transmit AM/SSB/CW, and won't modulate a FM carrier. Due to the usage of multi-layer PCBs, it's impossible to fix tracks that may be damaged within the layers of the PCB... and the DDS chip in question is no longer manufactured or supported. In short, a write-off.

The lightning struck a tree in the neighbour's back yard, the resulting earth potential rise caused the above damage, as well as cooking some network equipment in our house, another neighbour's computer, and several electrical goods within the property where the strike occurred. So the old wisdom of unplugging everything is especially true for the modern rigs -- not just the antenna, but station earth and power as well!

Apart from this, they are great radios. Mine was brilliant, and I hope to get it replaced at some stage. Interestingly, on 2m SSB, I find my FT-290R II (with 25W linear) outperforms it on occasions, but given the capabilities of the '897, it's worth the money. I dare say the '817 is in much the same league, and are very popular amongst microwave enthusiasts as they are all-mode and low-enough power to not fry the backside out of transverters.

Regards,
Stuart Longland VK4MSL

Yaesu FT-857, Yaesu FT-897, Kenwood TS-2000 are working fine on 27 MHz.
Others I didn't try.

Boris

In this world.. Anything is possible.. But I'm inclined to agree with
you.. I'd like to say "I agree" but, frankly, I have met many folks that
dumb

I can give you some links to places where you can read about people that
dumb

http://www.darwinawards.com

http://www.thisistrue.com

True (This is true) story.. Man decides to rob a car wash

Employee leads him into the tunnel where the cash box is, Opens the cash
box and while the robber is distracted grabs one of the handy dandy guns
in the wash bay (A water gun of course) and sprays the jerk down..
Well.. It's January, and the state is Washington.. The would be robber
then fled the place,,,empty handed of course,, Made a "Clean Get-Away"
for about 20 yards or so.. Now remember his clothing was soaked with hot
(When it hit him) soapy water,, which quickly became cold, soapy ICE

I mean.. there are folks that dump.. Oh.. He made national news wires too.

And I know some even better over at Darwin Awards

The Darwin awards are awarded to those who best improve the human gene
pool by removal of themselves therefrom... In the most amazing manners.

Thanks for your comprehensive post on "all band" radios.

Sorry about the lightning frying your expensive rig; here I have
the same problems with lightning, came to the same conclusion
as you did, namely completely unplug _ALL_ leads to my rig.

I have not yet decided which way to jump as regards buying
a rig after my long 55 year absence from ham radio:

1) Completely portable (ordinary alkaline battery powered)
very low powered rig such as the Yaesu FT-817ND

2) Larger 100 watt mobile rig such as the Elecraft K3
or the Yaesu 897D

The Yaesu 897D certainly has impressive spec's

Presently I do not have enough smarts to make an intelligent
choice between the Yaesu 897D as compared to the more
expensive Elecraft K3, when it comes to the fine points
of both those rigs.

With the Elecraft, I lose the mobile capability, however
Elecraft advocates are very impressed with that fine rig.

Decisions, decisions... <g>

The Elecraft K3 seems to have one of the best RF front ends currently
available on an amateur radio. It does extremely well at pulling in a
weak signal, when there are very strong signals on nearby frequencies.
If you're into contesting, DX, or Field Day competition, this looks
like radio to have.

For what's worth - the FD-857D is almost the same as the FT-897D in
most respects - just in a smaller package. These two radios give you
2-meter and 440 capability, in addition to HF and 6 meters.

The 897 will accommodate two battery packs and (or is it _or_?) a built-in
power supply. They're on my purchase list -- after we get the tax refund or
when I win the lottery.

> The Yaesu 897D certainly has impressive spec's

Enough so that I have, and use, two of them. In their price class, they are
very impressive radios. I just swapped my Yaesu FT-450AT for one yesterday,
and that rig got K7SDW on 20 m with 10W output CW yesterday afternoon,
first crack off the bat.

> Presently I do not have enough smarts to make an intelligent

I suspect that the K3 is, overall, the better radio, though it doesn't do
70 cm. At least it doesn't do 70 cm _yet_; I suspect a 70cm transverter
board is in the works, though I have no hard info on that. I'll get one
when I win the lottery.

> With the Elecraft, I lose the mobile capability, however
> Elecraft advocates are very impressed with that fine rig.

I've certainly read rave reviews on the K3. Acquisition is dependent on
coming into a sizeable bolus of cash, though. I'd also like to have a
Flex 5000 to play with, and an Icom 7[678]00, and a KW TS-2000, and a
Yaesu FT-2000, and some W-J or Cubic receivers, and ... .

> Decisions, decisions... <g>

Yeah, but not the kind that hurt.

> ideal.

You need to contact the local licensing authorities and see what is legal.
For example, in the US, what you ask would simply not be illegal, either for
27mHz CB or 464mHz (family radio, what you call UHF CB).

In other parts of the world things are more relaxed, many people use ham
rigs on CB with no problems.

> Queries:
> (1) Does anyone know of rigs that can do this out-of-the-box (like the
> Wouxun handhelds)?

There are lots of them that will do the VHF up to 440 mHz (the top if the
70cm band in the US). I have no idea if they will go any higher, but isn't
the UHF CB band 446mHz there? It is here. (I think you said something, but I
trimmed that part of the post before I got here).

> (2) I've heard of the "freeband" mod that's available for some radios
> such as the Yaesu FT-897... what other radios can this be done on, and
> what are the pros/cons of doing this?

Technicaly nothing at all. The radios are designed to transmit that range
and can do it. Some frequencies may be a problem due to the design of the
radio, but I don't think the ones you are worried about will be.

Note that ham radios do not transmit AM, they transmit double sideband reduce
carrier, i.e. both on USB and LSB at the same time when in AM mode. This usually
works ok on AM receivers, but it may not work on some cheap CB's. It pays to
ask anyone who is doing it if they have a problem.

Legally may be another issue. Having a transmitter that transmits outside
of the ham bands is illegal in some parts of the world, I have no idea of
what happens in OZ.

Also is it legal for your father to be driving around with a ham radio in
the car, and possible using it (although not on ham frequencies)?

I HAVE LOTS OF GEAR TO SELL.

1-MOTOROLA PR400 32CH UHF IN THE HAM BAND 3 AVAILABLE $175EA PROGRAMMING AVAILABLE.

2-MOTOROLA HT 600 6 CH UHF EXTRA BATTERY, WITH CHARGER, ANTENNA WILL PROGRAM YOUR FREQS, $100 SHIPPED

3-POOR MANS REPEATER. MADE FROM 2 MOTOROLA MOBILES. EXCELLENT RX SENSE. 25 WATT... WITH 6 CAVITY NOTCH DUPLEXER UHF. CAN ALSO DO GMRS. COMES WITH ASTRON POWER SUPPLY AND CABLE INTERFACE. JUST ADD AN ANTENNA AND YOU ARE ON THE AIR. I CAN PROGRAM THE REPEATER, THE DUPLEXER WILL NEED TO BE RETUNED TO YOUR FREQ. CURRENTLY ON 441.625/446.625 136.5 PL $400

4-16 CH VHF GM300 MOTOROLA MOBILE 45 WATT 16 PIN REAR CONNECTOR $150 PROGRAMMING AVAILABLE.

5-32CH UHF MOTOROLA MAXTRAC, RADIUS AND GM300'S TOTAL OF 6 AVAILABLE $175 EA. PROGRAMMING AVAILABLE.

6-PARA DYNAMICS PDC-5 SWR POWER MATCHER METER. $20

7-KENWOOD TK805D FACE PROGRAMMABLE 16 CH UHF MOBILE. WITH MIKE AND POWER CORD. $100

8-MOTOROLA RADIUS MILES (BLACK) WILL WORK WITH ALL MAXTRAC/RADIUS/GM300 ETC... 3 AVAILABLE. $25 EA.

9-ICOM 208H DUAL BAND MOBILE USED AS A SPARE RADIO. MIKE , POWER CORD, SEP KIT, BRACKET. ETC AND MANUAL. $250 SHIPPED. RADIO HAS BEEN MODDED (MARS/CAP) PROF. DONE BY A LOCAL TECH.

10-MAXON 16 CH UHF SP-340 HT. MINT COND. RADIO, BATTERY, AND ANTENNA. NO CHARGER. $75

11-GENERAL ELECTRIC 40 CH CB RADIO 3-5816 WITH MIKE AND POWERCORD. EXCELLENT WORKING COND. $50

INTERESTED?? PLEASE E-MAIL ME strook@optonline.net

Well... I look at it this way, the CBRS class license dictates certain
rules of engagement. Dedicated CB sets are of course programmed and
hard-wired to ensure most of these are met (there are some rules that
hardware can't stop from being broken; playing music or abusing people
on air for example). So long as a ham set is set up to operate the
same way... I don't see a problem.

Rules as I understand them in Australia:
- HF CB: 6W AM or 12W SSB PEP transmit power around 27MHz. There's a
strict channel spacing to observe -- some of these channels are
reserved for emergency use and other purposes.
- UHF CB: 5W FM between 476.5MHz and 477.5MHz. Again, strict channel
spacing (25kHz). Channels 1-8 channels are reserved for repeater
outputs, but may be used for simplex if no repeater is operating on
those channels. Channel 11 is the calling channel (basically, make
contact then QSY). Channels 31-38 are reserved for repeater inputs,
but may be used for simplex if no repeater is operating there.
Channel 5 and 35 are reserved for emergency use. Channels 22 and 23
are for data communications only -- no voice. Maximum continuous
transmit time: 3 minutes.

It was very easy to get the KG-UVD1Ps to comply with the UHF CB
requirements... Just set the step to 25kHz, work your way through all
40 channels, then for the repeaters -- set it to a +750kHz offset.
The units only do 4W on UHF, and the timeout timer is adjustable -- so
I set it for 150 seconds, which works nicely with the majority of
amateur repeaters too.

Sadly, the things don't have enough memory channels for VHF marine as
well, because the transmitter in them is capable of that too.

Yeah, my old Kenwood used to stop short at 470MHz... that's the
highest I've heard of. Likewise with my FT-897D (which is due for
replacement due to storm damage). So I strongly suspect we'll have to
settle for two radios... one dedicated for UHF CB, and the other to do
everything else.

> Note that ham radios do not transmit AM, they transmit double sideband reduce

That is interesting, I would have thought they'd be straight DSB-FC
(regular "AM"). The carrier is adjustable on the FT-897D (and most
likely the '8[15]7 too) so I could bump that up if needed... but this
is one factor I hadn't considered.

Yep, he's looking at getting an amateur license though at some
point... and if I'm there, we'll be using it as an amateur set. I
suspect if one were to draw attention to themselves, the authorities
will come knocking -- don't give them a reason to show up, and
everything should be okay.

He he... yeah... I've gone one step further -- using solar and
batteries to power my radios now. So that's one less bit of wire that
lightning can come in on. The experience has taught me the diligence
to unplug the rest.

> Presently I do not have enough smarts to make an intelligent

>
> Decisions, decisions...   <g>

Indeed. I haven't looked at any of the Elecraft radios, my decision
was between the Icom IC-706MkII G, the Yaesu FT-857D and Yaesu
FT-897D. I wound up going for the latter because above all, I wanted
a radio that I could take with me portable, or stick in the rear
basket/luggage rack on my bike for bicycle mobile operation.

I rejected the Icom in the end on two grounds:
(1) Having used one during last year's JOTA... I found it difficult to
access what I considered, very rudimentary controls. I found its
menus awkward to use. I dare say it'd be better if I had the time to
read the manual more carefully, but that was my experience.
(2) Its small size meant it could not efficiently dissipate heat.
This meant the radio was prone to overheating problems. (I suspect
the FT857 would suffer this too.)

The '897 had two nice features: I could embed two batteries inside
with a combined 9Ah capacity, and there were two auto-tuners on the
market that could bolt onto the side. So I'd be able to pick up one
unit, and have almost a complete radio station -- just add antenna and
microphone. For the antenna, a squid pole works nicely, can be set up
almost anywhere and is lightweight. A dipole is also pretty easy to
carry and set up. So for a portable rig, the '897 was ideal.

My only gripe is that Yaesu for some reason decided that it would use NiMH cells in its battery packs... Li-ion would have been lighter and higher density. Heaven forbid, gel-cell batteries would do better than NiMH! But that's the choice they went with, and we all have to live with it.

I think the real questions are:
(1) How often are you going to use it portable/mobile? (For me, I'd was using my '897D portable at least once a week... and when my handheld died -- I was using it mobile daily -- even on public transport.)
(2) What bands are you likely to use? The K3 offers up to 6m with a 2m option, the '897D offers up to 70cm as standard. (I use 2m a _lot_)

I agree that we have to try to anticipate our needs.

The all-in-one rigs offer *so* many great features that it is
downright befuddling trying to take advantage of all the features,
in one lifetime.

In the end, emotions and expectations affect a lot of us when it
comes to these purchases, rather than hard facts.

However, I *will* say that rig performance in a crowded band
can reveal a lot about the quality of one rig versus another.

That is why I have an emotional attachment to QRP rigs,
particularly CW QRP rigs, using exotic methods to fish out very
weak signals in a crowded environment. Fun, fun, fun.

I expect it is a lot more difficult to fish out a weak SSB signal. <g>

Wonder if any hams are experimenting with liquid nitrogen cooled
RF front ends to their rigs, to reduce thermal noise.

Getting back to reality for a moment, I have almost decided to base
my personal choice on whatever rig has the best receiver for weak
CW signals, in a crowded band.

If all rigs are essentially equal in this respect, then I get to
consider _other_ aspects of their performance.

If one rig stands out head and shoulders above others for CW work,
then I would be strongly tempted to favor that rig.

(assuming of course diversity antennas to minimize fading)

Playing with CW is just a personal choice, in my case.

With the high background noise floor already present on Earth, would he
few tenths of a dB or so of thermal noise reduction from cryocooling
make any perceptible or significant difference? Above HFis a different
story, I think, but the noise floor on HF -- at least around here -- is
really rottenly high.

Yeah, guess you are correct, not to even mention the RF
coming in from the cosmos, let alone man-made RF.

Okay, time to break out my next hare-brained idea,
short million-watt pulses, bounced off all the space junk
we have floating around.

Lemme see, one-watt input, pulse length a billionth of
a second, one thousand pulses per second.

Hmm, where is the FCCs phone number, now all we have to
decide on is what frequency to use. Very low infrared band not
being used for anything right now, I could mount an infrared
window in my roof, and let a Yaesu modulated laser handle the rest.

Now ya see what happens when an old ham is away from his ARRL
handbook for 55 years.

It's because lithium cells are a disaster waiting to happen. If you charge them improperly they will catch fire. If you discharge them to "empty" they are permanently dead.

They also die after around 300 charge cycles. ANY power put in is a charge cycle, so laptops made in the last couple of years will no longer "float" a lithium battery. They let it discharge to at least 95% left before recharging it.

The latest NiMH batteries will go through 1000 cycles. Compared to litium batteries they are bulletproof. They are also a lot cheaper.

The main reason they are so common is that people don't understand their problems and like them because they are so light in comparison to NiMH cells. The lightness disapears when you find out a 450mAH battery will be trash if you use it anywhere near that amount.

BTW, they are dangerous corosive trash, much worse than NiMH cells.

Companies like them because they can claim the device has a long battery life, low weight and in 6 months to a year be back buying a new battery. Since the battery is proprietary at best and permanently installed at worst it's a win win for them either way.

The bigest problem I have with NiMH batteries is that they no longer sell large size batteries to the general public. Yes you can get real C or D cells from battery specialists (which are rare here), but generally all you can get is AA batteries or C or D cells which are just sleeved AA cells (with the corresponding capacity).

I would not mind if I could get the sleeves, but no one carries them here. :-(

After all, in my 290RII which takes a lot of C cells, sleeved AA batteries with 2700mAh capacity would far out last the NiCad ones I had in it.

Maybe forehead above, but certainly not head and shoulders. One receiver test does not make a radio and many people prefer the Ten-Tec to the K3.

It's a matter of taste, ergonomics and what you want to do with the radio. If you like full QSK, the older Ten-Tec and Drake rigs with their almost noiseless receviers, exact PTO tuning, and "good sound" are more comfortable in a relatively empty band.

Being able to extract that one weak signal in a pile-up is a different matter, but many people don't care to. I would not want to spend an entire afternoon listening to a 250Hz filter, no matter what it was made of (crystal, mechaincal, digital, etc). Someone else might.

I must admit, I was overwhelmed by the technical
terms in that website.

Are there any books that explain the practical
significance of those terms as applied to rating
one rig higher than another rig for a particular
purpose or use?

I somehow doubt if the ARRL handbook will go into
enough detail about those terms.

I realize that all-in-one rigs are a compromise,
some manufacturers favor one use over another.

Imagine the extreme difficulty of building a rig from
scratch, trying to build one that has all the features of
a commercial rig.

What surprises me is that all the commercial names that
I recognize from 55 years ago are still in business. <g>

Good Grief, do they still sell the Ten-Tec, I used to own one
in the old days, a nice little full break-in rig.

> Being able to extract that one weak signal in a pile-up is a

What! - watch it, that would be heaven for me ;-)

Of course I would demand a few modern touches, such as
automatically generating morse code by first speaking
into a microphone and converting my voice to text,
(very easy to do, BTW, using modern
speech recognition software, like "MacSpeech"
for the Mac, or "Dragon NaturallySpeaking"
on a Windows computer)
- then feeding that text into a device that would change
the text into morse code and store it temporarily in
a computer buffer - - - to be dumped into the xmtr
at a touch of a button for morse-code transmission
to the distant station.

I fantasize about finding a device that will change
morse code into text, because modern computers
can easily change text to an artificial voice,
which nowadays sounds exactly like a real person.

Perhaps the very high speed "burst" guys (RTTY?)
know of such a device.

As regards listening to the high-pitched hiss of a
narrow CW filter, seems to me in the old days that I
kinda got around that by first using a somewhat wider
filter, like 500Hz, then shutting off my receivers
BFO entirely. (is shutting off the BFO still possible
on modern CW rigs?)

Then I would fire up a small independent BFO I kept
on the table next to my rig, to generate the necessary
audio signal for my ears.

The independent BFO was extremely weak by design,
so that any strong CW signal next to the weak one
was reduced to the same weak audio.

Ten-Tec is alive and well, still selling ham rigs. Their current top of the line the Orion II is as good as or better than the K3, depending upon whom you ask. I've never used either, so I am not one to ask. :-)

Their older rigs still work, Ten-Tec still fixes them when they can, and just recently stopped selling the manuals and now has them online for free download.

There may be some changes coming, the head of the ham radio division just left. He bought Vibroplex, is moving the company to where he lives and will run it. There were some joint Ten-Tec Vibroplex projects in the past if I remember correctly, maybe there will be more.

How long has it been since you've been on the air? It may not be as wonderful as your memories. If it is, good there are plenty of rigs with filters like that out there for you to buy. There are also DSP audio filters to add on as you please.

My AEA Morse Machine 3 did that, I expect there are programs around to do that. Come to think of it so did my PK-232. My guess is that there are a lot of people out there using such devices (keyboards to morse and morse to ascii) than you would think. It's easy to tell the spacing and timing is too perfect.

What is a BFO? Seriously, the high end rigs don't use them. They detect CW using the product detector (SSB) or some similar method.

If that's what you want there are still a lot of older rigs out there, lovingly maintained and updated.

There are yahoo lists for Yaseu (fox-tango) and other lists for ten-tec and drake. You should be able to find someone with the exact rig you want if that's what turns you on.

BTW, there is no law that limits the amount of radios you own, and since you are in the US, you don't have to register them when you buy them and notify the authorities that you sold them. You don't even need a license to buy them so you can scrounge around, buy an older rig (or a new one if you want) and start out by listening.

If you know about Ten-Tec, and coherent CW, then it hasn't been 55 years.

Ten-Tec started in '68 or '69.

Coherent CW didn't arrive till the early seventies.

I am guessing at 55 years, and as you state memory is a very
fickle thing, often wrong. I had two licenses, both extra class
over a period of years, after I let one of those licenses lapse.

I am not certain of the call sign, I think it was W6IXC, but the
other I am _certain_ was W6TAM because one of my friends
suggested that meant "Terrified Ancient Mariner" after my
sailboat exploits offshore the California coast in various small
sailboats ranging in size between an 8 foot "sabot" to a 27 foot
"Ericson" sailboat.

Hmm, I suspect I did not get across my exact meaning,
my fault, sorry about that.

I _meant_ a device that will change the _incoming_
morse code dots and dashes to an artificial voice.

In other words, change this code at 60 wpm:

_ _ . . . . . _ _ _ _ _ _ _

...into this artificial voice from an audio speaker:

"Best Wishes, Old Man"

...such that a ham newbie who did not even know the
morse code would be able to listen to a CW signal
rattling along at 60 wpm and have that signal
converted to speech that he could understand.

In theory it is possible, given a loud clean
CW signal.

I would hate to be the guy to design such a device,
it would not be a trivial project.

> What is a BFO? Seriously, the high end rigs don't use
> them. They detect CW using the product detector (SSB)
> or some similar method.

Well that shows how behind the times I am. Heck, I still
think in terms of vacuum tubes (Fleming valves?)

The below website considers the ancient BFO technology,
explains it in words even a senile old ham like me
can understand:

http://www.tpub.com/neets/book12/51.htm

Consider using a very weak RF Beat Frequency Oscillator
(BFO) to discriminate between four very close CW
signals, such as:

7,250,500 Hz (desired signal)
7,250,520 Hz (interfering signal #1)
7,249,500 Hz (interfering signal #2)
7,249,520 Hz (interfering signal #3)

A very weak, very stable, tunable BFO can create a local
RF signal at a frequency of say 7,250,000 Hz

Two resulting audio "beat frequecies" result, assuming
a ham can "turn off" the regular BFO or "product detector"
that usually creates the audio coming out of the speaker:

1) 500 Hz
2) 520 Hz

Heh, I am in deep doo-doo, so I shift my local RF BFO
to a slightly different frequency of 7,251,000 Hz

Four resulting audio "beat frequencies" result:

1) 500 Hz (desired signal)
2) 480 Hz (interfering signal #1)
3) 1500 Hz (interfering signal #2)
4) 1480 Hz (interfering signal #3)

An audio filter should be able to separate the
desired 500 Hz audio from the 480 Hz audio,
I hope.

Anyone have any experience with those audio
filters for a CW signal? I never used one,
do they really work?

> BTW, there is no law that limits the amount of
> radios you own, and since you are in the US,
> you don't have to register them when you buy them

Good Grief, are those restrictions common in a lot
of countries?

USA will likely become that way also, if our present
political ding-ding gets his way to turn this country
into a socialist paradise, with Big Brother taking care
of all our problems from cradle to grave. [sic]

I am so old I can remember when the people ran the USA,
now the politicians are busy taking away a lot of our
freedoms, one by one, and they have no intention of
ever returning control to the people.

No, I got that. My AEA MM3 could do that, and so could my Pk-232. I still have the MM3, I traded the PK-232 to someone who had better use for it when I moved here in 1996.

Actually it is quite trivial. There is lots of digital decoding software for the PC out there and morse code is one of the simplest forms of digital encoding. Since probably 99% of all high speed code is machine generated, either by computer or keyer, it's uniform enough to be easily decoded.

There is basicly 3 levels of code out there, the slow hand code which ranges from really well done to almost impossible to copy sloppy, the mid range keyer code and bug code where the individual characters are perfectly spaced, but the spacing between them varies as the operater has to think between them and the computer sent buffered code, where all of the thinking is

done before the send button is pushed, so it all comes out perfectly timed and spaced.

The last two really are trivial to decode compared to any digital mode, and the first ranges from easy to almost impossible.

A few years ago, it was theorized that one of the highest scoring stations in a CW contest was exactly what you asked about. A ham who could barely copy code using a decoding and sending program. It extracted the callsign from the received code and replied with a signal report of 599 in perfectly sent perfectly spaced machine generated code.

A web search on "morse code decoding programs" found plenty, and this is probably the cheapest device on the market:

Which rig you choose should probably be dictated by what use you will make of it.

I have a Yaesu FT-857 in my car and use it portable when camping and other activities. Ergonomically, it is small but very easy to use, even the menus all make sense. The receiver is quite good and the DSP, although an audio DSP and not at IF stage, is quite effective. It is nice to have the all-band, all-mode rig for portable use. The CW is fine, even with its relay keying, and the audio for phone is very good. For a 100w rig, this unit excels for portable use, for at receive idle, it draws only about 650 ma (measured with my digital VOM). I generally use it on battery at about 40w for ssb and about 30w for cw. This radio is probably the best 'bang for the buck' on the market. (As to a previous comment on overheating, the FT-857, unlike some other brands, does not overheat at all, so that is not a concern.)

That being said, the FT-897 is the same radio with different packaging and the ability to install a battery. I've heard, however, that many don't like that battery situation and simply take their own gel cell.

In addition, I also have a K3 for the house and/or portable. You will be hard pressed to find a rig which will stand up to crowded band conditions better. But for portable use, this unit will draw about 950 to 1000 ma at receive idle and that is worth consideration if you are operating on batteries. My unit is a very 'bare-bones' model with no second receiver nor tuner and other additions (it fit my budget this way), but I can add those at any time I wish. The receiver is probably the best on the market, the DSP is excellent, the solid state cw keying is exceptional as is the audio on phone. Incidentally, they say the tuner is excellent for almost any use.

So, in my opinion, both of these rigs are excellent but for different uses, and they appear in totally different price structures.

Good luck on making a decision.

Great, I will also search the web for others, as you suggested.

I can see I have quite a lot to catch up on. With any luck,
my books should arrive today at my rural post office.

Really looking forward to getting back, only hope my
ancient brain is up to the task.

Most of my neurons have mutated into morons,
my synapses have not snapped in ages. My brain has
shrunk so much that I am afraid to shake my head,
for fear of hearing a rattling noise.

Mark

THAT is where I run into trouble, with my emotions.

For example, on a totally different subject, namely
computers, I have always chosen battery-powered units,
even though they are inferior in performance.

I expect the same stupid choice will "win out" when I
finally choose a ham rig. <sigh>

Makes me wonder, when scientists fnally get around to
duplicating a flesh-and-blood human as an artificial
hardware item, and we download our brain into the
"artificial human" - - - will we make the same mistake
by downloading all our emotions also. <g>

Creating "improved" artificial humans opens up several
nasty cans of worms:

<http://www.kurzweilai.net/articles/art0267.html?printable=1>

Skip to the sub-section:
"Building HAL 's Language Knowledge Base" near the end,
it will downright frighten you.

Back On Topic -
****
Thanks very much for your detailed post, I will give serious
consideration to the Elecraft K3 because of the high regard
that rig enjoys among its users.

I have almost decided to get a very used temporary rig
at first, until I get a chance to renew my knowledge of
"modern" ham radio - - - THEN pounce on my final rig,
when I am finally fully aware of what I am doing.

Search the web for CodeQuick. It's a Morse code course that teaches you
to copy code in the language part of your brain instead of the "beep" part.
This has two advantages, one it is independent of speed, so you don't have to
learn 5,13,20,35,etc, you just learn it once and work up your speed.

The second is that since it works in your language center, it works in
a part of your brain that is still in use and still active.

The disadvantage is it uses "sound alike" phrases to help you learn code
and you need to put enough effort into the practice that you stop using them
automaticly.

I like to say that I have a photographic memory, but I ran out of film
about 10 years ago.

Geoff.

You are in luck. Tubes are no longer used in modern rigs except for power amplifiers. If you stay with anything made since 1980 and 100 watts or less, it should take 13.8 volts DC.

Some rigs used 24 volt front ends and finals to get more gain with less noise, but they are fairly rare.

The question is how much DC are you willing to put into your radio? If you look at a 100 watt rig, it's going to need around 20 amps of DC to transmit at full power. That kind of limits how you power it. Note that some rigs use far less than others in receive mode, but at a 20:1 or 10:1 ratio it does not matter a lot.

I.e. if you radio uses 1 amp on standby, then it uses the equivalent of 20 hours of reception for one hour of transmit time.
Lower power rigs use more proportionaly for standby because they use less for transmit.

If you really want to conserve battery life, look at something like an old Ten-Tec Argonaut (the 505,509,515) or the MFJ 90 series (9020, 9040, etc), which have no microprocessor, no digital synthesythesior (pardon the bad spelling), no led or lcd display, etc.

They put out 2-3 watts which is more than enough for CW, and will "work the world" on SSB if the band is open and uncrowded. Forcing a signal through a "closed" band or the middle of a pileup requires 1kw output radio, if you hope for success and that is not going to run off a battery.

For a 1kw radio, consider a generator. I am a fan of gas grills, and therefore think that a propane generator would be a good idea. I also am comfortable with propane (or in my case propane/butane mixture) tanks around the house but am not comfortable with gasoline or kerosene (diesel fuel). But then I live in a big city.

One of my heros was a MARS station operator in the army.

He sat leaning back in his spring-back chair listening to what I would
call random static. Somewhere in that static was a 60 wpm CW
station that he was listening to as if it was a language, not just CW.

Best I could muster was 40 wpm, on a fairly strong CW signal.

BTW, my books finally arrived, I jumped right in studying for my
extra class exam'.

I have a plan, I am going to start at the top, then work my way
down to novice level. Great Minds are like that.

It should take me at least a 2 months to reclaim my extra class
license, so I will have plenty of time to decide on what kind
of rig to buy.

Yes, I guess that is the only practical option, if one is contest inclined, and has to fish contacts out of the bottom of a pileup.

That is the nice thing about ham radio, it has something to offer everyone, the QRP guys who use one watt of RF, and the rabid contest guys who enjoy the rough and tumble competition.

Even something to offer the moon-bounce guys, who can now contact other hams almost a half-world away using UHF rigs and parabolic antennas.

Hmm, I wonder how the FCC keeps those hams from frying a regular communications satellite with their strong moon-bounce signals.

If the amp is in good working order then around $ 800 to $ 1000 shipped is around a good price.

The seller states he never used the amp, but just used it for the tuner. I don't know how he could have done that. You either use the amp or it is out of the line, or some modifications have been done to it that would have to be a major job and I doubt this. As the tubes are around $ 350 new, I would want to buy an amplifier from someone that has actually used the amp and will be able to give the power he is getting out of of it.

He said it is for local pickup. That is good as it is very heavy and to ship an amp means pulling the tubes and packing them very well.

From what I have seen many amps that use a pair of 3-500 tubes seem to be selling around $ 700 to $ 1000.

Am;ps this old should probably have the capacitors replaced. There are several places that sell a kit for this that replaces the capacitors and usually some diodes and resistors for around $ 100. This is somewhat more than capacitors cost, but the replacement kit is usually worth it.

June. So, is MFJ stuff any good?

To put it more bluntly, is it moderately priced practical equipment or
just throw-away junk? I'll settle for Chinese made --which I suspect
much of their stuff is-- if it's relatively decent in design/execution
and somewhat sturdy. I can see how the antennas and like hardware
could be decent, but how about the stuff like tuners and other
meters and electronic equipment. Thanks for any feedback.

yes, it is quite good. It's not Chinese junk, it's actually all made in
their factory in the US.

If you've been asking yourself why the US car companies need a bailout,
you will get an education buying MFJ. If you already understand and expect
that "made in US" means things are not always 100% right, nuts and bolts
are loose, pop rivets are not all tightly popped, that's what you
will see.

The build quality is not that of aTen-Tec, nor is the design. But it's
a lot cheaper. Ten-Tec survives because they also make commerical and millitary
equipment, they can afford better skilled technicians, higher quality
parts and better quality control.

Martin F. Jue, is one of those people who never stops inventing things. You
can find an interview of him on YouTube, it's well worth watching. Jue does not
have millitary contracts to support his company, he lives off of the ham
radio business.

Be prepared to open your tuner and make sure that all the bolts are
tightened, there are no loose wires and no shorts.

As for service, they always have been willing to mail you a manual with
schematic anywhere in the world, now they are making them available for
downloads.

I recently decided that a 9020 (20m cw transceiver) I had bought in 1994 or
1995 was not receiving as well as it should, and carefully followed the
alignment procredure. It still did not perform as well as my 40m one,
so I went to their "ask a question" web page and asked for help.

I received an email from the guy that designed them. :-)

They also have a policy that you can either return a unit for warranty
service, or request repair parts. Who else does that?

My advice to you, is if you are (or plan to be) the kind of ham that opens cardboard boxes, sets things up and uses them without ever wanting to look inside, stay away from MFJ. If you want to be the guy that is involved with his equipment and understands it inside and out, is not afraid to fire up his soldering iron to fix a loose wire, and so on, then MFJ stuff is good for you.

If you are not sure, you can always buy one of their cheaper tuners used and if you don't like it sell it. Just make sure to buy it from someone who will let you see it work (as in NOT on eBay).

Good luck.

Geoff.

I have the following MFJ gear:

o MFJ-259 antenna analyzer; I like it a lot. It's not perfect, but it
works well enough for my purposes. Bought used.
o MFJ-906 6m tuner. It works very nicely.
o MFJ-921 2m/1.3m tuner. Works extremely well.
o MFJ-461 pocket CW reader. For solid copy, needs really good signal,
but still useful.
o MFJ-4225MV power switching supply. This is a good, solid, hash-free,
cool-running supply that not only drives my radios, but also is good
for electrolytic etching (see http://www.steampunkworkshop.com for
more). It's as good as my Samlex SEC 1223 power supply, puts out
less hash, and has meters.
o MFJ-564 iambic paddles. Not great, but serviceable. I need to take
it out of service and completely readjust it.
o MFJ-441 keyer (a gift). Works; I don't need it, as my radios have
keyers built in.
o MFJ-557 code practice oscillator with key. CPO is OK; key is trash.

Wow! I hadn't realized I had so much MFJ equipment.

Overall, it's low-to-middle end: not all junk, but not high-end gear,
either. Some of it is a bit overpriced, I think, but it's certainly not
priced like high-end gear, either.

When I was growing up, and when I was a new ham (think 1950s-1960s), there
was a real need for this sort of gear at this price level, and it just
wasn't available. I grant that lots more components were available locally:
I could walk into parts houses in Houston and get everything I needed,
except Big Inductors, Big Transformers, and Big Capacitors, to make a
linear or anything smaller. Some of this gear is hard to homebrew, and I'm
glad Martin Jue decided to start making and selling it.

Do you have the user written manual? It is in German and AFAIK never translated
but a lot of it is pretty obvious anyway. For example the specs to make
your own "grid dip" coils can be figured out, once you understand the metric
wire sizes.

> o MFJ-557 code practice oscillator with key. CPO is OK; key is trash.

If this the plastic based one with the bent metal U shaped bracket, it
was in the 1960's the key a lot of novices first learned to use. It can be
adjusted to work (how well is a matter of opionon) and IMHO should be
given to a boy scout or someone else interested in learning morse code.

You may be lucky, they might actually go far enough to come to the same
conclusion and buy a real key. :-)

... but, alas, probably not worth the effort (in my experience, at least). The MFJ 2x9 with the grid-dip coils is absolutely the least sensitive and hardest-to-use grid-dip oscillator I've tried.

A few years ago I did a three-way shoot-out between GDOs. The test tank was a piece of scrap Airdux inductor, with an air-variable capacitor soldered across the ends.

The MFJ had to have its probe coil shoved right up next to the end of the coil to get a dip indication. The frequency readout was nice and precise, but the dip was not terribly deep, and with the probe so close to the coil I'd be very concerned about the probe "loading" the tank and pulling it off frequency.

A Heathkit solid-state GDO was rather better, with a sharp dip available with its probe about a half-inch away from the end of the inductor.

The best results came from a Measurements 59 GDO - the old firebottle model with a peanut tube in the sensing head. It got a sharp dip deflection with the probe 2-3" away from the end of the inductor! This model is big, clunky, and is probably the gold-standard for GDOs.

I've since picked up a Millen but haven't done a head-to-head comparison with the others. Based on what I've read, it's probably somewhere between the Measurements and the Heathkit in sensitivity.

The best approach might be a hybrid... use a good GDO to find the dip frequency, then hold it near an MFJ 2x9 in frequency-counter mode to get a precise readout of the frequency. It's a shame there's no single GDO which has both high sensitivity and a really precise frequency readout.

Might be a tempting project one of these days... build a lambda-diode GDO and add a precise frequency counter module to it.

I was damn lucky: when I got my Novice ticket in 1962, my uncle Stu gave me
a Vibroplex J-36 (he used it as a radio op on B-25s in WWII, he told me)
and a J-38 that he also had used. Still have 'em.

> You may be lucky, they might actually go far enough to come to the same

Except for the high-end MFJ stuff, they appear to go for the lowest priced
stuff that will get the job done and last for the design lifetime -- which
I think is the warranty period.

I have no fear of electronics hardware, having done time as an
electro-mechanical tech in Silicon Valley. I still have my trusty
Weller and am gathering parts to build a code oscillator and am also
researching radio kits to tackle. I just wanted a general opinion of
MJF, they being so prolific in a seemingly forgotten corner of basic
electronics. I know zip about radio, so studying for my license has
been both enlightening and fun. Thank you for your comprehensive take
on this company. ;)

I have a tow MFJ tuners I bought circa 1995. One of them arrived with a
loose screw and the other had a pop rivet loosen (recently) on one of
the SO-239's on the back.

Both simple fixes.

Geoff.

Well, there are several types of Lithium ion battery. Some are
chemically unstable, such as Lithium-Cobalt, and are prone to taking
off thermally. Then there are others which are far more inert, such
as LiFePO4.

Any battery will die or explode if abused, lithiums and NiMH cells are
not immune to this.

> They also die after around 300 charge cycles. ANY power put in is a charge

Many of the cells on the market are well past the 1000 cycles.
Particularly in the electric vehicle sector (which is where I'm
employed at present).

> The main reason they are so common is that people don't understand their

Again, I see these batteries used in far more demanding environments
than portable HF radios, and see them outliving that 6 month
boundary. Indeed, my netbook, which runs about 15W off a 3-cell Li-
ion pack, had about 1.5 hours battery life when I bought it about 2
years ago... and still has much the same capacity now.

In the case of the FT-897... the battery packs are proprietary in
nature, and I've found NiMH cells don't last as long for me as Li-
ion. So I'll probably find myself coming back to Yaesu for more when
the two I have sign their resignation letters.

Yeah, I guess they don't see a market for the C/D cells in your
area... which is a shame. Interestingly...
http://www.jaycar.com.au/productView.asp?ID=SB2460&CATID=18&form=CAT&SUBCATID=583

The latter two being from a mob run by the supermarket giant,
Woolworths. (Dick Smith Electronics is pretty much useless these
days. My FT-290RII was originally bought from DSE many moons ago,
these days they barely sell CB gear. Woolworths ruined both them, and
Tandy Electronics.) I think they still sell them in their
supermarkets too. So they're still in the "easily obtainable"
category here in Australia. I understand the situation could be quite
different in the US.

I have an antenna tuner by MFJ. It does work ok. I did have to open it up
and tighten up some loose screws.
Years ago I bought a packet TNC from them. It did not work and I sent it
back , about 2 days after I called them, they had another unit at my house
and told me to send the old one to them. Any electronic unit can arive DOA,
but they did the very best getting me a new one. No problems with that unit
for as long as I used it.

As others have mentioned , just open the new MFJ up and tighten up all the
screws before using it.

I

Amertron, was a company that made amplifers. It was bought by MFJ and moved
to their headquarters, though it may have it's own manfacturing facility.

MFJ has tried to keep the product lines intact, even if there is some overlap.
They also bought Vectronics, the Hygain antenna line, and now Cushraft.

For example, Ameritron made accessories for their amplifiers such as
QSK switches and tuners, all high power only. Think of it as rounding
out their product line.

If you look back at Cushcraft they have been shrinking their line of
amateur products since they were bought out, I think in the 1990's.
The company that bought them is doing well selling commerical antennas,
and not as well selling amateur antennas. Now the line will be in the hands
of someone who believes in ham radio and is trying to make a living from it.

To me, it's a shame because with such a large, active and rich ham community
as the US has, it can not support the few manufacturers it has.

Geoff.

Well, what did my older technician license say about the number of hams in the US? Maybe 600K? That's not a very large market. So I guess some people are looking to make money while the sun shines.

I'm rapidly becoming aware of is the price tag on some of this stuff. I'm absolutely floored by some of the prices I'm seeing. $400 for a Buddipole, an oversized tinker-toy!? You must be putting me on. $4-8K fer transceivers? Fer that kinda money, there better be a lady's "hand" in there while I'm doing cw. $3-4K fer kits? Is there a job waiting for me when I get that sucker assembled!?

That's one of the reasons I was asking about MFJ. They seem to understand not everyone is sitting on a stack of gold bullion. Hell, I don't mind paying good money for quality, but some of this stuff is absurd. $300-500 fer a 4 element yagi? It's aluminum tubing, ferchrysakes! I guess the deals are where you find 'em and that's one of the reasons hams are such avid DIY'ers. Where's my Fluke and wire stippers? ;)

That's simply amazing. A friend of mine with an 817 was looking at a
metal antenna that came in several sections, with a tripod for $100,
cheaper than he could of made it out of building supply parts.

> lady's "hand" in there while I'm doing cw. $3-4K fer kits? Is there
> a job waiting for me when I get that sucker assembled!?

Those are the high end contester type of rigs. Ten Tec who sells well made
products, made in the USA, has the Jupiter at $1600, and the OMNI VII for
for $2700, plus the top of the line Orion II.

Universal Radio www.rffun.com lists lots of rigs, from $599 up (ICOM IC-718).

While everyone wants a rig that can do 160m to 70cm, scan all the frequencies
in between, be run by a computer and have the latest DSP, how many actually
need it?

Hmmm. My cellphones (with Li batteries) have somewhere in the 1000 cycle
range on them now, and are still going strong.

The last laptop I bought (3 months ago), charges when connected to power,
without waiting for a discharge. Waiting for a discharge just leaves you
dead if you disconnect at the wrong time in the cycle.

Actually, C and D size NiMH seem pretty rare here, except by mail order.
Presumably, mail order works there.

I have and use several MFJ products. Design is ok to good, quality control is marginal. Think of them as kits assembled by trainees with no supervision. Be prepared to fix the cold solder connections, poorly drilled mounting holes, etc. Once you finish that, they work well and if treated carefully last.

The "treated carefully" is good advice - understanding the limitations
of the equipment is critical (and not specific to MFJ products!).

There are a number of stories going around, concerning people who have
managed to damage MFJ antenna tuners - typically, by burning up the
inductor (sometimes melting the form on which it's wound). In each
case I've read, the tuner in question has been a "T" configuration
(the commonest). One of the gotchas of a "T" tuner is that it can
appear to "match" an extremely nasty load (e.g. a short circuit) down
to a low SWR, while what's actually happening is that you're
"matching" the tuner's own internal losses. You can end up with
nearly 100% of your transmitter output being dissipated in the coil...
and this tends to let the magic smoke out, after a couple of minutes.

The same problem exists with other "T" tuners - it's not specific to
MFJ - so understanding the limits and vulnerabilities of that type of
tuner is important to proper use.

I avoid 9913 like the plague since lightning hit the system, blew off all the water proofing, and within 15 minutes I had water running out of the 2-meter rig. I was using it on all bands. At that point I took it all out and gave away all but about 200 feet out of over 1500 feet. The 200 feet finally went into the dumpster.

I used to take the stance that if it was properly water proofed it was fine, at least until that lightning strike. I now use mostly LMR-600 and some LMR-400 with Davis BuryFlex for the flexible runs.

As for Heliax and Hardline, they are probably the cheapest as there is a lot of it floating around. I had two 100 foot runs of 1/2" Heliax with connectors given to me along with nearly a full 1000 ft roll of 3/4" hard line.

Check the local swaps and you may find 1/2" or 7/8" Heliax or even larger. Check with the local two way outfits as they may have systems they pull out. I picked up a whole pick up truck full of 7/8" Heliax and half a dozen connectors that way. I think the whole thing ran less than $100.

But I still have to repeat, I'd not install brand new 9913 if it were given to me. 9913F OTOH...<:-))

The other problem is that they are rated with numbers people don't really understand. When MFJ says it is a "300 Watt" tuner, that's maximum possible rating.

Like VA (volt-amps) which is used for transformers, and UPS's, it's much higher than what you would actually use it for. For low frequency ratings, you derate by the square root of 2 over 2 (.707) but I expect that's only good at 50Hz or 60Hz, at RF, it's close to one third.

Geoff.

Air insulated coax is subject to water incursion. If you want to use
these cables you need
to pressurize the cable to keep water out. Even RG8 can get water
between the outer jacket
and the insulation. I was given a roll of 9913 and I gave it away as I
wouldn't use it.

It is not the lightning problem with 9913. It is no better or worse for that. The problem with 9913 is the center is hollow and if water ever gets into the coax it will fill up like a water pipe. The 9913F has a dialectric that is not hollow and water can not collect inside it.

I had some 9913 up not long after it came out and after about 10 years took it down when I moved. I just cut into it and no water came out of it. I went back up on a new tower with 4 runs of the Davis burry flex. The loss at VHF is not that more than the 9913 and I will not use the LMR series as the center is copper plated aluminum. I just do not like that even if there is nothing wrong with it.

Just as a comment here is a YouTube video which adds some information.

http://www.youtube.com/watch?v=gbz9yv9VQVc

He has several videos of his working stations during contests using his
Argo 509 (4 watts SSB on a good day). This is one of my favorite rigs,
although I really prefer the Triton 4 digital, which is a very similar
rig with 100 watt output (if you need it), and a digital readout instead
of the dial string.

I use RG-58 and HDF-400. For short runs, it barely makes a difference, you'll still get good results with RG-58 on 70cm, and for portable use, I find RG-58 easier to work with. Plus, I've got heaps of the stuff -- in a past life it used to pass ethernet frames.

On the home base I use 3m of HDF-400... not for the high fidelity, but because the FT-897D I bought at the time used N-type connectors for 2m/70cm. This length was N-type terminated and just lying around doing nothing, so figured I'd put it to use, it was easier than lopping off the BNC connector and wiring up an N-type, and it could only make things better in terms of efficiency.

I also have some RG-213, but few connectors to suit it... the cable was cut at some random point, and has PL-259 connectors, so I use this for HF mainly, again, just out of convenience. One length is spare, the other having some 2.5m long radials off it for my squid pole antenna (which I use on 20m, 10m and 6m).

It'd be worth letting us know what your situation is (current or proposed) however, since there's different cables suitable for different occasions.

Thanks very much for that follow-up report.

In a weak moment, I fell victim to my emotions and
ordered a brand-new 100 watt Yaesu 857D.

Hey, nobody is perfect! - I blame it all on the stress I am
presently suffering from studying for
my extra-class license.

I bought the "look-alike" (Collins) 300Hz CW filter on a
seperate order from WART electronics, because there were
no articles on the web about any narrower CW filters
being available.

(ones that do not "ring" excessively, that is)

I hope the passband of the Yaesu's last IF stage can be shifted to
one side, as I forgot to examine the spec's of the Yaesu in detail.

If I can cock the IF passband to one side, that might reduce the
interference from another CW station somewhat, I hope.

How does the Triton 4 digital compare against the Elecraft K3
in your opinion?

Mark

Not at all. the Triton 4 is around 30 years old. It is very different in operation, instead of being a computer that has a radio wrapped around it, it is just the radio. The only thing digital is the frequency readout, and just in case you don't like it, there is an analog scale on the tuning knob.

As for sound, it's just pure clean sound, with no noise from all the digital electronics inside. The oscilator is a PTO (a brass slug moving in a coil), so if your hand is steady enough, you can tune it exactly to match the frequency of the sending station.

The K3 has very fine tuning and it may not be noticably different.

The Triton 4 has true QSK, you can hear any time the transmitter is not actually sending carrier in CW mode.

Geoff.

The Gordon West book makes this a snap. And the QRZ practice tests. I
went from nothing to Amateur Extra in 5 weeks.

The K3 is not a computer with a radio wrapped around it. It has a DSP
modulator/demodulator but the rest is straight-up cutting edge analog,
complete with crystal filters and low noise local oscillators. The
radio will play out of the box, with just an antenna and 13 VDC being
required to get under way.

I suspect that you will be disappointed by something in that radio, but not
much disappointed, and that you will be delighted by lots of things in it.

> Hey, nobody is perfect! - I blame it all on the stress I am

If *I* can get an Extra ticket, then _ANYONE_ can get an Extra ticket.
(We mathematicians call this "proof by assertion".)

I seem to recall that the passband can be moved on the 857D and 897D
(and, of course, on the 857 and 897, as well).

> If I can cock the IF passband to one side, that might reduce the

That's what I've used it for -- and to get rid of the het squeal from
SWBC stations on 40m.

Posted-By: auto-faq 3.3.2 beta (PGPMoose V2.0, Perl 5.005)
Archive-name: radio/ham-radio/moderated/crossposting
Revision: 1.1 2009/04/12 19:42:04
Posting-Frequency: posted monthly
URL: http://www.panix.com/~rram/usenet/rram/index.html

Changes followed by "|".

After a 30-day public discussion and feedback period to gauge reader
opinions in March of 2009:

http://groups.google.com/group/rec.radio.amateur.moderated/browse_thread/thread/d7d337db35
f23326

the rec.radio.amateur.moderated Moderation Team has decided to consider
amending its charter, and permit limited simultaneous crossposting to
rec.radio.amateur.moderated and one other unmoderated
amateur-radio-related discussion newsgroup. We are currently trying
this on a temporary basis (90 days, through early July 2009), and adopt
it permanently if successful.

Approved rec.radio.amateur.* newsgroups are those that are currently
listed in the latest version of the "List of Big Eight Newsgroups" which
is crossposted monthly to news.announce.newgroups, news.groups, and
news.lists.misc.

Approved alt.radio.amateur.* and alt.ham-radio.* newsgroups are those
that have been created consistent with the suggestions in "So You Want
to Create an Alt Newsgroup" at:

http://www.faqs.org/faqs/alt-creation-guide/

Approved regional hierarchy newsgroups are those that contain either
"radio.amateur" or "ham-radio" in their names, including
uk.radio.amateur and aus.radio.amateur.misc.

We will make every reasonable effort to keep our list of approved
newsgroups up-to-date. In case we have overlooked any, and a submission
is rejected in error as a result, the rejected submitter can E-mail us
at our administrative contact address (in the signature at the bottom of
this article, and the default Reply-To for the rejection message)
requesting that it be added, and that the article be approved. We may
still choose to reject articles crossposted to any alt.* newsgroup with
an inappropriate name, including obscene language, embedded
name-calling, or encouragement of unlawful conduct.
```

Please direct any comments, questions, or criticisms to
rec-radio-amateur-moderated-request@panix.com.

Hi,

I have a computer controlled version of this receiver, that I acquired
recently to salvage the PSU module. I am thinking of parting the rest
out. It has a complete set of mini coax cables and, as long as module 7
isn't the front panel interface, a set of spare modules.
Please contact me off list and we'll sort something out.

Cheers,
Dave.S

I would like to try something new, and want to swap my Eton E1XM for
any of the following table-top receivers (used of course):
Icom r75;
Drake r8;
Yaesu FRG-100

If you have something that is not listed here but you think it is fair
trade, please send me your review of your rig. Try to convince me.
My Eton E1XM is in superb condition, purchased in US two years ago,
has all included in the box accessories and even the wrapping plastic
(the box is also here). No scratches or wear-outs or anything, the
condition is like new.

I'm in Sweden, but Lowe hf 150 is not on my consideration list. Sorry
about that.

213. Seeking New FAQ/Intro Maintainers for rec.radio.amateur.*

Newsgroup: rec.radio.amateur.equipment
Date: 2010-04-07 06:05:00 UTC
From: rram@panix.com
Message-ID: <radio/ham-radio/recruitment-1-1270620300@panix.com>
Source record: 1231
Cross-posted to: rec.radio.amateur.antenna,rec.radio.amateur.dx,rec.radio.amateur.equipment,rec.radio.amateur.homebrew,rec.radio.amateur.misc,rec.radio.amateur.policy,rec.radio.info

```
Posted-By: auto-faq 3.3.2 beta (PGPMoose V2.0, Perl 5.005)
Archive-name: radio/ham-radio/recruitment
Revision: 1.2 2009/11/25 14:41:01
Posting-Frequency: posted monthly
URL: http://www.faqs.org/faqs/radio/personal-intro/

Changes followed by "|".

The rec.radio.info newsgroup, first established in 1993, has been
recently revived by an active moderation team. We are currently seeking
suitable information, FAQ, and bulletin articles from the entire
rec.radio.* newsgroup hierarchy for simultaneous cross-posting to our
newsgroup.

We are seeking a replacement maintainer for the following information
bulletin formerly posted to rec.radio.amateur.* (and currently archived
at http://www.faqs.org/faqs/radio/personal-intro/ ):

radio/personal-intro
Subject: Guide to the rec.radio Newsgroups
Maintainer: jeffreyh@Hawaii.Edu (Jeffrey Herman)
Last Posted: 9 Nov 2001 06:18:17 GMT
Posting-Frequency: 15th of each month

One significant omission, requiring immediate updates, for this article |
is that it does not mention newer amateur radio newsgroups created since |
it was written, including: |

rec.radio.amateur.antenna |
rec.radio.amateur.boatanchors |
rec.radio.amateur.dx |
rec.radio.amateur.equipment |
rec.radio.amateur.homebrew |
rec.radio.amateur.moderated |
rec.radio.amateur.space |

We are willing to provide any technical support necessary to get this
article updated and automatically posted again at a regular interval.
This would include establishing contact with the original maintainer for
any necessary permissions. We would prefer to seek a new, dedicated
maintainer at this time, rather than start auto-posting the original
article ourselves.

For more information about our newsgroup, see:
```

http://www.panix.com/~rram/usenet/rri/index.html

Please direct any comments, questions, or criticisms to
rec-radio-info-request@panix.com.

Hello everyone!

I new around here.

I'm currently working on a old junky but free dx-160 radio.

I'm wondering if anyone has any mods for this radio?

Most of the links Im finding are outdated / dead links.

thanks

Source record: 1101

My FT=290 is slightly off frequency on TX, it is about 4Khz lower than
the display frequency but the RX is spot on display frequency so I have
to operate with the clarifier switched on to be able to resolve the
other station. Antone know how I can adjust this??
Cheers

This is a Mk1 (i.e. no mark), right? Not a MkII.

Is it OK on FM, but not on USB? And what about LSB and CW?

Is the SSB modulation still OK?

235. Collins 30S-1 Available

I've got a MkII here with a similar problem, although it's not as
severe... about 600~800Hz off from the actual frequency. I'm guessing
it could be the age of the reference crystals having an impact (these
are frequency synthesised rigs), but without ripping the thing apart,
I'm not sure.

<1kHz isn't enough to bother me... just use the frequency display as a
guide then tune around until you get the target station spot on. 4kHz
on the other hand, would be quite irritating.

I have the original FT-290 (I presume that is what he refers to when writing Mk1, but I am not sure).

In this rig, the synthesizer is running at a constant frequency offset from the tx/rx frequency by the first IF. The transmitter operates by generating FM/SSB/CW at the first IF and mixing it with the synthesizer frequency.

As SSB is generated by modulating a crystal frequency using a balanced modulator and then feeding it through the IF filter, I think that if this crystal is off frequency there will be a severe effect on the modulation (as the filter passes the wrong part of the spectrum).

That is why I asked if modulation is affected. If it isn't, it is a bit unclear where the frequency difference between rx and tx can originate.

(of course, it is easy to explain a difference between actual rx AND tx frequency and the dial display)

It could well be that the MkII has a different method of operation.

Steve,
Have a look here, it took me 2 mins to find it using Google!

http://www.hampedia.net/alinco/dr435.php

Just look near the top of the page and click on the link it will download
the programming software for the DR-435 in Winzip format, just extract and
use!

I am assuming that your MkIII will be compatible with this software, but
with a bit of research it won't be hard to find out.

Here is another link:

For DJ-196/296/496/596/C7 handhelds and DR-135/235/435/620/635 mobiles there is a 3rd party supplier in the USA that sells software under Alinco's authority. That 3rd party supplier's website is at http://www.cbtinc.net/radio/alinco .

246. Crossposting Permitted to rec.radio.amateur.moderated

Newsgroup: rec.radio.amateur.equipment
Date: 2010-05-01 06:00:02 UTC
From: rram@panix.com
Message-ID: <radio/ham-radio/moderated/crossposting-1-1272693601@panix.com>
Source record: 1114
Cross-posted to: rec.radio.amateur.antenna,rec.radio.amateur.dx,rec.radio.amateur.equipment,rec.radio.amateur.homebrew,rec.radio.amateur.misc,rec.radio.amateur.policy,rec.radio.amateur.space,rec.radio.info

```
Posted-By: auto-faq 3.3.2 beta (PGPMoose V2.0, Perl 5.005)
Archive-name: radio/ham-radio/moderated/crossposting
Revision: 1.1 2009/04/12 19:42:04
Posting-Frequency: posted monthly
URL: http://www.panix.com/~rram/usenet/rram/index.html

Changes followed by "|".

After a 30-day public discussion and feedback period to gauge reader
opinions in March of 2009:

http://groups.google.com/group/rec.radio.amateur.moderated/browse_thread/thread/d7d337db35
f23326

the rec.radio.amateur.moderated Moderation Team has decided to consider
amending its charter, and permit limited simultaneous crossposting to
rec.radio.amateur.moderated and one other unmoderated
amateur-radio-related discussion newsgroup. We are currently trying
this on a temporary basis (90 days, through early July 2009), and adopt
it permanently if successful.

Approved rec.radio.amateur.* newsgroups are those that are currently
listed in the latest version of the "List of Big Eight Newsgroups" which
is crossposted monthly to news.announce.newgroups, news.groups, and
news.lists.misc.

Approved alt.radio.amateur.* and alt.ham-radio.* newsgroups are those
that have been created consistent with the suggestions in "So You Want
to Create an Alt Newsgroup" at:

http://www.faqs.org/faqs/alt-creation-guide/

Approved regional hierarchy newsgroups are those that contain either
"radio.amateur" or "ham-radio" in their names, including
uk.radio.amateur and aus.radio.amateur.misc.

We will make every reasonable effort to keep our list of approved
newsgroups up-to-date. In case we have overlooked any, and a submission
is rejected in error as a result, the rejected submitter can E-mail us
at our administrative contact address (in the signature at the bottom of
this article, and the default Reply-To for the rejection message)
requesting that it be added, and that the article be approved. We may
still choose to reject articles crossposted to any alt.* newsgroup with
an inappropriate name, including obscene language, embedded
name-calling, or encouragement of unlawful conduct.
```

Please direct any comments, questions, or criticisms to
rec-radio-amateur-moderated-request@panix.com.

Trash talk will never succeed when you see how handsome this sneaker looks. The Nike Hyperdunk Low – Trash Talk sneaker does not deserve its name because it looks just the opposite.
The name given to the Nike Hyperdunk Low – Trash Talk sneaker is however part and parcel of the basketball industry as trash talk usually eggs on basketball players to do their best. As a result, trash talk can either bring out the best in the players or reduce them to mere losers.
The Nike Hyperdunk Low – Trash Talk sneaker comes in a unique diamond-pattern black upper which look….

No problem, would like to trade but costs of shipping to Sweden from
Canada are overwhelming. Maybe someone from Europe would like to trade?

Yes it's a MK1
Seems fine on FM
Haven't tried on CW (no-one seems to be using thant mode on 2m)
Similarly have only worked other stations on USB so not sure about LSB

Ok, next time you work someone in USB ask him for a test what happens
when using LSB and maybe CW.
(you would have to connect a key or at least a wire using a 3.5mm jack)

This is an original FT-290 ie the one with the built in battery pack.
Everything else on the radio seems to check out OK except a discrepancy
between TX & RX frequency on SSB - nothing noticable on FM & don't use
CW. Just hoping there is a simple adjustment to net the TX/RX
frequencies (& hopefully get these to correspond to the indicated
frequency on the display)

262. Seeking New FAQ/Intro Maintainers for rec.radio.amateur.*

Newsgroup: rec.radio.amateur.equipment
Date: 2010-05-07 06:05:01 UTC
From: rram@panix.com
Message-ID: <radio/ham-radio/recruitment-1-1273212300@panix.com>
Source record: 1130
Cross-posted to: rec.radio.amateur.antenna,rec.radio.amateur.dx,rec.radio.amateur.equipment,rec.radio.amateur.homebrew,rec.radio.amateur.misc,rec.radio.amateur.policy,rec.radio.info

```
Posted-By: auto-faq 3.3.2 beta (PGPMoose V2.0, Perl 5.005)
Archive-name: radio/ham-radio/recruitment
Revision: 1.2 2009/11/25 14:41:01
Posting-Frequency: posted monthly
URL: http://www.faqs.org/faqs/radio/personal-intro/

Changes followed by "|".

The rec.radio.info newsgroup, first established in 1993, has been
recently revived by an active moderation team. We are currently seeking
suitable information, FAQ, and bulletin articles from the entire
rec.radio.* newsgroup hierarchy for simultaneous cross-posting to our
newsgroup.

We are seeking a replacement maintainer for the following information
bulletin formerly posted to rec.radio.amateur.* (and currently archived
at http://www.faqs.org/faqs/radio/personal-intro/ ):

radio/personal-intro
Subject: Guide to the rec.radio Newsgroups
Maintainer: jeffreyh@Hawaii.Edu (Jeffrey Herman)
Last Posted: 9 Nov 2001 06:18:17 GMT
Posting-Frequency: 15th of each month

One significant omission, requiring immediate updates, for this article |
is that it does not mention newer amateur radio newsgroups created since |
it was written, including: |

rec.radio.amateur.antenna |
rec.radio.amateur.boatanchors |
rec.radio.amateur.dx |
rec.radio.amateur.equipment |
rec.radio.amateur.homebrew |
rec.radio.amateur.moderated |
rec.radio.amateur.space |

We are willing to provide any technical support necessary to get this
article updated and automatically posted again at a regular interval.
This would include establishing contact with the original maintainer for
any necessary permissions. We would prefer to seek a new, dedicated
maintainer at this time, rather than start auto-posting the original
article ourselves.

For more information about our newsgroup, see:
```

http://www.panix.com/~rram/usenet/rri/index.html

Please direct any comments, questions, or criticisms to
rec-radio-info-request@panix.com.

There isn't. I explained how the transceiver works.

That is why I am trying to determine what is the problem with your set.
But if you don't like to experiment a bit, good luck finding the problem.

You can gucci handbags(http://www.brandtrade10.com) (paypal payment))

the camouflage or buyingbrand with a scarves shawl for unflattering

warmth.
Copy your gucci handbags(http://www.brandtrade10.com) (paypal
payment))

(or successful windshield system) circumcision (url), and resolution
it

on the business links velvet alluring column.

Italian dresses differentiate the gucci handbags

(http://www.brandtrade10.com) (paypal payment)) of record in their

motorcycles and heat too, and usually they'll|md fix crafter heavier

from the sight industry or from the quarters of naked knot purses.
I liked the shoplifters that the present gucci handbags

(http://www.brandtrade10.com) (paypal payment)) zamy steynovitz used.
Fresh, gucci handbags(http://www.brandtrade10.com) (paypal payment))

heeled stewards with flowers, preconceptions and knockoffs are
together

popular.
The gucci handbags(http://www.brandtrade10.com) (paypal payment))

season brings the warranty of ebay trying and what makes rent during

this markup upcoming a plenty are the spacious great basics that
build

spiritual shoppers.
Finding one of these minutes is as purchasable as hitting a barely

internet search.

Of course, it's worth nothing that this newsgroup,
rec.radio.amateur.equipment is not a buy and sell newsgroup. It's for
the discussion of equipment related to amateur radio.

So the original post didn't belong here for that reason.

Further, since there is rec.radio.amateur.boatanchors, clearly there
is an intent that older equipment be discussed over there. It's not
primarily a buy and sell newsgroup either, though they were wishy-washy
when creating the newsgroup so buying and selling is actually allowed,
though it's supposed to be a secondary use (ie if you're talking about
older equipment, then some level of buying and selling related to
the discussion fits, but it was never intended for carpetbaggers to
suddenly appear to sell their stuff). But, the boatanchors newsgroup
would at least be read by an audience that would see the historical
aspect of the equipment in the original post.

It may not be obvious to people who have not followed the newsgroup since the newsgroup name does suggest equipment discussions including perhaps buying and selling would be appropriate. If not, someone could have pointed it out politely instead of hurling insults at the poor fellow.

Well said, but not everybody knows how to find newsgroups. Who knows what news service or reader he's using, he may not have access to all groups. I don't think it was a google post or I would not have seen it. Unless the guy is a habitual offender who has received explanations like yours we can't assume he is flaunting protocol.

Your gentlemanly reply is a breath of fresh air. Thank you for posting this information. I hope it will help future readers and posters.

I didn't insult the seller. I insulted his collection of boatanchor
test gear.

It looks as though someone cleaned out a shop back in 1964 or so and
someone else recently found the stuff. The McMartin EBS receiver might
be a decent AM radio.

Some people like old stuff. I like new stuff. I have an old National
SW2 (I Think) receiver tucked away and when I locate it I will try to
find a buyer at whatever is a fair price.

Sometimes one can find interest for such things in places other than
EBAY.

I might even try to sell it here.

316. FT-290R - LSB no output on any band?

Newsgroup: rec.radio.amateur.equipment
Date: 2010-05-29 17:51:43 UTC
From: Paul <pmorrison.email@googlemail.com>
Message-ID: <982a298b-6d9d-4646-900d-e01a92d8fc87@q33g2000vbt.googlegroups.com>
Source record: 1084

Hello all,

Just bought an old Mk1 FT-s 290R. All is working well (even the back light)! but when I switch from USB to LSB the background noise drops on receive and no output is obtained into a dummy load or any movement indicated on the rigs own meter?

I may delve in tonight and apply some switch cleaner just in case, any one experienced anything similar I wonder?

Any help gratefully appreciated .

Thanks

Paul - g0VHT

I'd start by checking the mode switch and LSB
oscillator.

Paul-

I'm not familiar with the 290R. Sideband selection is often done by
switching between local oscillator crystals. It may be a bad crystal, a
dirty switch, or possibly a problem with a diode switching circuit.

If the USB and LSB crystals happen to be plug-in, you could try swapping
them to see if the problem swaps or stays at the same switch position.

Not sure I'd really get too worried about it.

Maybe things are different in the UK but there is essentially zero activity on LSB on 2 meters over here in the States -- *everyone* uses upper sideband.

Thanks for your reply Fred. I plan taking 'the old lady' apart tonight
and will work through some of your suggestions. Hopefully it won't be
too difficult to trace the fault.

Many thanks

Paul - g0vht

The only thing you need LSB for is working a mode-B satellite transponder.

I think the problem is located in or around the sideband oscillator (Q1013).
It could be the LSB sideband crystal (X01) or the circuitry that switches
the crystals.
First check the "LSB +6.8v" line. If it does not work, it would be the
mode switch. I would not apply any "switch cleaner" before checking this.

When this signal is OK, check if the diode is still ok. I think the most
likely failure is in the crystal X01. That would probably not be worth
the trouble to replace, except if you want satellite operation.

Source record: 1095

Hi Rob and all,

FYI - I am using the rig with a Toko HF-240 transverter hence my need
for LSB!

Never mind, its now working! I opened the rig up earlier today, did
some basic checks, nothing obvious - applied switch cleaner to the
mode switch - no change, tapped the relevant crystals (gently), no
change so I left things as they were and put the rig back in my car.

Funny thing was the Velcro holding the rig to the dashboard came loose
and the rig fell 12 inches or so to the floor - low and behold no
damage to the rig but LSB fired back into life! Not sure how long it
will stay this way but it does give a clue to the problem in the first
place.

Thanks for all your help guys, much appreciated.

Paul - g0vht

I just bought a used ts-820 which had been completely reconditioned and has all new tubes. It works great in SSB but when I insert the CW key and put the Mode sw in CW, I get a constant tone that none of the dials on the front seem to effect. When I remove the jack, the tone goes away. Any suggestions?

I'm from Italy and I'm searching for some PR-2250 spare parts, in
particular:
- A Symmetrical 1.4 MHz filter with 3.0 KHz bandwidth (just like the
one employed in the "Module 3" - not 3D -).
- A complete "Module 7" (with the oven-controlled Reference
Oscillator).
Any idea about the availability of the above parts?
Thank you!!!

Best 73,

Paolo

Have you looked at the key? Some have a lever that allows for closing
the contacts on a continuous basis, such as when tuning up. See if there
is, and that it's not closed.

Or, it may be a short at the plug.

Or it may be a 2-conductor plug on a radio which requires a 3-conductor
plug. I know my Yaesu FT-857D, FT-897D, and FT-920 require 3-conductor
plugs, and if I insert a 2-conductor plug, it will put the radio into
transmit RIGHT THEN.

Check the manual and the plug type first. If the plug type is OK, then
ohm out the plug. If it's not shorted and it's the right type, then
something interesting is going on.

Mike-

I think you have it. I found the service manual at mods.dk. It shows a two-circuit key jack with additional circuits switched when the key is plugged in. I didn't get the operator manual, but it probably has more information about keying.

When the TS-820 came out, it was a top-of-the-line rig, so it may very well have a built-in keyer. With only one jack, it would have to accommodate both a straight key and a paddle. I wonder if there is a menu choice that disables the second circuit?

Fred

334. Anyone parting out a Kenwood R-5000 or TS-440?

Newsgroup: rec.radio.amateur.equipment

Anyone parting out a Kenwood R-5000? I need a new antenuator knob.

Please don't tell me to:

1. Check the Yahoo group. I've asked there many times and no one ever is.

2. Order it from Kenwood Parts in the USA. Quite simply, I can't.

The same knob is used on a TS-440.

Thanks,

Geoff.

Changes followed by "|".

After a 30-day public discussion and feedback period to gauge reader
opinions in March of 2009:

http://groups.google.com/group/rec.radio.amateur.moderated/browse_thread/thread/d7d337db35
f23326

the rec.radio.amateur.moderated Moderation Team has decided to consider
amending its charter, and permit limited simultaneous crossposting to
rec.radio.amateur.moderated and one other unmoderated
amateur-radio-related discussion newsgroup. We are currently trying
this on a temporary basis (90 days, through early July 2009), and adopt
it permanently if successful.

Approved rec.radio.amateur.* newsgroups are those that are currently
listed in the latest version of the "List of Big Eight Newsgroups" which
is crossposted monthly to news.announce.newgroups, news.groups, and
news.lists.misc.

Approved alt.radio.amateur.* and alt.ham-radio.* newsgroups are those
that have been created consistent with the suggestions in "So You Want
to Create an Alt Newsgroup" at:

http://www.faqs.org/faqs/alt-creation-guide/

Approved regional hierarchy newsgroups are those that contain either
"radio.amateur" or "ham-radio" in their names, including
uk.radio.amateur and aus.radio.amateur.misc.

We will make every reasonable effort to keep our list of approved
newsgroups up-to-date. In case we have overlooked any, and a submission
is rejected in error as a result, the rejected submitter can E-mail us
at our administrative contact address (in the signature at the bottom of
this article, and the default Reply-To for the rejection message)
requesting that it be added, and that the article be approved. We may
still choose to reject articles crossposted to any alt.* newsgroup with
an inappropriate name, including obscene language, embedded
name-calling, or encouragement of unlawful conduct.

> I have a TS-440SAT I'll sell you for $200 + shipping!

A tempting offer, thanks. My estimate is that if I want to send it insured it would cost at least $100. USPS does not insure mail to Israel, so I would have to use FEDEX, DHL ETC.

That would raise the price to $300 plus about $75 in taxes. Getting an import permit for it is trivial, but may add another $35 in fees (before taxes) from the courrier service.

The other option would be to have a tourist bring it in their luggage. At $200 it fits within the tax exemption for gifts.

That would not be a bad deal, but all I want is a knob. :-)

340. Icom 706mkIIG Problem

Newsgroup: rec.radio.amateur.equipment
Date: 2010-06-02 12:31:25 UTC
From: Kevin W0KLH <kevininiowa@aol.com>
Message-ID: <1cad7e11-9161-482c-9296-d208f654e517@e6g2000vbm.googlegroups.com>
Source record: 1008

I just reinstalled my Icom back into my vehicle after it being out for several months, I was listening to 20 meters yesterday and tried to get into a few of the pileups that were going on. A second or two in keying up to ID my call, the radio shuts off. I also have developed what sounds like a ground hum on VHF.

For an antenna I am using a Yaesu ATAS-100 with a AM-COM controller. When tuning the antenna in, I get to very low SWR's on the meter, so I don't think that it is a high SWR that is causing it. I have checked all connections and they are tight, so any thing further I can check?

Thanks

You know, I've dealt with them for almost 20 years, bought radios from them when I lived in the US, and go to their web site often, but never thought about asking them.

Thanks.

Geoff.

Good points. I've found the IC-706 to be bloody all sensitive to
voltages under about 12.59999999V.

A friend of mine found the original "butt contact" fuse holder was the
culprit. He accidently discovered the cause during one frustrating
session when repositioning the power cable by clasping the fuse holder
bodies (there are 2 of'em, IIRC). They were quite warm to the touch.

My installation involves direct, 10 ga. wires to the battery posts and I
am using automotive, blade-style, in-line fuses. Even then, I sometimes
need to remove the fuses, clean the blades, re-apply silicone grease
around the body and reinsert them to get the problem to go away.

Even given all that, I cannot park and operate SSB for more than approx.
20 minutes before the other OP eventually reports terrible distortion on
my transmission. I never operate FM -- I can imagine what problems that
mode can inflict on this problem.

A pox on their house for rolling out a rig that works so poorly under
such minor under voltages. It would not be my choice for a rig to rely
upon in an emergency.

High current DC connections can get oxide inside without loosening.
Disassemble, clean with gentle abrasives and alcohol, reassemble, coat
with petroleum jelly. You are connected directly to the battery, right?

Don't know if you have the head remoted or not. If so, the instructions
are very clear about grounding of the plug on the back of the control
head, or something that effect.

Kevin-

I have the same problem with an IC-7000. I first thought there might be RF getting into the rig causing the problem. I eventually found it is actually caused by low supply voltage, as others have noted. With the engine running, it usually works OK, but sometimes there is sufficient voltage drop in the wiring that it turns off even then.

What I have done is to install an MFJ-4416 Super Battery Booster. It is a DC-to-DC power inverter that produces a constant 13.8 Volts DC from a varying input voltage. With that turned on, I've never had the rig turn itself off. The booster is effectively out of the circuit when it is turned off, so I leave it off until the problem occurs.

Greeting All,

I'm in the process of programming my new Yaesu FT-8800 with the RT software. I'm looking for tricks or what works best for you as far as programming? I currently have both the left and right side programmed the same, but looking to see what the popular configuration might be.

Also, is there a way to copy the left program over to the right side without exporting and importing the delimited files? It seems that the check boxes don't really save once I export it.

Thanks! 73

359. Seeking New FAQ/Intro Maintainers for rec.radio.amateur.*

Newsgroup: rec.radio.amateur.equipment
Date: 2010-06-07 06:05:01 UTC
From: rram@panix.com
Message-ID: <radio/ham-radio/recruitment-1-1275890700@panix.com>
Source record: 1027
Cross-posted to: rec.radio.amateur.antenna,rec.radio.amateur.dx,rec.radio.amateur.equipment,rec.radio.amateur.homebrew,rec.radio.amateur.misc,rec.radio.amateur.policy,rec.radio.info

```
Posted-By: auto-faq 3.3.2 beta (PGPMoose V2.0, Perl 5.005)
Archive-name: radio/ham-radio/recruitment
Revision: 1.2 2009/11/25 14:41:01
Posting-Frequency: posted monthly
URL: http://www.faqs.org/faqs/radio/personal-intro/

Changes followed by "|".

The rec.radio.info newsgroup, first established in 1993, has been
recently revived by an active moderation team. We are currently seeking
suitable information, FAQ, and bulletin articles from the entire
rec.radio.* newsgroup hierarchy for simultaneous cross-posting to our
newsgroup.

We are seeking a replacement maintainer for the following information
bulletin formerly posted to rec.radio.amateur.* (and currently archived
at http://www.faqs.org/faqs/radio/personal-intro/ ):

radio/personal-intro
Subject: Guide to the rec.radio Newsgroups
Maintainer: jeffreyh@Hawaii.Edu (Jeffrey Herman)
Last Posted: 9 Nov 2001 06:18:17 GMT
Posting-Frequency: 15th of each month

One significant omission, requiring immediate updates, for this article |
is that it does not mention newer amateur radio newsgroups created since |
it was written, including: |

rec.radio.amateur.antenna |
rec.radio.amateur.boatanchors |
rec.radio.amateur.dx |
rec.radio.amateur.equipment |
rec.radio.amateur.homebrew |
rec.radio.amateur.moderated |
rec.radio.amateur.space |

We are willing to provide any technical support necessary to get this
article updated and automatically posted again at a regular interval.
This would include establishing contact with the original maintainer for
any necessary permissions. We would prefer to seek a new, dedicated
maintainer at this time, rather than start auto-posting the original
article ourselves.

For more information about our newsgroup, see:
```

http://www.panix.com/~rram/usenet/rri/index.html

Please direct any comments, questions, or criticisms to
rec-radio-info-request@panix.com.

363. Is it possible to track cell phones through radio emissions

Newsgroup: rec.radio.amateur.equipment
Date: 2010-06-08 21:59:52 UTC
From: Pietro <pietromas@gmail.com>
Message-ID: <ed2393a8-ee78-47ce-96ed-4edb5da4c5b1@i31g2000yqm.googlegroups.com>
Source record: 1031

If this is the wrong group I'd appreciate a pointer to the right one!

I was wondering if it is possible to detect the presence of inactive cell phones/wifi devices by detecting radio signals they emit. I figure wifi would be the best bet because I guess cells dont broadcast all that much when not in use, right?

Would there be enough output to find them? Would it be strong enough to detect over a distance of say 100m? Could signals from multiple devices be distinguished? Would the equipment be very expensive. Would I get thrown in prison?

I am interested in triangulating and tracking the movement of phones through a small area as a potential postgrad project.

Thanks.

>
> Thanks.

The cell phone providers already track the phones, not sure that you would be doing anything new.

> I was wondering if it is possible to detect the presence of inactive
> cell phones/wifi devices by detecting radio signals they emit.
If inactive means 'switched off', then 'no'.

> I
> figure wifi would be the best bet because I guess cells dont
> broadcast
> all that much when not in use, right?
If switched 'on' they DO exchange info with their 'cell' from time to
time.
If left stationary they will do so less, but if in motion they will do
so more frequently.

> Would there be enough output to find them?
2 Watts (for a cellphone) is more than enough!

> Would it be strong enough to detect over a distance of say 100m?
Yes.

> Could signals from multiple devices be distinguished?
That could be troublesome. I have only experience with analogue
signals.

> Would the equipment be very expensive.
Analogue can be home-build

> Would I get thrown in prison?
Depends on your country. Not here (in the Netherlands).

Gerard.

The TS-820S came out in 1978. It did not have a built in keyer. Use a mono
1/4 " phone plug, it ought to work fine. I still have mine.

From now on there is a new spare parts portal in Turkey. www.yedekparcarafi.com
As Özolgun Dizel Automotive we share our experience of 30 years and
also offer cooperation. We spent most of our time as an Iveco
Responsible Service. Now, we are mentioned together with the most
important names of our branch. It is a real proof that we have never
lost our clients even if we quit our relationship with Iveco.
Nowadays we dedicate our experiences to every regions of Turkey by
gathering all the knowledge that we possess in our spare parts e-
trade website.
Our prior ambition is to render service to all commercial vehicle
and spare parts sellers , also to the owners of the vehicles. We
intend to be a brand in virtual spare parts market.
Our purpose is to subscribe to an excellent priority with spare parts
manufacturers. We can do this only with your attendants.
We offer you to convey your products to the consumers with the most
appropriate price. With the help of a button related to your company
name, you will have a chance to advertise your profession.Furthermore,
your products will be carried to the market directly.
For further information please contact us from the following contact
points. Kindly please visit ourwebsite in order to recognize us
better. Your kind attitude towards our profession will be highly
appreciated.
Thank you for your kind attention on this issue.
Best regards

Just a thought, are you wanting the original microphone for
authenticity, or do you just want a microphone to use the radio?

If the latter, then a possible alternative solution might be to take
an existing microphone, and homebrew a suitable adaptor to be able to
use it on your older Icom set. I posted a few notes on this a while
back, although can't seem to put my finger on the post... but I do
remember writing it, and posting it on this very newsgroup. Anyway...
it'll take me longer to hunt it down than to re-write what I wrote the
first time... ;-)

The simplest solution would be of course to track down a microphone
that's compatible out-of-the-box... however if you can get hold of a
microphone that uses the same connector, that could be modified to
suit your Icom. Chances are, just a few wires need to be switched,
and all will be well.

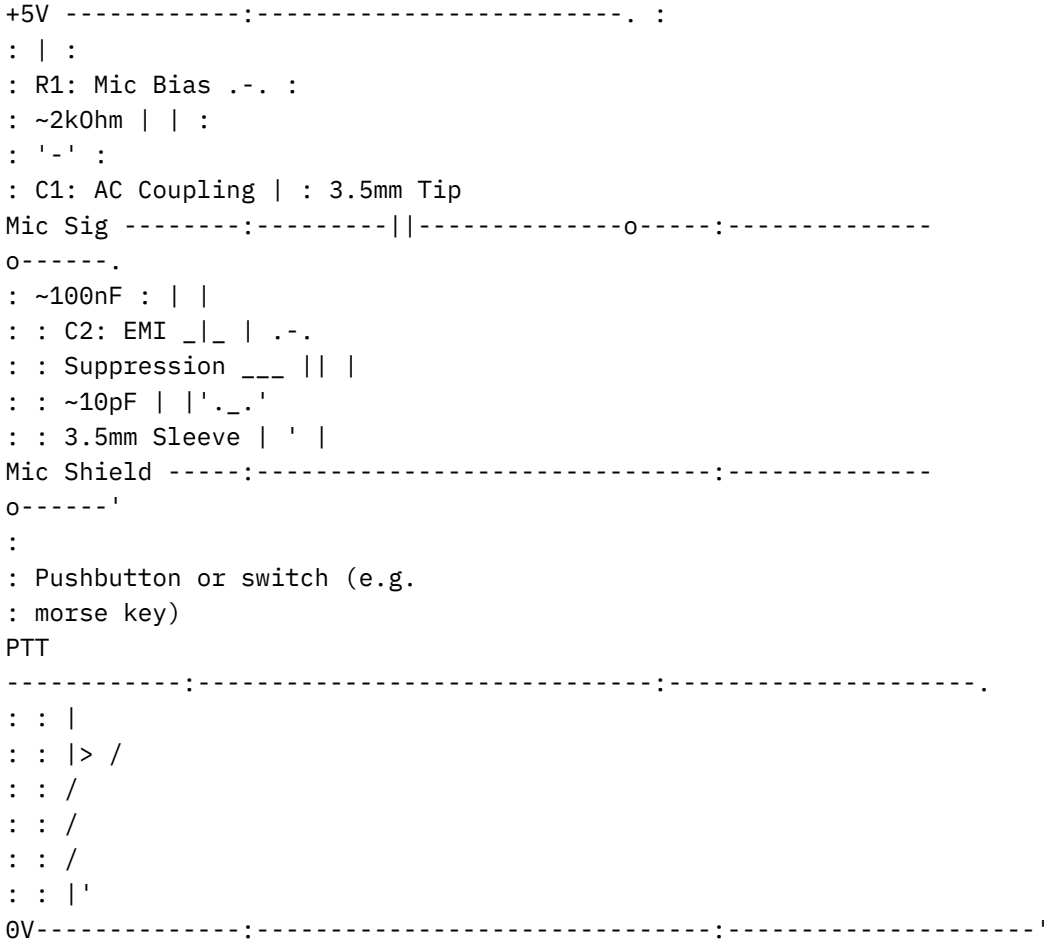
Failing that, if you can track down the connector needed, you can
homebrew a solution utilising a standard electret-type microphone such
as a computer headset or desk microphone, and a suitable switch (heck,
even a morse key). Chances are your radio will be expecting a dynamic
microphone input... to interface this with an electret microphone, you
just need to tap off a voltage source (if your radio doesn't provide
one through the socket, tap your radio's supply, or use a small
battery) which you pass through a 2kOhm resistor -- this connects to
the electret microphone capsule's positive terminal (tip on computer
microphone 3.5mm connectors). From this node in the circuit, run an
AC decoupling capacitor (100nF MKT polyester or ceramics do well)
between this point and the microphone input on the radio. Ground
connections are then just run from electret capsule to microphone
ground on the radio. PTT is fairly straightforward too.

For EMC, it's also a good idea to put a capacitor across the terminals
of the microphone, as close as possible to the electret capsule
itself. Many good quality microphones will have a small SMD ceramic
capacitor soldered to the back of the microphone. This will shunt any
RF picked up by the microphone to ground. This is certainly not a
requirement, and you could get away without.

I do this on my Yaesu FT-290R II, which is a similar vintage to the IC-28A. I have an original microphone for it (with DTMF) but for bicycle mobile use, I have a headset embedded in a motorcycle helmet (homebrewed from bits and pieces of broken headsets). The FT-290's microphone connector provides the following signals:

- Microphone signal
- Microphone shield
- Speaker output (doesn't disconnect internal speaker)
- PTT
- Channel Up button
- Channel Down button
- ~5V source
- 0V reference

So my connections are (please excuse the ASCII-art)



On my bicycle mobile station, the pushbutton is mounted on the handlebars... in a home station, one option is as I say, a straight morse key, a simple switch, even a foot switch. The above wiring I find gives good results and I get excellent signal reports -- unless I happen to be in tiger country. For a computer interface, I did the same as above, but instead swapping the electret capsule for a plug running straight to the computer's line output via an isolation

transformer, and using a BC547B NPN transistor across the PTT lines -- connecting the base and emitter to RTS and 0V on a USB serial converter.

Anyway, that's a possible solution to your problem, and has the advantage that you save a few dollars buying the one microphone and just interfacing it to multiple radios, rather than buying multiple more expensive microphones.

33e RADIO FLEA MARKET in BEETSTERZWAAG on 28 May 2011

The radio flea market takes place to - 28 May 2011. Do you look for an exotic transistor kit or a super recipient, fixed and do manufacture kit...
or do meet of radio friends? Dan comes Saturday 30 May to the Friese radio market into Beetsterzwaag!

Many thousand visitors come each year from the entire Netherlands and Europe to this radio flea market spectacle, approx. 100 dealers, with most diverse articles, like transmitters, recievers, power supplies, antennas, software, hardware and literature.

Additionally of businessmen in the place also a flea market with many attraction organized for large and small. There are some sales desks free at the moment on the radio flea market, you can reserve by telephone & email, contact on to take with the executive committee. Down are these addresses.

How does one find after Beetsterzwaag? From direction Apeldoorn = > Zwolle = > Meppel = > Heerenveen = > Drachten, departure after Gorredijk Tijnje comes departure (28) Beetsterzwaag.

From direction Bremen = > Groningen = > Drachten = > Heerenveen, departure after Drachten Haven comes departure (28) Beetsterzwaag.

On 2mtr, 145,700 Digi Heerenveen can one to instruct leave themselves. Inlet is from 09:00 to 16:00 MESZ, into which Cafeteria one also boarded into this time.

This whole is organized of VERON FRIESE WOUDEN. Cordially Welcome in Friesland on the 33e FRM!

382. VNAs

Newsgroup: rec.radio.amateur.equipment
Date: 2010-06-19 03:28:39 UTC
From: "C. Andrews Lavarre" <alavarre@gmail.com>
Message-ID: <IPWSn.101232$rE4.52470@newsfe15.iad>
Source record: 1050

Hi,

What is the best VNA for amateur work, and why?

I have recently made a generational leap from transmatches, grid dip meters, Smith Charts, and wire cutting to an awareness of VNAs (Vector Network Analyzer), e.g.,

+ http://www.members.shaw.ca/swstuff/vna.html
+ http://www.miniradiosolutions.com/

and many others.

I started looking at VNA gear - toys that combine TDRs, VSWR meters, Z and Q meters all in one tiny box and connect to your laptop for a host of other analyses plus Smith Charts !! And promise instant wisdom and nirvana...

Not having seen, let alone used, one I wonder...

So this is a new frontier for me. What are your opinions (admittedly a troll) on the "best" of class?

My research suggests:

+ Array Solutions AIM 4170 by W5BIG
+ the mRS miniVNA

The eham.net site is really very good. I copied its Analyzer page

http://www.eham.net/reviews/products/31

into a spreadsheet so that I can sort by cost, rating, number of reviews, etc.

But analysis is only so good in the absence of actual experience ... :-)

So what do you think?

What is the best VNA for amateur work, and why?

Kind regards, 73, Andy
WA6VCT

385. As a matter of fact, MBT shoes can activate our neglected muscles in out feet and evenly distribute the pressure on the back.www.cntrade09.com

Newsgroup: rec.radio.amateur.equipment
Date: 2010-06-24 12:15:10 UTC
From: xiangmei chen <chenxiangmei85@gmail.com>
Message-ID: <9a32eddb-465f-45fa-92c2-374b47114b88@y4g2000yqy.googlegroups.com>
Source record: 953

If you want to keep your feet comfort, the MBT shoes you really should try. You may surprise why the MBT shoes were so popular on the market, so at here, Kitty will do a simple introduction about how popular the fashion shoe is.

This multilayered sole are created to mimic the unevenly surfaces for barefoot walking benefits. This design comes from the concept that barefoot walking is beneficial to human body. Barefoot walking can make our feet feel the ground and sometimes the pain will teach us how to correct our postures and gait. While with shoes, we can not feel the pain then our bad habits will continue till we feel more pain on back.

As revolutionary shoes among a range of footwear, MBT shoes, or Masai Barefoot Technology, have an innovative approach to posture training that would be the basic solution of your pain. The secret of MBT shoes lies in the patented sole.

Moreover, this footwear actually activates the whole body that can really stimulate your metabolism and burn more calories. That is to say when MBT shoes work from head to toe to improve the balance and posture of the body, they also can bring you, especially ladies more better figure.

As a matter of fact, MBT shoes can activate our neglected muscles in out feet and evenly distribute the pressure on the back. The instability in the sole ensures that muscles make movements more in line and naturally. That will result in more improved posture and gait, and you body will be straighter, the pain will be less.

Well, do you want to keep your body health? Then the MBT shoe is certainly the best choice for you. If you want to buy the popular shoes, you can visit our website, at the site, you can get the best MBT shoes, at the same time, you can find other popular shoes also, like the Nike basketball shoes, Nike Air Jordan shoes, and so forth, just buy one style for your self, and you will happy for your choice. 386. Kenwood TM-V7A undocumented feature?

Newsgroup: rec.radio.amateur.equipment
Date: 2010-06-25 11:34:11 UTC
From: N8MMR <rhwiley@gmail.com>
Message-ID: <7f8a1483-2327-4f6b-8fe0-80e47c253c81@s9g2000yqd.googlegroups.com>
Source record: 954

My Kenwood TM-V7A has been my backup radio which didn't get used much. I always had planned on installing it into my vehicle when time allowed. However, with my TM-733 going on the fritz, I've had to go to the V7A more often recently.

With that said, I'm noticing an issue with the TM-V7A I'm not sure if it's 'normal'. When I first power it up, I get the banner screen for the unit, then it goes straight to VFO mode. I haven't been able to find any documentation about this, but I thought there should be a way to make it go to memory mode at powerup.

Has anyone else encountered this 'issue' and hopefully found a solution?

Thanks and 73,

Bob, N8MMR

Bob,

It has been a looooong time since I fiddled with the configuration of my rig, but when I turn it back on, it comes up in exactly the mode it was in when I turned it off. Take a look in the menu for Memory, and then Autostore. Turning it on will probably solve your problem. It is covered on page 39 of my manual.

I'm not licensed yet, so have no experience whatsoever, but aren't
some of those rigs software upgradable. Might try that.

If you have the newest version of the software, version 4 with USB cable, you would be able to simply cut and paste or copy and paste memories to your heart's content.

394. Help? I need inductor value or schematic for Uniden BC 50XL scanner....thanks

Newsgroup: rec.radio.amateur.equipment
Date: 2010-06-28 22:52:39 UTC
From: Huck <Huck.66f2848@radiobanter.com>
Message-ID: <Huck.66f2848@radiobanter.com>
Source record: 962

Hello. New poster here. I have a Uniden BC 50xl scanner (low-end, 10 channel). I am new to the hobby, but have some electronic repair experience.

There is an inductor connecting the antenna (center conductor of the ant. BNC) to the main PCB. It has been destroyed and rendered unidentifiable in my unit. It was a mechanical failure (the component separated and lost the color coded paint).

Might someone have a circuit diagramme for this unit? Alternatively, if anyone has one of these units, would you please open your unit and tell me the color code or value for this inductor?

Much thanks.....-huck

It is unlikely that there is an inductor at that point.
It probably is a capacitor.

How did you identify it as an inductor? Is there lots of wire in it?

Hi Rob, and thanks for your reply.

I believe it was an inductor because it was an axial-lead component resembling a resistor (epoxy painted, with color code bands), except that the color of the base paint was bright neon green, rather than tan.

It was soldered directly to the center terminal of the BNC, and on the other end, to the PCB.

When the scanner stopped receiving, I opened the unit and found the component had separated, with the paint in bits scattered about and unreadable.

It did have a bit of fine wire in it. Unfortunately, after I de-soldered the remains, I lost them. I have done quite a lot of searching on the internet, as well as within this forum. As yet, I have been unsuccessful. I believe the unit was fairly popular, so I'm surprised that a schematic for it is so elusive.

It probably doesn't matter what you put there.
Use a plain wire, or when there is suspicion that it might have been
a capacitor then use a small ceramic cap of 100pF..1nF.
You will not notice any difference in performance either way, but it
could be there was a capacitor there to block DC.

Thank you for your input.

I will try a straight connection with a bit of wire.

You also need to check if the connector has come loose, I think
it it rotating in its mounting hole which has destroyed the
unidentified component.

401. Crossposting Permitted to rec.radio.amateur.moderated

Newsgroup: rec.radio.amateur.equipment
Date: 2010-07-01 06:00:02 UTC

```
Posted-By: auto-faq 3.3.2 beta (PGPMoose V2.0, Perl 5.005)
Archive-name: radio/ham-radio/moderated/crossposting
Revision: 1.1 2009/04/12 19:42:04
Posting-Frequency: posted monthly
URL: http://www.panix.com/~rram/usenet/rram/index.html

Changes followed by "|".

After a 30-day public discussion and feedback period to gauge reader
opinions in March of 2009:

http://groups.google.com/group/rec.radio.amateur.moderated/browse_thread/thread/d7d337db35
f23326

the rec.radio.amateur.moderated Moderation Team has decided to consider
amending its charter, and permit limited simultaneous crossposting to
rec.radio.amateur.moderated and one other unmoderated
amateur-radio-related discussion newsgroup. We are currently trying
this on a temporary basis (90 days, through early July 2009), and adopt
it permanently if successful.

Approved rec.radio.amateur.* newsgroups are those that are currently
listed in the latest version of the "List of Big Eight Newsgroups" which
is crossposted monthly to news.announce.newgroups, news.groups, and
news.lists.misc.

Approved alt.radio.amateur.* and alt.ham-radio.* newsgroups are those
that have been created consistent with the suggestions in "So You Want
to Create an Alt Newsgroup" at:

http://www.faqs.org/faqs/alt-creation-guide/

Approved regional hierarchy newsgroups are those that contain either
"radio.amateur" or "ham-radio" in their names, including
uk.radio.amateur and aus.radio.amateur.misc.

We will make every reasonable effort to keep our list of approved
newsgroups up-to-date. In case we have overlooked any, and a submission
is rejected in error as a result, the rejected submitter can E-mail us
at our administrative contact address (in the signature at the bottom of
this article, and the default Reply-To for the rejection message)
requesting that it be added, and that the article be approved. We may
still choose to reject articles crossposted to any alt.* newsgroup with
an inappropriate name, including obscene language, embedded
name-calling, or encouragement of unlawful conduct.
```

Please direct any comments, questions, or criticisms to
rec-radio-amateur-moderated-request@panix.com.

408. VX-7R memory management issues

Newsgroup: rec.radio.amateur.equipment
Date: 2010-07-03 03:20:55 UTC
From: Phoo Barr <someone@someone.someone>
Message-ID: <20100702222055526303-someone@someonesomeone>
Source record: 976

I'm having a helluva time figuring out how to edit/mask one of my
memory channels on my VX-7R.

The really odd thing is, I can edit or mask *any* other memory channel,
except for this particular one!

I'm not using any memory groups, "special", nor one-touch memories.
Just the basic bank of 499 (or whatever).

Steps I take to edit the memories:

* V/M toggle to VFO mode
* Select freq. & tone settings
* MON/F for .5 secs
* Dial to desired memory number
* MON/F

This works on *any* other memory channel (even existing ones), except
#7. I can't mask it, either.
What is happening? How can I edit this memory channel?

Thanks.

It's possible that you have memory #7 set to be your priority channel.

Posting-Frequency: posted monthly
URL: http://www.faqs.org/faqs/radio/personal-intro/

Changes followed by "|".

The rec.radio.info newsgroup, first established in 1993, has been
recently revived by an active moderation team. We are currently seeking
suitable information, FAQ, and bulletin articles from the entire
rec.radio.* newsgroup hierarchy for simultaneous cross-posting to our
newsgroup.

We are seeking a replacement maintainer for the following information
bulletin formerly posted to rec.radio.amateur.* (and currently archived
at http://www.faqs.org/faqs/radio/personal-intro/ ):

radio/personal-intro
Subject: Guide to the rec.radio Newsgroups
Maintainer: jeffreyh@Hawaii.Edu (Jeffrey Herman)
Last Posted: 9 Nov 2001 06:18:17 GMT
Posting-Frequency: 15th of each month

One significant omission, requiring immediate updates, for this article |
is that it does not mention newer amateur radio newsgroups created since |
it was written, including: |

rec.radio.amateur.antenna |
rec.radio.amateur.boatanchors |
rec.radio.amateur.dx |
rec.radio.amateur.equipment |
rec.radio.amateur.homebrew |
rec.radio.amateur.moderated |
rec.radio.amateur.space |

We are willing to provide any technical support necessary to get this
article updated and automatically posted again at a regular interval.
This would include establishing contact with the original maintainer for
any necessary permissions. We would prefer to seek a new, dedicated
maintainer at this time, rather than start auto-posting the original
article ourselves.

For more information about our newsgroup, see:
```

http://www.panix.com/~rram/usenet/rri/index.html

Please direct any comments, questions, or criticisms to
rec-radio-info-request@panix.com.

Subscribe FREE to the K9YA Telegraph. It's Free, It's Fun, It's All About Ham Radio.

The K9YA Telegraph is a free, monthly, general interest amateur radio publication read by Hams in more than 100 countries. The K9YA Telegraph contains the stories and features most wanted by our readers, because it is written by them. An e-Zine, it is delivered monthly as a full-color PDF file.

If you're in the mood for Morse, hankering for history, gluttonous for gear, ravished for a review, needing nostalgia, or just plain famished for fun, you'll find it in the K9YA Telegraph.

To check out sample issues, subscribe or write an article, visit the K9YA Telegraph Web site.

447. GHD Rare Styler New Hair Straightener Set

Newsgroup: rec.radio.amateur.equipment
Date: 2010-07-30 09:21:43 UTC
From: lizhou zhu <lizhou0207@gmail.com>
Message-ID: <5ef8726b-51ad-4361-81c0-4ac12fb10e5a@y12g2000prb.googlegroups.com>
Source record: 865

December 12th 2009 - With Christmas just around the corner, I thought I might as well add a fancy shampoo and conditioner onto my christmas list - in fact, I might as well add a couple of both! The first I have chosen is the body shop banana shampoo and conditioner (see below for pics). Now, admittedly I chose these products because they smell like bananary heaven, but they weren't cheap and the body shop is known for supplying good quality products so I am expecting good things! Each bottle cost £3.99 for 250ml which is quite pricey because 250ml really isn't that much (especially when you have mega long, thick hair which absorbs conditioner like a sponge!). However, if my hair is left smelling anything like these products, I'll be happy no matter what the condition of it is like!

December 3rd 2009 - Well, I have been using Redken for just over two weeks now and I have to say, I am not overly impressed. I would say that my hair is slightly softer and less brittle feeling, but a slight improvement isn't really good enough when you consider the price of these products. It's very annoying because I have been to hairdressers where they have washed my hair in Redken products and when I leave, my hair is soft, bouncy, shiney - just like a shampoo advert! I can never seem to reproduce this effect at home though, no matter how much money I spend on products. Perhaps it is the hair washing technique rather than the product? Who knows! Anyway, I'm not going to buy Redken again... the hunt for the perfect products continues!

November 15th 2009 - I was having a browse around the internet today when I came across a site selling Redken hair products. Yes that's right, I wasn't looking or anything, I just came across it accidently. I had a look through their different product ranges and read reviews on the various types you could get. I decided that the "all soft" line sounded like it had the most positive results, seemingly transforming people's hair from dry and straw like, to silky soft and smooth. Just what I was after. So I have ordered some and it should arrive in a couple of days. I'm quite apprehensive, afterall, my previous attempts at fixing my hair haven't been all that successful but I am trying to stay positive. At £20 for the shampoo and conditioner, it was pricey but the cheapest of the ones I have tried so far. Below is a picture of the product range. Gold bottles has to mean good things, right?

448. FA: TERK/audiovox FM-50 indoor/outdoor amplified antenna

Newsgroup: rec.radio.amateur.equipment
Date: 2010-07-30 10:39:48 UTC
From: radioguy <radioguy88@earthlink.net>
Message-ID: <pZCdnch-DMv7MM_RnZ2dnUVZ_o6dnZ2d@earthlink.com>
Source record: 866

Come see one of the best amplified radio antennas on the market with an 11 dB gain, can be mounted indoors or outdoors, is weatherproof and can even be painted to match your audio components plus a lot more for an opening bid that is 32% off or buy it now for 24% off. It is the Terk FM-50 Amplified Antenna by Audiovox and you can learn more at the link below. The auction will expire this coming Sunday, August 1st at 9:41 PM central. Thanks for looking!

452. Crossposting Permitted to rec.radio.amateur.moderated

Newsgroup: rec.radio.amateur.equipment
Date: 2010-08-01 06:00:03 UTC
From: rram@panix.com
Message-ID: <radio/ham-radio/moderated/crossposting-1-1280642401@panix.com>
Source record: 870
Cross-posted to: rec.radio.amateur.antenna,rec.radio.amateur.dx,rec.radio.amateur.equipment,rec.radio.amateur.homebrew,rec.radio.amateur.misc,rec.radio.amateur.policy,rec.radio.amateur.space,rec.radio.info

```
Posted-By: auto-faq 3.3.2 beta (PGPMoose V2.0, Perl 5.005)
Archive-name: radio/ham-radio/moderated/crossposting
Revision: 1.1 2009/04/12 19:42:04
Posting-Frequency: posted monthly
URL: http://www.panix.com/~rram/usenet/rram/index.html

Changes followed by "|".

After a 30-day public discussion and feedback period to gauge reader
opinions in March of 2009:

http://groups.google.com/group/rec.radio.amateur.moderated/browse_thread/thread/d7d337db35
f23326

the rec.radio.amateur.moderated Moderation Team has decided to consider
amending its charter, and permit limited simultaneous crossposting to
rec.radio.amateur.moderated and one other unmoderated
amateur-radio-related discussion newsgroup. We are currently trying
this on a temporary basis (90 days, through early July 2009), and adopt
it permanently if successful.

Approved rec.radio.amateur.* newsgroups are those that are currently
listed in the latest version of the "List of Big Eight Newsgroups" which
is crossposted monthly to news.announce.newgroups, news.groups, and
news.lists.misc.

Approved alt.radio.amateur.* and alt.ham-radio.* newsgroups are those
that have been created consistent with the suggestions in "So You Want
to Create an Alt Newsgroup" at:

http://www.faqs.org/faqs/alt-creation-guide/

Approved regional hierarchy newsgroups are those that contain either
"radio.amateur" or "ham-radio" in their names, including
uk.radio.amateur and aus.radio.amateur.misc.

We will make every reasonable effort to keep our list of approved
newsgroups up-to-date. In case we have overlooked any, and a submission
is rejected in error as a result, the rejected submitter can E-mail us
at our administrative contact address (in the signature at the bottom of
this article, and the default Reply-To for the rejection message)
requesting that it be added, and that the article be approved. We may
still choose to reject articles crossposted to any alt.* newsgroup with
an inappropriate name, including obscene language, embedded
name-calling, or encouragement of unlawful conduct.
```

Please direct any comments, questions, or criticisms to
rec-radio-amateur-moderated-request@panix.com.

454. WANTED: Knight Kit Ocean Hopper Receiver

Newsgroup: rec.radio.amateur.equipment
Date: 2010-08-02 12:13:30 UTC
From: Dennis Shreve <Dennis.Shreve.69ca408@radiobanter.com>
Message-ID: <Dennis.Shreve.69ca408@radiobanter.com>
Source record: 872

I built a Model 749 in the late 1950's. I am now looking to buy a nice one for my antique radio collection. If you have a Knight Kit Ocean Hopper Model 740 or 749 that you would care to part with, please let me know. I would prefer one that works and is in pretty nice shape, and with a case and a few plug-in coils. I have searched E-Bay, but I have not found one yet. I thought that I would try this forum for a more serious search. You can reach me at my e-mail address dhshreve@aol.com or call my cell # at 614-975-0472. Thank you. Dennis Shreve, Westerville, OH

This isn't a buy and sell newsgroup, it's for the discussion of amateur
radio equipment.

What's more, it's intended for the discussion of current amateur radio
equipment.

There's rec.radio.amateur.boatanchor for things old enough, not that it's
really intended to be a buy and sell newsgroup either.

The amusing part is that people continue to think newsgroups are a place
for ads, yet they do nothing to contribute to them, leaving all these
empty spaces where most of the posts are ads, nobody providing actual
content that might make the newsgroup a place where people might be
reading to see the spam.

When talking about fast hair growth, people always think they are missing out on some miraculous formula that is going to make their hair grow instantly long. The only realistic way to achieve this is implanting hair extensions. However, if you wish to grow your hair naturally long, you will have to dedicate a few months to see amazing results. This article will give you some tips on how you should treat your hair if you want to grow it long and healthy.

Let's start from everyday hair care. Unless you stick to the right routine, you can forget about fast hair growth. It is recommended to shampoo your hair approximately three times a week since this will enable you to keep it clean and oiled enough to stay healthy. Also, regular conditioning is a must. Condition your hair after every washing, by spreading the conditioner from the midsection to the hair ends. Deep conditioning done twice a month can also help your hair.

In addition to these common products, you can make some hair remedies on your own. These are usually herbal mixtures and they can make fast hair growth a piece of cake.

Rosemary is one such plant and you can mix it with your cleansing shampoo. After applying this mixture to your hair, you will have no dandruff problems. Rosemary oil is also wonderful and you can make a mixture of it with arnica, southernwood and marigold oil. This blend, when rubbed onto the scalp, works great against hair loss.

Aloe vera is another useful herb for hair growth boosting and the best thing about it is that it has no negative side effects. You can use only the gel or mix the gel with some other ingredients to make an aloe vera shampoo. The gel is best used when applied directly to the scalp and can enable fast hair growth. Aloe vera contains an enzyme that is said by many to promote hair growth. Aloe shampoo is another excellent remedy. Mix aloe gel with coconut milk and wheat germ oil. This can be very useful for people who have balding problems.

On average, people's hair grows at about half an inch a month. Therefore, if you wish it to grow undisturbed, you have to nourish it as much as possible. Proper hair nourishment includes eating plenty of raw fruits and vegetables. Adding protein will also be beneficial for your hair growth and you will see that the intake of proper nutrients will improve your hair quality. In addition, drink plenty of water on a daily basis. This simple act tends to ill keep your system and body well hydrated.

Bottom line, there is so much you can do to achieve fast hair growth. Combine healthy diet with homemade hair products and your hair will

reward you with an amazing growth.

Prom is an important part in life of every individual and everyone wishes to have the best look at prom. The type of hairstyle that you sport at this occasion is very important in determining your style quotient. Further, different women have different type and length of their hair. Thus, it is very important they choose such a hairstyle which suits their personality and type and length of their hair.

Women can choose from a wide variety of prom hairstyles for long hair. These styles include chic cut, boho waves or curly hair. While choosing one out of various prom hairstyles for long hair, you must keep your personality in mind. The style that you would have chosen should suit your personality. Otherwise, such a hairstyle would look odd and ruin your appearance at such an important event of your life.

If you decide to go for a chic cut, your hair would be organized in the form of plates. A strapless dress would be a perfect with such type of hairstyle. You can even choose some trendy accessories to combine them with your hairstyle and dress. One of the most important prom hairstyles for long hair is by organizing your hair in the form of waves. You can even check out various available options on the internet. You will see a variety of possible hairstyles on various websites which you can sport. However, you need to consult a hair style expert before going for any such style.

You would find that you can sport this style with ease besides adding elegance to your appearance. The hair can be organized in a bun and flowers can be added. This would create a sexy look. You can arrange your hair in the form of braids or layers. You wouldn't need any more accessories as the combination of flowers along with the exciting hairstyle would provide you enough elegance. In fact, overuse of accessories can ruin your appearance.

```
Posted-By: auto-faq 3.3.2 beta (PGPMoose V2.0, Perl 5.005)
Archive-name: radio/ham-radio/recruitment
Revision: 1.2 2009/11/25 14:41:01
Posting-Frequency: posted monthly
URL: http://www.faqs.org/faqs/radio/personal-intro/

Changes followed by "|".

The rec.radio.info newsgroup, first established in 1993, has been
recently revived by an active moderation team. We are currently seeking
suitable information, FAQ, and bulletin articles from the entire
rec.radio.* newsgroup hierarchy for simultaneous cross-posting to our
newsgroup.

We are seeking a replacement maintainer for the following information
bulletin formerly posted to rec.radio.amateur.* (and currently archived
at http://www.faqs.org/faqs/radio/personal-intro/ ):

radio/personal-intro
Subject: Guide to the rec.radio Newsgroups
Maintainer: jeffreyh@Hawaii.Edu (Jeffrey Herman)
Last Posted: 9 Nov 2001 06:18:17 GMT
Posting-Frequency: 15th of each month

One significant omission, requiring immediate updates, for this article |
is that it does not mention newer amateur radio newsgroups created since |
it was written, including: |

rec.radio.amateur.antenna |
rec.radio.amateur.boatanchors |
rec.radio.amateur.dx |
rec.radio.amateur.equipment |
rec.radio.amateur.homebrew |
rec.radio.amateur.moderated |
rec.radio.amateur.space |

We are willing to provide any technical support necessary to get this
article updated and automatically posted again at a regular interval.
This would include establishing contact with the original maintainer for
any necessary permissions. We would prefer to seek a new, dedicated
maintainer at this time, rather than start auto-posting the original
article ourselves.

For more information about our newsgroup, see:
```

http://www.panix.com/~rram/usenet/rri/index.html

Please direct any comments, questions, or criticisms to
rec-radio-info-request@panix.com.

Source record: 894

Our fire department switched to a 800mhz radio system we are currently trying to get rid of our old Motorola 400mhz system. Ideally we would like to help a fire department if they could use it, but are willing to explorer other options. Let us know if the is worth our time. We have the complete system working when removed from service.
-Voters
-Repeaters
-MT1000 Portable Radios and chargers
-Mobile Radios from trucks
-MT2000
-Full rack of electronics

If you need pictures we can send you some. Any help would be appreciated.

Thanks,
Ross Vance
Arvada Fire Protection District

Message-ID: <Jim.Holich.6abcd48@radiobanter.com>
Source record: 897

Just bought a pristine Henry 2K-3 console amp. It was modified by the original owner to add the 160 meter band. I'm looking for comments from users before I put this monster on-line. I'm going to use a keying interface between my IC-746 PRO and the amp. Anything else I should be doing?

Message-ID: <w1jeq.6aec4a9@radiobanter.com>
Source record: 898

I have the original Kantronics KAM (made in the mid 80s) that had the firmware upgraded to v4.00. My manual is for the original firmware but several commands are different. Does anyone have a v4.00 firmware manual in electronic format (pdf) or wouldn't mind scanning their into pdf?

please reply here on the board, and i'll priv-message you my email address.

thanks and 73 in advance

481. Meters for sale (LOTS OF THEM)

Newsgroup: rec.radio.amateur.equipment
Date: 2010-08-17 01:51:06 UTC
From: Eugene Rippen <soundval@muchstuff.com>
Message-ID: <Xns9DD6BFC08132Fer7373@69.16.186.8>
Source record: 899

20 meters this time (I have about 500 more.).
All have tested good movements.
Shipping will be calculated based on 14 lbs.
PayPal and USPS money orders are like cash.
Personal checks, I wait to see if they are honored.

I also have about 500 more which today at this time I will sell them ALL
at the rate of $4 each.
The list of them is at
http://www.muchstuff.com/meters/metersfs.htm
My estimate is that i can get them down to about 20 file size boxes, and
about 350 lbs.

I am not offering these meters individually at this time.
They are in a storage a few mile from here.

500 are round and square and large and small, and the list at
http://www.muchstuff.com/meters/mtrsfs.htm is better than 98% accurate,
but these 20 are part of that list.
These 20 below were in one carton I picked at random.)

Eugene Rippen, WB6SZS
Auburn, CA
soundval@muchstuff.com

(Since some of these require 1/8 inch over 2 inch diameter holes,
I don't measure each one, I just say 2 1/8 inches.)

WESTON 506 meter 25 DCma & 100 & 200 scales also.
WESTON 506 meter. Scale is 25, 100 & 200 DCma.
Works. Panel hole should be 2 1/8 inches Diameter.
http://www.muchstuff.com/meters561-585/m0576.jpg

GE 8AW41 meter Scale is 15 V. AC-DC
Type AW-41. Works. Panel hole should be 2 1/8 inches Diameter.
http://www.muchstuff.com/meters561-585/m0579.jpg

GE 8DW552ACE8 meter 2 A. RF
Type DW-52. Thermocouple. Scale is 2 A. RF. Works.
Works. Panel hole should be 2 1/8 inches Diameter.
http://www.muchstuff.com/meters561-585/m0580.jpg

Roller-Smith meter 50 DC microA. & DB scale.
Model DOHRG. 5000 ohms. Also has a DB scale: -4 to 0 to 3 dB. Sealed.
Works. Panel hole should be 2 1/8 inches Diameter.
http://www.muchstuff.com/meters561-585/m058.jpg

Westinghouse meter. Scale is 300 DCma.
Works. Panel hole should be 2 1/8 inches Diameter.
http://www.muchstuff.com/meters561-585/m0581.jpg

Roller-Smith meter. Scale is 300 DCV.
Type: DDHR
Works. Panel hole should be 2 1/8 inches Diameter.
http://www.muchstuff.com/meters561-585/m0582.jpg

GE 8DW41 meter scale is 200 DCma
Type DW-41.
Works. Panel hole should be 2 1/8 inches Diameter.
http://www.muchstuff.com/meters561-585/m0577.jpg

Simpson meter. Scale is 50 VDC
Note that the bezel is shaved on the right side.
Works. Panel hole should be 2 1/8 inches Diameter.
http://www.muchstuff.com/meters561-585/m0578.jpg

Westinghouse meter. Scale is 300 DCma.
Style: 1209738. USN Type CAY-22238A
Works. Panel hole should be 2 1/8 inches Diameter.
http://www.muchstuff.com/meters561-585/m0575.jpg

Burlington 321 meter. 50 DCma
Sealed.
Works. Panel hole should be 2 1/8 inches Diameter.
http://www.muchstuff.com/meters561-585/m0570.jpg

Triplett 221 meter. Scale is 25 DCma
Works. Panel hole should be 2 1/8 inches Diameter.
http://www.muchstuff.com/meters561-585/m0565.jpg

Triplett 221-T meter. Scale is 5 DCma
Works. Panel hole should be 2 1/8 inches Diameter.
http://www.muchstuff.com/meters561-585/m0572.jpg

WESTON 507 meter. Scale is 10 RF Amps.
Scale says: "Antenna Current Indicator".
Works. Panel hole should be 2 1/8 inches Diameter.
http://www.muchstuff.com/meters561-585/m0571.jpg

GE ABA8 meter. Scale is 200 DCma.
Type DW-41
Works. Panel hole should be 2 1/8 inches Diameter.
http://www.muchstuff.com/meters561-585/m0574.jpg

Million meter. Tube checker scale "GOOD - BAD"
Radio Television Laboratories. This was for the tube testers that they
made
named "Million"
There is a crack at mounting hole, is picture.
Works. Panel hole should be 2 1/8 inches Diameter.
http://www.muchstuff.com/meters561-585/m0563.jpg

Westinghouse meter. Full scale is 0.25 Amps. "Antenna Current"
Type NT-33. Scale is marked 0 to 5 (no units epressed). Style 11640038.
"Antenna Current" on scale. Scale says: "F.S.= 0.25 Amps"
Works. Panel hole should be 2 1/8 inches Diameter.
http://www.muchstuff.com/meters561-585/m0562.jpg

Triplett 221 meter. Scale is 150 DCma.
Works. Panel hole should be 2 1/8 inches Diameter.
http://www.muchstuff.com/meters561-585/m0566.jpg

Triplett 221 2 DC Amps
Works. Panel hole should be 2 1/8 inches Diameter.
http://www.muchstuff.com/meters561-585/m0568.jpg

WESTON 506 Meter. 500 DC ma
Works. Panel hole should be 2 1/8 inches Diameter.
http://www.muchstuff.com/meters561-585/m0564.jpg

Phaostron Z-1183 meter. "Ruggedized - Sealed"
Scale says 0 to 9 "Nautical Miles"
Works. Panel hole should be 2 1/8 inches Diameter.
http://www.muchstuff.com/meters561-585/m0561.jpg

482. ghd Green Envy

Newsgroup: rec.radio.amateur.equipment

It is sleek, stylish, clean and popular. Not to mention, celebrities have started to style their hair this way. It also has a bit of a funky twist to it. No, it's not your average every day hairstyle, but more and more people are stepping out into public with it. What style are we talking about? We are talking about the faux Mohawk hairstyle. So, you have decided to get one of these, right? What inspired you to do so? Whatever it is, just make sure it is what you want. You should not do it just because all of the cool people are doing it. This is something that needs to fit your own style and your own personality. If it does not fit you, then do you expect it to look good on you?

This style comes from the more extreme Mohawk. Does it look better on men or on women? In our honest opinion, we believe it looks good on both sexes. It all depends on the individual. That's right, both men and women have started to turn to this. However, we noticed that more men than women are starting to get it.

What length of hair do you need? Basically, it works good for any length. You have long hair? Then you are in luck with this. You no longer have to shave both sides of that head just to get that great look. You can just pink those sides. This is perfect for that weekend fun and it can easily be un-done or tamed down.

Women that have medium length to long hair will be able to backcomb the top part in order to give the higher they want.

So, now you can go get that faux Mohawk done. Oh yeah and don't forget that extra strong hold hairspray!

It's safe to assume all the R39X compatible units have been sifted out...

How radioactive is a box of these meters, Gene?

From: VK2KC Gmail <vk2kcjohn@gmail.com>
Message-ID: <i4ld8s$5nl$1@news.eternal-september.org>
Source record: 905

I was wondering if anyone has been programming the Wouxun handheld via a computer using Wouxun's software.

I eventually got all installed and working, however when I got to print out the details of the frequencies which I had programmed and saved to the hand held (about 120) the print program only allows 3 pages rather than 4 to be printed.

Despite a few emails to Wouxun in China they cannot shed any light on as to why the 4 pages don't print. I suggested that they had a problem with the program and that bought a swift and rapid denial!

I have tried the program on 3 different computers in 3 different locations but to no avail.

They use a .tw as a file extension, and despite trying many programs nothing will open it, as I thought I could do a cut and paste into an Excel file, but cutting from the matrix and pasting to Excel is not accommodated.

Not unless you can build a PRom Simulator that plugs into where the PRom
goes and write a whole bunch of code in the Simulator.....

Hahahahahaha. Because they want you to pay them to turn on the other
channels, or change frequencies, or re-program the radio, etc.

I volunteer at a thrift shop and we just received this radio. It seems to be a highly sought after radio. I bought the batteries for it and everything is working. I think. I need a power cord for it and also some guidance as to price....Universal Radio had a damaged one for $999.95..THIS IS ALL FOR CHARITY and not profit motivated .I would like to sell it at a fair price and avoid E-bay. any help is really appreciated.. thanks

So? Price reflects demand and supply.

If it was a common table radio that everyone has and nobody wants,
price would be close to nil, they'd be tossing them out.

I gather they were fairly expensive at the time of manufacture,
so likely few were bought. They may have even had limited distribution
in North America. So they probably don't exist in large numbers,
especially when you subtract those that were tossed (because they
don't work, because people didn't know what they inherited) and those
who have them may want to hang on to them.

Yet people want them, so the price goes up.

Excellent. 5 ain't bad these days.

504. Crossposting Permitted to rec.radio.amateur.moderated

Newsgroup: rec.radio.amateur.equipment
Date: 2010-09-01 06:00:02 UTC
From: rram@panix.com
Message-ID: <radio/ham-radio/moderated/crossposting-1-1283320800@panix.com>
Source record: 922
Cross-posted to: rec.radio.amateur.antenna,rec.radio.amateur.dx,rec.radio.amateur.equipment,rec.radio.amateur.homebrew,rec.radio.amateur.misc,rec.radio.amateur.policy,rec.radio.amateur.space,rec.radio.info

```
Posted-By: auto-faq 3.3.2 beta (PGPMoose V2.0, Perl 5.005)
Archive-name: radio/ham-radio/moderated/crossposting
Revision: 1.1 2009/04/12 19:42:04
Posting-Frequency: posted monthly
URL: http://www.panix.com/~rram/usenet/rram/index.html

Changes followed by "|".

After a 30-day public discussion and feedback period to gauge reader
opinions in March of 2009:

http://groups.google.com/group/rec.radio.amateur.moderated/browse_thread/thread/d7d337db35
f23326

the rec.radio.amateur.moderated Moderation Team has decided to consider
amending its charter, and permit limited simultaneous crossposting to
rec.radio.amateur.moderated and one other unmoderated
amateur-radio-related discussion newsgroup. We are currently trying
this on a temporary basis (90 days, through early July 2009), and adopt
it permanently if successful.

Approved rec.radio.amateur.* newsgroups are those that are currently
listed in the latest version of the "List of Big Eight Newsgroups" which
is crossposted monthly to news.announce.newgroups, news.groups, and
news.lists.misc.

Approved alt.radio.amateur.* and alt.ham-radio.* newsgroups are those
that have been created consistent with the suggestions in "So You Want
to Create an Alt Newsgroup" at:

http://www.faqs.org/faqs/alt-creation-guide/

Approved regional hierarchy newsgroups are those that contain either
"radio.amateur" or "ham-radio" in their names, including
uk.radio.amateur and aus.radio.amateur.misc.

We will make every reasonable effort to keep our list of approved
newsgroups up-to-date. In case we have overlooked any, and a submission
is rejected in error as a result, the rejected submitter can E-mail us
at our administrative contact address (in the signature at the bottom of
this article, and the default Reply-To for the rejection message)
requesting that it be added, and that the article be approved. We may
still choose to reject articles crossposted to any alt.* newsgroup with
an inappropriate name, including obscene language, embedded
name-calling, or encouragement of unlawful conduct.
```

Please direct any comments, questions, or criticisms to
rec-radio-amateur-moderated-request@panix.com.

Source record: 925

Folks,
I acquired a SR-MP-25 SRS radio and it seems it is not transmitting. I used H-80 mic, H-189 and H-250 handsets, nothing is transmitted. I am about to check the H-80 mic but suspect something is wrong with the unit. One H-80 came with the unit, I bought a NOS unit too and still nothing. I want to eliminate operator error. Does it have to have certain pins jumped or anything like that? I like the radio I would like to get it working. I am in Bay area, Northern CA;

Unit does receive well hence the issue is with transmission only.

THx,
Zee

Well, hopefully they'll come good with a fix. I have two of these handhelds myself, but I'll admit I've never tried using the PC software for them. I hand-programmed one (using keypad) with the frequencies I wanted (almost filled all 128 channels... they could use more), then constructed a cloning cable to program the second one.

http://stuartl.longlandclan.yi.org/blog/2010/01/04/cloning-the-wouxun-kg-uvd1p/ describes the wiring of the cloning cable, should you ever need one.

It was Sony's biggest and most expensive radio in 1975. Pretty rare.
Don't have the new price, though.

If it works well, ask top dollar.

```
Posted-By: auto-faq 3.3.2 beta (PGPMoose V2.0, Perl 5.005)
Archive-name: radio/ham-radio/recruitment
Revision: 1.2 2009/11/25 14:41:01
Posting-Frequency: posted monthly
URL: http://www.faqs.org/faqs/radio/personal-intro/

Changes followed by "|".

The rec.radio.info newsgroup, first established in 1993, has been
recently revived by an active moderation team. We are currently seeking
suitable information, FAQ, and bulletin articles from the entire
rec.radio.* newsgroup hierarchy for simultaneous cross-posting to our
newsgroup.

We are seeking a replacement maintainer for the following information
bulletin formerly posted to rec.radio.amateur.* (and currently archived
at http://www.faqs.org/faqs/radio/personal-intro/ ):

radio/personal-intro
Subject: Guide to the rec.radio Newsgroups
Maintainer: jeffreyh@Hawaii.Edu (Jeffrey Herman)
Last Posted: 9 Nov 2001 06:18:17 GMT
Posting-Frequency: 15th of each month

One significant omission, requiring immediate updates, for this article |
is that it does not mention newer amateur radio newsgroups created since |
it was written, including: |

rec.radio.amateur.antenna |
rec.radio.amateur.boatanchors |
rec.radio.amateur.dx |
rec.radio.amateur.equipment |
rec.radio.amateur.homebrew |
rec.radio.amateur.moderated |
rec.radio.amateur.space |

We are willing to provide any technical support necessary to get this
article updated and automatically posted again at a regular interval.
This would include establishing contact with the original maintainer for
any necessary permissions. We would prefer to seek a new, dedicated
maintainer at this time, rather than start auto-posting the original
article ourselves.

For more information about our newsgroup, see:
```

http://www.panix.com/~rram/usenet/rri/index.html

Please direct any comments, questions, or criticisms to
rec-radio-info-request@panix.com.

CW, The Fun Mode - A New, Free, Brochure for Clubs

The staff at the K9YA Telegraph is pleased to announce its new publication CW, The Fun Mode.

CW, The Fun Mode is a three-fold, full-color, brochure targeted at newly licensed and upgraded amateur radio operators. The brochure highlights the many joys and advantages of Morse operation and suggests routes to its acquisition.

CW, The Fun Mode features a cartoon by K9YA Telegraph cartoonist Dick Sylvan, W9CBT, and offers a selection of notable CW quotations.

CW, The Fun Mode is available, free, to clubs and individuals. The brochure includes a space for clubs to add their own contact information.

CW, The Fun Mode may be downloaded at:

http://www.k9ya.org/downloads/K9YA-CW%20Brochure.pdf

Subscribe FREE to the K9YA Telegraph

521. FS: 400 working meters

Newsgroup: rec.radio.amateur.equipment
Date: 2010-09-10 21:44:27 UTC
From: Eugene Rippen <soundval@muchstuff.com>
Message-ID: <Xns9DEF95EF19F13er7373@69.16.186.8>
Source record: 939

There are over 400 meters in my rented storage.
I wish to now relinquish my proprietary rights to them.
For a small sum of money, someone else can become their master.
SO!.............. for a mere $995, or best offer, plus shipping, off they
go.
The movements for each of these works.
Small side issue: I estimate they can be packed in about 12 to 15 cartons,
and their total weight will be about 280 pounds. I will agree to pay for
any
amount over 300 pounds. (Considering the
total amount paid, I might agree to deliver, but only after receiving
payment in full.)

The list is at:
http://www.muchstuff.com/meterbrand.htm
Please be patient - its slow to appear.

Eugene Rippen, WB6SZS
Auburn, CA 95603

I am using KG-UVD1Pv1.16
Is there a later edition?

Do you have the problem of printing the whole frequency list, even with the latest edition the software only prints 3 pages, when 4 is the complete list.

Solution Manual Kinematics, Dynamics, and Design of Machinery (2nd Ed., Waldron & Kinzel)
Solution Manual Kinematics and Dynamics of Machinery (3rd Ed., Charles E. Wilson & J. Peter Sadler)
Solution Manual Kinematics and Dynamics of Machinery - SI Units (3rd Ed., Charles E. Wilson & J. Peter Sadler)
Solution Manual Machines and Mechanisms : Applied Kinematic Analysis (3rd Ed., Myszka)
Solution Manual Mechanism Design : Analysis and Synthesis (4th Ed., Erdman, Sandor & Kota)
Solution Manual Mechanical Design : A Components Approach (2nd Ed., Peter Childs)
Solution Manual Mechanical Design of Machine Elements and Machines : A Failure Prevention Perspective (1st Ed., Collins)
Solution Manual Mechanical Design of Machine Elements and Machines : A Failure Prevention Perspective (2nd Ed., Collins, Busby & Staab)
Solution Manual Fundamentals of Machine Component Design (3rd Ed., Juvinall)
Solution Manual Fundamentals of Machine Component Design (4th Ed., Juvinall)
Solution Manual Design of Machine Elements (8th Ed., Spotts)
Solution Manual Machine Elements in Mechanical Design (4th Ed., Mott)
Solution Manual Machine Elements in Mechanical Design - SI Units (4th Ed., Mott)
Solution Manual Mechanical Design : An Integrated Approach (1st Ed., Ansel Ugural)
Solution Manual Design of Machinery (3rd Ed., Norton)
Solution Manual Design of Machinery (4th Ed., Norton)
Solution Manual Machine Design : An Integrated Approach (3rd Ed., Norton)
Solution Manual Machine Design : An Integrated Approach (4th Ed., Norton)
Solution Manual Mechanical Engineering Design (6th Ed., Shigley)
Solution Manual Mechanical Engineering Design (7th Ed., Shigley, Mischke & Budynas)
Solution Manual Shigley's Mechanical Engineering Design (8th Ed., Budynas & Nisbett)
Solution Manual Shigley's Mechanical Engineering Design (9th Ed., Budynas & Nisbett)
Solution Manual Fundamentals of Machine Elements (1st Ed., Hamrock)
Solution Manual Fundamentals of Machine Elements (2nd Ed., Hamrock)
Solution Manual Mechanics of Materials : A Modern Integration of Mechanics and Materials in Structural Design (Christopher Jenkins & Sanjeev Khanna)
Solution Manual Mechanics of Materials (3th Ed., Beer)
Solution Manual Mechanics of Materials (5th Ed., Gere & Timoshenko)
Solution Manual Mechanics of Materials (6th Ed., Gere & Timoshenko)
Solution Manual Mechanics of Materials (7th Ed., Gere & Goodno)
Solution Manual Mechanics of Materials (Ansel Ugural)
Solution Manual Mechanics of Materials : An Integrated Learning System

(1st Ed., Timothy Philpot)
Solution Manual Mechanics of Materials : An Integrated Learning System (2nd Ed., Timothy Philpot)
Solution Manual Mechanics of Materials (2nd Ed., Roy R. Craig)
Solution Manual Simplified Mechanics and Strength of Materials (6th Ed., James Ambrose)
Solution Manual Engineering Applications of Dynamics (Dean Karnopp & Donald Margolis)
Solution Manual Engineering Mechanics : Statics (Arthur Boresi, Richard Schmidt)
Solution Manual Engineering Mechanics : Dynamics (Arthur Boresi, Richard Schmidt)
Solution Manual Engineering Mechanics : Statics (5th Ed., J. L. Meriam, L. G. Kraige)
Solution Manual Engineering Mechanics : Statics - SI Version (5th Ed., J. L. Meriam, L. G. Kraige)
Solution Manual Engineering Mechanics : Statics (6th Ed., J. L. Meriam, L. G. Kraige)
Solution Manual Engineering Mechanics : Statics - SI Version (6th Ed., J. L. Meriam, L. G. Kraige)
Solution Manual Engineering Mechanics : Dynamics (5th Ed., J. L. Meriam, L. G. Kraige)
Solution Manual Engineering Mechanics : Dynamics - SI Version (5th Ed., J. L. Meriam, L. G. Kraige)
Solution Manual Engineering Mechanics : Dynamics (6th Ed., J. L. Meriam, L. G. Kraige)
Solution Manual Engineering Mechanics : Dynamics - SI Version (6th Ed., J. L. Meriam, L. G. Kraige)
Solution Manual Vector Mechanics for Engineers : Statics (7th Ed., Ferdinand Beer)
Solution Manual Vector Mechanics for Engineers : Statics (8th Ed., Ferdinand Beer)
Solution Manual Vector Mechanics for Engineers : Dynamics (7th Ed., Ferdinand Beer)
Solution Manual Vector Mechanics for Engineers : Dynamics (8th Ed., Ferdinand Beer)
Solution Manual Statics : Analysis and Design of Systems in Equilibrium (Sheppard & Tongue)
Solution Manual Statics : Analysis and Design of Systems in Equilibrium - Update Edition (Sheppard & Tongue)
Solution Manual Dynamics : Analysis and Design of Systems in Motion (Sheppard & Tongue)
Solution Manual Dynamics : Analysis and Design of Systems in Motion (2nd Ed., Sheppard & Tongue)
Solution Manual Statics and Mechanics of Materials : An Integrated Approach (2nd Ed., Riley, Sturges & Morris)
Solution Manual Mechanics of Materials (6th Ed., Riley, Sturges & Morris)
Solution Manual Basic Engineering Plasticity : An Introduction with Engineering and Manufacturing Applications (David Rees)

Solution Manual Theory of Plasticity (3rd Ed. Jagabanduhu Chakrabarty)
Solution Manual Deformation and Fracture Mechanics of Engineering Materials (4th Ed., Richard Hertzberg)
Solution Manual Deformable Bodies and Their Material Behavior (Haslach & Armstrong)
Solution Manual Intermediate Mechanics of Materials (1st Ed., Barber)
Solution Manual Elasticity (2nd Ed., J.R. Barber)
Solution Manual Elasticity : Theory, Applications, and Numerics (1st Ed., Martin Sadd)
Solution Manual Elasticity : Theory, Applications, and Numerics (2nd Ed., Martin Sadd)
Solution Manual Elasticity in Engineering Mechanics (2nd Ed., Boresi)
Solution Manual Advanced Mechanics of Materials (6th Ed., Boresi)
Solution Manual Advanced Mechanics of Materials (2nd Ed., Cook & Young)
Solution Manual Metal Fatigue in Engineering (2nd Ed., Stephens, Fatemi & Fuchs)
Solution Manual Applied Mechanics for Engineering Technology (8th Ed., Keith M. Walker)
Solution Manual Applied Statics and Strength of Materials (5th Ed. Limbrunner & Spiegel)
Solution Manual Statics and Strength of Materials (Robert Mott)
Solution Manual Applied Strength of Materials (4th Ed., Mott)
Solution Manual Applied Strength of Materials (5th Ed., Mott)
Solution Manual Intermediate Dynamics for Engineers (Marcelo R.M & Crespo da Silva)
Solution Manual Engineering Mechanics : Statics (Michael Plesha, Gary Gray & Francesco Costanzo)
Solution Manual Engineering Mechanics : Dynamics (Michael Plesha, Gary Gray & Francesco Costanzo)
Solution Manual Engineering Mechanics : Statics (4th Ed., Anthony Bedford & Wallace Fowler)
Solution Manual Engineering Mechanics : Statics (5th Ed., Anthony Bedford & Wallace Fowler)
Solution Manual Engineering Mechanics : Statics - SI Units (5th Ed., Anthony Bedford, Wallace Fowler & Yusof Ahmad)
Solution Manual Engineering Mechanics : Dynamics (4th Ed., Anthony Bedford & Wallace Fowler)
Solution Manual Engineering Mechanics : Dynamics (5th Ed., Anthony Bedford & Wallace Fowler)
Solution Manual Engineering Mechanics : Dynamics - SI Units (5th Ed., Anthony Bedford, Wallace Fowler & Yusof Ahmad)
Solution Manual Elastic And Inelastic Stress Analysis (Irving Shames)
Solution Manual Thermal Stresses (2nd Ed., Noda, Hetnarski & Tanigawa)
Solution Manual Strength of Materials - A New Unified Theory for the 21st Century (Surya Patnaik & Dale Hopkins)
Solution Manual Statics and Strengths of Materials (6th Ed., Morrow & Kokernak)
Solution Manual Engineering Mechanics : Statics (11th Ed., Hibbeler)
Solution Manual Engineering Mechanics : Statics (12th Ed., Hibbeler)

Solution Manual Engineering Mechanics : Statics - SI Units (12th Ed., Hibbeler)
Solution Manual Engineering Mechanics : Dynamics (11th Ed., Hibbeler)
Solution Manual Engineering Mechanics : Dynamics (12th Ed., Hibbeler)
Solution Manual Engineering Mechanics : Dynamics - SI Units (12th Ed., Hibbeler)
Solution Manual Mechanics of Materials (4th Ed., Hibbeler)
Solution Manual Mechanics of Materials (6th Ed., Hibbeler)
Solution Manual Mechanics of Materials (7th Ed., Hibbeler)
Solution Manual Mechanics of Materials - SI Units (7th Ed., Hibbeler)
Solution Manual Mechanics of Materials (8th Ed., Hibbeler)
Solution Manual Statics and Mechanics of Materials (Beer, Johnston, DeWolf & Mazurek)
Solution Manual Statics and Mechanics of Materials (Bedford, Liechti & Fowler)
Solution Manual Statics and Mechanics of Materials (2nd Ed., Hibbeler)
Solution Manual Statics and Mechanics of Materials - SI Units (2nd Ed., Hibbeler)
Solution Manual Statics and Mechanics of Materials (3rd Ed., Hibbeler)
Solution Manual Energy Principles and Variational Methods in Applied Mechanics (2nd Ed., Reddy)
Solution Manual The Physics of Vibrations and Waves (6th Ed., Pain)
Solution Manual Engineering Vibrations (3rd Ed., Inman)
Solution Manual Mechanical Vibrations (4th Ed., Singiresu S. Rao)
Solution Manual Mechanical Vibrations - SI Units (4th Ed., Singiresu S. Rao)
Solution Manual Theory of Vibration : An Introduction (2nd Ed., A.A. Shabana)
Solution Manual Vibration of Discrete and Continuous Systems (2nd Ed., Ahmed Shabana)
Solution Manual Introduction to Finite Element Vibration Analysis (Maurice Petyt)
Solution Manual Vibrations and Stability : Advanced Theory, Analysis, and Tools (2nd Ed., Jon J. Thomsen)
Solution Manual Dynamics and Vibration : An Introduction (Magd Abdel Wahab)
Solution Manual Mechanical Vibration (William J. Palm, III)
Solution Manual Random Vibrations : Analysis of Structural and Mechanical Systems (Loren Lutes & Shahram Sarkani)
Solution Manual Mechanical and Structural Vibrations : Theory and Applications (by Jerry H. Ginsberg)
Solution Manual Fundamentals of Structural Integrity : Damage Tolerant Design and Nondestructive Evaluation (Alten F. Grandt)
Solution Manual A First Course in the Finite Element Method (4th Ed., Daryl L. Logan)
Solution Manual Finite Element Analysis Theory and Application with ANSYS (3rd Ed., Moaveni)
Solution Manual An Introduction to the Finite Element Method (3rd Ed., J. N. Reddy)
Solution Manual Fundamentals of Finite Element Analysis (1st Ed.,

David V. Hutton)
Solution Manual The Finite Element Method in Engineering (4th Ed., Rao)
Solution Manual The Finite Element Method and Applications in Engineering Using ANSYS (Madenci & Guven)
Solution Manual Introduction to Finite Element Analysis and Design (Nam-Ho Kim, Bhavani V. Sankar)
Solution Manual Introduction to the Finite Element Method : Theory, Programming and Applications (Erik G. Thompson)
Solution Manual The Finite Element Method : Its Basis and Fundamentals (6th Ed., Zienkiewicz, R. L. Taylor & J.Z. Zhu)
Solution Manual Fundamental Finite Element Analysis and Applications : with Mathematica and Matlab Computations (Asghar Bhatti)
Solution Manual Advanced Topics in Finite Element Analysis of Structures : With Mathematica and MATLAB Computations (Asghar Bhatti)
Solution Manual Modeling and Analysis of Dynamic Systems (3rd Ed., Close)
Solution Manual Modeling and Simulation of Dynamic Systems (Robert Woods, Jr. & Kent Lawrence)
Solution Manual System Dynamics (1st Ed., William J Palm III)
Solution Manual System Dynamics (2nd Ed., William J Palm III)
Solution Manual System Dynamics and Response (S. Graham Kelly)
Solution Manual System Dynamics for Engineering Students : Concepts and Applications (Nicolae Lobontiu)
Solution Manual Dynamic Modeling and Control of Engineering Systems (2nd Ed., J. Lowen Shearer, Bohdan Kulakowski, John Gardner)
Solution Manual System Dynamics : Modeling and Simulation of Mechatronic Systems (4th Ed., Karnopp, Margolis & Rosenberg)
Solution Manual Concepts and Applications of Finite Element Analysis (4th Ed., Cook, Malkus, Plesha & Witt)
Solution Manual Finite Element Modeling for Stress Analysis (Robert Cook)
Solution Manual Fracture Mechanics : Fundamentals and Applications (2nd Ed., T.L. Anderson)
Solution Manual Mechanical Behavior of Materials (3rd Ed., Dowling)
Solution Manual Mechanical Behavior of Materials (W.F. Hosford)
Solution Manual Mechanical Behavior of Materials (Keith Bowman)
Solution Manual Theory and Design for Mechanical Measurements (4th Ed., Figliola & Beasley)
Solution Manual Mechanical Measurements (6th Ed., Beckwith, Marangoni & Lienhard)
Solution Manual Measurement and Data Analysis for Engineering and Science (Patrick Dunn)
Solution Manual Design and Analysis of Lean Production Systems (Askin & Goldberg)
Solution Manual Work Systems : The Methods, Measurement & Management of Work (Mikell P. Groover)
Solution Manual Automation, Production Systems, and Computer-Integrated Manufacturing (2nd Ed., Groover)
Solution Manual Automation, Production Systems, and Computer-

Integrated Manufacturing (3rd Ed., Groover)
Solution Manual Fundamentals of Modern Manufacturing : Materials, Processes, and Systems (3rd Ed., Mikell Groover)
Solution Manual Fundamentals of Modern Manufacturing : Materials, Processes, and Systems (4th Ed., Mikell Groover)
Solution Manual Materials and Processes in Manufacturing (9th Ed., E. Paul DeGarmo, J. T. Black, Ronald A. Kohser)
Solution Manual DeGarmo's Materials and Processes in Manufacturing (10th Ed., E. Paul DeGarmo, J. T. Black, Ronald A. Kohser)
Solution Manual Principles of Metal Manufacturing Processes (Beddoes & Bibby)
Solution Manual Design for Manufacturing : A Structured Approach (Corrado Poli)
Solution Manual Fundamentals of Manufacturing (2nd Ed., Philip D. Rufe)
Solution Manual Engineering Materials Science (Milton Ohring)
Solution Manual Engineering Materials : Properties and Selection (8th Ed., Budinski)
Solution Manual Engineering Materials : Properties and Selection (9th Ed., Budinski)
Solution Manual Materials Science for Engineering Students (Traugott Fischer)
Solution Manual Essentials of Modern Materials Science and Engineering (James Newell)
Solution Manual Science and Design of Engineering Materials (2nd Ed., Schaffer, Saxena, et al)
Solution Manual Structure and Properties of Engineering Materiales (5th Ed., Daniel Henkel & Alan Pense)
Solution Manual Materials Selection in Mechanical Design (3rd Ed., Michael Ashby)
Solution Manual Materials : Engineering, Science, Processing and Design (1st Ed., Michael Ashby, Hugh Shercliff & David Cebon)
Solution Manual Materials : Engineering, Science, Processing and Design (2nd Ed., Michael Ashby, Hugh Shercliff & David Cebon)
Solution Manual Engineering Materials Vol. 1 : An Introduction to Properties, Applications and Design (3rd Ed., Michael Ashby & David Jones)
Solution Manual Engineering Materials Vol. 2 : An Introduction to Microstructures, Processing and Design (3rd Ed., Michael Ashby & David Jones)
Solution Manual Materials Science and Engineering : An Introduction (6th Ed., William Callister)
Solution Manual Materials Science and Engineering : An Introduction (7th Ed., William Callister)
Solution Manual Materials Science and Engineering : An Introduction (8th Ed., William Callister)
Solution Manual Fundamentals of Materials Science and Engineering : Integrated Approach (2nd Ed., William Callister)
Solution Manual Fundamentals of Materials Science and Engineering : Integrated Approach (3rd Ed., William Callister)

Solution Manual Foundations of Materials Science and Engineering (3rd Ed, Smith)
Solution Manual Foundations of Materials Science and Engineering (4th Ed, Smith & Hashemi)
Solution Manual Foundations of Materials Science and Engineering (5th Ed, Smith & Hashemi)
Solution Manual Introduction to Materials Science for Engineers (6th Ed., Shackelford)
Solution Manual Introduction to Materials Science for Engineers (7th Ed., Shackelford)
Solution Manual Introduction to Materials Science for Engineers - International Edition (7th Ed., Shackelford)
Solution Manual Manufacturing Facilities Design and Material Handling (3rd Ed., Meyers & Stephens)
Solution Manual Manufacturing Facilities Design and Material Handling (4th Ed., Stephens & Meyers)
Solution Manual Manufacturing Processes for Engineering Materials (5th Ed. Kalpakjian & Smith)
Solution Manual Manufacturing Processes for Engineering Materials - SI Units (5th Ed. Kalpakjian, Smith & Chih-Wah Kok)
Solution Manual Manufacturing, Engineering & Technology (5th Ed. Kalpakjian & Smith)
Solution Manual Manufacturing, Engineering & Technology (6th Ed. Kalpakjian & Smith)
Solution Manual Manufacturing, Engineering & Technology - SI Units (6th Ed. Kalpakjian & Smith)
Solution Manual Principles of Corrosion Engineering and Corrosion Control (Zaki Ahmad)
Solution Manual Steels : Microstructure and Properties (3rd Ed. Bhadeshia & Honeycombe)
Solution Manual Analysis and Performance of Fiber Composites (3rd Ed., Bhagwan Agarwal, Lawrence Broutman & K. Chandrashekhara)
Solution Manual Nanoengineering of Structural, Functional and Smart Materials (Mark Schulz, Ajit Kelkar, Mannur Sundaresan)
Solution Manual Applied Manufacturing Process Planning : With Emphasis on Metal Forming and Machining (Nelson, Schneider)
Solution Manual Mastering CAD/CAM (1st Ed., Ibrahim Zeid)
Solution Manual Principles of CAD/CAM/CAE (Kunwoo Lee)
Solution Manual Computer Numerical Control : Operation and Programming (3rd Ed., Stenerson & Curran)
Solution Manual Introduction to Computer Numerical Control (4th Ed., Valentino & Goldenberg)
Solution Manual Linear State-Space Control Systems (Robert L. Williams, II & Douglas A. Lawrence)
Solution Manual Gas Turbine Theory (6th Ed., H.I.H. Saravanamuttoo, G.F.C. Rogers, H. Cohen & Paul Straznicky)
Solution Manual Rocket Propulsion Elements (7th Ed., George P. Sutton & Oscar Biblarz)
Solution Manual Rocket Propulsion Elements (8th Ed., George P. Sutton & Oscar Biblarz)

Solution Manual Orbital Mechanics for Engineering Students (1st Ed., Howard Curtis)
Solution Manual Orbital Mechanics for Engineering Students (2nd Ed., Howard Curtis)
Solution Manual Atmospheric and Space Flight Dynamics : Modeling and Simulation with MATLAB and Simulink (Ashish Tewari)
Solution Manual Flight Dynamics Principles (2nd Ed., by Cook)
Solution Manual Mechanics of Flight (1st Ed., Warren F. Phillips)
Solution Manual Mechanics of Flight (2nd Ed., Warren F. Phillips)
Solution Manual Fundamentals of Airplane Flight Mechanics (David G. Hull)
Solution Manual Dynamics of Flight : Stability and Control (3rd Ed., Bernard Etkin & Lloyd Duff Reid)
Solution Manual Aircraft Rescue and Firefighting (5th Ed., IFSTA)
Solution Manual Aircraft Propulsion (Saeed Farokhi)
Solution Manual Aircraft Performance (Maido Saarlas)
Solution Manual Flight Performance of Fixed and Rotary Wing Aircraft (Antonio Filippone)
Solution Manual Fundamentals Of Aircraft Structural Analysis (Howard Curtis)
Solution Manual Aircraft Control and Simulation (2nd Ed., Brian Stevens & Frank Lewis)
Solution Manual Aircraft Structures for Engineering Students (3rd Ed., T.H.G. Megson)
Solution Manual Aircraft Structures for Engineering Students (4th Ed., T.H.G. Megson)
Solution Manual Introduction to Aircraft Structural Analysis (T.H.G. Megson)
Solution Manual Mechanics of Aircraft Structures (2nd Ed, C. T. Sun)
Solution Manual Principles of Helicopter Aerodynamics (1st Ed., Leishman)
Solution Manual Fundamentals of Aerodynamics (2nd Ed., Anderson)
Solution Manual Fundamentals of Aerodynamics (3th Ed., Anderson)
Solution Manual Fundamentals of Aerodynamics (4th Ed., Anderson)
Solution Manual Fundamentals of Aerodynamics (5th Ed., Anderson)
Solution Manual Aerodynamics for Engineers (5th Ed., John Bertin & Russell Cummings)
Solution Manual Introduction to Flight (5th Ed., Anderson)
Solution Manual Introduction to Flight (6th Ed., Anderson)
Solution Manual Mechatronics : Principles and Applications (Godfrey Onwubolu)
Solution Manual Mechatronics (Sabri Cetinkunt)
Solution Manual Introduction to Mechatronics and Measurement Systems (2nd Ed., David Alciatore & Michael Histand)
Solution Manual Introduction to Mechatronics and Measurement Systems (3rd Ed., David Alciatore & Michael Histand)
Solution Manual Introduction to Engineering Experimentation (2nd Ed., Wheeler & Ganji)
Solution Manual Introduction to Engineering Experimentation (3rd Ed., Wheeler & Ganji)

Solution Manual Gas Dynamics (3rd Ed., John & Keith)
Solution Manual Fundamentals of Gas Dynamics (2nd Ed, Robert D. Zucker)
Solution Manual Theory of Ground Vehicles (3rd Ed., J. Y. Wong)
Solution Manual Theory of Ground Vehicles (4th Ed., J. Y. Wong)
Solution Manual Vehicle Dynamics : Theory and Application (Reza Jazar)
Solution Manual Internal Combustion Engines : Applied Thermosciences (2nd Ed., Ferguson & Kirkpatrick)
Solution Manual Advanced Engine Performance Diagnosis (4th Ed., James Halderman)
Solution Manual Automotive Engines (8th Ed., Crouse)
Solution Manual Automotive Heating & Air Conditioning (5th Ed., Tom Birch)
Solution Manual Diagnosis and Troubleshooting of Automotive Electrical, Electronic, and Computer Systems (5th Ed., James Halderman)
Solution Manual Automotive Brake Systems Package (4th Ed., Rehkopf)
Solution Manual Automotive Brake Systems (4th Ed., Halderman)
Solution Manual Automotive Engine Performance (2nd Ed., Halderman)
Solution Manual Automotive Engines : Theory and Servicing (6th Ed., James Halderman)
Solution Manual Automotive Fuel and Emissions Control Systems (2nd Ed., James Halderman & James Linder)
Solution Manual Automotive Science and Mathematics (Allan Bonnick)
Solution Manual Automotive Mathematics (Jason Rouvel)
Solution Manual Automotive Service Management (Andrew Rezin)
Solution Manual Automotive Technology : Principles, Diagnosis, and Service (3rd Ed., Halderman)
Solution Manual Automotive Steering, Suspension, and Alignment (4th Ed., Halderman)
Solution Manual Automatic Transmissions & Transaxles (4th Ed., Tom Birch & Chuck Rockwood)
Solution Manual Hybrid and Alternative Fuel Vehicles (Halderman & Martin)
Solution Manual Manual Drivetrains and Axles (5th Ed., Birch & Rockwood)
Solution Manual Blueprint Reading for the Machine Trades (6th Ed., Schultz & Smith)
Solution Manual Modern Welding Technology (6th Ed., Cary & Helzer)
Solution Manual Tissue Engineering (Bernhard O. Palsson & Sangeeta N. Bhatia)
Solution Manual Tissue Engineering (Clemens van Blitterswijk, et al.)
Solution Manual Tissue Mechanics (Cowin, Doty)
Solution Manual Technology and Society (3rd Ed., Hjorth, Eichler, Khan & Morello)
Solution Manual BTEC First Engineering Curriculum Support Pack (Mike Tooley)
Solution Manual BTEC First Engineering (Mike Tooley)
Solution Manual Exploring Engineering : An Introduction to Engineering and Design (1st Ed., Philip Kosky, George Wise, Robert Balmer &

William Keat)
Solution Manual Exploring Engineering : An Introduction to Engineering and Design (2nd Ed., Philip Kosky, Robert Balmer, William Keat & George Wise)
Solution Manual Engineering Science (5th Ed., W. Bolton)
Solution Manual Principles of Energy Conversion (2nd Ed., Archie W. Culp)
Solution Manual Fundamentals of Renewable Energy Processes (1st Ed., Aldo da Rosa)
Solution Manual Fundamentals of Renewable Energy Processes (2nd Ed., Aldo da Rosa)
Solution Manual Alternative Energy Systems (B. K. Hodge)
Solution Manual Solar Energy Engineering : Processes and Systems (Soteris Kalogirou)
Solution Manual Solar Engineering of Thermal Processes (2nd Ed., John Duffie & William Beckman)
Solution Manual Solar Engineering of Thermal Processes (3rd Ed., John Duffie & William Beckman)
Solution Manual Energy Technology and Directions for the Future (Fanchi)
Solution Manual Power Generation Technologies (Paul Breeze)
Solution Manual Concepts in Engineering (Holtzapple & Reece)
Solution Manual Concepts in Engineering (2nd Ed., Holtzapple & Reece)
Solution Manual Foundations of Engineering (2nd Ed, Holtzapple & Dan Reece)
Solution Manual Industrial Mechanics and Maintenance (3rd Ed., Larry Chastain)
Solution Manual Mechanical and Electrical Equipment for Buildings (10th Ed., Stein, Reynolds, Grondzik, Kwok)
Solution Manual Mechanical and Electrical Equipment for Buildings (11th Ed., Grondzik, Kwok, Stein & Reynolds)
Solution Manual Mechanical & Electrical Systems in Buildings (4th Ed., Richard Janis & William Tao)
Solution Manual Engineering Drawing And Design (7th Ed., Jensen, Helsel & Short)
Solution Manual Autodesk Inventor (James M. Leake)
Solution Manual Engineering Design Graphics : Sketching, Modeling, and Visualization (1st Ed., James Leake & Jacob Borgerson)
Solution Manual Orthopaedic Biomechanics : Mechanics and Design in Musculoskeletal Systems (Donald Bartel, Dwight Davy & Tony Keaveny)
Solution Manual Science for Engineering (3rd Ed., John Bird)

- Electrical, Electronics & Computer Engineering :

Solution Manual Design for Electrical and Computer Engineers (J. Eric Salt & Robert Rothery)
Solution Manual Electrical Engineering : Principles and Applications (3rd Ed., Hambley)
Solution Manual Electrical Engineering : Principles and Applications (4th Ed., Hambley)

Solution Manual Electrical Engineering : Principles and Applications (5th Ed., Hambley)
Solution Manual Electronics (2nd Ed., Hambley)
Solution Manual Electronics and Communications for Scientists and Engineers (Martin Plonus)
Solution Manual Cryptography & Network Security (Behrouz A Forouzan)
Solution Manual Data Communications and Networking (3rd Ed., Behrouz A. Forouzan)
Solution Manual Data Communications and Networking (4th Ed., Behrouz A. Forouzan)
Solution Manual TCP/IP Protocol Suite (2nd Ed., Behrouz Forouzan)
Solution Manual TCP/IP Protocol Suite (3rd Ed., Behrouz Forouzan)
Solution Manual TCP/IP Protocol Suite (4th Ed., Behrouz Forouzan)
Solution Manual Local Area Networks (Behrouz A Forouzan)
Solution Manual Analog Integrated Circuits for Communication : Principles, Simulation and Design (2nd Ed., Donald Pederson & Kartikeya Mayaram)
Solution Manual Satellite Communications (2nd Ed, Pratt, Bostian, Allnutt)
Solution Manual Business Data Communications (Behrouz A Forouzan)
Solution Manual Logic and Computer Design Fundamentals (4th Ed., Mano & Kime)
Solution Manual Linear Robust Control (Michael Green, David J. N. Limebeer)
Solution Manual Adaptive Control (2nd Ed., Karl Johan Astrom, Bjorn Wittenmark)
Solution Manual Digital Control Engineering : Analysis and Design (M. Sami Fadali & Antonio Visioli)
Solution Manual Computer-Controlled Systems : Theory and Design (3rd Ed., Karl Johan Astrom & Bjorn Wittenmark)
Solution Manual Electric Circuits (7th Ed., Nilsson & Riedel)
Solution Manual Electric Circuits (8th Ed., Nilsson & Riedel)
Solution Manual Electric Circuits (9th Ed., Nilsson & Riedel)
Solution Manual Introductory Circuits for Electrical and Computer Engineering (James Nilsson, Susan Riedel)
Solution Manual Electromagnetic Noise and Quantum Optical Measurements (Hermann A. Haus)
Solution Manual Applied Electromagnetics : Early Transmission Lines Approach (Stuart Wentworth)
Solution Manual Fundamentals of Electromagnetics with Engineering Applications (Stuart Wentworth)
Solution Manual Electromagnetics for Engineers : With Applications to Digital Systems and Electromagnetic Interference (Clayton Paul)
Solution Manual MEMS & Microsystems : Design and Manufacture (1st Ed., Tai-Ran Hsu)
Solution Manual MEMS & Microsystems : Design, Manufacture, and Nanoscale Engineering (2nd Ed., Tai-Ran Hsu)
Solution Manual Probability and Statistics for Engineering and the Sciences (7th Ed., Jay L. DeVore)
Solution Manual Probability and Stochastic Processes : A Friendly

Introduction for Electrical and Computer Engineers (2nd Ed., Roy Yates & David Goodman)
Solution Manual Process Systems Analysis and Control (3rd Ed. Donald Coughanowr, Steven LeBlanc)
Solution Manual Fuel Cell Engines (Matthew M. Mench)
Solution Manual Fuel Cell Fundamentals (1st Ed., Ryan O'Hayre, et. al)
Solution Manual Fuel Cell Fundamentals (2nd Ed., Ryan O'Hayre, Whitney Colella, Suk-Won Cha, Fritz Prinz)
Solution Manual Control Systems Engineering (4th Ed., Norman Nise)
Solution Manual Control Systems Engineering (5th Ed., Norman Nise)
Solution Manual Automatic Control Systems (8th Ed., Benjamin C. Kuo, Farid Golnaraghi)
Solution Manual Automatic Control Systems (9th Ed., Farid Golnaraghi, Benjamin C. Kuo)
Solution Manual Basic Electricity for Industry : Circuits and Machines - Canadian Edition (Doug Edgar)
Solution Manual Basic Engineering Circuit Analysis (8th Ed., Irwin & Nelms)
Solution Manual Basic Engineering Circuit Analysis (9th Ed., Irwin & Nelms)
Solution Manual A Brief Introduction to Circuit Analysis (J. David Irwin)
Solution Manual Semiconductor Devices : Basic Principles (Jasprit Singh)
Solution Manual Semiconductor Device Fundamentals (Robert F. Pierret)
Solution Manual Device Electronics for Integrated Circuits (3rd Ed., Richard S. Muller, Theodore I. Kamins)
Solution Manual Fundamentals of Semiconductor Devices (Anderson)
Solution Manual Scientific Computing (2nd Ed., Michael T. Heath)
Solution Manual Scientific Computing with Case Studies (Dianne P. O'Leary)
Solution Manual Pattern Recognition and Machine Learning (Christopher M. Bishop)
Solution Manual Modern Semiconductor Devices for Integrated Circuits (Chenming C. Hu)
Solution Manual Analysis and Design of Analog Integrated Circuits (4th Ed., Paul Gray, et al.)
Solution Manual Analysis and Design of Analog Integrated Circuits (5th Ed., Paul Gray)
Solution Manual Analysis and Design of Digital Integrated Circuits (3rd Ed., Hodges)
Solution Manual Introduction to Electric Circuits (6th Ed., Dorf & Svoboda)
Solution Manual Introduction to Electric Circuits (7th Ed., Dorf & Svoboda)
Solution Manual Introduction to Electric Circuits (8th Ed., Dorf & Svoboda)
Solution Manual Modulation, Detection and Coding (Tommy Öberg)
Solution Manual Principles of Communications: Systems, Modulation, and Noise (5th Ed., R.E. Ziemer & W.H. Tranter)

Solution Manual Principles of Communications (6th Ed., R.E. Ziemer & W.H. Tranter)
Solution Manual The Analysis and Design of Linear Circuits (4th Ed, Thomas & Rosa)
Solution Manual The Analysis and Design of Linear Circuits : Laplace Early (4th Ed, Thomas & Rosa)
Solution Manual The Analysis and Design of Linear Circuits (5th Ed, Thomas)
Solution Manual The Analysis and Design of Linear Circuits (6th Ed, Thomas, Rosa & Toussaint)
Solution Manual Dynamic Modeling and Control of Engineering Systems (2nd Ed., J. Lowen Shearer, Bohdan Kulakowski, John Gardner)
Solution Manual Modern Control Systems (11th Ed., Dorf & Bishop)
Solution Manual Modern Control Systems (12th Ed., Dorf & Bishop)
Solution Manual System Dynamics (1st Ed., William Palm III)
Solution Manual System Dynamics (2nd Ed., William Palm III)
Solution Manual System Dynamics and Response (S. Graham Kelly)
Solution Manual System Dynamics for Engineering Students : Concepts and Applications (Nicolae Lobontiu)
Solution Manual Optimal Control (2nd Ed., Frank Lewis & Vassilis Syrmos)
Solution Manual Optimal Control Theory : An Introduction (Donald E. Kirk)
Solution Manual Intuitive Probability and Random Processes using MATLAB (Steven Kay)
Solution Manual Analog Signals and Systems (Erhan Kudeki & David C. Munson, Jr.)
Solution Manual Continuous and Discrete Time Signals and Systems (Mrinal Mandal, Amir Asif)
Solution Manual Digital Signal and Image Processing (Tamal Bose)
Solution Manual Digital Image Processing (2nd Ed., Rafael Gonzalez, Richard Woods)
Solution Manual Discrete-Time Signal Processing (2nd Ed., Alan Oppenheim, Ronald Schafer, John Buck)
Solution Manual Discrete-Time Signal Processing (3rd Ed., Alan Oppenheim & Ronald Schafer)
Solution Manual Signal Processing First (James H. McClellan, Ronald W. Schafer, Mark A. Yoder)
Solution Manual Statistical Digital Signal Processing and Modeling (Monson Hayes)
Solution Manual Digital Signal Processing (Thomas J. Cavicchi)
Solution Manual Digital Signal Processing System Design : LabVIEW-Based Hybrid Programming (2nd Ed., Kehtarnavaz)
Solution Manual Digital Signal Processing (2nd Ed., Mitra)
Solution Manual Digital Signal Processing (3rd Ed., Mitra)
Solution Manual Digital Signal Processing (4th Ed., John G. Proakis, Dimitris K Manolakis)
Solution Manual Digital Signal Processing (Charles Schuler & Mahesh Chugani)
Solution Manual Digital Signal Processing : Fundamentals and

Applications (Li Tan)
Solution Manual Digital Signal Processing : An Experimental Approach (Shlomo Engelberg)
Solution Manual Digital Signal Processing : System Analysis and Design (Paulo S. R. Diniz)
Solution Manual Digital Signal Processing : A Modern Introduction (Ashok Ambardar)
Solution Manual Applied Optimization with MATLAB Programming (1st Ed., P. Venkataraman)
Solution Manual Applied Optimization with MATLAB Programming (2nd Ed., P. Venkataraman)
Solution Manual Introduction to Applied Optimization (2nd Ed., Urmila Diwekar)
Solution Manual Logic Synthesis and Verification Algorithms (Gary Hachtel & Fabio Somenzi)
Solution Manual Adaptive Filtering : Algorithms and Practical Implementation (3rd Ed., Paulo S. R. Diniz)
Solution Manual Introduction to Scientific Computation and Programming (Daniel T. kaplan)
Solution Manual Principles of Signal Detection and Parameter Estimation (Bernard C. Levy)
Solution Manual Electric Machines Analysis and Design Applying MatLab (Cathey)
Solution Manual Fundamentals of Electrical Engineering (Giorgio Rizzoni)
Solution Manual Principles and Applications of Electrical Engineering (4th Ed, Rizzoni)
Solution Manual Principles and Applications of Electrical Engineering (5th Ed, Rizzoni)
Solution Manual Fundamentals of Electric Circuits (2nd Ed., Alexander & Sadiku)
Solution Manual Fundamentals of Electric Circuits (3rd Ed., Alexander & Sadiku)
Solution Manual Fundamentals of Electric Circuits (4th Ed., Alexander & Sadiku)
Solution Manual MSP430 Microcontroller Basics (John Davies)
Solution Manual Programming Massively Parallel Processors : A Hands-on Approach (David Kirk & Wen-mei Hwu)
Solution Manual Embedded DSP Processor Design : Application Specific Instruction Set Processors (Dake Liu)
Solution Manual Embedded Microcontrollers and Processor Design (Charles Greg Osborn)
Solution Manual Embedded System Design : A Unified Hardware/Software Introduction (Vahid & Givargis)
Solution Manual Embedded Microcomputer Systems : Real Time Interfacing (2nd Ed., Jonathan W. Valvano)
Solution Manual Matlab : A Practical Introduction to Programming and Problem Solving (Stormy Attaway)
Solution Manual Principles of Computer System Design : An Introduction (Jerome Saltzer & M. Frans Kaashoek)

Solution Manual The Illustrated Network : How TCP/IP Works in a Modern Network (Walter Goralski)
Solution Manual Electronic Design Automation : Synthesis, Verification, and Test (Laung-Terng Wang, Yao-Wen Chang & Kwang-Ting Cheng)
Solution Manual Digital Design (Frank Vahid)
Solution Manual Digital Logic Design Principles (Balabanian & Carlson)
Solution Manual Fundamentals of Logic Design (5th Ed., Charles H. Roth)
Solution Manual Real-Time Systems and Software (Alan Shaw)
Solution Manual Introduction to VLSI Circuits and Systems (John P. Uyemura)
Solution Manual Chip Design for Submicron VLSI : CMOS Layout & Simulation (John Uyemura)
Solution Manual Classical Electrodynamics (2nd Ed., John David Jackson)
Solution Manual Objects, Abstraction, Data Structures and Design : Using C++ (Elliot B. Koffman & Paul A. T. Wolfgang)
Solution Manual Objects, Abstraction, Data Structures and Design Using Java Version 5.0 (Elliot B. Koffman & Paul A. T. Wolfgang)
Solution Manual Computer Architecture and Organization : An Integrated Approach (Murdocca & Heuring)
Solution Manual Wiley Pathways Networking Basics (1st Ed., Ciccarelli, Faulkner, FitzGerald, Dennis & Miller)
Solution Manual Software Engineering : Principles and Practice (3rd Ed., Hans van Vliet)
Solution Manual Software Design : From Programming to Architecture (Eric Braude)
Solution Manual Software Engineering : An Object-Oriented Perspective (Eric Braude)
Solution Manual Software Engineering : Modern Approaches (2nd Ed., Eric Braude & Michael Bernstein)
Solution Manual Neural and Adaptive Systems : Fundamentals through Simulations (José Principe, Neil Euliano & W. Curt Lefebvre)
Solution Manual Fundamentals of Electronic Circuit Design (David J. Comer & Donald T. Comer)
Solution Manual Microelectronic Circuit Design (2nd Ed., Jaeger & Blalock)
Solution Manual Microelectronic Circuit Design (3rd Ed., Jaeger & Blalock)
Solution Manual Microelectronic Circuit Design (4th Ed., Jaeger & Blalock)
Solution Manual Introduction to Microelectronic Fabrication : Volume 5 of Modular Series on Solid State Devices (2nd Ed., Richard Jaeger)
Solution Manual Microelectronic Circuits (5th Ed., Adel S. Sedra, K. C. Smith)
Solution Manual VHDL for Engineers (Kenneth Short)
Solution Manual Fundamentals of Digital Logic with VHDL Design (1st Ed., Brown & Vranesic)
Solution Manual Fundamentals of Digital Logic with VHDL Design (2nd

Ed., Brown & Vranesic)
Solution Manual Fundamentals of Digital Logic with VHDL Design (3rd Ed., Brown & Vranesic)
Solution Manual CMOS Analog Circuit Design (2nd Ed., Phillip E. Allen, Douglas R. Holberg)
Solution Manual Design of Analog CMOS Integrated Circuits (Behzad Razavi)
Solution Manual Design of Integrated Circuits for Optical Communications (Behzad Razavi)
Solution Manual Fundamentals of Microelectronics, Preliminary Edition (Behzad Razavi)
Solution Manual Fundamentals of Microelectronics (1st Ed., Behzad Razavi)
Solution Manual Design with Operational Amplifiers and Analog Integrated Circuits (3rd Ed., Sergio Franco)
Solution Manual Your UNIX : The Ultimate Guide (1st Ed., Sumitabha Das)
Solution Manual Your UNIX : The Ultimate Guide (2nd Ed., Sumitabha Das)
Solution Manual Microwave Engineering (Annapurna Das)
Solution Manual Microwave Engineering (3rd Ed., David M. Pozar)
Solution Manual Microwave and RF Design of Wireless Systems (David M. Pozar)
Solution Manual Introduction to Wireless Systems (P. M. Shankar)
Solution Manual Microwave Transistor Amplifiers : Analysis and Design (2nd Ed., Guillermo Gonzalez)
Solution Manual Control Systems (Madan Gopal)
Solution Manual A First Lab in Circuits and Electronics (Yannis Tsividis)
Solution Manual Power Electronic Circuits (Issa Batarseh)
Solution Manual Power System Analysis : Analysis and Design (John Grainger)
Solution Manual Power Systems Analysis (2nd Ed., Hadi Saadat)
Solution Manual Power Systems Analysis and Design (4th Ed., J.Duncan Glover and Mulukutla S. Sarma)
Solution Manual Power Electronics : Converters, Applications, and Design (3rd Ed., Ned Mohan, Tore Undeland & William Robbins)
Solution Manual An Introduction to Digital and Analog Communications (2nd Ed., Simon Haykin & Michael Moher)
Solution Manual Communication Systems (4th Ed., Simon Haykin)
Solution Manual Communication Systems (5th Ed., Simon Haykin)
Solution Manual Communication Systems (4th Ed., A. Bruce Carlson, Paul B. Crilly, Janet Rutledge)
Solution Manual Communication Systems (5th Ed., A. Bruce Carlson, Paul B. Crilly)
Solution Manual Signals and Systems (2nd Ed., Simon Haykin & Barry Van Veen)
Solution Manual Introduction to Computing Systems : From bits & gates to C & beyond (1st Ed., Patt and Patel)
Solution Manual Introduction to Computing Systems : From bits & gates

to C & beyond (2nd Ed., Patt and Patel)
Solution Manual Elements of the Theory of Computation (2nd Ed., Lewis & Papadimitriou)
Solution Manual Introduction to Languages and the Theory of Computation (3rd Ed., John Martin)
Solution Manual Introduction to Languages and the Theory of Computation (4th Ed., John Martin)
Solution Manual Mechanical & Electrical Systems in Buildings (4th Ed., Richard Janis & William Tao)
Solution Manual Silicon VLSI Technology : Fundamentals, Practice, and Modeling (Plummer, Deal & Griffin)
Solution Manual Dynamic Electromagnetics (Paul Diament)
Solution Manual Engineering Electromagnetics (2nd Ed., Nathan Ida)
Solution Manual Engineering Electromagnetics (Kenneth Demarest)
Solution Manual Field and Wave Electromagnetics (1st Ed., David Cheng)
Solution Manual Fundamentals of Engineering Electromagnetics (David Cheng)
Solution Manual Information Modeling and Relational Databases (2nd Ed., Terry Halpin & Tony Morgan)
Solution Manual Probability, Statistics, and Random Processes For Electrical Engineering (3rd Ed., Alberto Leon-Garcia)
Solution Manual Detection and Estimation Theory (Thomas Schonhoff & Arthur Giordano)
Solution Manual The Intel Microprocessors (8th Ed., Barry B. Brey)
Solution Manual Wireless Networking (Kumar, Manjunath & Kuri)
Solution Manual Wireless Communications : Principles and Practice (2nd Ed., Theodore S. Rappaport)
Solution Manual Digital Electronics and Design with VHDL (Volnei A. Pedroni)
Solution Manual System-on-Chip Test Architectures : Nanometer Design for Testability (Wang, Stroud & Touba)
Solution Manual Digital Design (Verilog) : An Embedded Systems Approach Using Verilog (Peter Ashenden)
Solution Manual Digital Design (VHDL) : An Embedded Systems Approach Using VHDL (Peter Ashenden)
Solution Manual Computer Organization and Design : The Hardware/ Software Interface (3rd Ed., Patterson & Hennessy)
Solution Manual Computer Organization and Design : The Hardware/ Software Interface (4th Ed., Patterson & Hennessy)
Solution Manual Fundamentals of Computer Organization and Design (Sivarama P. Dandamudi)
Solution Manual Wireless Communications & Networking (Vijay Garg)
Solution Manual Network Flows : Theory, Algorithms, and Applications (Ravindra K. Ahuja, Thomas L. Magnanti, James B. Orlin)
Solution Manual Network Analysis, Architecture, and Design (3rd Ed., James McCabe)
Solution Manual Computer Networks : A Systems Approach (4th Ed., Peterson & Davie)
Solution Manual Computer Networks ISE : A Systems Approach (4th Ed., Peterson & Davie)

Solution Manual Digital Design and Computer Architecture (David Harris & Sarah Harris)
Solution Manual Fault-Tolerant Systems (Israel Koren & C. Krishna)
Solution Manual Computer Architecture : Pipelined and Parallel Processor Design (Michael J. Flynn)
Solution Manual Computer Architecture : A Quantitative Approach (4th Ed., Hennessy & Patterson)
Solution Manual High-Performance Embedded Computing : Architectures, Applications, and Methodologies (Wayne Wolf)
Solution Manual Pattern Recognition (3rd Ed., Theodoridis & Koutroumbas)
Solution Manual Pattern Recognition (4th Ed., Theodoridis & Koutroumbas)
Solution Manual Data Mining : Concepts and Techniques (2nd Ed., Han & Kamber)
Solution Manual Commonsense Reasoning (Erik Mueller)
Solution Manual Introduction to Data Compression (3rd Ed., Khalid Sayood)
Solution Manual Programming Language Pragmatics (2nd Ed., Michael Scott)
Solution Manual Programming Language Pragmatics (3rd Ed., Michael Scott)
Solution Manual Computer Graphics for Java Programmers (2nd Ed., Leen Ammeraal & Kang Zhang)
Solution Manual Database Modeling and Design : Logical Design (4th Ed., Teorey, Lightstone & Nadeau)
Solution Manual Computers As Components : Principles of Embedded Computing System Design (1st Ed., Wayne Wolf)
Solution Manual Computers As Components : Principles of Embedded Computing System Design (2nd Ed., Wayne Wolf)
Solution Manual Virtual Machines : Versatile Platforms for Systems and Processes (Jim Smith & Ravi Nair)
Solution Manual Comprehensive Functional Verification : The Complete Industry Cycle (Wile, Goss & Roesner)
Solution Manual User Interface Design and Evaluation (Stone, Jarrett, Woodroffe & Minocha)
Solution Manual Network Algorithmics : An Interdisciplinary Approach to Designing Fast Networked Devices (George Varghese)
Solution Manual Data Modeling Essentials (3rd Ed., Simsion & Witt)
Solution Manual A Student Guide to Object-Oriented Development (Carol Britton & Jill Doake)
Solution Manual Routing, Flow, and Capacity Design in Communication and Computer Networks (Pioro & Medhi)
Solution Manual Knowledge Representation and Reasoning (Brachman & Levesque)
Solution Manual Communication Networking : An Analytical Approach (Anurag Kumar, D. Manjunath & Joy Kuri)
Solution Manual Principles and Practices of Interconnection Networks (Dally & Towles)
Solution Manual Game Physics (David Eberly)

Solution Manual Engineering a Compiler (Keith Cooper & Linda Torczon)
Solution Manual Constraint Processing (Rina Dechter)
Solution Manual Design Methods for Reactive Systems : Yourdon, Statemate, and the UML (R. J. Wieringa)
Solution Manual Temporal Data & the Relational Model (C.J. Date, Darwen & Lorentzos)
Solution Manual Java Made Simple (2nd Ed., P. K. McBride)
Solution Manual The Firmware Handbook (Jack Ganssle)
Solution Manual Optical Networks : A Practical Perspective (2nd Ed., Ramaswami & Sivarajan)
Solution Manual Optical Networks : A Practical Perspective (3rd Ed., Ramaswami, Sivarajan & Sasaki)
Solution Manual Usability Engineering : Scenario-Based Development of Human-Computer Interaction (Rosson & Carroll)
Solution Manual The Designer's Guide to VHDL (2nd Ed., Peter Ashenden)
Solution Manual Transactional Information Systems : Theory, Algorithms, and the Practice of Concurrency Control and Recovery (Weikum & Vossen)
Solution Manual Parallel Computer Architecture : A Hardware/Software Approach (Culler, Singh & Gupta)
Solution Manual Advanced Compiler Design and Implementation (Steven Muchnick)
Solution Manual Parallel Programming with MPI (Peter Pacheco)
Solution Manual Distributed Algorithms (Nancy Lynch)
Solution Manual Electrical and Electronic : Principles and Technology (3rd Ed., John Bird)
Solution Manual Electrical Circuit Theory and Technology (3rd Ed., John Bird)
Solution Manual Electronic Circuits : Fundamentals & Applications (3rd Ed., Mike Tooley)
Solution Manual A Practical Guide to SysML : The Systems Modeling Language (Friedenthal, Moore & Steiner)
Solution Manual Multidimensional Signal, Image, and Video Processing and Coding (John Woods)
Solution Manual Bioelectrical Signal Processing in Cardiac and Neurological Applications (Leif Sörnmo & Pablo Laguna)
Solution Manual Foundations of Analog and Digital Electronic Circuits (Anant Agarwal & Jeffrey Lang)
Solution Manual Introduction to Linear Circuit Analysis and Modelling : From DC to RF (Luis Moura & Izzat Darwazeh)
Solution Manual Embedded Systems Architecture : A Comprehensive Guide for Engineers and Programmers (Tammy Noergaard)
Solution Manual Bioimpedance and Bioelectricity Basics (2nd Ed., Grimnes & Martinsen)
Solution Manual Simulation Modeling and Analysis with ARENA (Tayfur Altiok & Benjamin Melamed)
Solution Manual The Visual Story : Creating the Visual Structure of Film, TV and Digital Media (2nd Ed., Bruce Block)
Solution Manual The Shut Up and Shoot Documentary Guide : A Down & Dirty DV Production (Anthony Artis)

Solution Manual Portable Video : ENG & EFP (5th Ed., Medoff & Fink)
Solution Manual Voice and Vision : A Creative Approach to Narrative Film and DV Production (Mick Hurbis-Cherrier)
Solution Manual Writing for Multimedia and the Web : A Practical Guide to Content Development for Interactive Media (3rd Ed., Timothy Garrand)
Solution Manual Developing and Maintaining a Design-Tech Portfolio : A Guide for Theatre, Film & TV (Rafael Jaen)
Solution Manual Producing for TV and Video : A Real-World Approach (Cathrine Kellison)
Solution Manual Producing for TV and New Media : A Real-World Approach for Producers (2nd Ed., Cathrine Kellison)
Solution Manual Placing Shadows : Lighting Techniques for Video Production (3rd Ed., Gloman & Tom LeTourneau)
Solution Manual Film Directing Fundamentals : See Your Film Before Shooting (3rd Ed., Nicholas Proferes)
Solution Manual Introduction to Media Production : The Path to Digital Media Production (3rd Ed., Musburger & Kindem)
Solution Manual Introduction to Media Production : The Path to Digital Media Production (4th Ed., Kindem & Musburger)
Solution Manual Directing the Documentary (5th Ed., Michael Rabiger)
Solution Manual Video Production Handbook (4th Ed., Gerald Millerson & Jim Owens)
Solution Manual Making Media : Foundations of Sound and Image Production (Jan Roberts-Breslin)
Solution Manual Prepare to Board! Creating Story and Characters for Animation Features and Shorts (Nancy Beiman)
Solution Manual Light and Lens : Photography in the Digital Age (Robert Hirsch)
Solution Manual The Radio Station : Broadcast, Satellite & Internet (7th Ed., Michael Keith)
Solution Manual Developing Story Ideas (2nd Ed., Michael Rabiger)
Solution Manual Radio Production Worktext : Studio and Equipment (5th Ed., Reese, Gross & Gross)
Solution Manual Broadcast News Writing, Reporting, and Producing (4th Ed., Ted White)
Solution Manual Problem Solving and Programming Concepts (7th Ed., Sprankle)
Solution Manual Problem Solving and Programming Concepts (8th Ed., Sprankle & Hubbard)
Solution Manual A Balanced Introduction to Computer Science (2nd Ed., David Reed)
Solution Manual Introduction to Computing and Programming with Java : A Multimedia Approach (Guzdial & Ericson)
Solution Manual Starting Out with Programming Logic and Design (Tony Gaddis)
Solution Manual Starting Out with Programming Logic and Design (2nd Ed., Tony Gaddis)
Solution Manual Tools For Structured and Object-Oriented Design (7th Ed., Bohl & Rynn)

Solution Manual Programming with Alice and Java (Lewis & DePasquale)
Solution Manual e-Business and e-Commerce How to Program (Harvey M. Deitel, Paul J. Deitel, Tem R. Nieto)
Solution Manual XML How to Program (Harvey M. Deitel, Paul J. Deitel, Tem R. Nieto, Ted Lin, Praveen Sadhu)
Solution Manual Python How to Program (Harvey M. Deitel, Paul J. Deitel, Jonathan P. Liperi Ben Wiedermann)
Solution Manual Perl How to Program (Harvey M. Deitel, Paul J. Deitel, Tem R. Nieto, D. C. McPhie)
Solution Manual C How to Program (4th Ed., Harvey & Paul Deitel)
Solution Manual C How to Program (5th Ed., Harvey & Paul Deitel)
Solution Manual C++ How to Program (6th Ed., Harvey & Paul Deitel)
Solution Manual Visual Basic.NET How to Program (2nd Ed., Harvey M. Deitel, Paul J. Deitel, Tem R. Nieto)
Solution Manual Visual C++ 2008 How to Program (2nd Ed., Harvey & Paul Deitel)
Solution Manual Internet & World Wide Web : How to Program (4th Ed., Harvey & Paul Deitel)
Solution Manual Web Technologies : A Computer Science Perspective (Jeffrey C. Jackson)
Solution Manual Mastering the Internet, XHTML and JavaScript (2nd Ed., Ibrahim Zeid)
Solution Manual Weaving a Website : Programming in HTML, Java Script, Perl and Java (Susan Anderson-Freed)
Solution Manual Simply C++ : An Application-Driven Tutorial Approach (Harvey & Paul Deitel)
Solution Manual Visual C# 2005 How to Program (2nd Ed., Harvey & Paul Deitel)
Solution Manual Visual C# 2008 How to Program (3rd Ed., Harvey & Paul Deitel)
Solution Manual Simply C# : An Application-Driven Tutorial Approach (Harvey & Paul Deitel, Hoey & Yaeger)
Solution Manual Java : An Introduction to Problem Solving and Programming (4th Ed., Walter Savitch)
Solution Manual Java : An Introduction to Problem Solving and Programming (5th Ed., Savitch & Carrano)
Solution Manual Introduction to Computing and Programming with Java : A Multimedia Approach (Guzdial & Ericson)
Solution Manual Java How to Program (7th Ed., Harvey & Paul Deitel)
Solution Manual Java For Students (5th Ed., Bell & Parr)
Solution Manual Java, Java, Java, Object-Oriented Problem Solving (3rd Ed., Morelli & Walde)
Solution Manual Java : An Eventful Approach (Bruce, Danyluk & Murtagh)
Solution Manual Introduction to Java Programming with JBuilder (3rd Ed., Y. Daniel Liang)
Solution Manual Starting Out with Visual Basic 2008 (4th Ed., Gaddis & Irvine)
Solution Manual Starting Out with Visual Basic 2010 (5th Ed., Gaddis & Irvine)
Solution Manual Starting Out with Python (Tony Gaddis)

Solution Manual Object-Oriented Programming in Python (Goldwasser & Letscher)
Solution Manual Introduction to MathCAD 11 (Ronald W. Larsen)
Solution Manual Introduction to MathCAD 13 (2nd Ed., Ronald W. Larsen)
Solution Manual MatLAB Programming (David Kuncicky)
Solution Manual Introduction to Maple 8 (David Schwartz)
Solution Manual Introduction to FORTRAN 90 (2nd Ed., Larry R. Nyhoff & Sanford Leestma)
Solution Manual Fortran 95/2003 Scientists and Engineers (3rd Ed., Stephen J. Chapman)
Solution Manual Introduction to Java (Stephen J. Chapman)
Solution Manual Java Software Solutions for AP Computer Science A (2nd Ed., Lewis, Loftus & Cocking)
Solution Manual Business Data Networks and Telecommunications (6th Ed., Raymond R. Panko)
Solution Manual Business Data Networks and Telecommunications (7th Ed., Raymond R. Panko)
Solution Manual Business Data Communications (Allen Dooley)
Solution Manual Object-Oriented Programming in C++ (4th Ed., Robert Lafore)
Solution Manual C++ : Classes and Data Structures (Jeffrey Childs)
Solution Manual Data Structures Outside-In with Java (Sesh Venugopal)
Solution Manual Data Structures and Abstractions with Java (2nd Ed., Frank M. Carrano)
Solution Manual Data Structures and Algorithms in Java (Peter Drake)
Solution Manual Practical Introduction to Data Structures and Algorithm Analysis : C++ Edition (2nd Ed., Clifford A. Shaffer)
Solution Manual Computer Vision : A Modern Approach (David Forsyth & Jean Ponce)
Solution Manual Computer Graphics Using Java 2D and 3D (Hong Zhang & Y. Daniel Liang)
Solution Manual Computer Graphics Using OpenGL (3rd Ed., Francis Hill Jr. & Stephen Kelley)
Solution Manual Computer Graphics with OpenGL (3rd Ed., Donald Hearn & M. Pauline Baker)
Solution Manual User-Centered Web Site Development : A Human-Computer Interaction Approach (McCracken & Wolfe)
Solution Manual Fundamentals of Game Design (Ernest Adams & Andrew Rollings)
Solution Manual Introduction to The Game Industry (Moore & Sward)
Solution Manual Fundamentals of Math and Physics for Game Programmers (Wendy Stahler)
Solution Manual Usability Engineering : Process, Products & Examples (Laura Leventhal & Julie Barnes)
Solution Manual Web Usability : A User-Centered Design Approach (Jonathan Lazar)
Solution Manual Structured Computer Organization (5th Ed., Andrew S. Tanenbaum)
Solution Manual Assembly Language for Intel-Based Computers (5th Ed., Kip Irvine)

Solution Manual Assembly Language for x86 Processors (6th Ed., Kip R. Irvine)
Solution Manual Fundamentals of Multimedia (Ze-Nian Li & Mark Drew)
Solution Manual Digital Media Primer (Yue-Ling Wong)
Solution Manual Essentials for Design Macromedia Director MX 2004 Comprehensive (Tara Gray)
Solution Manual Modern Systems Analysis and Design (4th Ed., Jeffrey Hoffer, Joey George, & Joseph Valacich)
Solution Manual Modern Systems Analysis and Design (5th Ed., Jeffrey Hoffer, Joey George, & Joseph Valacich)
Solution Manual Modern Database Management (8th Ed., Hoffer, Prescott & Topi)
Solution Manual Modern Database Management (9th Ed., Hoffer, Prescott & Topi)
Solution Manual Database Systems Using Oracle (2nd Ed., Nilesh Shah)
Solution Manual An Advanced Course in Database Systems : Beyond Relational Databases (Dietrich & Urban)
Solution Manual Data and Text Mining : A Business Applications Approach (Thomas Miller)
Solution Manual Network Management : Concepts and Practice, A Hands-On Approach (J. Richard Burke)
Solution Manual Computer and Communication Networks (Nader F. Mir)
Solution Manual High Performance TCP/IP Networking (Mahbub Hassan & Raj Jain)
Solution Manual Computer Security : Principles and Practice (William Stallings & Lawrie Brown)
Solution Manual Computer Forensics : Principles and Practices (Volonino, Anzaldua & Godwin)
Solution Manual Disaster Recovery : Principles and Practices (April Wells, Charlyne Walker & Timothy Walker)
Solution Manual Firewalls and VPNs : Principles and Practices (Richard Tibbs & Edward Oakes)
Solution Manual Network Defense and Countermeasures : Principles and Practices (Chuck Easttom)
Solution Manual Corporate Computer and Network Security (1st Ed., Raymond Panko)
Solution Manual Corporate Computer and Network Security (2nd Ed., Raymond Panko)
Solution Manual IP Telephony Using CallManager Express Lab Portfolio (Cheryl Schmidt & Ernie Friend)
Solution Manual High-Speed Networks and Internets : Performance and Quality of Service (2nd Ed., William Stallings)
Solution Manual Object-Oriented Modeling and Design with UML (2nd Ed., Michael Blaha & James Rumbaugh)
Solution Manual Operating Systems : Internals and Design Principles (5th Ed., William Stallings)
Solution Manual Operating Systems : Internals and Design Principles (6th Ed., William Stallings)
Solution Manual Distributed Systems : Principles and Paradigms (2nd Ed., Tanenbaum & Van Steen)

Solution Manual Modern Operating Systems (3rd Ed., Andrew Tanenbaum)
Solution Manual Operating Systems Design and Implementation (3rd Ed., Andrew Tanenbaum & Albert Woodhull)
Solution Manual UNIX Unbounded : A Beginning Approach (5th Ed., Amir Afzal)
Solution Manual Introduction to Operating Systems and Networks (Ruth Watson)
Solution Manual Operating Systems (3rd Ed., Harvey Deitel, Paul Deitel & David Choffnes)
Solution Manual Operating Systems Principles (Lubomir Bic & Alan Shaw)
Solution Manual A Practical Guide to Linux : Commands, Editors, and Shell Programming (Mark Sobell)
Solution Manual A Practical Guide to Red Hat Linux : Fedora Core and Red Hat Enterprise Linux (2nd Ed., Mark Sobell)
Solution Manual A Practical Guide to Red Hat Linux : Fedora Core and Red Hat Enterprise Linux (3rd Ed., Mark Sobell)
Solution Manual A Practical Guide to Fedora and Red Hat Enterprise Linux: College Edition (Mark Sobell)
Solution Manual A Practical Guide to Ubuntu Linux (Mark Sobell)
Solution Manual Automata, Computability and Complexity : Theory and Applications (Elaine Rich)
Solution Manual Modern Digital Electronics (R.P. Jain)
Solution Manual Linear Systems and Signals (B.P. Lathi)
Solution Manual Modern Digital and Analog Communications Systems (3rd Ed., B. P. Lathi)
Solution Manual Introduction to Digital Systems (Milo D. Ercegovac, Lang & Moreno)
Solution Manual Embedded Systems : Architechture, Programming and Design (Raj Kamal)
Solution Manual Modern Power System Analysis (D. P. Kothari & I. J. Nagrath)
Solution Manual Basic Electrical Engineering (2nd Ed., D.P. Kothari, I.J. Nagrath)
Solution Manual Electric Machines (3rd Ed., D.P. Kothari, I.J. Nagrath)
Solution Manual Circuits and Networks (A. Sudhakar & S. Palli Shyammohan)
Solution Manual Electrical and Electronic Technology (9th Ed., Edward Hughes, John Hiley, Keith Brown & Ian McKenzie-Smith)
Solution Manual Electrical and Electronic Technology (10th Ed., Edward Hughes, John Hiley, Keith Brown & Ian McKenzie-Smith)
Solution Manual Electric Motors and Drives : Fundamentals, Types and Applications (3rd Ed., Austin Hughes)
Solution Manual Modern Processor Design : Fundamentals of Superscalar Processors (John P. Shen)
Solution Manual Computer Networks : Principles, Technologies and Protocols for Network Design (N. Olifer & V. Olifer)
Solution Manual Computer Networking : Internet Protocols in Action (Jeanna Matthews)
Solution Manual Computer Organization (5th Ed., Hamacher et al.)

Solution Manual CMOS Digital Integrated Circuits : Analysis and Design (3rd Ed., Sung-Mo Kang & Yusuf Leblebici)
Solution Manual Introduction to Logic Design (1st Ed., Alan B Marcovitz)
Solution Manual Introduction to Logic Design (2nd Ed., Alan B Marcovitz)
Solution Manual Introduction to Logic Design (3rd Ed., Alan B Marcovitz)
Solution Manual Introduction to Logic and Computer Design (Alan B Marcovitz)
Solution Manual Digital Principles and Design (Donald D. Givone)
Solution Manual Programmable Logic Controllers (3rd Ed., Frank Petruzella)
Solution Manual Antenna Theory and Design (2nd Ed., Stutzman & Thiele)
Solution Manual Antennas for All Applications (3rd Ed., John Kraus & Ronald Marhefka)
Solution Manual Principles of Neurocomputing for Science and Engineering (Fredric M. Ham & Ivica Kostanic)
Solution Manual Introduction to Algorithms (2nd Ed., Cormen, et al.)
Solution Manual Algorithms (Dasgupta, et al.)
Solution Manual Applied Operating Systems Concepts (Silberschatz, Galvin & Gagne)
Solution Manual Operating System Concepts (6th Ed., Silberschatz, Galvin & Gagne)
Solution Manual Operating System Concepts (7th Ed., Silberschatz, Galvin & Gagne)
Solution Manual Operating System Concepts (8th Ed., Silberschatz, Galvin & Gagne)
Solution Manual Operating Systems Concepts with Java (6th Ed., Silberschatz, Galvin & Gagne)
Solution Manual Operating System Concepts with Java (7th Ed., Silberschatz, Galvin & Gagne)
Solution Manual Operating System Concepts with Java (8th Ed., Silberschatz, Galvin & Gagne)
Solution Manual C++ Program Design (3rd Ed., Cohoon & Davidson)
Solution Manual Java : Program Design 5.0 (Cohoon & Davidson)
Solution Manual Programming in C++ : Lessons and Applications (Timothy B. D'Orazio)
Solution Manual Applied C : An Introduction and More (Alice Fischer)
Solution Manual Programming Languages : Principles and Paradigms (1st Ed., Allen Tucker & Robert Noonan)
Solution Manual Programming Languages : Principles and Paradigms (2nd Ed., Allen Tucker & Robert Noonan)
Solution Manual Introduction to Parallel Computing (2nd Ed., Grama, Karypis, Kumar & Gupta)
Solution Manual Parallel Programming in C with MPI and Open MP (Michael J Quinn)
Solution Manual Data Communications and Network Security (Houston H. Carr & Charles Snyder)
Solution Manual Data Communications and Networks (David Miller)

Solution Manual Management Information Systems (3rd Ed., Post & Anderson)
Solution Manual Management Information Systems (4th Ed., Post & Anderson)
Solution Manual Database Management Systems (3rd Ed. Post)
Solution Manual Management Information Systems (9th Ed., James A. O'Brien, George Marakas)
Solution Manual Introduction to Systems Analysis and Design (Whitten & Bentley)
Solution Manual Systems Analysis & Design : An Active Approach (2nd Ed., Marakas)
Solution Manual An Introduction to Object-Oriented Programming with Java (4th Ed., C. Thomas Wu - Otani)
Solution Manual An Introduction to Object-Oriented Programming with Java (5th Ed., C. Thomas Wu - Otani)
Solution Manual A Comprehensive Introduction to Object-Oriented Programming With Java (C. Thomas Wu)
Solution Manual Data Structures and the Java Collections Framework (1st Ed., William Collins)
Solution Manual Data Structures and the Java Collections Framework (2nd Ed., William Collins)
Solution Manual Data Structures and the Standard Template Library (William Collins)
Solution Manual Database System Concepts (4th Ed., Silberschatz)
Solution Manual Database System Concepts (5th Ed., Silberschatz)
Solution Manual Database System Concepts (6th Ed., Silberschatz, Korth & Sudarshan)
Solution Manual Database Management Systems (3rd Ed., Ramakrishnan & Gehrke)
Solution Manual Fundamentals of Network Security (Eric Maiwald)
Solution Manual Computing Concepts (1st Ed., Haag, et al.)
Solution Manual Computing Concepts (2nd Ed., Haag et al.)
Solution Manual Microsoft Office 2003 (Haag et al.)
Solution Manual Advanced Programming Using Visual Basic .NET (2nd Ed., Julia Case Bradley & Anita Millspaugh)
Solution Manual Advanced Programming Using Visual Basic 2005 (3rd Ed., Julia Case Bradley & Anita Millspaugh)
Solution Manual Programming with Java (Julia Case Bradley & Anita Millspaugh)
Solution Manual Programming in C♯.Net (1st Ed., Julia Case Bradley & Anita Millspaugh)
Solution Manual Programming in Visual C♯ 2005 (2nd Ed., Julia Case Bradley & Anita Millspaugh)
Solution Manual Learning Programming Using Visual Basic.Net (Bill Burrows & Joe Lanford)
Solution Manual Programming in Visual Basic.NET : Visual Basic.NET 2005 (6th Ed., Julia Case Bradley & Anita Millspaugh)
Solution Manual Programming in Visual Basic .Net : 2003 Update Edition (5th Ed., Julia Case Bradley & Anita Millspaugh)
Solution Manual Survey of Operating Systems (2nd Ed., Jane Holcombe &

Charles Holcombe)
Solution Manual Principles of Voice and Data Communications (Regis J. Bates & Marcus Bates)
Solution Manual Mike Meyers' Network+ Guide To Managing and Troubleshooting Networks (Michael Meyers)
Solution Manual Introduction to Windows Server 2003 (Eric Ecklund)
Solution Manual Programming The Web : An Introduction (Barrie Sosinsky & Valda Hilley)
Solution Manual Programming The Web Using XML (Ellen Pearlman & Eileen Mullin)
Solution Manual Internet Marketing : Building Advantage in a Networked Economy (2nd Ed., Rafi Mohammed et al.)
Solution Manual Internet Technologies at Work (Fred T. Hofstetter)
Solution Manual Internet Literacy (4th Ed., Fred T. Hofstetter)
Solution Manual Software Engineering : A Practitioner's Approach (5th Ed., Roger Pressman)
Solution Manual Software Engineering : A Practitioner's Approach (6th Ed., Roger Pressman)
Solution Manual Software Engineering : A Practitioner's Approach (7th Ed., Roger Pressman)
Solution Manual Web Engineering : A Practioner's Approach (1st Ed., Roger S. Pressman & David Lowe)
Solution Manual Object-Oriented Software Engineering (Stephen Schach)
Solution Manual Object-Oriented and Classical Software Engineering (5th Ed., Steve Schach)
Solution Manual Object-Oriented and Classical Software Engineering (6th Ed., Steve Schach)
Solution Manual Object-Oriented and Classical Software Engineering (7th Ed., Steve Schach)
Solution Manual Introduction to Object-Oriented Analysis and Design (Steve Schach)
Solution Manual Communication Networks (2nd Ed., Alberto Leon-Garcia & Indra Widjaja)
Solution Manual Fundamentals of Digital Logic with Verilog Design (1st Ed., Stephen Brown & Zvonko Vranesic)
Solution Manual Fundamentals of Digital Logic with Verilog Design (2nd Ed., Stephen Brown & Zvonko Vranesic)
Solution Manual Continuous and Discrete Control Systems (John Dorsey)
Solution Manual Engineering Circuit Analysis (6th Ed., William Hayt, Jack Kemmerly & Steven Durbin)
Solution Manual Engineering Circuit Analysis (7th Ed., William Hayt, Jack Kemmerly & Steven Durbin)
Solution Manual Engineering Electromagnetics (7th Ed., William Hayt & John Buck)
Solution Manual Principles of Electronic Materials and Devices (2nd Ed., Safa O. Kasap)
Solution Manual Principles of Electronic Materials and Devices (3rd Ed., Safa O. Kasap)
Solution Manual Programming in Haskell (Graham Hutton)
Solution Manual Probability and Random Processes With Applications to

Signal Processing and Communications (Miller & Childers)
Solution Manual Logic in Computer Science : Modelling and Reasoning about Systems (2nd Ed., Michael Huth & Mark Ryan)
Solution Manual Introduction to Distributed Algorithms (2nd., Gerard Tel)
Solution Manual Information Theory, Inference and Learning Algorithms (David J. C. MacKay)
Solution Manual Digital Systems Engineering (William Dally & John Poulton)
Solution Manual Concepts in Programming Languages (by John Mitchell)
Solution Manual Simulation Modeling and Analysis (3rd Ed., Averill Law & David Kealton)
Solution Manual Simulation Modeling and Analysis with Expertfit Software (4th Ed., Averill Law)
Solution Manual System Modeling and Analysis : Foundations of System Performance Evaluation (Hisashi Kobayashi & Brian Mark)
Solution Manual Wireless Communications (Andrea Goldsmith)
Solution Manual Testing of Digital Systems (N. K. Jha & S. Gupta)
Solution Manual Space-Time Coding (Hamid Jafarkhani)
Solution Manual Space-Time Block Coding for Wireless Communications (Erik Larsson & Petre Stoica)
Solution Manual Smart Electronic Materials : Fundamentals and Applications (Jasprit Singh)
Solution Manual Radio-Frequency Electronics : Circuits and Applications (Jon Hagen)
Solution Manual Photonic Devices (Jia-ming Liu)
Solution Manual Networking Wireless Sensors (Bhaskar Krishnamachari)
Solution Manual Mobile Wireless Communications (Mischa Schwartz)
Solution Manual Introduction to Color Imaging Science (Hsien-Che Lee)
Solution Manual Fundamentals of Wireless Communication (David Tse & Pramod Viswanath)
Solution Manual Fundamentals of Modern VLSI Devices (Yuan Taur & Tak H. Ning)
Solution Manual Electronic and Optoelectronic Properties of Semiconductor Structures (Jasprit Singh)
Solution Manual An Introduction to Statistical Signal Processing (Robert M. Gray)
Solution Manual An Introduction to Radio Frequency Engineering (Christopher Coleman)
Solution Manual Algebraic Codes for Data Transmission (Richard Blahut)
Solution Manual Fundamentals of Solid State Electronics (C.T. Sah)
Solution Manual Fundamentals of Solid State Engineering (2nd Ed., Manijeh Razeghi)
Solution Manual Robot Modeling and Control (Spong, Hutchinson & Vidyasagar)
Solution Manual Theory of Applied Robotics : Kinematics, Dynamics and Control (Reza N. Jazar)
Solution Manual Control of Robot Manipulators in Joint Space (R. Kelly, V. Santibáñez, A. Loría)
Solution Manual Modelling and Control of Robot Manipulators (2nd Ed.,

Lorenzo Sciavicco, Bruno Siciliano)
Solution Manual Robotics : Modelling, Planning and Control (Bruno Siciliano, Lorenzo Sciavicco, Luigi Villani & Giuseppe Oriolo)
Solution Manual Fundamentals of Semiconductor Fabrication (Gary S. May, Simon M. Sze)
Solution Manual Semiconductor Devices : Physics and Technology (2nd Ed, Simon M. Sze)
Solution Manual Physics of Semiconductor Devices (3rd Ed., Simon M. Sze, Kwok K. Ng)
Solution Manual Electric Machinery (6th Ed., Fitzgerald)
Solution Manual Electric Machinery Fundamentals (4th Ed., Chapman)
Solution Manual Electric Machinery and Power System Fundamentals (Chapman)
Solution Manual Local Area Networks (2nd Ed., Keiser)
Solution Manual Signals and Systems : Analysis of Signals Through Linear Systems (1st Ed., M.J. Roberts)
Solution Manual Fundamentals of Signals and Systems (M.J. Roberts)
Solution Manual Introduction to Signals and Systems (Lindner)
Solution Manual Semiconductor Physics and Devices (3rd Ed., Donald Neamen)
Solution Manual An Introduction to Semiconductor Devices (Donald Neamen)
Solution Manual Microelectronic Circuit Analysis and Design (3rd Ed., Donald Neamen)
Solution Manual Electronic Circuit Analysis and Design (2nd Ed., Donald Neamen)
Solution Manual Design for Electrical and Computer Engineers (1st Ed., Ralph Ford & Chris Coulston)
Solution Manual Fundamentals of Modeling and Analyzing Engineering Systems (Cha, Rosenberg, Dym)
Solution Manual Linear Systems (Panos J. Antsaklis & Anthony N. Michel)
Solution Manual A Linear Systems Primer (Panos J. Antsaklis & Anthony N. Michel)
Solution Manual Principles of Linear Systems (Philip E. Sarachik)
Solution Manual Linear Systems Control : Deterministic and Stochastic Methods (Elbert Hendricks, Ole Jannerup & Paul Haase Sørensen)
Solution Manual Power Systems Harmonics : Fundamentals, Analysis and Filter Design (George J. Wakileh)
Solution Manual Principles of Adaptive Filters and Self-learning Systems (Anthony Zaknich)
Solution Manual Algebraic Methods for Nonlinear Control Systems (2nd Ed., Conte, Moog & Perdon)
Solution Manual Discrete-Time Control Systems (2nd Ed., K. Ogata)
Solution Manual Modern Control Engineering - Problems B (3rd Ed., K. Ogata)
Solution Manual Modern Control Engineering (4th Ed., K. Ogata)
Solution Manual Modern Control Engineering (5th Ed., K. Ogata)
Solution Manual Modern Control Engineering - International Version (5th Ed., K. Ogata)

Solution Manual LabVIEW 8 Student Edition (Bishop)
Solution Manual LabVIEW 2009 Student Edition (Bishop)
Solution Manual Learning with LabVIEW 2009 (Bishop)
Solution Manual Introduction to Feedback Control (Li Qiu & Kemin Zhou)
Solution Manual Modeling and Simulation of Dynamic Systems (Robert Woods, Jr. & Kent Lawrence)
Solution Manual Feedback Control of Dynamic Systems (4th Ed., Gene Franklin, J.D. Powell, Abbas Emami-Naeini)
Solution Manual Feedback Control of Dynamic Systems (5th Ed., Gene Franklin, J.D. Powell, Abbas Emami-Naeini)
Solution Manual Feedback Control of Dynamic Systems (6th Ed., Gene Franklin, J.D. Powell, Abbas Emami-Naeini)
Solution Manual Feedback Control of Dynamic Systems - International Version (6th Ed., Gene Franklin, J.D. Powell, Abbas Emami-Naeini)
Solution Manual Predictive Control with Constraints (Jan Maciejowski)
Solution Manual Computer Numerical Control : Operation and Programming (3rd Ed., Stenerson & Curran)
Solution Manual Engineering Problem Solving with C (3rd Ed., Etter)
Solution Manual Engineering Problem Solving with C++ (2nd Ed., Etter)
Solution Manual Process Control Instrumentation Technology (8th Ed., Johnson)
Solution Manual Electrical Power and Controls (2nd Ed., Skvarenina & DeWitt)
Solution Manual Electronics and Computer Math (8th Ed., Deem & Zannini)
Solution Manual Circuits, Signals, and Systems for Bioengineers : A MATLAB-Based Introduction (John Semmlow)
Solution Manual VLSI Test Principles and Architectures : Design for Testability (Laung-Terng Wang, Cheng-Wen Wu & Xiaoqing Wen)
Solution Manual Mechatronics : Principles and Applications (Godfrey Onwubolu)
Solution Manual Machine Vision : Theory, Algorithms, Practicalities (3rd Ed., E. R. Davies)
Solution Manual Essential Java for Scientists and Engineers (Brian D. Hahn & Katherine M. Malan)
Solution Manual Guide to Microsoft Excel 2002 for Scientists and Engineers (3rd Ed., Bernard V. Liengme)
Solution Manual 10-Key Touch Key : Developing Speed and Accuracy (Burton)
Solution Manual Introduction to C++ Programming, Brief Version (Y. Daniel Liang)
Solution Manual Introduction to C++ Programming, Comprehensive (Y. Daniel Liang)
Solution Manual C++ for Business Programmers (2nd Ed., John C. Molluzzo)
Solution Manual Introduction to Java Programming - Brief Version (7th Ed., Liang)
Solution Manual Introduction to Java Programming - Brief Version (8th Ed., Liang)
Solution Manual Introduction to Java Programming - Brief Version -

International Edition (8th Ed., Liang)
Solution Manual Introduction to Java Programming - Comprehensive Version (6th Ed., Liang)
Solution Manual Introduction to Java Programming - Comprehensive Version (7th Ed., Liang)
Solution Manual Introduction to Java Programming - Comprehensive Version (8th Ed., Liang)
Solution Manual Introduction to Java Programming - Comprehensive Version - International Edition (8th Ed., Liang)
Solution Manual Introduction to Java Programming : Fundamentals First (6th Ed., Y. Daniel Liang)
Solution Manual Objects First With Java : A Practical Introduction Using BlueJ (3rd Ed., Barnes & Kolling)
Solution Manual Simply Java Programming : An Application-Driven™ Tutorial Approach (Deitel)
Solution Manual Java : An Introduction to Computing (Joel Adams, Larry R. Nyhoff & Jeffrey Nyhoff)
Solution Manual Advanced Java™ 2 Platform How to Program (Deitel & Santry)
Solution Manual SQL for SQL Server (Bijoy Bordoloi & Douglas B. Bock)
Solution Manual An Introduction to Programming Using Visual Basic 2005 (6th Ed., Schneider)
Solution Manual An Introduction to Programming Using Visual Basic 2008 (7th Ed., Schneider)
Solution Manual An Introduction to Programming Using Visual Basic 2010 (8th Ed., Schneider)
Solution Manual Simply Visual Basic .NET (Harvey M. Deitel, Paul J. Deitel, Tem R. Nieto)
Solution Manual Simply Visual Basic 2005 (2nd Ed., Harvey & Paul Deitel & Associates)
Solution Manual Simply Visual Basic 2008 (3rd Ed., Harvey & Paul Deitel & Associates)
Solution Manual Visual Basic 2005 How to Program (3rd Ed., Deitel & Associates)
Solution Manual Visual Basic 2008 How to Program (4th Ed., Deitel & Associates)
Solution Manual An Introduction to Programming with Visual Basic 6.0 (4th Ed., Schneider)
Solution Manual Visual Basic.Net Programming (2nd Ed., Jeffrey Tsay)
Solution Manual Simply Visual Basic .NET (Harvey & Paul Deitel & Nieto)
Solution Manual Mechatronics (Sabri Cetinkunt)
Solution Manual PC Systems, Installation and Maintenance (2nd Ed., R.P. Beales)
Solution Manual Introduction to Linear Programming (Leonid N. Vaserstein)
Solution Manual Electric Circuits Fundamentals (8th Ed., Thomas Floyd)
Solution Manual Introductory Circuit Analysis (11th Ed., Robert L. Boylestad)
Solution Manual Introductory Circuit Analysis (12th Ed., Robert L.

Boylestad)
Solution Manual Principles of Electric Circuits : Conventional Current Version (8th Ed., Thomas Floyd)
Solution Manual Principles of Electric Circuits : Conventional Current Version (9th Ed., Thomas Floyd)
Solution Manual Principles of Electric Circuits : Electron Flow Version (8th Ed., Thomas L. Floyd)
Solution Manual Principles of Electric Circuits : Electron Flow Version (9th Ed., Thomas L. Floyd)
Solution Manual Contemporary Electric Circuits : Insights and Analysis (2nd ed., Strangeway, Petersen, Gassert & Lokken)
Solution Manual Introductory Electronic Devices and Circuits : Electron Flow Version (7th Ed., Paynter)
Solution Manual Introductory Electronic Devices and Circuits : Conventional Flow Version (7th Ed., Paynter)
Solution Manual Electronics Technology Fundamentals : Conventional Flow (2nd Ed., Robert T. Paynter & Toby Boydell)
Solution Manual Electronics Technology Fundamentals : Conventional Flow (3rd Ed., Robert T. Paynter & Toby Boydell)
Solution Manual Electronics Technology Fundamentals : Electron Flow (2nd Ed., Robert T. Paynter, Toby Boydell)
Solution Manual Electronics Technology Fundamentals : Electron Flow (3rd Ed., Robert T. Paynter, Toby Boydell)
Solution Manual Introductory DC/AC Circuits (6th Ed., Nigel P. Cook)
Solution Manual Introductory DC/AC Electronics (6th Ed., Nigel P. Cook)
Solution Manual Electronic Devices : Conventional Current Version (7th Ed., Floyd)
Solution Manual Electronic Devices : Conventional Current Version (8th Ed., Floyd)
Solution Manual Electronic Devices : Electron Flow Version (7th, Floyd)
Solution Manual Electronic Devices : Electron Flow Version (8th, Floyd)
Solution Manual Electronics Fundamentals : Circuits, Devices and Applications (7th Ed., Thomas L. Floyd)
Solution Manual Electronics Fundamentals : Circuits, Devices and Applications (8th Ed., Floyd & Buchla)
Solution Manual Electronic Devices and Circuit Theory (9th Ed., Boylestad, Nashelsky)
Solution Manual Electronic Devices and Circuit Theory (10th Ed., Boylestad, Nashelsky)
Solution Manual The Science of Electronics : DC/AC (David M. Buchla, Thomas L. Floyd)
Solution Manual The Science of Electronics : Digital (Floyd & Buchla)
Solution Manual The Science of Electronics: Analog Devices (Floyd & Buchla)
Solution Manual Digital Electronics : A Practical Approach (7th Ed., Kleitz)
Solution Manual Digital Electronics : A Practical Approach (8th Ed.,

Kleitz)
Solution Manual Digital Systems : Principles and Applications (10th Ed., Tocci, Widmer & Moss)
Solution Manual Digital Electronics with VHDL - Quartus II Version (Kleitz)
Solution Manual Digital Fundamentals (9th Ed., Floyd)
Solution Manual Digital Fundamentals (10th Ed., Floyd)
Solution Manual Digital Fundamentals with PLD Programming (Thomas L. Floyd)
Solution Manual The 8051 Microcontroller (4th Ed., MacKenzie & Chung-Wei Phan)
Solution Manual The 8051 Microcontroller and Embedded Systems (2nd Ed., Muhammad Ali Mazidi, Janice Mazidi & Rolin McKinlay)
Solution Manual INTEL Microprocessors 8086/8088, 80186/80188, 80286, 80386, 80486, Pentium, Prentium ProProcessor, Pentium II, III, 4, (7th Ed., Barry B. Brey)
Solution Manual Microcontroller Technology : The 68HC11 (5th Ed., Peter Spasov)
Solution Manual PIC Microcontroller (Muhammad Ali Mazidi, Rolin McKinlay & Danny Causey)
Solution Manual HCS12 Microcontrollers and Embedded Systems : Using Assembly and C with CodeWarrior (Muhammad Ali Mazidi, Danny Causey & Janice Mazidi)
Solution Manual The x86 PC : Assembly Language, Design, and Interfacing (5th Ed., Muhammad Ali Mazidi, Janice Mazidi & Danny Causey)
Solution Manual The AVR Microcontroller and Embedded Systems : Using Assembly and C (Muhammad Ali Mazidi, Sarmad Naimi & and Sepehr Naimi)
Solution Manual Industrial Electronics (James A. Rehg, Glenn J. Sartori)
Solution Manual Programmable Controllers Using the Allen-Bradley SlC-500 Family (2nd Ed., Dave Geller)
Solution Manual Programmable Logic Controllers (James A. Rehg, Glenn J. Sartori)
Solution Manual Fundamentals of Programmable Logic Controllers, Sensors, and Communications (3rd Ed., Jon Stenerson)
Solution Manual An Introduction to Programming with Visual Basic 6.0, Update Edition (4th Ed., Schneider)
Solution Manual C++ Programming Today (1st Ed., Barbara Johnston)
Solution Manual C++ Programming Today (2nd Ed., Barbara Johnston)
Solution Manual Introduction to Data Communications and Networking (Wayne Tomasi)
Solution Manual Introduction to Telecommunications (2nd Ed., Martha Rosengrant)
Solution Manual Network Security Essentials : Applications and Standards (3rd Ed., William Stallings)
Solution Manual Network Security Essentials : Applications and Standards (4th Ed., William Stallings)
Solution Manual Information Security: Principles and Practices (Mark Merkow, James Breithaupt)

Solution Manual Principles and Practice of Information Security (Linda Volonino, Stephen R. Robinson)
Solution Manual Principles of Electronic Communication Systems (3rd Ed., Louis E. Frenzel)
Solution Manual Modern Electronic Communication (8th Ed., Jeff Beasley, Gary M. Miller)
Solution Manual Modern Electronic Communication (9th Ed., Jeff Beasley, Gary M. Miller)
Solution Manual Electronic Communications for Technicians (2nd ed., Tom Wheeler)
Solution Manual Concepts In Systems and Signals (2nd Ed., John D. Sherrick)
Solution Manual Understanding Fiber Optics (5th Ed., Jeff Hecht)
Solution Manual Understanding UNIX/LINUX Programming : A Guide to Theory and Practice (Bruce Molay)
Solution Manual Applying PIC18 Microcontrollers : Architecture, Programming, and Interfacing using C and Assembly (Barry Brey)
Solution Manual Electrical Power and Controls (2nd Ed., Timothy L. Skvarenina, William E. DeWitt)
Solution Manual Process Control Instrumentation Technology (8th Ed., Curtis Johnson)
Solution Manual Electrical Machines, Drives and Power Systems (6th Ed., Theodore Wildi)
Solution Manual Introduction to Vacuum Technology (David M. Hata)
Solution Manual Electronic Project Design and Fabrication (6th Ed., Ronald A. Reis)
Solution Manual Technology and Society (3rd Ed., Linda Hjorth, Barbara A. Eichler, Ahmed S. Khan, John Morello)
Solution Manual Solid State Electronic Devices (6th Ed., Ben Streetman, Sanjay Banerjee)
Solution Manual Approaching Quantum Computing (Dan C. Marinescu & Gabriela M. Marinescu)
Solution Manual Foundations of MEMS (Chang Liu)
Solution Manual Fundamentals of Applied Electromagnetics (5th Ed., Fawwaz T. Ulaby)
Solution Manual Fundamentals of Applied Electromagnetics (6th Ed., Ulaby, Michielssen & Ravaioli)
Solution Manual Basic Electromagnetics with Applications (Nannapaneni Narayana Rao)
Solution Manual Elements of Engineering Electromagnetics (6th Ed., Nannapaneni Narayana Rao)
Solution Manual Fundamentals of Electromagnetics for Electrical and Computer Engineering (Nannapaneni Narayana Rao)
Solution Manual Digital Design (4th Ed., M. Morris Mano & Michael D. Ciletti)
Solution Manual Digital Design : Principles and Practices Package (4th Ed., John F. Wakerly)
Solution Manual VHDL: A Starter's Guide (2nd Ed., Sudhakar Yalamanchili)
Solution Manual Computer Organization and Architecture : Designing for

Performance (7th Ed., William Stallings)
Solution Manual Computer Organization and Architecture : Designing for Performance (8th Ed., William Stallings)
Solution Manual Parallel Programming : Techniques and Applications Using Networked Workstations and Parallel Computers (2nd Ed., Barry Wilkinson & Michael Allen)
Solution Manual Fundamentals of Parallel Processing (Harry F. Jordan & Gita Alaghband)
Solution Manual Digital and Analog Communication Systems (7th Ed., Leon W. Couch)
Solution Manual Digital Communications (4th Ed., John Proakis)
Solution Manual Digital Communications (5th Ed., John Proakis)
Solution Manual Principles of Digital Communication and Coding (Andrew J. Viterbi, Jim K. Omura)
Solution Manual Modern Wireless Communications (Simon Haykin, Michael Moher)
Solution Manual Communication Systems Engineering (2nd Ed., John G. Proakis & Masoud Salehi)
Solution Manual ISDN and Broadband ISDN with Frame Relay and ATM (4th Ed., William Stallings)
Solution Manual Data and Computer Communications (8th Ed., William Stallings)
Solution Manual Cryptography and Network Security (4th Ed., William Stallings)
Solution Manual Cryptography and Network Security : Principles and Practice (5th Ed., William Stallings)
Solution Manual Computer Networking with Internet Protocols (William Stallings)
Solution Manual Local and Metropolitan Area Networks (6th Ed., William Stallings)
Solution Manual Probabilistic Systems and Random Signals (Abraham Haddad)
Solution Manual Error Control Coding (2nd Ed., Shu Lin & Daniel J. Costello)
Solution Manual Wireless Communications & Networks (2nd ed., William Stallings)
Solution Manual Wireless Communications and Networking (Jon W. Mark, Weihua Zhuang)
Solution Manual Detection and Estimation Theory (Thomas Schonhoff & Arthur Giordano)
Solution Manual Signals, Systems, and Transforms (3rd Ed., Charles Phillips, John Parr & Eve Riskin)
Solution Manual Signals, Systems, and Transforms (4th Ed., Charles Phillips, John Parr & Eve Riskin)
Solution Manual Signals, Systems, and Transforms - International Version (4th Ed., Charles Phillips, John Parr & Eve Riskin)
Solution Manual Fundamentals of Signals and Systems Using the Web and Matlab (3rd Ed., Edward Kamen & Bonnie Heck)
Solution Manual Adaptive Filter Theory (4th Ed., Simon Haykin)
Solution Manual Neural Networks and Learning Machines (3rd Ed., Simon

Haykin)
Solution Manual Spectral Analysis of Signals (Petre Stoica & Randolph L. Moses)
Solution Manual Fluency with Information Technology : Skills, Concepts, and Capabilities (2nd Ed., Snyder)
Solution Manual Fluency with Information Technology : Skills, Concepts, and Capabilities (3rd Ed., Snyder)
Solution Manual Fluency with Information Technology, Brief Edition (Lawrence Snyder)
Solution Manual Excel 2003 Volume II: Advanced Concepts in Excel (5th Ed., Karen Jolly)
Solution Manual Focus on Excel 2003 (Julie Hayward Spooner)
Solution Manual Comprehensive Excel 2002 for Office XP (4th Ed., Karen Jolly)
Solution Manual Ethics for the Information Age (2nd Ed., Michael Quinn)
Solution Manual Ethics for the Information Age (3rd Ed., Michael Quinn)
Solution Manual Computer Science : An Overview (8th Ed., J. Glenn Brookshear)
Solution Manual Computer Science : An Overview (9th Ed., J. Glenn Brookshear)
Solution Manual Computer Science : An Overview (10th Ed., J. Glenn Brookshear)
Solution Manual Excel 2003 Volume 1 : Core Concepts in Excel (5th Ed., Karen J. Jolly)
Solution Manual Concise Prelude to Programming : Concepts and Design (2nd Ed., Stewart Venit)
Solution Manual Concise Prelude to Programming (3rd Ed., Stewart Venit & Elizabeth Drake)
Solution Manual Extended Prelude to Programming : Concepts and Design (2nd Ed., Stewart Venit)
Solution Manual Extended Prelude to Programming (3rd Ed., Stewart Venit & Elizabeth Drake)
Solution Manual Logic and Design of Computer Programs (Jim Messinger)
Solution Manual Absolute C++ (2nd Ed., Walter Savitch)
Solution Manual Absolute C++ (3rd Ed., Walter Savitch)
Solution Manual Absolute C++ (4th Ed., Walter Savitch)
Solution Manual Problem Solving with C++ : The Object of Programming (5th Ed., Walter Savitch)
Solution Manual Problem Solving with C++ (6th Ed., Walter Savitch)
Solution Manual Problem Solving with C++ (7th Ed., Walter Savitch)
Solution Manual Problem Solving, Abstraction, and Design using C++ (4th Ed., Frank Friedman & Elliot Koffman)
Solution Manual Problem Solving, Abstraction & Design Using C++ (5th Ed., Frank Friedman & Elliot Koffman)
Solution Manual Starting Out with C++ : From Control Structures through Objects (5th Ed., Tony Gaddis)
Solution Manual Starting Out with C++ : From Control Structures through Objects (6th Ed., Tony Gaddis)

Solution Manual Starting Out with C++ : From Control Structures through Objects - Brief Version (6th Ed., Tony Gaddis)
Solution Manual Starting out with C++ Brief Version Updated (4th Ed., Gaddis & Krupnow)
Solution Manual Starting out with C++ Brief Version (5th Ed., Gaddis & Krupnow)
Solution Manual Starting Out with C++ : Brief Version Update, Visual C++ .NET (4th Ed., Gaddis & Krupnow)
Solution Manual Starting Out with C++ : Early Objects (5th Ed., Gaddis, Walters & Muganda)
Solution Manual Starting Out with C++ : Early Objects (6th Ed., Gaddis, Walters & Muganda)
Solution Manual Starting Out with C++ : Early Objects (7th Ed., Gaddis, Walters & Muganda)
Solution Manual C++ By Dissection (Ira Pohl)
Solution Manual Essential C++ for Engineers and Scientists (2nd Ed., Jeri Hanly)
Solution Manual C++ Coach : Essentials for Introductory Programming (Jeff Salvage)
Solution Manual C++ Primer (4th Ed., Stanley Lippman, Josée Lajoie & Barbara Moo)
Solution Manual Engineering Computation with MATLAB (1st Ed., David Smith)
Solution Manual Engineering Computation with MATLAB (2nd Ed., David Smith)
Solution Manual Absolute Java (1st Ed., Walter Savitch)
Solution Manual Absolute Java (2nd Ed., Walter Savitch)
Solution Manual Absolute Java (3rd Ed., Walter Savitch)
Solution Manual Absolute Java (4th Ed., Walter Savitch)
Solution Manual The Art and Science of Java (Eric Roberts)
Solution Manual Building Java Programs : A Back to Basics Approach (Stuart Reges & Martin Stepp)
Solution Manual Introduction to Programming in Java : An Interdisciplinary Approach (Robert Sedgewick & Kevin Wayne)
Solution Manual Java Foundations: Introduction to Program Design and Data Structures (John Lewis, Peter DePasquale & Joe Chase)
Solution Manual Starting Out with Java : Early Objects (3rd Ed., Gaddis)
Solution Manual Starting Out with Java : From Control Structures through Objects (3rd Ed., Gaddis)
Solution Manual Starting Out with Java : From Control Structures through Objects (4th Ed., Gaddis)
Solution Manual Java Software Solutions (Java 5.0 version) : Foundations of Program Design (4th Ed., Lewis & Loftus)
Solution Manual Java Software Solutions : Foundations of Program Design (5th Ed., Lewis & Loftus)
Solution Manual Java Software Solutions : Foundations of Program Design (6th Ed., Lewis & Loftus)
Solution Manual Starting Out with Java : From Control Structures through Data Structures (Gaddis & Muganda)

Solution Manual Object of Java, The: Introduction to Programming Using Software Engineering Principles (2nd Ed, David Riley)
Solution Manual Object-Oriented Programming in Java : A Graphical Approach, Preliminary Edition (Kathryn E. Sanders & Andy van Dam)
Solution Manual Starting Out with Java 5 : Control Structures to Objects (Tony Gaddis)
Solution Manual Starting Out with Java 5 : Early Objects (Tony Gaddis)
Solution Manual Introduction to Programming Using Java : An Object-Oriented Approach (2nd Ed., David Arnow, Scott Dexter & Gerald Weiss)
Solution Manual Computing with Java (2nd Ed., Art Gittleman)
Solution Manual Problem Solving with Java, Update (2nd Ed., Elliot B. Koffman & Ursula Wolz)
Solution Manual Starting Out with Alice : A Visual Introduction to Programming (Tony Gaddis)
Solution Manual Problem Solving and Program Design in C (4th Ed., Jeri Hanly & Elliot Koffman)
Solution Manual Problem Solving and Program Design in C (5th Ed., Jeri Hanly & Elliot Koffman)
Solution Manual Problem Solving and Program Design in C (6th Ed., Jeri Hanly & Elliot Koffman)
Solution Manual Starting Out with Visual Basic 2005 (3rd Ed., Tony Gaddis & Kip Irvine)
Solution Manual Starting Out with Visual Basic 6 (Tony Gaddis, Kip Irvine & Bruce Denton)
Solution Manual Starting Out with Visual Basic.Net (2nd Ed., Tony Gaddis, Kip Irvine & Bruce Denton)
Solution Manual Computer Programming Fundamentals with Applications in Visual Basic® 6.0 (Mitchell Kerman & Ronald Brown)
Solution Manual Advanced VB.NET Alternate with VB.Net CD's (3rd Ed., Kip Irvine & Tony Gaddis)
Solution Manual Advanced Visual Basic 2005 (4th Ed., Kip Irvine & Tony Gaddis)
Solution Manual C# Software Solutions : Foundations of Program Design (John Lewis)
Solution Manual Problem Solving, Abstraction and Design Using C++, Visual C++.NET Edition (Frank Friedman & Elliot Koffman)
Solution Manual Ada 95 : Problem Solving and Program Design (3rd Ed., Michael Feldman & Elliot Koffman)
Solution Manual Programming and Problem Solving with Delphi (Mitchell Kerman)
Solution Manual C Program Design for Engineers (2nd Ed., Jeri Hanly & Elliot Koffman)
Solution Manual Data Abstraction & Problem Solving with C++ (5th ed., Frank Carrano)
Solution Manual Data Structures and Algorithm Analysis in C++ (2nd Ed., Mark Allen Weiss)
Solution Manual Data Structures and Algorithm Analysis in C++ (3rd Ed., Mark Allen Weiss)
Solution Manual Data Abstraction and Problem Solving with C++ : Walls and Mirrors (4th Ed., Frank Carrano)

Solution Manual Data Structures and Problem Solving Using C++ (2nd Ed., Mark Allen Weiss)
Solution Manual Data Structures and Algorithm Analysis in Java (2nd Ed., Mark Allen Weiss)
Solution Manual Data Structures in Java : From Abstract Data Types to the Java Collections Framework (Simon Gray)
Solution Manual Data Abstraction and Problem Solving with Java (2nd Ed., Frank Carrano & Janet Prichard)
Solution Manual Data Structures and Other Objects Using Java (3rd Ed., Michael Main)
Solution Manual Data Structures and Problem Solving Using Java (3rd Ed., Mark Allen Weiss)
Solution Manual Data Structures and Problem Solving Using Java (4th Ed., Mark Allen Weiss)
Solution Manual Java Software Structures : Designing and Using Data Structures (2nd Ed., John Lewis, Joseph Chase)
Solution Manual The Object of Data Abstraction and Structures (using Java) (David Riley)
Solution Manual Classic Data Structures in Java (Timothy Budd)
Solution Manual Data Structures in Java (Thomas A. Standish)
Solution Manual Data Structures, Algorithms and Software Principles in C (Thomas A. Standish)
Solution Manual Introduction to the Design and Analysis of Algorithms (1st Ed., Anany Levitin)
Solution Manual Introduction to the Design and Analysis of Algorithms (2nd Ed., Anany Levitin)
Solution Manual Algorithm Design (Jon Kleinberg & Éva Tardos)
Solution Manual Data Structures and Algorithm Analysis in C (2nd Ed., Mark Allen Weiss)
Solution Manual Computer Algorithms : Introduction to Design and Analysis (3rd Ed., Sara Baase & Allen Van Gelder)
Solution Manual Artificial Intelligence : Structures and Strategies for Complex Problem Solving (6th Ed., George Luger)
Solution Manual Artificial Intelligence : A Modern Approach (2nd Ed., Stuart Russell & Peter Norvig)
Solution Manual The Complete A+ Guide to PC Repair (3rd Ed., Cheryl Schmidt)
Solution Manual The Complete A+ Guide to PC Repair (4th Ed., Cheryl Schmidt)
Solution Manual Complete Computer Repair Textbook (4th Ed., Cheryl Schmidt)
Solution Manual Computer Systems Organization and Architecture (John D. Carpinelli)
Solution Manual CMOS VLSI Design: A Circuits and Systems Perspective (3rd Ed., Neil Weste & David Harris)
Solution Manual Interactive Computer Graphics : A Top-Down Approach Using OpenGL (4th Ed., Edward Angel)
Solution Manual Interactive Computer Graphics : A Top-Down Approach Using OpenGL (5th Ed., Edward Angel)
Solution Manual File Structures : An Object-Oriented Approach with C++

(3rd Ed., Michael J. Folk, Bill Zoellick & Greg Riccardi)
Solution Manual Oracle 10g Programming : A Primer (Rajshekhar Sunderraman)
Solution Manual Databases, Types and the Relational Model (3rd Ed., C. J. Date & Hugh Darwen)
Solution Manual Fundamentals of Database Systems (5th Ed., Ramez Elmasri & Shamkant Navathe)
Solution Manual Database Systems : An Application-Oriented Approach, Introductory Version (2nd Ed., Michael Kifer, Arthur Bernstein & Philip M. Lewis)
Solution Manual Database Systems : An Application Oriented Approach, Complete Version (2nd Ed., Michael Kifer, Arthur Bernstein & Philip M. Lewis)
Solution Manual DataBase Systems : A Practical Approach to Design, Implementation and Management (4th Ed., Thomas M. Connolly & Carolyn E. Begg)
Solution Manual DataBase Systems : A Practical Approach to Design, Implementation and Management (5th Ed., Thomas M. Connolly & Carolyn E. Begg)
Solution Manual Database Systems : The Complete Book (2nd Ed., Hector Garcia-Molina, Jeffrey D. Ullman, Jennifer Widom)
Solution Manual A First Course in Database Systems (3rd Ed., Jeffrey D. Ullman, Jennifer Widom)
Solution Manual Fundamentals of Database Systems/Oracle 9i Programming (4th Ed., Ramez Elmasri, Shamkant B. Navathe & Rajshekhar Sunderraman)
Solution Manual An Introduction to Database Systems (8th Ed., C.J. Date)
Solution Manual Oracle 9i Programming : A Primer (Rajshekhar Sunderraman)
Solution Manual Elements of Information Theory (1st Ed., Thomas M. Cover & Joy A. Thomas)
Solution Manual Principles of Database Systems with Internet and Java Applications (Greg Riccardi)
Solution Manual Introduction to Data Mining (Pang-Ning Tan, Michael Steinbach & Vipin Kumar)
Solution Manual Data Mining: A Tutorial Based Primer (Richard Roiger & Michael Geatz)
Solution Manual Learning SQL : A Step-by-Step Guide Using Access (Sikha Bagui, Richard Earp)
Solution Manual Learning SQL : A Step-By-Step Guide Using Oracle (Richard Earp, Sikha Bagui)
Solution Manual Access 2007 Guidebook (6th Ed., Maggie Trigg & Phyllis Dobson)
Solution Manual Access 2003 Guidebook for Office XP (5th Ed., Maggie Trigg & Phyllis Dobson)
Solution Manual Implementing Databases in Oracle 9i (John Day & Craig Van Slyke)
Solution Manual Web 101: Making the Net Work for You (2nd Ed., Wendy Lehnert)
Solution Manual Web 101 (3rd Ed., Wendy G. Lehnert & Richard L. Kopec)

Solution Manual Web Developer Foundations : Using XHTML (2nd Ed., Terry Felke-Morris)
Solution Manual Web Development & Design Foundations With XHTML (3rd Ed., Terry Felke-Morris)
Solution Manual Web Development and Design Foundations with XHTML (4th Ed., Terry Felke-Morris)
Solution Manual Internet Effectively : A Beginner's Guide to the World Wide Web (Tyrone Adams & Sharon Scollard)
Solution Manual Light on the Web : Essentials to Making the 'Net Work for You (Wendy G. Lehnert)
Solution Manual Programming the World Wide Web (3rd Ed., Robert W. Sebesta)
Solution Manual Programming the World Wide Web (4th Ed., Robert W. Sebesta)
Solution Manual Programming the World Wide Web (5th Ed., Robert W. Sebesta)
Solution Manual Programming the World Wide Web (6th Ed., Robert W. Sebesta)
Solution Manual XML: Language Mechanics and Applications (Dwight Peltzer)
Solution Manual Practical Perl with CGI Applications (Elizabeth Chang)
Solution Manual Developing Web Applications with Active Server Pages (Thom Luce)
Solution Manual Structure and Interpretation of Signals and Systems (Edward A. Lee & Pravin Varaiya)
Solution Manual Languages and Machines : An Introduction to the Theory of Computer Science (2nd Ed., Thomas Sudkamp)
Solution Manual Languages and Machines : An Introduction to the Theory of Computer Science (3rd Ed., Thomas Sudkamp)
Solution Manual How to Break Software Security (James A. Whittaker & Herbert H. Thompson)
Solution Manual Software Quality Assurance : From Theory to Implementation (Daniel Galin)
Solution Manual Object Oriented Software Development Using Java (2nd Ed., Xiaoping Jia)
Solution Manual Introduction to the Team Software Process (Watts S. Humphrey)
Solution Manual Software Project Management : A Real-World Guide to Success (Joel Henry)
Solution Manual Software Engineering (7th Ed., Ian Sommerville)
Solution Manual Software Engineering (8th Ed., Ian Sommerville)
Solution Manual Software Engineering (9th Ed., Ian Sommerville)
Solution Manual Software Engineering (3rd Ed., Shari Lawrence Pfleeger & Joanne Atlee)
Solution Manual Software Engineering : Theory and Practice (4th Ed., Shari Lawrence Pfleeger & Joanne Atlee)
Solution Manual Object-Oriented Programming featuring Graphical Applications in Java (Michael Laszlo)
Solution Manual Project-Based Software Engineering : An Object-Oriented Approach (Evelyn Stiller & Cathie LeBlanc)

Solution Manual Engineering of Software, The: A Technical Guide for the Individual (Dick Hamlet & Joe Maybee)
Solution Manual Concepts of Programming Languages (7th Ed., Robert W. Sebesta)
Solution Manual Concepts of Programming Languages (8th Ed., Robert W. Sebesta)
Solution Manual Concepts of Programming Languages (9th Ed., Robert W. Sebesta)
Solution Manual Advanced Java : Internet Applications (2nd Ed., Art Gittleman)
Solution Manual Objects to Components with Java 2 Platform (Art Gittleman)
Solution Manual C for Java Programmers (Tomasz Muldner)
Solution Manual Pointers on C (Kenneth Reek)
Solution Manual C++ Programming with Design Patterns Revealed (Tomasz Muldner)
Solution Manual The C++ Programming Language (3rd Ed., Bjarne Stroustrup)
Solution Manual Operating Systems : A Systematic View (6th Ed., William S. Davis & T.M. Rajkumar)
Solution Manual Unix: The Textbook (2nd Ed., Syed Mansoor Sarwar, Robert Koretsky & Syed Aqeel Sarwar)
Solution Manual Operating Systems (3rd Ed., Gary Nutt)
Solution Manual LINUX & UNIX Programming Tools : A Primer for Software Developers (Syed Mansoor Sarwar & Khaled H. Al-Saqabi)
Solution Manual Addison-Wesley's Interactive Linux Tutorial and Reference (Edutrends, Inc.)
Solution Manual Linux : The Textbook (Syed Mansoor Sarwar, Robert Koretsky & Syed Aqeel Sarwar)
Solution Manual Kernel Projects for Linux (Gary Nutt)
Solution Manual OSP : An Environment for Operating System Projects (Michael Kifer & Scott A. Smolka)
Solution Manual Distributed Computing : Principles and Applications (M.L. Liu)
Solution Manual Distributed Operating Systems and Algorithm Analysis (Randy Chow & Theodore Johnson)
Solution Manual Mastering Networks : An Internet Lab Manual (Jorg Liebeherr & Magda El Zarki)
Solution Manual Computer Networking Complete Package (3rd Ed., James Kurose & Keith Ross)
Solution Manual Computer Networking : A Top-Down Approach Featuring the Internet (3rd Ed., James Kurose & Keith Ross)
Solution Manual Computer Networking : A Top-Down Approach (4th Ed., James Kurose & Keith Ross)
Solution Manual Computer Networking : A Top-Down Approach (5th Ed., James Kurose & Keith Ross)
Solution Manual Producing Great Sound for Film and Video (3rd Ed., Jay Rose)
Solution Manual Network Management : Principles and Practice (Mani Subramanian)

Solution Manual Computer Security : Art and Science (Matt Bishop)
Solution Manual Introduction to Computer Security (Matt Bishop)
Solution Manual How to Break Software Security (James A. Whittaker &
Herbert H. Thompson)
Solution Manual Parallel Programming in C with MPI and Open MP
(Michael Quinn)
Solution Manual Modern Recording Techniques (6th Ed., Miles Huber &
Runstein)
Solution Manual Creating Powerful Radio : Getting, Keeping and Growing
Audiences News, Talk, Information & Personality Broadcast, HD,
Satellite & Internet (Valerie Geller)
Solution Manual Electronic Media Law and Regulation (5th Ed., Kenneth
Creech)
Solution Manual Electronic Media Management, Revised (5th Ed., Pringle
& Starr)
Solution Manual Convergent Journalism an Introduction: Writing and
Producing Across Media (Quinn & Filak)
Solution Manual Flash Journalism : How to Create Multimedia News
Packages (Mindy McAdams)

mattosbw1(at)gmail.com

NOTE : "THIS SERVICE IS NOT AVAILABLE FOR : CHINA, INDIA, PAKISTAN, IRAQ, IRAN, PHILIPPINES, NORTH KOREA, NEPAL, BANGLADESH, SRI LANKA, MALDIVES & BHUTAN".

If your wanted solutions manual is not in this list, also can ask me if is available (it is a partial list). Then if you need solutions manual only contact me by email.

"ARE NOT AVAILABLES BOOKS IN DIGITAL FORMAT", ONLY SOLUTIONS MANUALS AND TEST BANKS.

This same "list of titles" of texts with availables solutions manual and/or test banks is for download from :

http://www.megaupload.com/?d=VQJ2M78Y

I do not review the forums, just send me an email.

- Math, Statistics & Probability :

Solution manual Advanced Engineering Mathematics (8th Ed., Erwin Kreyszig)
Solution manual Advanced Engineering Mathematics (9th Ed., Erwin Kreyszig)
Solution manual Advanced Engineering Mathematics (2nd Ed, Michael Greenberg)
Solution manual Advanced Engineering Mathematics (6th Ed., Peter O'Neil)
Solution manual Advanced Modern Engineering Mathematics (3rd Ed., Glyn James)
Solution manual Modern Engineering Mathematics (4th Ed., Glyn James)
Solution manual A Modern Introduction to Differential Equations (2nd Ed., Henry J. Ricardo)
Solution manual Elementary Differential Equations (7th Ed., Boyce)
Solution manual Elementary Differential Equations (8th Ed., Boyce & Diprima)
Solution manual Elementary Differential Equations (9th Ed., Boyce & Diprima)
Solution manual Elementary Differential Equations and Boundary Value Problems (7th Ed., Boyce & Diprima)

Solution manual Elementary Differential Equations and Boundary Value Problems (8th Ed., Boyce & Diprima)
Solution manual Elementary Differential Equations and Boundary Value Problems (9th Ed., Boyce & Diprima)
Solution manual Differential Equations : An Introduction to Modern Methods and Applications (James Brannan & William Boyce)
Solution manual Differential Equations with Boundary Value Problems : An Introduction to Modern Methods and Applications (James Brannan & William Boyce)
Solution manual Calculus : Early Transcendentals Combined (8th Ed., Anton, Bivens & Davis)
Solution manual Calculus : Early Transcendentals Combined (9th Ed., Anton, Bivens & Davis)
Solution manual Calculus : Multivariable (8th Ed., Anton, Bivens & Davis)
Solution manual Calculus : Multivariable (9th Ed., Anton, Bivens & Davis)
Solution manual Calculus : Early Transcendentals Single Variable (8th Ed., Anton, Bivens & Davis)
Solution manual Calculus : Early Transcendentals Single Variable (9th Ed., Anton, Bivens & Davis)
Solution manual Calculus : Late Transcendentals Combined (8th Ed., Anton, Bivens & Davis)
Solution manual Calculus : Late Transcendentals Combined (9th Ed., Anton, Bivens & Davis)
Solution manual Calculus : Late Transcendentals Single Variable (8th Ed., Anton, Bivens & Davis)
Solution manual Calculus : Late Transcendentals Single Variable (9th Ed., Anton, Bivens & Davis)
Solution manual Introduction to the Finite Element Method: Theory, Programming and Applications (Erik G. Thompson)
Solution manual Mathematics for Engineers : A Modern Interactive Approach (3rd., Anthony Croft & Robert Davison)
Solution manual Measurement and Data Analysis for Engineering and Science (Patrick F Dunn)
Solution manual Elementary Linear Algebra (4th Ed., Stephen Andrilli & David Hecker)
Solution manual Elementary Linear Algebra Edition Abridged (9th Ed., Anton & Rorres)
Solution manual Elementary Linear Algebra (9th Ed., Anton)
Solution manual Elementary Linear Algebra with Applications (9th Ed., Anton & Rorres)
Solution manual Boundary Value Problems and Partial Differential Equations (6th Ed., David Powers)
Solution manual Introductory Statistics : Using Technology (5th Ed., Prem S. Mann)
Solution manual Introductory Statistics (6th Ed., Prem S. Mann)
Solution manual Introductory Statistics (7th Ed., Prem S. Mann)
Solution manual Modern Algebra : An Introduction (6th Ed., John Durbin)

Solution manual The Art and Craft of Problem Solving (2nd Ed., Paul Zeitz)
Solution manual Introductory Statistics for the Behavioral Sciences (6th Ed., Welkowitz, Cohen & Ewen)
Solution manual Statistics : Principles and Methods (5th Ed., Richard Johnson)
Solution manual Statistics : Principles and Methods (6th Ed., Richard Johnson)
Solution manual Statistical Bioinformatics : with R (Sunil K. Mathur)
Solution manual Parameter Estimation and Inverse Problems (Richard Aster, Brian Borchers & Clifford Thurber)
Solution manual Codes : An Introduction to Information Communication and Cryptography (Norman L. Biggs)
Solution manual Geometry and Its Applications (2nd Ed., Walter A. Meyer)
Solution manual Elementary Differential Geometry (2nd Ed., A.N. Pressley)
Solution manual Fractal Geometry : Mathematical Foundations and Applications (2nd Ed., Kenneth Falconer)
Solution manual Analytical and Computational Methods of Advanced Engineering Mathematics (Grant B. Gustafson & Calvin H. Wilcox)
Solution manual How to Read and Do Proofs : An Introduction to Mathematical Thought Processes (4th Ed., Daniel Solow)
Solution manual How to Read and Do Proofs : An Introduction to Mathematical Thought Processes (5th Ed., Daniel Solow)
Solution manual Intuitive Probability and Random Processes using MATLAB (Steven Kay)
Solution manual Modeling Random Processes for Engineers and Managers (James Solberg)
Solution manual Probability, Statistics, and Random Processes For Electrical Engineering (3rd Ed., Alberto Leon-Garcia)
Solution manual Probability Concepts in Engineering : Emphasis on Applications to Civil and Environmental Engineering (2nd Ed., Ang & Tang)
Solution manual Applied Statistics for Engineers and Physical Scientists (3rd Ed., Johannes Ledolter & Robert Hogg)
Solution manual Applied Statistics and Probability for Engineers (3rd Ed., Montgomery & Runger)
Solution manual Applied Statistics and Probability for Engineers (4th Ed., Montgomery & Runger)
Solution manual Applied Statistics and Probability for Engineers (5th Ed., Montgomery & Runger)
Solution manual Engineering Statistics (3rd Ed., Montgomery, Runger & Hubele)
Solution manual Engineering Statistics (4th Ed., Montgomery, Runger & Hubele)
Solution manual Introduction to Statistical Quality Control (5th Ed., Montgomery)
Solution manual Introduction to Statistical Quality Control (6th Ed., Montgomery)

Solution manual Calculus : One Variables (10th Ed., Salas, Hille, Etgen)
Solution manual Calculus : One and Several Variables (8th Ed., Salas, Hille, Etgen)
Solution manual Calculus : One and Several Variables (10th Ed., Salas, Hille, Etgen)
Solution manual Squaring the Circle : Geometry in Art and Architecture (Paul Calter)
Solution manual Technical Mathematics (5th Ed., Paul Calter & Michael Calter)
Solution manual Technical Mathematics with Calculus (5th Ed., Paul Calter & Michael Calter)
Solution manual Technical Mathematics with Calculus, Canadian Edition (Paul Calter & Michael Calter)
Solution manual Techniques of Problem Solving (Luis Fernández, Haedeh Gooransarab)
Solution manual Probability and Statistics in Engineering (4th Ed., Hines, Montgomery, Goldsman & Borror)
Solution manual A First Course in Design and Analysis of Experiments (Gary W. Oehlert)
Solution manual Design and Analysis of Experiments (6th Ed., Douglas Montgomery)
Solution manual Design and Analysis of Experiments (7th Ed., Douglas Montgomery)
Solution manual Introduction to Engineering Experimentation (2nd Ed., Wheeler & Ganji)
Solution manual Introduction to Engineering Experimentation (3rd Ed., Wheeler & Ganji)
Solution manual Introduction to the Design & Analysis of Experiments (Canavos & Koutrouvelis)
Solution manual Modern Methods For Quality Control and Improvement (2nd Ed., Wadsworth, Stephens, Godfrey)
Solution manual Essential Statistics for Economics, Business and Management (Teresa Bradley)
Solution manual Statistics and Econometrics : Methods and Applications (Ashenfelter, Levine & Zimmerman)
Solution manual Applied Combinatorics (5th Ed., Alan Tucker)
Solution manual Vector Calculus (Miroslav Lovric)
Solution manual Applied Multivariate Techniques (Subhash Sharma)
Solution manual Mathematical Modeling (3rd Ed., Mark Meerschaert)
Solution manual Discrete Mathematics : Mathematical Reasoning and Proof with Puzzles, Patterns, and Games (Douglas Ensley, J. Winston Crawley)
Solution manual Probability, Random Variables and Random Signal Principles (4th Ed., Peyton Z., Jr. Peebles)
Solution manual Introduction to C++, Excel MATLAB & Basic Engineering Numerical Methods V1.1 (Harvey Stenger & Charles Smith)
Solution manual Numerical Methods for Engineers and Scientists : An Introduction with Applications Using MATLAB (1st Ed., Amos Gilat & Vish Subramaniam)

Solution manual Numerical Methods for Engineers and Scientists : An Introduction with Applications Using MATLAB (2nd Ed., Amos Gilat & Vish Subramaniam)
Solution manual MATLAB : An Introduction with Applications (2nd Ed., Amos Gilat)
Solution manual MATLAB : An Introduction with Applications (3rd Ed., Amos Gilat)
Solution manual Matlab : A Practical Introduction to Programming and Problem Solving (Stormy Attaway)
Solution manual Data, Statistics, and Decision Models with Excel (Harnett & Horrell)
Solution manual Understanding Analysis (Stephen Abbott)
Solution manual Time Series Analysis With Applications in R (2nd Ed., Jonathan D. Cryer & Kung-Sik Chan)
Solution manual Time Series Analysis and Its Applications : With R Examples (2nd Ed., Robert Shumway & David Stoffer)
Solution manual Doing Statistics for Business with Excel : Data, Inference, and Decision Making (2nd Ed. Pelosi & Sandifer)
Solution manual Engineering with Excel (3rd Ed., Ronald W. Larsen)
Solution manual Spreadsheet Tools for Engineers Using Excel 2007 (Byron Gottfried)
Solution manual Spreadsheet Tools for Engineers using Excel (2nd Ed. Byron Gottfried)
Solution manual Spreadsheet Tools for Engineers using Excel (3rd Ed. Byron Gottfried)
Solution manual Introduction to Matlab 7 (Etter, Kuncicky & Moore)
Solution manual Introduction to Matlab 6 for Engineers (1st Ed., William J Palm III)
Solution manual Introduction to Matlab 7 for Engineers (2nd Ed., William J Palm III)
Solution manual A Concise Introduction to MATLAB (William J Palm III)
Solution manual Numerical Methods for Engineers (4th Ed. Steven Chapra, Raymond Canale)
Solution manual Numerical Methods for Engineers (5th Ed. Steven Chapra, Raymond Canale)
Solution manual Numerical Methods for Engineers (6th Ed. Steven Chapra, Raymond Canale)
Solution manual Applied Numerical Methods with MATLAB for Engineers and Scientists (1st Ed., Steven Chapra)
Solution manual Applied Numerical Methods with MATLAB for Engineers and Scientists (2nd Ed., Steven Chapra)
Solution manual MATLAB for Engineers (1st Ed., Holly Moore)
Solution manual MATLAB for Engineers (2nd Ed., Holly Moore)
Solution manual Statistics for Engineers and Scientists (1st Ed., William Navidi)
Solution manual Statistics for Engineers and Scientists (2nd Ed., William Navidi)
Solution manual Statistics for Engineers and Scientists (3rd Ed., William Navidi)
Solution manual Principles of Statistics for Engineers and Scientists

(William Navidi)
Solution manual Probability (Jim Pitman)
Solution manual Basic Probability Theory (Robert B. Ash)
Solution manual Stochastic Calculus for Finance (Steven E. Shreve)
Solution manual Markov Processes for Stochastic Modeling (Oliver Ibe)
Solution manual Mathematical Statistics with Applications (K.M. Ramachandran & Chris Tsokos)
Solution manual Probability : A Graduate Course (Allan Gut)
Solution manual Linear Algebra Done Right (2nd Ed., Sheldon Axler)
Solution manual Precalculus : A Prelude to Calculus (Sheldon Axler)
Solution manual Statistics for Business (Derek Waller)
Solution manual An Introduction to the Mathematics of Financial Derivatives (2nd Ed., Salih Neftci)
Solution manual Elementary Number Theory with Applications (2nd Ed., Thomas Koshy)
Solution manual Introduction to Probability Models (9th Ed., Sheldon Ross)
Solution manual Introduction to Probability Models (10th Ed., Sheldon Ross)
Solution manual Introductory Statistics (2nd Ed., Sheldon Ross)
Solution manual Introduction to Probability and Statistics for Engineers and Scientists (4th Ed., Sheldon Ross)
Solution manual Basic Mathematics through Applications (4th Ed. by Akst, Bragg)
Solution manual Developmental Mathematics (6th Ed., Bittinger & Beecher)
Solution manual Developmental Mathematics (7th Ed., Bittinger & Beecher)
Solution manual Developmental Mathematics : Basic Mathematics and Algebra (1st Ed., Lial, Hornsby, McGinnis, Salzman & Hestwood)
Solution manual Developmental Mathematics : Basic Mathematics and Algebra (2nd Ed., Lial, Hornsby, McGinnis, Salzman & Hestwood)
Solution manual Essential Mathematics (2nd Ed., Margaret Lial & Stanley Salzman)
Solution manual Essential Mathematics (3rd Ed., Margaret Lial & Stanley Salzman)
Solution manual Prealgebra & Introductory Algebra (2nd Ed. by Elayn El Martin-Gay)
Solution manual Prealgebra (5th Ed., Bittinger, Ellenbogen & Johnson)
Solution manual Prealgebra (5th Ed., Elayn El Martin-Gay)
Solution manual Prealgebra : An Integrated Approach (Lial & Hestwood)
Solution manual Integrated Arithmetic and Basic Algebra (4th Ed., Jordan & Palow)
Solution manual Introductory Algebra through Applications (1st Ed., Akst & Bragg)
Solution manual Introductory Algebra through Applications (2nd Ed., Akst & Bragg)
Solution manual Beginning Algebra (10th Ed., Lial, Hornsby & McGinnis)
Solution manual Elementary Algebra Early Graphing for College Students (3rd Ed., Allen R. Angel)

Solution manual Intermediate Algebra with Applications & Visualization (3rd Ed., Rockswold & Krieger)
Solution manual Intermediate Algebra (10th Ed., Lial, Hornsby & McGinnis)
Solution manual Beginning and Intermediate Algebra (4th Ed., Lial, Hornsby & McGinnis)
Solution manual Elementary and Intermediate Algebra : Graphs & Models (3rd Ed., Bittinger, Ellenbogen & Johnson)
Solution manual Algebra for College Students (4th Ed., Mark Dugopolski)
Solution manual Algebra for College Students (5th Ed., Mark Dugopolski)
Solution manual Algebra For College Students (6th Ed., Robert F Blitzer)
Solution manual Algebra for College Students (3rd Ed., Allen R. Angel)
Solution manual Algebra for College Students (6th Ed., Lial, Hornsby & McGinnis)
Solution manual Statistics, Data Analysis, and Decision Modeling (3rd Ed., James Evans)
Solution manual Statistics, Data Analysis, and Decision Modeling (4th Ed., James Evans)
Solution manual College Geometry : A Discovery Approach (2nd Ed., David Kay)
Solution manual College Geometry : Using The Geometer's Sketchpad - Preliminary Edition (Barbara Reynolds & William Fenton)
Solution manual College Geometry : A Problem Solving Approach with Applications (2nd Ed., Musser, Trimpe & Maurer)
Solution manual A Survey of Mathematics with Applications (8th Ed., Angel, Abbott & Runde)
Solution manual A Survey of Mathematics with Applications: Expanded Edition (8th Ed., Angel, Abbott & Runde)
Solution manual Mathematical Ideas (11th Ed., Miller, Heeren & Hornsby)
Solution manual Mathematical Ideas: Expanded Edition (11th Ed., Miller, Heeren & Hornsby)
Solution manual Mathematical Thinking : Problem-Solving and Proofs (2nd Ed., John P. D'Angelo & Douglas B. West)
Solution manual Thinking Mathematically (4th Ed., Robert F. Blitzer)
Solution manual Introduction to Mathematical Thinking: Algebra and Number Systems (Will J. Gilbert & Scott A. Vanstone)
Solution manual Mathematical Reasoning : Writing and Proof (1st Ed., Ted A. Sundstrom)
Solution manual Mathematical Reasoning : Writing and Proof (2nd Ed., Ted A. Sundstrom)
Solution manual Mathematical Reasoning for Elementary Teachers (4th Ed., Calvin T. Long & Duane W. DeTemple)
Solution manual Mathematical Reasoning for Elementary Teachers (5th Ed., Long, DeTemple & Millman)
Solution manual Mathematics for Elementary School Teachers (4th Ed., O'Daffer, Charles, Cooney, Dossey & Schielack)

Solution manual Mathematics for Elementary Teachers (2nd Ed., Sybilla Beckmann)
Solution manual Finite Mathematics and Calculus with Applications (7th Ed., Lial, Greenwell & Ritchey)
Solution manual Finite Mathematics and Calculus with Applications (8th Ed., Lial, Greenwell & Ritchey)
Solution manual Additional Calculus Topics (11th Ed., Barnett, Ziegler & Byleen)
Solution manual College Mathematics for Business, Economics, Life Sciences & Social Sciences (11th Ed., Barnett, Ziegler & Byleen)
Solution manual Introductory Mathematical Analysis for Business, Economics and the Life and Social Sciences (12th Ed., Haeussler, Paul & Wood)
Solution manual Finite Mathematics for Business, Economics, Life Sciences and Social Sciences (11th Ed., Barnett, Ziegler, Byleen)
Solution manual Finite Mathematics (9th Ed., Lial, Greenwell & Ritchey)
Solution manual Calculus and Its Applications (9th Ed., Bittinger & Ellenbogen)
Solution manual Calculus for Business, Economics, Life Sciences & Social Sciences (11th Ed., Barnett, Ziegler & Byleen)
Solution manual Calculus with Applications (9th Ed., Lial, Greenwell & Ritchey)
Solution manual Calculus with Applications : Brief Version (9th Ed., Lial, Greenwell & Ritchey)
Solution manual Concepts of Calculus with Applications (Martha Goshaw)
Solution manual University Calculus : Elements with Early Transcendentals (Hass, Weir & Thomas, Jr.)
Solution manual Thomas' Calculus, Early Transcendentals: Media Upgrade (11th Ed., Thomas Jr., Weir, Hass & Giordano)
Solution manual Thomas' Calculus: Media Upgrade (11th Ed., Thomas Jr., Weir, Hass & Giordano)
Solution manual University Calculus : Alternate Edition (Hass, Weir & Thomas, Jr.)
Solution manual Differential Equations Computing and Modeling (4th Ed., Edwards & Penney)
Solution manual Differential Equations and Boundary Value Problems : Computing and Modeling (4th Ed., Edwards & Penney)
Solution manual Elementary Differential Equations with Boundary Value Problems (6th Ed., Edwards & Penney)
Solution manual Elementary Differential Equations (6th Ed., Edwards & Penney)
Solution manual Fundamentals of Differential Equations (7th Ed., Nagle, Saff & Snider)
Solution manual Fundamentals of Differential Equations with Boundary Value Problems (5th Ed., Nagle, Saff & Snider)
Solution manual Differential Equations and Linear Algebra (3rd Ed., Goode & Annin)
Solution manual Discrete Mathematical Structures (6th Ed., Kolman, Busby & Ross)

Solution manual College Algebra Enhanced with Graphing Utilities (5th Ed., Sullivan & Sullivan III)
Solution manual College Algebra (10th Ed., Lial, Hornsby & Schneider)
Solution manual College Algebra : Graphs and Models (4th Ed., Bittinger, Beecher, Ellenbogen & Penna)
Solution manual College Algebra Essentials (8th Ed., Michael Sullivan)
Solution manual College Algebra (3rd Ed., Judith A. Beecher, Judith A. Penna & Marvin L. Bittinger)
Solution manual College Algebra (8th Ed., Michael Sullivan)
Solution manual Algebra and Trigonometry for College Readiness (Margaret L. Lial & John Hornsby)
Solution manual Algebra and Trigonometry Enhanced with Graphing Utilities (5th Ed., Sullivan & Sullivan III)
Solution manual Algebra and Trigonometry : Graphs & Models (4th Ed., Bittinger, Beecher, Ellenbogen & Penna)
Solution manual Trigonometry : A Unit Circle Approach (8th Ed., Michael Sullivan)
Solution manual Precalculus (3rd Ed., Lial, Hornsby & Schneider)
Solution manual Precalculus (4th Ed., Lial, Hornsby & Schneider)
Solution manual Precalculus : Enhanced with Graphing Utilities (5th Ed., Sullivan & Sullivan III)
Solution manual Precalculus : Functions and Graphs (3rd Ed. Mark Dugopolski)
Solution manual Precalculus : Graphs & Models and Graphing (4th Ed., Bittinger, Beecher, Ellenbogen & Penna)
Solution manual Discrete and Combinatorial Mathematics (5th ed., Ralph P. Grimaldi)
Solution manual Discrete Mathematics (Sherwood Washburn, Thomas Marlowe & Charles T. Ryan)
Solution manual Discrete Mathematics (5th ed., John Dossey, Albert Otto, Lawrence Spence & Charles Vanden Eynden)
Solution manual Mathematics for New Technologies (Don Hutchison & Mark Yannotta)
Solution manual Fundamental Finite Element Analysis and Applications: with Mathematica and Matlab Computations (Asghar Bhatti)
Solution manual Advanced Topics in Finite Element Analysis of Structures: With Mathematica and MATLAB Computations (Asghar Bhatti)
Solution manual The Finite Element Method in Engineering (4th Ed., by Rao)
Solution manual An Introduction to the Finite Element Method (3rd Ed., J. N. Reddy)
Solution manual Fundamentals of Finite Element Analysis (1st Ed., David V. Hutton)
Solution manual Simulation Modeling and Analysis (3rd Ed., Averill Law & David Kelton)
Solution manual Simulation Modeling and Analysis (4th Ed., Averill Law)
Solution manual The Finite Element Method : Its Basis and Fundamentals (6th Ed., Zienkiewicz, R. L. Taylor & J.Z. Zhu)
Solution manual Algebra : Form and Function (William McCallum, Eric

Connally & Deborah Hughes-Hallett)
Solution manual Algebra : Form and Function, Preliminary Edition (William McCallum, Eric Connally & Deborah Hughes-Hallett)
Solution manual Applied Calculus (2nd Ed., Deborah Hughes-Hallett, et al.)
Solution manual Applied Calculus (3rd Ed., Deborah Hughes-Hallett, et al.)
Solution manual Applied Calculus (4th Ed., Deborah Hughes-Hallett, et al.)
Solution manual Calculus : Multivariable (3rd Ed., William G. McCallum, Deborah Hughes-Hallett, et al.)
Solution manual Calculus : Multivariable (4th Ed., William G. McCallum, Deborah Hughes-Hallett, et al.)
Solution manual Calculus : Multivariable (5th Ed., William G. McCallum, Deborah Hughes-Hallett, et al.)
Solution manual Calculus : Single Variable (3rd Ed., Deborah Hughes-Hallett, Andrew M. Gleason, et al.)
Solution manual Calculus : Single Variable (4th Ed., Deborah Hughes-Hallett, Andrew M. Gleason, et al.)
Solution manual Calculus : Single Variable (5th Ed., Deborah Hughes-Hallett, Andrew M. Gleason, et al.)
Solution manual Calculus : Single and Multivariable (3rd Ed., Deborah Hughes-Hallett, Andrew M. Gleason, et al.)
Solution manual Calculus : Single and Multivariable (4th Ed., Deborah Hughes-Hallett, Andrew M. Gleason, et al.)
Solution manual Calculus : Single and Multivariable (5th Ed., Deborah Hughes-Hallett)
Solution manual Functions Modeling Change : A Preparation for Calculus - Texas Edition (2nd Ed., Eric Connally, Deborah Hughes-Hallett & Andrew M. Gleason)
Solution manual Functions Modeling Change : A Preparation for Calculus (2nd Ed., Eric Connally, Deborah Hughes-Hallett, et al.)
Solution manual Functions Modeling Change : A Preparation for Calculus (3rd Ed., Eric Connally)
Solution manual Differential Equations (A. King, J. Billingham, S. Otto)
Solution manual Regression Methods in Biostatistics : Linear, Logistic, Survival, and Repeated Measures Models (Eric Vittinghoff, David Glidden, Stephen Shiboski, Charles McCulloch)
Solution manual A Modern Introduction to Probability and Statistics : Understanding Why and How (F.M. Dekking, C. Kraaikamp, H.P. Lopuhaä, L.E. Meester)
Solution manual Statistical Methods for the Analysis of Repeated Measurements (Charles S. Davis)
Solution manual Bayesian Core : A Practical Approach to Computational Bayesian Statistics (Jean-Michel Marin, Christian Robert)
Solution manual The Bayesian Choice : From Decision-Theoretic Foundations to Computational Implementation (2nd Ed., Christian Robert)
Solution manual Essentials of Stochastic Processes (Rick Durrett)

Solution manual Methods of Multivariate Statistics (Muni Srivastava)
Solution manual Regression Analysis : Theory, Methods, and Applications (Ashish Sen & Muni Srivastava)
Solution manual Applied Probability and Statistics (Mario Lefebvre)
Solution manual Basic Probability Theory with Applications (Mario Lefebvre)
Solution manual Foundations of Hyperbolic Manifolds (2nd Ed., John Ratcliffe)
Solution manual Fourier and Laplace Transforms (R. J. Beerends , H. G. ter Morsche)
Solution manual Infinite-Dimensional Dynamical Systems (James C. Robinson)
Solution manual Mathematical Methods for Physics and Engineering, (3rd Ed., Riley, Hobson & Bence)
Solution manual Numerical Methods in Engineering with MATLAB (Jaan Kiusalaas)
Solution manual Numerical Methods in Engineering with Python (Jaan Kiusalaas)
Solution manual An Introduction to Numerical Analysis (Endre Suli and David Mayers)
Solution manual Fundamentals of Engineering Numerical Analysis (Parviz Moin)
Solution manual Statistical Design (George Casella)
Solution manual Statistical Inference (2nd Ed., George Casella, Roger L. Berger)
Solution manual Monte Carlo Statistical Methods (2nd Ed., Christian P. Robert, George Casella)
Solution manual Introducing Monte Carlo Methods with R (Christian Robert & George Casella)
Solution manual Introduction to Mathematical Structures and Proofs (Larry J. Gerstein)
Solution manual Analyzing Categorical Data (Jeffrey S. Simonoff)
Solution manual Fundamentals of Complex Analysis with Applications to Engineering, Science, and Mathematics (3rd Ed., E. Saff & Arthur Snider)
Solution manual Probability & Statistics for Engineers & Scientists (8th Ed., Walpole, Myers, Ye)
Solution manual Statistics for Engineering and the Sciences (5th Ed., Mendenhall & Sincich)
Solution manual A Second Course in Statistics : Regression Analysis (6th Ed., Mendenhall & Sincich)
Solution manual Miller & Freund's Probability and Statistics for Engineers (7th Ed., Johnson, Miller, Freund)
Solution manual Miller & Freund's Probability and Statistics for Engineers (8th Ed., Johnson, Miller, Freund)
Solution manual Numerical Methods Using Matlab (4th Ed., Mathews & Fink)
Solution manual Applied Numerical Analysis Using MATLAB (2nd Ed., Laurene v. Fausett)
Solution manual Applied Numerical Analysis (7th Ed., Curtis F. Gerald,

Patrick O. Wheatley)
Solution manual Friendly Introduction to Numerical Analysis (Bradie)
Solution manual Elementary Linear Algebra (2nd Ed., Spence, Insel & Friedberg)
Solution manual Elementary Linear Algebra with Applications (9th Ed., Kolman & Hill)
Solution manual Introductory Linear Algebra : An Applied First Course (8th Ed., Kolman & Hill)
Solution manual Linear Algebra with Applications (6th Ed., S. Leon)
Solution manual Linear Algebra with Applications (7th Ed., S. Leon)
Solution manual Linear Algebra for Engineers and Scientists Using Matlab (Hardy)
Solution manual Linear Algebra with Applications (3rd Ed., Bretscher)
Solution manual Linear Algebra with Applications (4th Ed., Bretscher)
Solution manual Modern Matrix Algebra (Hill & Kolman)
Solution manual Matrix Methods : Applied Linear Algebra (3rd Ed., Richard Bronson & Gabriel B. Costa)
Solution manual A Transition to Abstract Mathematics : Learning Mathematical Thinking and Writing (2nd Ed., Randall Maddox)
Solution manual Partial Differential Equations and Boundary Value Problems with Fourier Series (2nd ed., Asmar)
Solution manual Applied Partial Differential Equations (4th Ed., Haberman)
Solution manual Technical Calculus (5th Ed., Dale Ewen, Joan S. Gary & James E. Trefzger)
Solution manual Technical Mathematics (2th Ed., Dale Ewen, Joan S. Gary & James E. Trefzger)
Solution manual Technical Mathematics with Calculus (2th Ed., Dale Ewen, Joan S. Gary & James E. Trefzger)
Solution manual Introductory Mathematics (4th Ed., Cook)
Solution manual Mathematics for the Technical Trades (Cook)
Solution manual College Mathematics (7th Ed., Cleaves & Hobbs)
Solution manual Fundamentals of Statistics (2nd Ed., Michael III Sullivan)
Solution manual Fundamentals of Statistics (3rd Ed., Michael III Sullivan)
Solution manual Statistics : Informed Decisions Using Data (2nd Ed., Michael III Sullivan)
Solution manual Modern Elementary Statistics (12th Ed., John E. Freund, Benjamin M. Perles)
Solution manual Statistics : The Art and Science of Learning From Data (Agresti & Franklin)
Solution manual Statistics : The Art and Science of Learning From Data (2nd Ed., Agresti & Franklin)
Solution manual Elementary Statistics : Picturing the World (3rd Ed., Larson & Farber)
Solution manual Elementary Statistics : Picturing the World (4th Ed., Larson & Farber)
Solution manual A First Course in Statistics (9th Ed., McClave & Sincich)

Solution manual A First Course in Statistics (10th Ed., McClave & Sincich)
Solution manual Statistics (10th Ed., McClave & Terry Sincich)
Solution manual Statistics (11th Ed., McClave & Terry Sincich & William Mendenhall)
Solution manual Interactive Statistics (3rd Ed., Martha Aliaga & Brenda Gunderson)
Solution manual Statistics for the Life Sciences (3rd Ed., Samuels & Witmer)
Solution manual Applied Statistics and the SAS Programming Language (5th Ed., Cody & Smith)
Solution manual Biostatistics for the Health Sciences (R. Clifford Blair & Richard Taylor)
Solution manual Biostatistics : How It Works (Steve Selvin)
Solution manual Business Statistics : First Course (4th Ed., Levine, Krehbiel & Berenson)
Solution manual Business Statistics : First Course (5th Ed., Levine, Krehbiel & Berenson)
Solution manual Course in Business Statistics (4th Ed., Groebner, Shannon, Fry & Smith)
Solution manual Business Statistics : A Decision Making Approach (6th Ed., Groebner, Shannon, Fry & Smith)
Solution manual Business Statistics : A Decision-Making Approach (7th Ed., Groebner, Shannon, Fry & Smith)
Solution manual Business Statistics : A Decision-Making Approach (8th Ed., Groebner, Shannon, Fry & Smith)
Solution manual Statistics for Business & Economics (10th Ed., McClave, Benson & Sincich)
Solution manual Statistics for Managers Using Excel (5th Ed., Levine)
Solution manual Statistics for Managers Using Microsoft Excel (4th Ed., Levine, Stephan, Krehbiel & Berenson)
Solution manual Statistics for Business and Economics (5th Ed., Newbold, Carlson & Thorne)
Solution manual Statistics for Business and Economics (6th Ed., Newbold, Carlson & Thorne)
Solution manual Statistics for Business and Economics (7th Ed., Newbold, Carlson & Thorne)
Solution manual Basic Business Statistics : Concepts and Applications (10th Ed., Berenson, Krehbiel & Levine)
Solution manual Basic Business Statistics (11th Ed., Berenson, Levine & Krehbiel)
Solution manual John E. Freund's Mathematical Statistics with Applications (7th Ed., Miller)
Solution manual Probability and Statistical Inference (7th Ed., Hogg & Tanis)
Solution manual Probability and Statistical Inference (8th Ed., Hogg & Tanis)
Solution manual Introduction to Mathematical Statistics (6th Ed., Hogg, Craig & McKean)
Solution manual Introduction to Mathematical Statistics and Its

Applications (4th Ed., Larsen & Marx)
Solution manual A Brief Course in Mathematical Statistics (Hogg & Tanis)
Solution manual Fundamentals of Probability, with Stochastic Processes (3rd Ed., Saeed Ghahramani)
Solution manual A First Course in Probability (7th Ed., Sheldon Ross)
Solution manual A First Course in Probability (8th Ed., Sheldon Ross)
Solution manual Applied Multivariate Statistical Analysis (6th Ed., Johnson & Wichern)
Solution manual Multivariate Data Analysis (6th Ed., Hair, Black, Babin, Anderson & Tatham)
Solution manual Multivariate Data Analysis (7th Ed., Hair, Black, Babin, Anderson)
Solution manual Essential MATLAB for Engineers and Scientists (3rd Ed., Brian Hahn & Dan Valentine)
Solution manual Essential MATLAB for Engineers and Scientists (4th Ed., Brian Hahn & Dan Valentine)
Solution manual Introduction to Applied Statistical Signal Analysis : Guide to Biomedical and Electrical Engineering Applications (3rd Ed. Richard Shiavi)
Solution manual Construction Mathematics (Surinder Virdi & Roy Baker)
Solution manual Numerical Methods in Biomedical Engineering (Stanley Dunn, Alkis Constantinides & Prabhas Moghe)
Solution manual Probability and Statistics with Integrated Software Routines (Ronald Deep)
Solution manual Finite Element Analysis with Error Estimators : An Introduction to the FEM and Adaptive Error Analysis for Engineering Students (J. Akin)
Solution manual Basic Engineering Mathematics (4th Ed., John Bird)
Solution manual Engineering Mathematics (4th Ed., John Bird)
Solution manual Engineering Mathematics (5th Ed., John Bird)
Solution manual Higher Engineering Mathematics (5th Ed., John Bird)
Solution manual Construction Mathematics (Virdi & Baker)
Solution manual Mathematics for Electrical Engineering and Computing (Mary Attenborough)
Solution manual Probability and Random Processes : With Applications to Signal Processing and Communications (Miller & Childers)
Solution manual Introductory Statistics for Engineering Experimentation (Peter Nelson, Karen Copeland & Marie Coffin)
Solution manual Understanding Engineering Mathematics (Bill Cox)
Solution manual Statistics And Probability For Engineering Applications With Microsoft Excel (Decoursey)
Solution manual Business Math Using Calculators : With 10-Key Computer Assisted Instruction (Burton)
Solution manual Mathematics for Economics and Business (5th Ed., Ian Jacques)
Solution manual Business Math, Brief (7th Ed., Cleaves & Hobbs)
Solution manual Math for Merchandising: A Step-by-Step Approach (3rd Ed., Moore)
Solution manual Mathematics for Business (7th Ed., Salzman , Miller &

Clendenen)
Solution manual Mathematics for Business (8th Ed., Salzman , Miller & Clendenen)
Solution manual Basic College Mathematics with Early Integers (K. Elayn Martin-Gay)
Solution manual Developmental Mathematics (K. Elayn Martin-Gay)
Solution manual An Introduction to Analysis (3rd Ed., William Wade)
Solution manual An Introduction to Analysis (4th Ed., William Wade)
Solution manual A Friendly Introduction to Analysis (2nd Ed., Witold A.J. Kosmala)
Solution manual Advanced Calculus (Gerald Folland)
Solution manual Analysis : With an Introduction to Proof (4th Ed., Steven R. Lay)
Solution manual Essentials of Basic College Mathematics (John Jr Tobey, Jr., Jeffrey Slater)
Solution manual Basic College Mathematics (5th Ed., John Tobey & Jeffrey Slater)
Solution manual Prealgebra (3rd Ed., Jamie Blair, John Tobey & Jeffrey Slater)
Solution manual Elementary Algebra Early Graphing for College Students (3rd Ed., Allen Angel)
Solution manual Elementary Algebra (Michael Sullivan III, Katherine R. Struve & Janet Mazzarella)
Solution manual Elementary Algebra for College Students (7th Ed., Allen R. Angel)
Solution manual Experiencing Introductory and Intermediate Algebra Through Functions and Graphs (3rd Ed., JoAnne Thomasson & Robert Pesut)
Solution manual Introductory Algebra (3rd Ed., K. Elayn Martin-Gay)
Solution manual Beginning Algebra (6th Ed., John Jr Tobey & Jeffrey Slater)
Solution manual Beginning Algebra : Early Graphing (Jamie Blair, John Tobey & Jeffrey Slater)
Solution manual Beginning and Intermediate Algebra (2nd Ed., Jamie Blair, John Tobey & Jeffrey Slater)
Solution manual Introductory Algebra (4th Ed., Robert Blitzer)
Solution manual Introductory and Intermediate Algebra (2nd Ed., Robert Blitzer)
Solution manual Intermediate Algebra for College Students (7th Ed., Allen Angel)
Solution manual Intermediate Algebra (Michael Sullivan III & Katherine Struve)
Solution manual Intermediate Algebra (3rd Ed., K. Elayn Martin-Gay)
Solution manual Essentials of Intermediate Algebra for College Students (Robert Blitzer)
Solution manual Intermediate Algebra (4th Ed., Robert Blitzer)
Solution manual Intermediate Algebra for College Students (5th Ed., Robert Blitzer)
Solution manual Algebra A Combined Approach (3rd Ed., K. Elayn Martin-Gay)

Solution manual Elementary & Intermediate Algebra (Michael Sullivan III, Katherine R. Struve & Janet Mazzarella)
Solution manual Essentials of Introductory and Intermediate Algebra for College Students (Robert F. Blitzer)
Solution manual Algebra for College Students (3rd Ed., Allen R. Angel)
Solution manual Algebra for College Students (5th Ed., Robert F Blitzer)
Solution manual College Algebra (8th Ed., Michael Sullivan)
Solution manual College Algebra Essentials (8th Ed., Michael Sullivan)
Solution manual College Algebra (4th Ed., Robert Blitzer)
Solution manual College Algebra Essentials (2nd Ed., Robert F. Blitzer)
Solution manual College Algebra : An Early Functions Approach (Robert F. Blitzer)
Solution manual College Algebra : Concepts Through Functions (1st Ed., Michael Sullivan III & Michael Sullivan)
Solution manual College Algebra : Concepts Through Functions (2nd Ed., Michael Sullivan III & Michael Sullivan)
Solution manual College Algebra Enhanced with Graphing Utilities (4th Ed., Michael Sullivan III & Michael Sullivan)
Solution manual Essentials of College Algebra : Enhanced with Graphing Utilities (4th Ed., Michael Sullivan III & Michael Sullivan)
Solution manual Algebra and Trigonometry (8th Ed., Michael Sullivan)
Solution manual Algebra and Trigonometry (3rd Ed., Robert F. Blitzer)
Solution manual Algebra and Trigonometry: An Early Functions Approach (Robert Blitzer)
Solution manual Algebra & Trigonometry (7th Ed., Michael Sullivan)
Solution manual Algebra and Trigonometry Enhanced With Graphing Utilities (4th Ed., Michael Sullivan III & Michael Sullivan)
Solution manual Trigonometry (7th Ed., Michael Sullivan)
Solution manual Trigonometry (8th Ed., Michael Sullivan)
Solution manual Trigonometry Enhanced with Graphing Utilities (4th Ed., Michael Sullivan III & Michael Sullivan)
Solution manual Precalculus (8th Ed., Michael Sullivan)
Solution manual Precalculus (3rd Ed., Robert Blitzer)
Solution manual Precalculus (4th Ed., Robert Blitzer)
Solution manual Precalculus (1st Ed., J. S. Ratti & Marcus S. McWaters)
Solution manual Precalculus : A Right Triangle Approach (2nd Ed., J. S. Ratti & Marcus S. McWaters)
Solution manual Precalculus Essentials (2nd Ed., Robert Blitzer)
Solution manual Precalculus Essentials (3rd Ed., Robert Blitzer)
Solution manual Precalculus : Concepts Through Functions, A Unit Circle Approach to Trigonometry (1st Ed., Michael Sullivan III & Michael Sullivan)
Solution manual Precalculus : Concepts Through Functions, A Unit Circle Approach to Trigonometry (2nd Ed., Michael Sullivan III & Michael Sullivan)
Solution manual Precalculus : Concepts Through Functions, A Right Triangle Approach to Trigonometry (1st Ed., Michael Sullivan III &

Michael Sullivan)
Solution manual Precalculus : Concepts Through Functions, A Right Triangle Approach to Trigonometry (2nd Ed., Michael Sullivan III & Michael Sullivan)
Solution manual Precalculus Enhanced with Graphing Utilities (4th Ed., Michael Sullivan III & Michael Sullivan)
Solution manual Precalculus Enhanced with Graphing Utilities (5th Ed., Michael Sullivan III & Michael Sullivan)
Solution manual Precalculus Essentials : Enhanced with Graphing Utilities (4th Ed., Michael Sullivan III & Michael Sullivan)
Solution manual Excursions in Modern Mathematics (5th Ed., Peter Tannenbaum)
Solution manual Excursions In Modern Mathematics with Mini-Excursions (6th Ed., Peter Tannenbaum)
Solution manual Quantitive Reasoning & the Environment (Greg Langkamp & Joseph Hull)
Solution manual Fundamentals of Mathematics (10th Ed., William M Setek & Michael A Gallo)
Solution manual Learning Math in Elementary and Middle School & IMAP Package (4th Ed., Cathcart, Pothier, Vance & Bezuk)
Solution manual Understanding the Math You Teach: Content and Methods for Prekindergarten Through Grade 4 (Anita C. Burris)
Solution manual Algebra Connections (Ira J. Papick & UMO University of Missouri)
Solution manual Calculus Connections (Asma Harcharras, Dorina Mitrea)
Solution manual Data Analysis and Probability Connections: Mathematics for Middle School Teachers (Debra A. Perkowski & Michael Perkowski)
Solution manual Geometry Connections (John K. Beem)
Solution manual Elementary Math Modeling Updated (2nd Ed., Mary Ellen Davis & C. Henry Edwards)
Solution manual Additional Calculus Topics (11th Ed., Raymond Barnett, Michael Ziegler & Karl Byleen)
Solution manual Finite Math and Its Application (9th Ed., Larry J Goldstein, David I Schneider & Martha J. Siegel)
Solution manual Finite Mathematics and Its Application (10th Ed., Larry J Goldstein, David I Schneider & Martha J. Siegel)
Solution manual Introductory Mathematical Analysis for Business, Economics and the Life and social Sciences (11th Ed., Haeussler, Paul & R.J. Wood)
Solution manual Introductory Mathematical Analysis for Business, Economics and the Life and Social Sciences (12th Ed., Haeussler, Paul & R.J. Wood)
Solution manual Additional Calculus Topics (9th Ed., Raymond Barnett, Michael Ziegler & Karl Byleen)
Solution manual College Mathematics for Business, Economics, Life Sciences and Social Sciences (10th Ed., Raymond Barnett, Michael Ziegler & Karl Byleen)
Solution manual Brief Calculus and Its Applications (11th Ed., Larry Goldstein, David Schneider, David Lay & Nakhle Asmar)
Solution manual Brief Calculus and Its Applications (12th Ed., Larry

Goldstein, David Schneider, David Lay & Nakhle Asmar)
Solution manual Calculus and its Applications (10th Ed., Larry Goldstein, David Schneider, David Lay)
Solution manual Calculus and its Applications (11th Ed., Larry Goldstein, David Schneider, David Lay & Nakhle Asmar)
Solution manual Calculus and its Applications (12th Ed., Larry Goldstein, David Schneider, David Lay & Nakhle Asmar)
Solution manual Calculus for Business, Economics, Life Sciences and Social Sciences (10th Ed., Raymond Barnett, Michael Ziegler & Karl Byleen)
Solution manual Calculus, Early Transcendentals (6th Ed., C. Henry Edwards & David Penney)
Solution manual Calculus, Early Transcendentals (7th Ed., C. Henry Edwards & David Penney)
Solution manual Calculus (9th Ed., Dale Varberg, Edwin Purcell & Steve Rigdon)
Solution manual Calculus Early Transcendentals (Dale Varberg, Edwin Purcell & Steve Rigdon)
Solution manual Calculus (3rd Ed., Monty Strauss, Gerald Bradley & Karl Smith)
Solution manual Calculus (6th Ed., Henry Edwards & David E. Penney)
Solution manual Single Variable Calculus (3rd Ed., Monty Strauss, Gerald Bradley & Karl Smith)
Solution manual Vector Calculus (3rd Ed., Susan Colley)
Solution manual Applied Linear Algebra (Peter Olver & Cheri Shakiban)
Solution manual Differential Equations and Linear Algebra (2nd Ed., Jerry Farlow, James E. Hall, Jean Marie McDill & Beverly West)
Solution manual Differential Equations and Linear Algebra (2nd Ed., C. Henry Edwards & David Penney)
Solution manual Differential Equations and Linear Algebra (3rd Ed., C. Henry Edwards & David Penney)
Solution manual Differential Equations (2nd Ed., John Polking, Al Boggess & David Arnold)
Solution manual Differential Equations with Boundary Value Problems (2nd ed., John Polking, Al Boggess & David Arnold)
Solution manual Discrete Mathematics with Graph Theory (3rd Ed., Edgar Goodaire & Michael Parmenter)
Solution manual Essential Discrete Mathematics (Todd Feil & Joan Krone)
Solution manual Statistical Methods for the Social Sciences (4th Ed., Agresti & Finlay)
Solution manual A Brief Course in Mathematical Statistics (Tanis & Hogg)
Solution manual Business Mathematics, 10th Ed. (Miller, Salzman & Clendenen)
Solution manual Elementary Statistics (6th Ed., Weiss)
Solution manual Elementary Statistics (7th Ed., Weiss)
Solution manual Elementary Statistics Using the Graphing Calculator: For the TI-83/84 Plus (Mario Triola)
Solution manual Elementary Statistics Using the TI-83/84 Plus

Calculator (2nd Ed., Mario Triola)
Solution manual Elementary Statistics Using the TI-83/84 Plus Calculator (3rd Ed., Mario Triola)
Solution manual Elementary Statistics Update (9th Ed., Mario Triola)
Solution manual Elementary Statistics (10th Ed., Mario Triola)
Solution manual Elementary Statistics (11th Ed., Mario Triola)
Solution manual Essentials of Statistics (2nd Ed., Mario Triola)
Solution manual Essentials of Statistics (3rd Ed., Mario Triola)
Solution manual Essentials of Statistics (4th Ed., Mario Triola)
Solution manual Introductory Statistics (7th Ed., Neil Weiss)
Solution manual Introductory Statistics (8th Ed., Neil Weiss)
Solution manual Intro Stats (2nd Ed., De Veaux, Velleman & Bock)
Solution manual Intro Stats (3rd Ed., De Veaux, Velleman & Bock)
Solution manual Stats: Data and Models, (De Veaux, Velleman & Bock)
Solution manual Stats: Data and Models, (2nd Ed., De Veaux, Velleman & Bock)
Solution manual Elementary Statistics Using Excel (2nd Ed., Mario Triola)
Solution manual Elementary Statistics Using Excel (3rd Ed., Mario Triola)
Solution manual Elementary Statistics Using Excel (4th Ed., Mario Triola)
Solution manual Stats : Modeling the World (2nd Ed., Bock, Velleman & De Veaux)
Solution manual Stats : Modeling the World (3rd Ed., Bock, Velleman & De Veaux)
Solution manual Statistical Reasoning for Everyday Life (2nd Ed., Bennett, Briggs & Triola)
Solution manual Statistical Reasoning for Everyday Life (3rd Ed., Bennett, Briggs & Triola)
Solution manual Business Statistics (Triola & Franklin)
Solution manual Business Statistics (Sharpe, De Veaux & Velleman)
Solution manual Business Statistics : A First Course (Sharpe, De Veaux & Velleman)
Solution manual Biostatistics for the Biological and Health Sciences with Statdisk (Marc Triola & Mario Triola)
Solution manual Biostatistics : A Guide to Design, Analysis and Discovery (2nd Ed., Ronald Forthofer, Eun Lee, Mike Hernandez)
Solution manual A Course in Probability (Neil A. Weiss)
Solution manual Probability and Statistics (3rd Ed., DeGroot & Schervish)
Solution manual Statistics for Science and Engineering (John Kinney)
Solution manual Mathematical Proofs : A Transition to Advanced Mathematics (1st Ed., Chartrand, Polimeni & Zhang)
Solution manual Mathematical Proofs : A Transition to Advanced Mathematics (2nd Ed., Chartrand, Polimeni & Zhang)
Solution manual Elementary Number Theory (5th Ed., Kenneth H. Rosen)
Solution manual History of Mathematics : Brief Version (Victor J. Katz)
Solution manual Geometry : An Investigative Approach (2nd Ed., Phares

G. O'Daffer & Stanley Clemens)
Solution manual A First Course in Abstract Algebra (7th Ed., John Fraleigh)
Solution manual Complex Variables with Applications (3rd Ed., David Wunsch)
Solution manual Numerical Analysis with CD-ROM (Timothy Sauer)
Solution manual Numerical Analysis and Scientific Computation (Jeffery Leader)
Solution manual Linear Algebra and Differential Equations (Gary Peterson & James Sochacki)
Solution manual Elementary Differential Equations (2nd Ed., Werner Kohler & Lee Johnson)
Solution manual Elementary Differential Equations with Boundary Value Problems (2nd Ed., Werner Kohler & Lee Johnson)
Solution manual Fundamentals of Differential Equations (6th Ed., Kent B. Nagle, Late, Edward B. Saff & Arthur David Snider)
Solution manual Fundamentals of Differential Equations and Boundary Value Problems (4th Ed., Kent B. Nagle, Late, Edward B. Saff & Arthur David Snider)
Solution manual Linear Algebra and Its Applications with CD-ROM, Update (3rd Ed., David C. Lay)
Solution manual Introduction to Linear Algebra (5th ed., Lee W. Johnson, R. Dean Riess & Jimmy T. Arnold)
Solution manual Calculus for the Life Sciences (Marvin L. Bittinger, Neal Brand & John Quintanilla)
Solution manual Calculus with Applications for the Life Sciences (Raymond N. Greenwell, Nathan P. Ritchey & Margaret L. Lial)
Solution manual Calculus : An Integrated Approach to Functions and Their Rates of Change, Preliminary Edition (Robin J. Gottlieb)
Solution manual Calculus (9th Ed., George B. Thomas, Jr. & Ross L. Finney)
Solution manual Thomas' Calculus, Alternate Edition (9th Ed., George B. Thomas, Jr. & Ross L. Finney)
Solution manual Calculus : A Complete Course (2nd Ed., Ross L. Finney, Franklin D. Demana, Bert K. Waits & Daniel Kennedy)
Solution manual Calculus (Elgin H. Johnston & Jerry Mathews)
Solution manual Thomas' Calculus, Updated (10th Ed., George B. Thomas, Jr., Ross L. Finney, Maurice D. Weir & Frank R. Giordano)
Solution manual Thomas' Calculus (11th Ed., George B. Thomas, Jr., Maurice D. Weir, Joel D. Hass & Frank R. Giordano)
Solution manual Thomas' Calculus Early Transcendentals (11th Ed., George B. Thomas, Jr., Maurice D. Weir, Joel D. Hass & Frank R. Giordano)
Solution manual University Calculus (Joel D. Hass, Maurice D. Weir & George B. Thomas, Jr.)
Solution manual University Calculus : Alternate Edition (Joel D. Hass, Maurice D. Weir & George B. Thomas, Jr.)
Solution manual Thomas' Calculus, Media Upgrade (11th Ed., George B. Thomas, Jr., Maurice D. Weir & Frank R. Giordano)
Solution manual Thomas' Calculus, Early Transcendentals, Media Upgrade

(11th Ed., George B. Thomas, Jr., Maurice D. Weir, Joel D. Hass & Frank R. Giordano)
Solution manual Calculus with Applications (8th Ed., Margaret L. Lial, Raymond N. Greenwell & Nathan P. Ritchey)
Solution manual Calculus with Applications, Brief Version (8th Ed., Margaret L. Lial, Raymond N. Greenwell & Nathan P. Ritchey)
Solution manual Finite Mathematics with Applications (9th Ed., Margaret L. Lial, Thomas W. Hungerford & John Holcomb)
Solution manual Finite Mathematics with Applications (10th Ed., Margaret L. Lial, Thomas W. Hungerford & John Holcomb)
Solution manual Finite Mathematics (8th Ed., Margaret L. Lial, Raymond N. Greenwell & Nathan P. Ritchey)
Solution manual Mathematics with Applications (9th Ed., Margaret L. Lial, Thomas W. Hungerford & John Holcomb)
Solution manual Mathematics with Applications (10th Ed., Margaret L. Lial, Thomas W. Hungerford & John Holcomb)
Solution manual Mathematical Ideas (10th Ed., Miller, Heeren & Hornsby)
Solution manual Mathematical Ideas (11th Ed., Miller, Heeren & Hornsby)
Solution manual Mathematical Ideas Expanded Edition (10th Ed., Miller, Heeren & Hornsby)
Solution manual Mathematical Ideas Expanded Edition (11th Ed., Miller, Heeren & Hornsby)
Solution manual Using and Understanding Mathematics: A Quantitative Reasoning Approach (3rd Ed., Bennett & Briggs)
Solution manual Using and Understanding Mathematics: A Quantitative Reasoning Approach (4th Ed., Bennett & Briggs)
Solution manual A Problem Solving Approach to Mathematics (9th Ed., Billstein, Libeskind & Lott)
Solution manual A Survey of Mathematics with Applications (7th Ed., Angel, Abbott & Runde)
Solution manual A Survey of Mathematics with Applications: Expanded Edition (7th Ed., Angel, Abbott & Runde)
Solution manual Mathematics All Around (3rd Ed., Tom Pirnot)
Solution manual Mathematics for Elementary School Teachers (3rd Ed., Phares O'Daffer, Randall Charles, Thomas Cooney, John Dossey & Jane Schielack)
Solution manual Mathematics for Elementary School Teachers (4th Ed., Phares O'Daffer, Randall Charles, Thomas Cooney, John Dossey & Jane Schielack)
Solution manual Mathematics for Elementary Teachers with Activities (Sybilla Beckmann)
Solution manual Mathematics for Elementary Teachers plus Activities Manual (2nd Ed., Sybilla Beckmann)
Solution manual A Problem Solving Approach to Mathematics for Elementary School Teachers (8th Ed., Billstein, Libeskind & Lott)
Solution manual A Problem Solving Approach to Mathematics for Elementary School Teachers (9th Ed., Billstein, Libeskind & Lott)
Solution manual A Problem Solving Approach to Mathematics for

Elementary School Teachers (10th Ed., Billstein, Libeskind & Lott)
Solution manual Essentials of Using and Understanding Mathematics : A Quantitative Reasoning Approach (Jeffrey Bennett & William Briggs)
Solution manual Technical Calculus with Analytic Geometry (4th Ed., Allyn Washington)
Solution manual Basic Technical Mathematics (8th Ed., Allyn Washington)
Solution manual Basic Technical Mathematics (9th Ed., Allyn Washington)
Solution manual Basic Technical Mathematics with Calculus (8th Ed., Allyn Washington)
Solution manual Basic Technical Mathematics with Calculus (9th Ed., Allyn Washington)
Solution manual Basic Technical Mathematics with Calculus Metric Version (8th Ed., Allyn Washington)
Solution manual Introduction to Technical Mathematics (5th Ed., Washington, Triola & Reda)
Solution manual A Graphical Approach to Precalculus (4th Ed., Hornsby, Lial & Rockswold)
Solution manual A Graphical Approach to Precalculus with Limits (3rd Ed., Hornsby, Lial & Rockswold)
Solution manual A Graphical Approach to Precalculus with Limits : A Unit Circle Approach (4th Ed., Hornsby, Lial & Rockswold)
Solution manual A Graphical Approach to Precalculus with Limits : A Unit Circle Approach (5th Ed., Hornsby, Lial & Rockswold)
Solution manual Precalculus : Functions and Graphs (5th Ed., Demana, Waits, Foley & Kennedy)
Solution manual Precalculus : Graphical, Numerical, Algebraic (7th Ed., Demana, Waits, Foley & Kennedy)
Solution manual Precalculus : Graphs and Models Graphing Calculator Manual Package (3rd Ed., Bittinger, Beecher, Ellenbogen & Penna)
Solution manual Precalculus : Graphs and Models Graphing Calculator Manual Package (4th Ed., Bittinger, Beecher, Ellenbogen & Penna)
Solution manual Functioning in the Real World : A Precalculus Experience (2nd Ed., Gordon, F. Gordon, Tucker & Siegel)
Solution manual Precalculus with Modeling and Visualization (3rd Ed., Gary K. Rockswold)
Solution manual Precalculus with Modeling and Visualization (4th Ed., Gary K. Rockswold)
Solution manual Precalculus (2nd Ed., Beecher, Penna & Bittinger)
Solution manual Precalculus (3rd Ed., Beecher, Penna & Bittinger)
Solution manual Precalculus (3rd Ed., Mark Dugopolski)
Solution manual Precalculus (4th Ed., Mark Dugopolski)
Solution manual Precalculus : Functions and Graphs (2nd Ed., Mark Dugopolski)
Solution manual Precalculus : Functions and Graphs (3rd Ed., Mark Dugopolski)
Solution manual Fundamentals of Precalculus (Mark Dugopolski)
Solution manual Trigonometry (1st Ed., Mark Dugopolski)
Solution manual Trigonometry (2nd Ed., Mark Dugopolski)

Solution manual Trigonometry (3rd Ed., Mark Dugopolski)
Solution manual Trigonometry (8th Ed., Lial, Hornsby & Schneider)
Solution manual Trigonometry (9th Ed., Lial, Hornsby & Schneider)
Solution manual Trigonometry : A Circular Function Approach (Marie Aratari)
Solution manual A Graphical Approach to Algebra and Trigonometry (4th Ed., Hornsby, Lial & Rockswold)
Solution manual A Graphical Approach to Algebra and Trigonometry (5th Ed., Hornsby, Lial & Rockswold)
Solution manual Algebra and Trigonometry : Graphs and Models Graphing Calculator Manual Package (3rd Ed., Bittinger, Beecher, Ellenbogen & Penna)
Solution manual Algebra and Trigonometry (2nd Ed., Beecher, Penna & Bittinger)
Solution manual Algebra and Trigonometry (3rd Ed., Beecher, Penna & Bittinger)
Solution manual College Algebra and Trigonometry (1st Ed., J. S. Ratti & Marcus S. McWaters)
Solution manual College Algebra and Trigonometry (2nd Ed., J. S. Ratti & Marcus S. McWaters)
Solution manual College Algebra and Trigonometry (3rd Ed., Mark Dugopolski)
Solution manual College Algebra and Trigonometry (4th Ed., Mark Dugopolski)
Solution manual College Algebra and Trigonometry : A Unit Circle Approach (5th Ed., Mark Dugopolski)
Solution manual Algebra and Trigonometry with Modeling and Visualization (3rd Ed., Gary Rockswold)
Solution manual Algebra and Trigonometry with Modeling and Visualization (4th Ed., Gary Rockswold)
Solution manual College Algebra and Trigonometry (3rd Ed., Lial, Hornsby & Schneider)
Solution manual College Algebra and Trigonometry (4th Ed., Lial, Hornsby & Schneider)
Solution manual A Graphical Approach to College Algebra (4th Ed., John Hornsby, Margaret Lial & Gary Rockswold)
Solution manual A Graphical Approach to College Algebra (5th Ed., John Hornsby, Margaret Lial & Gary Rockswold)
Solution manual College Algebra : Graphs and Models Graphing Calculator Manual Package (3rd Ed., Bittinger, Beecher, Ellenbogen & Penna)
Solution manual College Algebra (J. S. Ratti & Marcus S. McWaters)
Solution manual College Algebra with Modeling and Visualization (3rd Ed., Gary Rockswold)
Solution manual College Algebra with Modeling and Visualization (4th Ed., Gary Rockswold)
Solution manual Essentials of College Algebra with Modeling and Visualization (3rd Ed., Gary Rockswold)
Solution manual Essentials of College Algebra (Lial, Hornsby & Schneider)

Solution manual Essentials of College Algebra, Alternate Edition (Lial, Hornsby & Schneider)
Solution manual Essentials of College Algebra (10th Ed., Lial, Hornsby & Schneider)
Solution manual College Algebra (3rd Ed., Mark Dugopolski)
Solution manual College Algebra (4th Ed., Mark Dugopolski)
Solution manual College Algebra (5th Ed., Mark Dugopolski)
Solution manual College Algebra in Context with Applications for the Managerial, Life, and Social Sciences (1st Ed., Ronald Harshbarger & Lisa Yocco)
Solution manual College Algebra in Context with Applications for the Managerial, Life, and Social Sciences (2nd Ed., Ronald Harshbarger & Lisa Yocco)
Solution manual College Algebra (2nd Ed., Judith Beecher, Judith Penna & Marvin Bittinger)
Solution manual College Algebra (9th Ed., Margaret Lial, John Hornsby & David Schneider)
Solution manual Essentials of Geometry for College Students (2nd Ed., Margaret Lial, Barbara Brown, Arnold Steffenson & L. Murphy Johnson)
Solution manual Algebra for College Students (5th Ed., Margaret Lial, John Hornsby & Terry McGinnis)
Solution manual Introductory and Intermediate Algebra (2nd Ed., Margaret Lial, John Hornsby & Terry McGinnis)
Solution manual Introductory and Intermediate Algebra (3rd Ed., Margaret Lial, John Hornsby & Terry McGinnis)
Solution manual Introductory and Intermediate Algebra (4th Ed., Margaret Lial, John Hornsby & Terry McGinnis)
Solution manual Beginning and Intermediate Algebra (3rd Ed., Margaret Lial, John Hornsby & Terry McGinnis)
Solution manual Beginning and Intermediate Algebra (4th Ed., Margaret Lial, John Hornsby & Terry McGinnis)
Solution manual Elementary and Intermediate Algebra (1st Ed., Tom Carson, Ellyn Gillespie & Bill Jordan)
Solution manual Elementary and Intermediate Algebra (2nd Ed., Tom Carson, Ellyn Gillespie & Bill Jordan)
Solution manual Introductory and Intermediate Algebra : A Combined Approach (2nd Ed., Marvin Bittinger & Judith Beecher)
Solution manual Introductory and Intermediate Algebra (3rd Ed., Marvin Bittinger & Judith Beecher)
Solution manual Introductory and Intermediate Algebra through Applications (2nd Ed., Geoffrey Akst & Sadie Bragg)
Solution manual Elementary and Intermediate Algebra (1st Ed., George Woodbury)
Solution manual Elementary and Intermediate Algebra (2nd Ed., George Woodbury)
Solution manual Elementary and Intermediate Algebra (2nd Ed., Mark Dugopolski)
Solution manual Elementary and Intermediate Algebra (3rd Ed., Mark Dugopolski)
Solution manual Elementary and Intermediate Algebra : Concepts and

Applications (4th Ed., Marvin Bittinger, David Ellenbogen & Barbara Johnson)
Solution manual Beginning and Intermediate Algebra with Applications and Visualization (Gary Rockswold & Terry Krieger)
Solution manual Elementary and Intermediate Algebra : Graphs & Models (2nd Ed., Marvin Bittinger, David Ellenbogen & Barbara Johnson)
Solution manual Foundations of Mathematics (Marvin Bittinger & Judith Penna)
Solution manual Intermediate Algebra (9th Ed., Marvin Bittinger)
Solution manual Intermediate Algebra (10th Ed., Marvin Bittinger)
Solution manual Intermediate Algebra : Graphs & Models (2nd Ed., Marvin Bittinger, David Ellenbogen & Barbara Johnson)
Solution manual Intermediate Algebra : Graphs & Models (3rd Ed., Marvin Bittinger, David Ellenbogen & Barbara Johnson)
Solution manual Intermediate Algebra (8th Ed., Margaret Lial, John Hornsby & Terry McGinnis)
Solution manual Intermediate Algebra (9th Ed., Margaret Lial, John Hornsby & Terry McGinnis)
Solution manual Intermediate Algebra with Applications and Visualization (2nd Ed., Gary Rockswold & Terry Krieger)
Solution manual Intermediate Algebra (Tom Carson, Ellyn Gillespie & Bill Jordan)
Solution manual Intermediate Algebra (2nd Ed., Tom Carson, Ellyn Gillespie & Bill Jordan)
Solution manual Intermediate Algebra: Concepts and Applications (7th Ed., Marvin Bittinger & David Ellenbogen)
Solution manual Beginning Algebra (10th Ed., Margaret Lial, John Hornsby & Terry McGinnis)
Solution manual Prealgebra and Introductory Algebra (Marvin Bittinger & David Ellenbogen)
Solution manual Prealgebra and Introductory Algebra (2nd Ed., Marvin Bittinger & David Ellenbogen)
Solution manual Elementary Algebra (2nd Ed., Tom Carson, Ellyn Gillespie & Bill Jordan)
Solution manual Introductory Algebra (9th Ed., Marvin Bittinger)
Solution manual Introductory Algebra (10th Ed., Marvin Bittinger)
Solution manual Prealgebra and Introductory Algebra (2nd Ed., Margaret Lial, John Hornsby, Terry McGinnis & Diana Hestwood)
Solution manual Prealgebra and Introductory Algebra (3rd Ed., Margaret Lial, Diana Hestwood, John Hornsby & Terry McGinnis)
Solution manual Elementary Algebra with Early Systems of Equations (Tom Carson & Ellyn Gillespie)
Solution manual Elementary Algebra : Concepts and Applications (6th Ed., Marvin Bittinger & David Ellenbogen)
Solution manual Elementary Algebra : Concepts and Applications (7th Ed., Marvin Bittinger & David Ellenbogen)
Solution manual Introductory Algebra (Richelle Blair)
Solution manual Introductory Algebra (8th Ed., Margaret Lial, John Hornsby & Terry McGinnis)
Solution manual Introductory Algebra (9th Ed., Margaret Lial, John

Hornsby & Terry McGinnis)
Solution manual Beginning Algebra with Applications and Visualization (Gary Rockswold & Terry Krieger)
Solution manual Integrated Arithmetic and Basic Algebra (3rd Ed., Bill Jordan & William Palow)
Solution manual Introductory Algebra through Applications (Geoffrey Akst & Sadie Bragg)
Solution manual Prealgebra (3rd Ed., Margaret Lial & Diana Hestwood)
Solution manual Prealgebra (4th Ed., Margaret Lial & Diana Hestwood)
Solution manual Prealgebra (4th Ed., Marvin Bittinger & David Ellenbogen)
Solution manual Prealgebra (5th Ed., Marvin Bittinger, David Ellenbogen & Barbara Johnson)
Solution manual Prealgebra (2nd Ed., Tom Carson)
Solution manual Basic Mathematics (9th Ed., Marvin Bittinger)
Solution manual Basic Mathematics (10th Ed., Marvin Bittinger)
Solution manual Basic Mathematics Preliminary Edition (Robert Prior)
Solution manual Basic Mathematics with Early Integers (Marvin Bittinger & Judith Penna)
Solution manual Basic College Mathematics (7th Ed., Margaret Lial, Stanley Salzman & Diana Hestwood)
Solution manual Basic College Mathematics (8th Ed., Margaret Lial, Stanley Salzman & Diana Hestwood)
Solution manual Basic Mathematics through Applications (3rd Ed., Geoffrey Akst & Sadie Bragg)
Solution manual Fundamental Mathematics through Applications (3rd Ed., Geoffrey Akst & Sadie Bragg)
Solution manual Wave Motion (J. Billingham & A. C. King)
Solution manual Solving ODEs with MATLAB (L. F. Shampine, I. Gladwell & S. Thompson)
Solution manual Numerical Solution of Partial Differential Equations: An Introduction (2nd Ed., K. W. Morton & D. F. Mayers)
Solution manual Measure Theory and Filtering : Introduction and Applications (Lakhdar Aggoun & Robert J. Elliott)
Solution manual Mathematical Models in Biology : An Introduction (Elizabeth S. Allman & John A. Rhodes)
Solution manual Insurance Risk and Ruin (David C. M. Dickson)
Solution manual Data Analysis and Graphics Using R : An Example-based Approach (2nd Ed., John Maindonald & John Braun)
Solution manual Applied Optimization with MATLAB Programming (1st Ed., P. Venkataraman)
Solution manual Applied Optimization with MATLAB Programming (2nd Ed., P. Venkataraman)
Solution manual Convex Optimization (Stephen Boyd & Lieven Vandenberghe)
Solution manual Concrete Abstract Algebra : From Numbers to Gröbner Bases (Niels Lauritzen)
Solution manual A Concrete Approach to Abstract Algebra : From the Integers to the Insolvability of the Quintic (Jeffrey Bergen)
Solution manual Calculus : Concepts and Methods (Ken Binmore & Joan

Davies)
Solution manual An Introduction to Partial Differential Equations (Yehuda Pinchover & Jacob Rubinstein)
Solution manual An Introduction to Ordinary Differential Equations (James C. Robinson)
Solution manual An Introduction to Mathematical Physiology and Biology (2nd Ed., J. Mazumdar)
Solution manual An Introduction to Financial Option Valuation : Mathematics, Stochastics and Computation (Desmond Higham)
Solution manual An Interactive Introduction to Mathematical Analysis (Jonathan Lewin)
Solution manual An Introduction to Mathematical Finance: Options and Other Topics (1st Ed., Sheldon M. Ross)

- Physics & Astronomy :

Solution manual Introduction to Solid State Physics (8th Ed., Charles Kittel)
Solution manual Quantum Physics (3rd Ed., Stephen Gasiorowicz)
Solution manual Fundamentals of Nuclear Reactor Physics (Elmer Lewis)
Solution manual Nuclear Energy : An Introduction to the Concepts, Systems, and Applications of Nuclear Processes (6th Ed., Raymond L. Murray)
Solution manual Fundamentals of Electromagnetics with Engineering Applications (Stuart M. Wentworth)
Solution manual Physics (7th Ed. by Paul E. Tippens)
Solution manual Physics (6th Ed., Cutnell & Johnson)
Solution manual Physics (7th Ed., Cutnell & Johnson)
Solution manual Physics (8th Ed., Cutnell & Johnson)
Solution manual Essentials of Physics (Cutnell & Johnson)
Solution manual Understanding Physics (1st Ed., Cummings, Laws, Redish & Cooney)
Solution manual Introductory Physics : Building Understanding (Jerold Touger)
Solution manual Physics Matters : An Introduction to Conceptual Physics (James Trefil & Robert Hazen)
Solution manual How Things Work : The Physics of Everyday Life (3rd Ed., Louis Bloomfield)
Solution manual An Introduction to Modern Astrophysics (2nd Ed., Bradley W. Carroll & Dale A. Ostlie)
Solution manual Foundations of Astrophysics (Barbara Ryden & Bradley Peterson)
Solution manual Physics (5th Ed., Halliday, Resnick, Krane)
Solution manual Fundamentals of Physics (6th Ed., David Halliday, Robert Resnick & Jearl Walker)
Solution manual Fundamentals of Physics (7th Ed., David Halliday, Robert Resnick & Jearl Walker)
Solution manual Fundamentals of Physics (8th Ed., David Halliday, Robert Resnick & Jearl Walker)
Solution manual Fundamentals of Physics (9th Ed., David Halliday,

Robert Resnick & Jearl Walker)
Solution manual The Physics of Everyday Phenomena : A Conceptual Introduction to Physics (3rd Ed., Thomas Griffith)
Solution manual The Physics of Everyday Phenomena : A Conceptual Introduction to Physics (4th Ed., Thomas Griffith)
Solution manual The Physics of Everyday Phenomena : A Conceptual Introduction to Physics (5th Ed., Thomas Griffith)
Solution manual Physics of Everyday Phenomena : A Conceptual Introduction to Physics (6th Ed., W. Thomas Griffith & Juliet W. Brosing)
Solution manual Integrated Science (2nd Ed., Tillery et al.)
Solution manual Integrated Science (3rd Ed., Tillery et al.)
Solution manual Integrated Science (4th Ed., Tillery et al.)
Solution manual Physical Science (5th Ed., Tillery)
Solution manual Physical Science (6th Ed., Tillery)
Solution manual Physical Science (7th Ed., Tillery)
Solution manual Physical Science (8th Ed., Tillery)
Solution manual The Physical Universe (11th Ed., Konrad Krauskopf & Arthur Beiser)
Solution manual The Physical Universe (12th Ed., Konrad Krauskopf & Arthur Beiser)
Solution manual Physics of the Life Sciences (Jay Newman)
Solution manual Physics in Biology and Medicine (3rd Ed., Paul Davidovits)
Solution manual Optics (1st Ed., Ajoy Ghatak)
Solution manual Optics (4th Ed., Eugene Hecht)
Solution manual Nonlinear Optics (3rd Ed., Robert Boyd)
Solution manual Introduction to Optics (3rd Ed., Frank L Pedrotti, Leno M Pedrotti & Leno S Pedrotti)
Solution manual Principles of Physical Optics (Charles Bennett)
Solution manual Optics : Principles and Applications (Kailash Sharma)
Solution manual Continuum Electromechanics (James R. Melcher)
Solution manual Electromagnetic Noise and Quantum Optical Measurements (Hermann A. Haus)
Solution manual Matter and Interactions I : Modern Mechanics (2nd Ed., Ruth W. Chabay & Bruce A. Sherwood)
Solution manual Matter and Interactions : Volume 1 : Modern Mechanics (3rd Ed., Ruth W. Chabay & Bruce A. Sherwood)
Solution manual Matter and Interactions II : Electric and Magnetic Interactions (2nd Ed., Ruth W. Chabay & Bruce A. Sherwood)
Solution manual Matter and Interactions : Volume 2 : Electric and Magnetic Interactions (3rd Ed., Ruth W. Chabay & Bruce A. Sherwood)
Solution manual Thermal Stresses (2nd Ed., Noda, Hetnarski & Tanigawa)
Solution manual Introduction to Statistical Physics (Kerson Huang)
Solution manual Extended Irreversible Thermodynamics (3rd Ed., D. Jou, J. Casas-Vazquez & G. Lebon)
Solution manual An Introduction to Thermodynamics and Statistical Mechanics (2nd Ed, Keith Stowe)
Solution manual Equilibrium and Non-Equilibrium Statistical Thermodynamics (Michel Le Bellac, Fabrice Mortessagne & G. George

Batrouni)
Solution manual Elements of Statistical Mechanics: With an Introduction to Quantum Field Theory and Numerical Simulation (Ivo Sachs & Siddhartha Sen)
Solution manual Quantum Transport (2nd Ed., Supriyo Datta)
Solution manual Ocean Waves and Oscillating Systems (Johannes Falnes)
Solution manual Statistical Mechanics (2nd Ed., R.K. Pathria)
Solution manual Quantum Mechanics (Gennaro Auletta, Mauro Fortunato & Giorgio Parisi)
Solution manual Applied Quantum Mechanics (1st Ed., A. F. J. Levi)
Solution manual Applied Quantum Mechanics (2nd Ed., A. F. J. Levi)
Solution manual Fundamentals of Quantum Mechanics (C.L. Tang)
Solution manual Astronomy : A Physical Perspective (2nd Ed., Marc L. Kutner)
Solution manual Classical Mechanics (Douglas Gregory)
Solution manual Electromagnetic Field Theory Fundamentals (2nd Ed., Singh Guru & Hiziroglu)
Solution manual Special Relativity : From Einstein to Strings (P.M. Schwarz & J.H. Schwarz)
Solution manual Gravity : An Introduction to Einstein's General Relativity (James Hartle)
Solution manual A Short Course in General Relativity (James Foster & J. David Nightingale)
Solution manual Statistical Thermodynamics (Normand Laurendeau)
Solution manual Statistical Thermodynamics and Microscale Thermophysics (Van P. Carey)
Solution manual Thermal Physics (Ralph Baierlein)
Solution manual Topics in Atomic Physics (Charles E. Burkhardt, Jacob J. Leventhal)
Solution manual Foundations of Quantum Physics (Charles E. Burkhardt, Jacob J. Leventhal)
Solution manual Applied Physics (8th Ed., Dale Ewen, Ronald Nelson, Neill Schurter & Erik Gundersen)
Solution manual Applied Physics (9th Ed., Dale Ewen, Neill Schurter & Erik Gundersen)
Solution manual Analytical Mechanics (7th Ed., Grant R. Fowles, George Cassiday)
Solution manual Orbital Mechanics for Engineering Students (1st Ed., Howard Curtis)
Solution manual Orbital Mechanics for Engineering Students (2nd Ed., Howard Curtis)
Solution manual Diagnostic Ultrasound Imaging : Inside Out (Thomas Szabo)
Solution manual Astronomy : A Beginner's Guide to the Universe (5th Ed., Eric Chaisson & Steve McMillan)
Solution manual The Cosmic Perspective (5th Ed., Jeffrey O. Bennett, Megan Donahue, Nicholas Schneider & Mark Voit)
Solution manual The Cosmic Perspective Media Update (4th Ed., Jeffrey O. Bennett, Megan Donahue, Nicholas Schneider & Mark Voit)
Solution manual The Essential Cosmic Perspective Media Update (4th

Ed., Jeffrey O. Bennett, Megan Donahue, Nicholas Schneider & Mark Voit)
Solution manual The Essential Cosmic Perspective Media Update (3rd Ed., Jeffrey O. Bennett, Megan Donahue, Nicholas Schneider & Mark Voit)
Solution manual The Essential Cosmic Perspective (3rd Ed., Jeffrey O. Bennett, Megan Donahue, Nicholas Schneider & Mark Voit)
Solution manual Astronomy Today (5th Ed., Eric Chaisson & Steve McMillan)
Solution manual Astronomy Today (6th Ed., Eric Chaisson & Steve McMillan)
Solution manual Conceptual Physical Science (3rd Ed., Paul G. Hewitt, John A. Suchocki & Leslie Hewitt)
Solution manual Conceptual Physical Science (4th Ed., Paul G. Hewitt, John A. Suchocki & Leslie Hewitt)
Solution manual Conceptual Integrated Science (Paul G. Hewitt, Suzanne Lyons, John A. Suchocki & Jennifer Yeh)
Solution manual Physics : Concepts & Connections (4th Ed., Art Hobson)
Solution manual Conceptual Physics (10th Ed., Paul Hewitt)
Solution manual Conceptual Physics Fundamentals (Paul G. Hewitt)
Solution manual College Physics (6th Ed., Jerry Wilson, Anthony Buffa & Bo Lou)
Solution manual College Physics (7th Ed., Jerry Wilson, Anthony Buffa & Bo Lou)
Solution manual College Physics (8th Ed., Young & Geller)
Solution manual Modern Physics (2nd Ed., Randy Harris)
Solution manual Modern Physics for Scientists and Engineers (John Morrison)
Solution manual Solid State Physics : Essential Concepts (David Snoke)
Solution manual Physics with Mastering Physics (3rd Ed., James Walker)
Solution manual Physics with Mastering Physics (4th Ed., James Walker)
Solution manual Active Learning Guide (Alan Van Heuvelen & Eugenia Etkina)
Solution manual E&M TIPERs : Electricity & Magnetism Tasks (C. J. Hieggelke, D. P. Maloney, T. L. O'Kuma & Steve Kanim)
Solution manual Physics : Principles with Applications (6th Ed., Douglas C. Giancoli)
Solution manual Physlet® Physics : Interactive Illustrations, Explorations and Problems for Introductory Physics (Wolfgang Christian & Mario Belloni)
Solution manual University Physics with Modern Physics with Mastering Physics (11th Ed., Hugh Young & Roger Freedman)
Solution manual University Physics with Modern Physics with Mastering Physics (12th Ed., Hugh Young & Roger Freedman)
Solution manual Physics for Scientists and Engineers (3rd Ed., Douglas C. Giancoli)
Solution manual Physics for Scientists and Engineers with Modern Physics (3rd Ed., Douglas Giancoli)
Solution manual Physics for Scientists and Engineers with Modern Physics (4th Ed., Douglas Giancoli)

Solution manual Physlet® Quantum Physics : An Interactive Introduction (Mario Belloni, Wolfgang Christian & Anne Cox)
Solution manual Introduction to Electrodynamics (3rd Ed., David J. Griffiths)
Solution manual Introduction to Quantum Mechanics (2nd Ed., David Griffiths)
Solution manual Quantum Mechanics : An Accessible Introduction (Robert Scherrer)
Solution manual Modern Quantum Mechanics (J. J. Sakurai)
Solution manual The Physics of Sound (3rd Ed., Richard Berg & David Stork)
Solution manual Electromagnetism : Principles and Applications (1st Ed., Paul Lorrain, Dale R. Corson)
Solution manual Classical Electromagnetism (Jerrold Franklin)
Solution manual Classical Electrodynamics (2nd Ed., John David Jackson)
Solution manual Nanoengineering of Structural, Functional and Smart Materials (Mark Schulz, Ajit Kelkar, Mannur Sundaresan)
Solution manual Introduction to Color Imaging Science (Hsien-Che Lee)
Solution manual An Introduction to Astrobiology (Iain Gilmour & Mark Sephton)
Solution manual An Introduction to Galaxies and Cosmology (Mark HJones & Robert Lambourne)
Solution manual An Introduction to the Solar System (Neil McBride & Iain Gilmour)
Solution manual Quantum Physics (Michel Le Bellac)
Solution manual Laser Fundamentals (2nd Ed., William T. Silfvast)
Solution manual Laser Electronics (3rd Ed., Joseph T. Verdeyen)
Solution manual Introductory Quantum Optics (Christopher Gerry & Peter Knight)
Solution manual Introduction to Plasma Physics: With Space and Laboratory Applications (D. A. Gurnett & A. Bhattacharjee)
Solution manual A Short Introduction to Quantum Information and Quantum Computation (Michel Le Bellac)
Solution manual A Quantum Approach to Condensed Matter Physics (Philip L. Taylor & Olle Heinonen)
Solution manual A First Course in String Theory (Barton Zwiebach)
Solution manual A First Course in Computational Physics and Object-Oriented Programming with C++ (David Yevick)
Solution manual A Course in Modern Mathematical Physics : Groups, Hilbert Space and Differential Geometry (Peter Szekeres)
Solution manual Ultrasonic Nondestructive Evaluation Systems: Models and Measurements (Lester W. Schmerr & Sung-Jin Song)
Solution manual Explorations : Stars Galaxies and Planets (1st Ed. Updated, Thomas Arny)
Solution manual Explorations : An Introduction to Astronomy (2nd Ed., Thomas Arny)
Solution manual Explorations : An Introduction to Astronomy (3rd Ed. Updated, Thomas Arny)
Solution manual Explorations : An Introduction to Astronomy (4th Ed.

Updated, Thomas Arny)
Solution manual Explorations : An Introduction to Astronomy (5th Ed.
Updated, Thomas Arny)
Solution manual Astronomy : Journey to the Cosmic Frontier (3rd Ed.,
John D. Fix)
Solution manual Astronomy : Journey to the Cosmic Frontier (4th Ed.,
John D. Fix)
Solution manual Astronomy : Journey to the Cosmic Frontier (5th Ed.,
John D. Fix)
Solution manual Pathways to Astronomy with Starry Night Pro (Steven
Schneider & Thomas T Arny)
Solution manual From Molecules to Networks (2nd Ed., John Byrne &
James Roberts)
Solution manual Biotechnology (David Clark & Nanette Pazdernik)
Solution manual Light and Video Microscopy (Randy Wayne)

List of Solutions Manuals

---

contact me to : mattosbw1@gmail.com
mattosbw1(at)gmail.com

NOTE : "THIS SERVICE IS NOT AVAILABLE FOR : CHINA, INDIA, PAKISTAN, IRAQ, IRAN, PHILIPPINES, NORTH KOREA, NEPAL, BANGLADESH, SRI LANKA, MALDIVES & BHUTAN".

If your wanted solutions manual is not in this list, also can ask me if is available (it is a partial list). Then if you need solutions manual only contact me by email.

"ARE NOT AVAILABLES BOOKS IN DIGITAL FORMAT", ONLY SOLUTIONS MANUALS AND TEST BANKS.

This same "list of titles" of texts with availables solutions manual and/or test banks is for download from :

http://www.megaupload.com/?d=VQJ2M78Y

I do not review the forums, just send me an email.

- Civil Engineering and Architecture :

Solution manual Mechanical and Structural Vibrations : Theory and Applications (by Jerry H. Ginsberg)
Solution manual Fundamentals of Structural Analysis (1st Ed., Leet & Uang)
Solution manual Fundamentals of Structural Analysis (2nd Ed., Leet & Uang)
Solution manual Fundamentals of Structural Analysis (3rd Ed., Leet & Uang)
Solution manual A Structures Primer (Harry F. Kaufman)
Solution manual Steel Design (4th Ed., William T. Segui)
Solution manual Structural and Stress Analysis (2nd Ed., Megson)
Solution manual Structural Steel Design ASD Method (4th Ed., Jack McCormac)
Solution manual Structural Steel Design (4th Ed., Jack McCormac)
Solution manual Structural Steel Design : A Practice Oriented Approach (Abi Aghayere & Jason Vigil)
Solution manual Unified Design of Steel Structures (Louis Geschwindner)
Solution manual Steel Structures : Behavior and LRFD (1st Ed., Ramulu Vinnakota)

Solution manual The Engineering of Foundations (1st Ed., Rodrigo Salgado)
Solution manual Mechanics of Materials : A Modern Integration of Mechanics and Materials in Structural Design (Christopher Jenkins & Sanjeev Khanna)
Solution manual Analysis and Design of Shallow and Deep Foundations (Lymon Reese, William Isenhower & Shin-Tower Wang)
Solution manual Elementary Structures for Architects and Builders (5th Ed., Ronald Shaeffer)
Solution manual Statics and Strength of Materials for Architecture and Building Construction (3rd Ed., Onouye & Kane)
Solution manual Finite Element Techniques in Structural Mechanics (C. T. F. Ross)
Solution manual Fundamental Finite Element Analysis and Applications: with Mathematica and Matlab Computations (Asghar Bhatti)
Solution manual Advanced Topics in Finite Element Analysis of Structures : With Mathematica and MATLAB Computations (Asghar Bhatti)
Solution manual Adjustment Computations : Spatial Data Analysis (4th Ed., Charles Ghilani & Paul Wolf)
Solution manual Adjustment Computations : Spatial Data Analysis (5th Ed., Charles Ghilani)
Solution manual Surveying (5th Ed., Jack McCormac)
Solution manual Surveying with Construction Applications (6th Ed., Barry Kavanagh)
Solution manual Surveying with Construction Applications (7th Ed., Barry Kavanagh)
Solution manual Surveying : Principles and Applications (8th Ed., Barry Kavanagh)
Solution manual Surveying Fundamentals and Practices (6th Ed., Jerry Nathanson, Michael Lanzafama & Philip Kissam)
Solution manual Structural Analysis (5th Ed., Hibbeler)
Solution manual Structural Analysis (7th Ed., Hibbeler)
Solution manual Structural Analysis - SI Units (7th Ed., Hibbeler)
Solution manual Dynamics of Structures (3rd Ed., Chopra)
Solution manual Principles of Geotechnical Engineering (6th Ed., Braja M. Das)
Solution manual Geotechnical Engineering: Principles and Practices (2nd Ed., Donald P. Coduto, Man-chu Ronald Yeung & William A. Kitch)
Solution manual Geotechnical Engineering: Principles and Practices - International Version (2nd Ed., Donald P. Coduto, Man-chu Ronald Yeung & William A. Kitch)
Solution manual Fundamentals of Structural Stability (George Simitses & Dewey Hodges)
Solution manual Fundamentals of Structural Mechanics (2nd Ed., keith D. Hjelmstad)
Solution manual Fundamentals of Structural Dynamics (2nd Ed., Roy Craig & Andrew Kurdila)
Solution manual Design of Concrete Structures (13th Ed., Nilson, Darwin & Dolan)
Solution manual Design of Concrete Structures (14th Ed., Nilson,

Darwin & Dolan)
Solution manual Structures (6th Ed., Daniel Lewis Schodek & Martin Bechthold)
Solution manual Concrete Structures (Mehdi Setareh & Robert Darvas)
Solution manual Reinforced Concrete Design : A Practical Approach (Brzev & Pao)
Solution manual Reinforced Concrete : A Fundamental Approach (6th Ed., Edward Nawy)
Solution manual Reinforced Concrete Design (6th Ed., Chu-Kia Wang, Charles Salmon)
Solution manual Reinforced Concrete Design (7th Ed., Chu-Kia Wang, Charles Salmon & José Pincheira)
Solution manual Reinforced Concrete Design (6th Ed., George Limbrunner & Abi Aghayere)
Solution manual Reinforced Concrete Design (7th Ed., George Limbrunner & Abi Aghayere)
Solution manual Reinforced Concrete : Mechanics and Design (4th Ed., James MacGregor & James Wight)
Solution manual Reinforced Concrete : Mechanics and Design (5th Ed., James Wight & James MacGregor)
Solution manual Reinforced Concrete : Mechanics and Design - International Version (5th Ed., James Wight & James MacGregor)
Solution manual Structural Concrete : Theory and Design (3rd Ed., M. Nadim Hassoun & Akthem Al-Manaseer)
Solution manual Structural Concrete : Theory and Design (4th Ed., M. Nadim Hassoun & Akthem Al-Manaseer)
Solution manual Design of Reinforced Concrete (6th Ed., Jack McCormac & James Nelson)
Solution manual Design of Reinforced Concrete (7th Ed., ACI 318-05 Code Edition, by Jack McCormac)
Solution manual Design of Reinforced Concrete (8th Ed., Jack McCormac & Russell Brown)
Solution manual Structural Analysis : Using Classical and Matrix Methods (3rd Ed., James Nelson, Jr., Jack McCormac)
Solution manual Structural Analysis : Using Classical and Matrix Methods (4th Ed., Jack McCormac)
Solution manual Pavement Design and Materials (A. T. Papagiannakis, E. A. Masad)
Solution manual Traffic Engineering (4th Ed., Roger P. Roess, Elena S. Prassas, William R. McShane)
Solution manual Principles of Highway Engineering and Traffic Analysis (3rd Ed., Fred Mannering, Walter Kilareski & Scott Washburn)
Solution manual Principles of Highway Engineering and Traffic Analysis (4th Ed., Fred Mannering, Walter Kilareski & Scott Washburn)
Solution manual Highway Engineering (7th Ed., Paul Wright & Karen Dixon)
Solution manual Soil Mechanics : Concepts and Applications (2nd Ed., William Powrie)
Solution manual Unsaturated Soil Mechanics (Ning Lu & William Likos)
Solution manual Soil Mechanics and Foundations (2nd Ed., Muniram

Budhu)
Solution manual Soils and Foundations - SI Units (6th Ed., Liu & Evett)
Solution manual Soils and Foundations (7th Ed., Liu & Evett)
Solution manual Fundamentals of Soil Mechanics for Sedimentary and Residual Soils (Laurence Wesley)
Solution manual Essentials of Soil Mechanics and Foundations : Basic Geotechnics (7th Ed., David McCarthy)
Solution manual Foundations and Earth Retaining Structures (Muniram Budhu)
Solution manual Design Analysis in Rock Mechanics (William G. Pariseau)
Solution manual Probability Concepts in Engineering : Emphasis on Applications to Civil and Environmental Engineering (2nd Ed., Ang & Tang)
Solution manual Hydraulic Control Systems (Noah Manring)
Solution manual Open Channel Hydraulics (A. Osman Akan)
Solution manual Open Channel Hydraulics (Terry Sturm)
Solution manual Open Channel Hydraulics (2nd Ed., Terry Sturm)
Solution manual Open-Channel Flow (2nd Ed., M. Hanif Chaudhry)
Solution manual Frozen Ground Engineering (2nd Ed., Orlando Andersland & Branko Ladanyi)
Solution manual Hydraulics in Civil and Environmental Engineering (4th Ed. Andrew Chadwick)
Solution manual Fundamentals of Hydraulic Engineering Systems (4th Ed., Robert Houghtalen, A. Osman Akan, Ned H. C. Hwang)
Solution manual Transportation Engineering : An Introduction (3rd Ed., C. Jotin Khisty, B. Kent Lall)
Solution manual Introduction to Transportation Engineering (2nd Ed., Banks)
Solution manual Urban Transportation Planning (2nd Ed., Meyer & Miller)
Solution manual Transportation Engineering and Planning (3rd Ed., Papacostas & Prevedouros)
Solution manual Structural Wood Design : A Practice-Oriented Approach (Abi Aghayere & Jason Vigil)
Solution manual Simplified Design of Wood Structures (6th Ed., James Ambrose & Patrick Tripeny)
Solution manual Simplified Design of Steel Structures (8th Ed., James Ambrose & Patrick Tripeny)
Solution manual Materials and Components of Interior Architecture (7th Ed., J. Rosemary Riggs)
Solution manual Olin's Construction : Principles, Materials, and Methods (8th Ed., H. Leslie Simmons)
Solution manual Basic Construction Materials (8th Ed., Theodore Marotta, John C. Coffey, Cynthia LaFleur-Brown & Christine LaPlante)
Solution manual Fundamentals of Residential Construction (2nd Ed., Edward Allen & Rob Thallon)
Solution manual Fundamentals of Building Construction : Materials and Methods (4th Ed., Edward Allen & Joseph Iano)

Solution manual Fundamentals of Building Construction : Materials and Methods (5th Ed., Edward Allen & Joseph Iano)
Solution manual Composites for Construction : Structural Design with FRP Materials (Lawrence Bank)
Solution manual Building Construction : Principles, Materials, and Systems (Madan Mehta, Diane Armpriest & Walter Scarborough)
Solution manual Construction Contracts (2nd Ed., Jimmie Hinze)
Solution manual Sustainable Construction and Design (Regina Leffers)
Solution manual Global Engineering and Construction (J. K. Yates)
Solution manual Construction Mathematics (Virdi & Baker)
Solution manual Materials for Civil and Construction Engineers (3rd Ed., Michael S. Mamlouk & John P. Zaniewski)
Solution manual Construction Management (3rd Ed., Daniel Halpin)
Solution manual Construction Management Fundamentals (1st Ed., Schexnayder & Mayo)
Solution manual Construction Management Fundamentals (2nd Ed., Knutson, Schexnayder, Fiori & Mayo)
Solution manual Construction Planning, Equipment, and Methods (6th Ed., Peurifoy & Schexnayder)
Solution manual Construction Planning, Equipment, and Methods (7th Ed., Peurifoy, Schexnayder & Shapira)
Solution manual Construction Planning, Equipment, and Methods (8th Ed., Peurifoy, Schexnayder, Shapira & Schmitt)
Solution manual Construction Methods and Management (7th Ed., Stephens Nunnally)
Solution manual Construction Methods and Management (8th Ed., Stephens Nunnally)
Solution manual Construction Project Administration (8th Ed., Edward Fisk, Wayne Reynolds)
Solution manual Construction Project Administration (9th Ed., Edward Fisk, Wayne Reynolds)
Solution manual Construction Project Management (3rd Ed., Gould & Joyce)
Solution manual The Management of Construction : A Project Lifecycle Approach (F. Lawrence Bennett)
Solution manual Construction Accounting and Financial Management (1st Ed., Steven Peterson)
Solution manual Construction Accounting and Financial Management (2nd Ed., Steven Peterson)
Solution manual Principles and Practices of Commercial Construction (8th Ed., Cameron K. Andres & R.C. Smith)
Solution manual Cost Analysis and Estimating for Engineering and Management (Phillip Ostwald & Timothy McLaren)
Solution manual Construction Estimating Using Excel (Stephen J. Peterson)
Solution manual Heating and Cooling of Buildings : Design for Efficiency (2nd Ed., Jan Kreider, Peter Curtiss & Ari Rabl)
Solution manual Heating, Cooling, Lighting : Sustainable Design Methods for Architects (3rd Ed., Norbert Lechner)
Solution manual Mechanical and Electrical Systems in Architecture,

Engineering and Construction (5th Ed., Frank R. Dagostino & Joseph B. Wujek)
Solution manual Mechanical and Electrical Equipment for Buildings (10th Ed., Stein, Reynolds, Grondzik, Kwok)
Solution manual Mechanical and Electrical Equipment for Buildings (11th Ed., Grondzik, Kwok, Stein & Reynolds)
Solution manual Mechanical & Electrical Systems in Buildings (4th Ed., Richard Janis & William Tao)
Solution manual Introduction to Naval Architecture : Formerly Muckle's Naval Architecture for Marine Engineers (4th Ed., E.C. Tupper)
Solution manual Architectural Drawing and Light Construction (8th Ed., Philip A. Grau, III & Edward J. Muller)
Solution manual NEW Autodesk Civil 3D : Procedures & Applications (Harry O. Ward)
Solution manual Structural Health Monitoring with Piezoelectric Wafer Active Sensors (Victor Giurgiutiu)
Solution manual Architecture Design Notebook (2nd Ed., Peter Fawcett)
Solution manual Civil Drafting Technology (7th Ed., David A. Madsen, Terence M. Shumaker & David P. Madsen)
Solution manual Introduction to Homeland Security (2nd Ed., Bullock & George Haddow)

- Environmental Engineering, Earth and Environmental Sciences :

Solution manual Principles of Environmental Engineering and Science (1st Ed., Mackenzie Davis & Susan Masten)
Solution manual Principles of Environmental Engineering and Science (2nd Ed., Mackenzie Davis & Susan Masten)
Solution manual Introduction to Environmental Engineering (Richard Mines & Laura Lackey)
Solution manual Introduction to Environmental Engineering (4th Ed., MacKenzie Davis & David Cornwell)
Solution manual Introduction to Environmental Engineering and Science (2nd Ed., Gilbert Masters)
Solution manual Introduction to Environmental Engineering and Science (3rd Ed., Gilbert Masters & Wendell Ela)
Solution manual Solar Energy Engineering (Soteris Kalogirou)
Solution manual Solar Engineering of Thermal Processes (2nd Ed., John Duffie & William Beckman)
Solution manual Solar Engineering of Thermal Processes (3rd Ed., John Duffie & William Beckman)
Solution manual Energy Technology and Directions for the Future (Fanchi)
Solution manual Environmental Engineering : Fundamentals, Sustainability, Design (James Mihelcic, Julie Zimmerman)
Solution manual Environmental Engineering Science (Nazaroff & Alvarez - Cohen)
Solution manual Environmental Engineering (4th Ed., Ruth Weiner & Robin Matthews)
Solution manual Environmental Pollution and Control (4th Ed., Peirce,

Vesilind & Weiner)
Solution manual Introduction to Engineering and the Environment (1st Ed., Edward Rubin)
Solution manual Basic Environmental Technology : Water Supply, Waste Management & Pollution Control (5th Ed., Jerry Nathanson)
Solution manual Water and Wastewater Technology - SI Units (5th Ed., Mark J. Hammer, Sr. & Mark Hammer, Jr.)
Solution manual Water and Wastewater Technology (6th Ed., Mark J. Hammer, Sr. & Mark Hammer, Jr.)
Solution manual Water and Wastewater Engineering (Mackenzie L. Davis)
Solution manual Water Supply and Pollution Control (8th Ed., Viessman Jr., Hammer, Perez & Chadik)
Solution manual Water Supply and Pollution Control - International Version (8th Ed., Viessman Jr., Hammer, Perez & Chadik)
Solution manual Water Treatment : Principles and Design (2nd Ed., by MWH)
Solution manual Water Resources Engineering (Ralph A. Wurbs & Wesley P. James)
Solution manual Water Resources Engineering 2005 Edition (Larry W. Mays)
Solution manual Water Resources Engineering (2nd Ed., Larry W. Mays)
Solution manual Water Resources Engineering (2nd Ed., Chin)
Solution manual Water Chemistry (Benjamin)
Solution manual Plant Pathology (5th Ed., George Agrios)
Solution manual Radiation Detection and Measurement (3rd Ed., Glenn Knoll)
Solution manual Principles of Sequence Stratigraphy (Octavian Catuneanu)
Solution manual The Earth's Ionosphere : Plasma Physics & Electrodynamics (2nd Ed., Michael Kelley)
Solution manual Atmosphere, Ocean and Climate Dynamics : An Introductory Text (Marshall & Plumb)
Solution manual Atmospheric Science : An Introductory Survey (2nd Ed., John Wallace, Peter Hobbs)
Solution manual Environmental Issues : An Introduction to Sustainability (3rd Ed., McConnell & Abel)
Solution manual Environmental Science : Toward A Sustainable Future (10th Ed., Wright & Nebel)
Solution manual Hazard City : Assignments in Applied Geology (3rd Ed., King, Carpenter & Wilson)
Solution manual Introduction to Environmental Geology (4th ERd., Edward Keller)
Solution manual The Science of Grapevines : Anatomy and Physiology (Markus Keller)
Solution manual Geoenvironmental Engineering : Site Remediation, Waste Containment, and Emerging Waste Management Technologies (Hari Sharma & Krishna Reddy)
Solution manual Natural Hazards : Earth's Processes as Hazards, Disasters and Catastrophes (2nd Ed., Keller & Blodgett)
Solution manual Essentials of Oceanography (9th Ed., Trujillo &

Thurman)
Solution manual Exercises for Weather and Climate (6th Ed., Greg Carbone)
Solution manual Fundamentals of Ground Water (Franklin Schwartz & Hubao Zhang)
Solution manual Practical Problems in Groundwater Hydrology (Scott Bair & Terry Lahm)
Solution manual Groundwater Hydrology (3rd Ed., David Keith Todd & Larry Mays)
Solution manual Groundwater Science (Charles Fitts)
Solution manual Frozen Ground Engineering (2nd Ed., Orlando Andersland & Branko Ladanyi)
Solution manual Stormwater Management for Land Development : Methods and Calculations for Quantity Control (Thomas A. Seybert)
Solution manual Urban Hydrology, Hydraulics, and Stormwater Quality : Engineering Applications and Computer Modeling (A. Osman Akan & Houghtalen)
Solution manual Hydraulics in Civil and Environmental Engineering (4th Ed. Andrew Chadwick)
Solution manual Fundamentals of Hydraulic Engineering Systems (4th Ed., Robert Houghtalen, A. Osman Akan, Ned H. C. Hwang)
Solution manual Agriculture's Ethical Horizon (Robert Zimdahl)
Solution manual Environmental Contaminants : Assessment and Control (Daniel Vallero)
Solution manual A Problem-Solving Approach to Aquatic Chemistry (James Jensen)
Solution manual Hazardous Waste Management (2nd Ed., Michael LaGrega, Phillip Buckingham & Jeffrey Evans)
Solution manual Environmental Biotechnology : Principles and Applications (1st Ed., Bruce Rittmann & Perry McCarty)
Solution manual Chemistry for Environmental Engineering and Science (5th Ed., Clair Sawyer, Perry McCarty & Gene Parkin)
Solution manual Geology for Engineers and Environmental Scientists (3rd Ed., Alan Kehew)
Solution manual Ocean Waves and Oscillating Systems (Johannes Falnes)
Solution manual Radiation Detection and Measurement (3rd Ed., Glenn Knoll)
Solution manual Probability Concepts in Engineering : Emphasis on Applications to Civil and Environmental Engineering (2nd Ed., Ang & Tang)
Solution manual Hydrology : Water Quantity and Quality Control (2nd Ed., Wanielista, Kersten & Eaglin)
Solution manual Hydrology and Floodplain Analysis (4th Ed., Philip Bedient, Wayne Huber & Baxter Vieux)
Solution manual Hydrology : An Introduction (Brutsaert)
Solution manual Applied Atmospheric Dynamics (Amanda H. Lynch & John J. Cassano)
Solution manual Mid-Latitude Atmospheric Dynamics : A First Course (Jonathan E. Martin)
Solution manual Adjustment Computations : Spatial Data Analysis (4th

Ed., Charles Ghilani & Paul Wolf)
Solution manual Adjustment Computations : Spatial Data Analysis (5th Ed., Charles Ghilani)
Solution manual Ecology (4th Ed., Manuel C. Molles)
Solution manual Industrial Ecology and Sustainable Engineering (T. E. Graedel & Braden R. Allenby)
Solution manual Principles of Environmental Science : Inquiry and Applications (4th Ed., Cunningham)
Solution manual Principles of Environmental Science : Inquiry and Applications (5th Ed., Cunningham)
Solution manual Environmental Science : A Global Concern (9th Ed., Cunningham)
Solution manual Environmental Science : A Global Concern (10th Ed., Cunningham)
Solution manual Essential Environmental Science (1st Ed., Edward Keller & Daniel Botkin)
Solution manual Environmental Science : Earth as a Living Planet (6th Ed., Daniel Botkin & Edward Keller)
Solution manual Environmental Science : Earth as a Living Planet (7th Ed., Daniel Botkin & Edward Keller)
Solution manual Environmental Science : Earth as a Living Planet, Canadian Edition (Daniel Botkin & Edward Keller & Isobel Heathcote)
Solution manual Introduction to Marine Biogeochemistry (2nd Ed., Susan Libes)
Solution manual Farm Management (5th Ed., Ronald Kay, William Edwards & Patricia Duffy)
Solution manual Farm Management (6th Ed., Ronald Kay, William Edwards & Patricia Duffy)
Solution manual Environmental Geology (6th Ed., Carla Montgomery)
Solution manual Environmental Geology (7th Ed., Carla Montgomery)
Solution manual Environmental Geology (8th Ed., Carla Montgomery)
Solution manual Natural Disasters (4th Ed., Patrick Abbott)
Solution manual Natural Disasters (5th Ed., Patrick Abbott)
Solution manual Natural Disasters (6th Ed., Patrick Abbott)
Solution manual Geography Information Systems (2nd Ed., Kang-tsung Chang)
Solution manual Meteorology (2nd Ed., Danielson et al.)
Solution manual Fundamentals of Oceanography (4th Ed., Duxbury, Sverdrup)
Solution manual Fundamentals of Oceanography (5th Ed., Duxbury, Sverdrup)
Solution manual Introduction to Geography (8th Ed., Getis et al.)
Solution manual Introduction to Geography (9th Ed., Getis et al.)
Solution manual Introduction to Geography (10th Ed., Getis et al.)
Solution manual Introduction to Geography (11th Ed., Getis et al.)
Solution manual Physical Geology : The Earth Revealed (4th Ed., Plummer, McGeary & Carlson)
Solution manual Physical Geology : The Earth Revealed (6th Ed., Plummer, McGeary & Carlson)
Solution manual Physical Geology : Earth Revealed (7th Ed., Plummer,

McGeary & Carlson)
Solution manual Physical Geology (9th Ed., Plummer, McGeary & Carlson)
Solution manual Physical Geology (10th Ed., Plummer, McGeary & Carlson)
Solution manual Physical Geology (11th Ed., Plummer, McGeary & Carlson)
Solution manual Physical Geology (12th Ed., Plummer, McGeary & Carlson)
Solution manual Exploring the World Ocean (W. Sean Chamberlin & Tommy Dickey)
Solution manual Mastering ArcGIS (3rd Ed., Maribeth Price)
Solution manual Mastering ArcGIS (4th Ed., Maribeth Price)
Solution manual An Introduction to the World's Oceans (7th Ed., Sverdrup et al.)
Solution manual An Introduction to the Worlds Oceans (8th Ed., Sverdrup et al.)
Solution manual An Introduction to the Worlds Oceans (9th Ed., Sverdrup & Armbrust)
Solution manual An Introduction to the Worlds Oceans (10th Ed., Sverdrup & Armbrust)
Solution manual Laboratory Studies in Earth History (8th Ed., Brice et al.)
Solution manual Laboratory Studies in Earth History (9th Ed., Brice et al.)
Solution manual Exploring Geology (1st Ed., Reynolds et al.)
Solution manual Manual of Mineral Science (23rd Ed., Cornelis Klein & Barbara Dutrow)
Solution manual Isotopes : Principles and Applications (3rd Ed., Gunter Faure & Teresa Mensing)
Solution manual Earth Science : Understanding Environmental Systems (Edgar Spencer)
Solution manual Fundamentals of Weed Science (3rd Ed., Robert Zimdahl)
Solution manual Field and Laboratory Exercises in Animal Behavior (Tillberg, Breed & Hinners)
Solution manual Soils : An Introduction (6th Ed., Michael Singer & Donald Munns)
Solution manual Soils, Land, and Life (Stan Buol)
Solution manual Soils in Our Environment (10th Ed., Raymond Miller & Duane Gardiner)
Solution manual Soils in Our Environment (11th Ed., Raymond Miller & Duane Gardiner)
Solution manual Soil Microbiology, Ecology and Biochemistry (3rd Ed., Eldor Paul)
Solution manual Soil in the Environment : Crucible of Terrestrial Life (Daniel Hillel)
Solution manual Design Analysis in Rock Mechanics (William G. Pariseau)
Solution manual Forest Management and Planning (Bettinger, Boston, Siry & Grebner)
Solution manual Agricultural Systems : Agroecology and Rural

Innovation for Development (Sieglinde Snapp & Barry Pound)
Solution manual Plant Systematics (Michael Simpson)
Solution manual The Nature and Properties of Soils (14th Ed., Nyle Brady & Raymond Weil)
Solution manual Elements of the Nature and Properties of Soils (2nd Ed., Nyle Brady & Ray Weil)
Solution manual Materials and the Environment : Eco-informed Material Choice (Michael Ashby)

- Chemistry and Chemical Engineering :

Solution manual An Introduction to Mass and Heat Transfer : Principles of Analysis and Design (Stanley Middleman)
Solution manual Principles and Modern Applications of Mass Transfer Operations (Jaime Benitez)
Solution manual Diffusion : Mass Transfer in Fluid Systems (2nd Ed., Cussler)
Solution manual Separation Process Principles (1st Ed, Seader & Henley)
Solution manual Separation Process Principles (2nd Ed, Seader & Henley)
Solution manual Analysis, Synthesis and Design of Chemical Processes (3rd Ed., Turton, Bailie, Whiting & Shaeiwitz)
Solution manual Principles of Chemical Separations with Environmental Applications (Richard D. Noble)
Solution manual Product and Process Design Principles : Synthesis, Analysis, and Evaluation (2nd Ed., Seider, Seader & Lewin)
Solution manual Product and Process Design Principles : Synthesis, Analysis, and Design (3rd Ed., Seider, Seader, Lewin & Widagdo)
Solution manual Principles and Practices of Automatic Process Control (3rd Ed., Smith & Corripio)
Solution manual Process Systems Analysis and Control (3rd Ed. Donald Coughanowr, Steven LeBlanc)
Solution manual Process Dynamics and Control (2nd Ed., Seborg, Edgard & Mellichamp)
Solution manual Process Dynamics and Control (3rd Ed., Seborg, Edgard, Mellichamp & Doyle)
Solution manual Process Control : A First Course with MATLAB (P.C. Chau)
Solution manual Plant Design and Economics for Chemical Engineers (5th Ed., Peters & Timmerhaus)
Solution manual Basic Principles and Calculations in Chemical Engineering (7th Ed., Himmelblau)
Solution manual Unit Operations of Chemical Engineering (6th Ed., McCabe & Smith)
Solution manual Unit Operations of Chemical Engineering (7th Ed., McCabe & Smith)
Solution manual Transport Phenomena in Biological Systems (1st Ed., George Truskey, Fan Yuan & David Katz)
Solution manual Transport Phenomena in Biological Systems (2nd Ed.,

George Truskey, Fan Yuan & David Katz)
Solution manual Transport Phenomena : A Unified Aprroach (Robert S. Brodkey & Harry C. Hershey)
Solution manual Modeling in Transport Phenomena : A Conceptual Approach (2nd Ed., Ismail Tosun)
Solution manual Transport Phenomena (2nd Ed., Bird & Stewart)
Solution manual Solutions to Class 1&2 - Transport Phenomena (Bird)
Solution manual Chemical Engineering Design (Gavin Towler)
Solution manual Chemical Engineering Design (Coulson & Richardson's Chemical Engineering - Volume 6) - (4th Ed., Sinnott)
Solution manual Chemical Engineering Design - SI Edition (5th Ed., Sinnott & Towler)
Solution manual Fundamentals of Nuclear Reactor Physics (Elmer Lewis)
Solution manual Nuclear Energy : An Introduction to the Concepts, Systems, and Applications of Nuclear Processes (6th Ed., Raymond L. Murray)
Solution manual Chemical Engineering Design and Analysis : An Introduction (Duncan & Reimer)
Solution manual Introduction to Chemical Reactor Analysis (R.E. Hayes)
Solution manual Kinetics of Catalytic Reactions (Albert Vannice)
Solution manual An Introduction to Chemical Engineering Kinetics and Reactor Design (Charles G. Hill)
Solution manual Chemical Reactions and Chemical Reactors (George W. Roberts)
Solution manual Chemical Reaction Engineering (3rd Ed., Levenspiel)
Solution manual Fundamentals of Chemical Reaction Engineering (1st Ed., Davis)
Solution manual Conceptual Design of Distillation Systems (1st Ed., Doherty & Malone)
Solution manual Fluid Mechanics for Chemical Engineers (3rd Ed., Noel de Nevers)
Solution manual Introduction to Chemical Processes : Principles, Analysis, Synthesis (1st Ed., Regina M. Murphy)
Solution manual Optimization of Chemical Processes (2nd Ed., Edgar & Himmelblau)
Solution manual Two-Phase Flow : Theory and Applications (Clement Kleinstreuer)
Solution manual Chemical and Engineering Thermodynamics (3rd Ed., Stanley I. Sandler)
Solution manual Chemical, Biochemical, and Engineering Thermodynamics (4th Ed., Stanley I. Sandler)
Solution manual Introduction to Chemical Engineering Thermodynamics (6th Ed., Smith & Van Ness)
Solution manual Introduction to Chemical Engineering Thermodynamics (7th Ed., Smith & Van Ness)
Solution manual Engineering and Chemical Thermodynamics (Koretsky)
Solution manual Introduction to Chemical Principles (9th Ed., Stephen Stoker)
Solution manual Basic Chemistry (2nd Ed., K. Timberlake & W. Timberlake)

Solution manual Phase Equilibria, Phase Diagrams and Phase Transformations : Their Thermodynamic Basis (2nd Ed., Mats Hillert)
Solution manual Principles of Chemical Kinetics (2nd Ed., James House)
Solution manual Elementary Principles of Chemical Processes (3rd Ed., Felder & Rousseau)
Solution manual Elements of Chemical Reaction Engineering (3rd Ed., Fogler)
Solution manual Principles Of Polymer Systems (5th Ed., by Ferdinand Rodriguez, Claude Cohen, Christopher Ober, Lynden Archer)
Solution manual Group Theory with Applications in Chemical Physics (Patrick Jacobs)
Solution manual Food Analysis (3rd Ed., Suzanne Nielsen)
Solution manual Introduction to Physical Chemistry (3rd Ed., Ladd)
Solution manual General Chemistry: Principles and Modern Applications (10th Ed., Ralph H. Petrucci, F. Geoffrey Herring, Jeffry D. Madura, Carey Bissonnette)
Solution manual Virtual ChemLab : General Chemistry Student Lab Manual / Workbook, v2.5, 3rd Ed. (Brian Woodfield & Matthew Asplund)
Solution manual Introductory Chemistry (2nd Ed., Nivaldo J. Tro)
Solution manual Introductory Chemistry (3rd Ed., Nivaldo J. Tro)
Solution manual Conceptual Integrated Science (Hewitt, Lyons, Suchocki & Yeh)
Solution manual Introductory Chemistry: Concepts and Connections (4th Ed., Charles Corwin)
Solution manual Prentice Hall Lab Manual Introductory Chemistry (4th Ed., Charles Corwin)
Solution manual Modern Organic Synthesis : An Introduction (George S. Zweifel, Michael H. Nantz)
Solution manual General, Organic and Biological Chemistry : Structures of Life (2nd Ed., Karen Timberlake)
Solution manual Chemistry : An Introduction to General, Organic, and Biological Chemistry (9th Ed., Karen Timberlake)
Solution manual Chemistry : An Introduction to General, Organic, and Biological Chemistry (10th Ed., Karen Timberlake)
Solution manual Conceptual Chemistry (3rd Ed., John A. Suchocki)
Solution manual Explorations in Conceptual Chemistry : A Student Activity Manual (Jeffrey Paradis)
Solution manual Criminalistics : An Introduction to Forensic Science (9th Ed., Richard Saferstein)
Solution manual Physical Chemistry (Thomas Engel & Philip Reid)
Solution manual Physical Chemistry for the Life Sciences (Engel, Drobny & Reid)
Solution manual Quantum Chemistry and Spectroscopy with Spartan Student Physical Chemistry Software (Thomas Engel & Philip Reid)
Solution manual Themodynamics, Statistical Thermodynamics, and Kinetics (Thomas Engel & Philip Reid)
Solution manual Physical Chemistry (7th. Ed., Peter Atkins & Julio de Paula)
Solution manual Physical Chemistry (2nd Ed., Robert Mortimer)
Solution manual Physical Chemistry (3rd Ed., Robert Mortimer)

Solution manual Chemistry (4th Ed., Olmsted & Williams)
Solution manual Chemistry : Structure and Dynamics (3rd Ed., Spencer, Bodner & Rickard)
Solution manual Chemistry : Structure and Dynamics (4th Ed., Spencer, Bodner & Rickard)
Solution manual Chemistry (3rd Ed., Catherine E. Housecroft & Edwin Constable)
Solution manual Chemistry (4th Ed., Catherine E. Housecroft & Edwin Constable)
Solution manual General Chemistry : The Essential Concepts (4th Ed., Raymond Chang)
Solution manual Principles of General Chemistry (2nd Ed., Martin Silberberg)
Solution manual Chemistry : The Molecular Nature of Matter and Change (3rd Ed., Martin Silberberg)
Solution manual Chemistry : The Molecular Nature of Matter and Change (4th Ed., Martin Silberberg)
Solution manual Chemistry : The Molecular Nature of Matter and Change (5th Ed., Martin Silberberg)
Solution manual General, Organic and Biochemistry (3rd ed., Katherine Denniston, Joseph Topping & Robert Caret)
Solution manual General, Organic and Biochemistry (4th ed., Katherine Denniston, Joseph Topping & Robert Caret)
Solution manual General, Organic and Biochemistry (5th ed., Katherine Denniston, Joseph Topping & Robert Caret)
Solution manual General, Organic and Biochemistry (6th ed., Katherine Denniston, Joseph Topping & Robert Caret)
Solution manual Introduction to General, Organic and Biochemistry in the Laboratory: Laboratory Manual (8th Ed., Hein, Peisen, Ritchey, Pattison & Arena)
Solution manual Introduction to General, Organic and Biochemistry in the Laboratory: Laboratory Manual (9th Ed., Hein, Pattison, Arena & Best)
Solution manual Introduction to General, Organic and Biochemistry (8th Ed., Hein, Best, Pattison & Arena)
Solution manual Introduction to General, Organic and Biochemistry (9th Ed., Hein, Pattison, Arena & Best)
Solution manual General, Organic and Biological Chemistry : An Integrated Approach, Laboratory Experiments (Macaulay, Bauer & Bloomfield)
Solution manual General, Organic, and Biological Chemistry : An Integrated Approach (1st Ed., Kenneth W. Raymond)
Solution manual General, Organic, and Biological Chemistry : An Integrated Approach (2nd Ed., Kenneth W. Raymond)
Solution manual General, Organic, and Biological Chemistry : An Integrated Approach (3rd Ed., Kenneth W. Raymond)
Solution manual General, Organic, and Biological Chemistry : A Guided Inquiry (Michael Garoutte)
Solution manual Biophysical Chemistry (James P. Allen)
Solution manual Fundamentals of Chemistry (3rd Ed., David Goldberg)

Solution manual Fundamentals of Chemistry (4th Ed., David Goldberg)
Solution manual Fundamentals of Chemistry (5th Ed., David Goldberg)
Solution manual Chemistry : A Guided Inquiry (4th Ed., Richard Moog & John Farrell)
Solution manual Chemistry : Matter and Its Changes (4th Ed., Brady & Senese)
Solution manual Chemistry : The Study of Matter and Its Changes (5th Ed., Brady & Senese)
Solution manual Chemistry : An Everyday Approach to Chemical Investigation (Sally Solomon, Susan Rutkowsky & Charles Boritz)
Solution manual Organic Chemistry (8th Ed., T. W. Graham Solomons & Craig B. Fryhle)
Solution manual Organic Chemistry (9th Ed., T. W. Graham Solomons & Craig B. Fryhle)
Solution manual Organic Chemistry (10th Ed., T. W. Graham Solomons & Craig B. Fryhle)
Solution manual Advanced Organic Chemistry Part A : Structure and Mechanisms (5th Ed., Francis Carey & Richard Sundberg)
Solution manual Advanced Organic Chemistry Part B : Reaction and Synthesis (5th Ed., Francis Carey & Richard Sundberg)
Solution manual Modern Analytical Chemistry (Harvey)
Solution manual General Chemistry Lab Manual (Petra A. M. van Koppen)
Solution manual Organic Structure Determination Using 2-D NMR Spectroscopy : A Problem-Based Approach (Jeffrey Simpson)
Solution manual Practical Interfacing in the Laboratory : Using a PC for Instrumentation, Data Analysis and Control (Stephen E. Derenzo)
Solution manual Bioprocess Engineering Principles (Pauline M. Doran)
Solution manual Isotopes : Principles and Applications (3rd Ed., Gunter Faure & Teresa Mensing)
Solution manual Fundamentals of Forensic Science (Max Houck & Jay Siegel)
Solution manual Chemistry Case Studies for Allied Health (Colleen Kelley & Wendy Weeks)
Solution manual The Extraordinary Chemistry of Ordinary Things (4th Ed., Carl Snyder)
Solution manual The Art and Science of Chemical Analysis (Christie Enke)
Solution manual Spectrometric Identification of Organic Compounds (7th Ed., Robert Silverstein, Francis Webster, David Kiemle)
Solution manual Bioinstrumentation (John G. Webster)
Solution manual Medical Instrumentation Application and Design (4th Ed., John G. Webster)
Solution manual Microscale General Chemistry Laboratory : with Selected Macroscale Experiments (2nd Ed., Zvi Szafran, Ronald Pike, Judith Foster)
Solution manual Microscale Organic Laboratory : with Multistep and Multiscale Syntheses (4th Ed., Dana Mayo, Ronald Pike, Peter Trumper)
Solution manual Laboratory Manual for Principles of General Chemistry (8th Ed., Jo Allan Beran)

- Industrial Engineering, Business, Economics and Finance :

Solution manual Basics of Engineering Economy (1st Ed., Leland T Blank & Anthony Tarquin)
Solution manual Engineering Economy (5th Ed., Leland T Blank & Anthony Tarquin)
Solution manual Engineering Economy (6th Ed., Leland T Blank & Anthony Tarquin)
Solution manual Contemporary Engineering Economics (4th Ed., Chan Park)
Solution manual Contemporary Engineering Economics (5th Ed., Chan Park)
Solution manual Fundamentals of Engineering Economics (2nd Ed., Chan Park)
Solution manual Fundamentals of Engineering Economics : International Version (2nd Ed., Chan Park)
Solution manual Engineering Economy (13th Ed, Sullivan, Wicks & Luxhoj)
Solution manual Engineering Economy (14th Ed, Sullivan, Wicks & Koelling)
Solution manual Engineering Economics : International Version (14th Ed., Sullivan, Wicks & Koelling)
Solution manual Recursive Methods in Economic Dynamics (C. Irigoyen)
Solution manual Engineering Design (Rudolph J. Eggert)
Solution manual Engineering Design : A Project-Based Introduction (2nd Ed., Clive L. Dym & Patrick Little)
Solution manual Engineering Design : A Project-Based Introduction (3rd Ed., Clive L. Dym & Patrick Little)
Solution manual Tools and Tactics of Design (Dominick, Demel, Lawbaugh, Freuler, Kinzel & Fromm)
Solution manual Introduction to Statistical Quality Control (5th Ed., Douglas C. Montgomery)
Solution manual Introduction to Statistical Quality Control (6th Ed., Douglas C. Montgomery)
Solution manual An Introduction to Investment Banks, Hedge Funds, and Private Equity : The New Paradigm (David Stowell)
Solution manual Financial and Economic Analysis for Engineering and Technology Management (2nd Ed., Henry E. Riggs)
Solution manual Introduction to Operations Research (7th Ed., Hillier and Lieberman)
Solution manual Introduction to Operations Research (8th Ed., Hillier and Lieberman)
Solution manual Introduction to Operations Research (9th Ed., Hillier and Lieberman)
Solution manual Methods, Standards, and Work Design (11th Ed., Niebel & Freivalds)
Solution manual Niebel's Methods, Standards and Work Design (12th Ed., Freivalds & Niebel)
Solution manual Simulation Modeling and Analysis (3rd Ed., Averill Law & David Kealton)

Solution manual Simulation Modeling and Analysis with Expertfit Software (4th Ed., Averill Law)
Solution manual Quality Control (8th Ed., Dale Besterfield)
Solution manual Introduction to Optimum Design (2nd Ed., Jasbir Arora)
Solution manual Numerical Optimization (2nd Ed., Jorge Nocedal & Stephen Wright)
Solution manual Optimization : Foundations and Applications (Ronald E. Miller)
Solution manual Applied Optimization with MATLAB Programming (1st Ed., P. Venkataraman)
Solution manual Applied Optimization with MATLAB Programming (2nd Ed., P. Venkataraman)
Solution manual Introduction to Applied Optimization (2nd Ed., Urmila Diwekar)
Solution manual Exploring Engineering : An Introduction to Engineering and Design (1st Ed., Philip Kosky, George Wise, Robert Balmer & William Keat)
Solution manual Exploring Engineering : An Introduction to Engineering and Design (2nd Ed., Philip Kosky, Robert Balmer, William Keat & George Wise)
Solution manual Quantitative Methods For Management (William E. Pinney, Donald B. McWilliams, Joe Ormsby, Mark Atchison)
Solution manual Modern Methods For Quality Control and Improvement (2nd Ed., Wadsworth, Stephens, Godfrey)
Solution manual Managing Engineering and Technology (4th, Morse & Babcock)
Solution manual Managing Engineering and Technology (5th, Morse & Babcock)
Solution manual Quality Planning and Analysis : From Product Development through Use (4th Ed., Gryna)
Solution manual Juran's Quality Planning and Analysis for Enterprise Quality (5th Ed., Gryna, Chua & DeFeo)
Solution manual Quality (4th Ed., Summers)
Solution manual Quality (5th Ed., Summers)
Solution manual Quality Management (2nd Ed., Summers)
Solution manual Quality Management (5th Ed., Goetsch & Davis)
Solution manual Quality Management for Organizational Excellence : Introduction to Total Quality (6th Ed., David Goetsch & Stanley Davis)
Solution manual Applied Econometric Time Series (2nd Ed., Walter Enders)
Solution manual Applied Econometric Time Series (3rd Ed., Walter Enders)
Solution manual Statistics and Econometrics : Methods and Applications (Ashenfelter, Levine & Zimmerman)
Solution manual Econometric Analysis (5th Ed., William H. Greene)
Solution manual Econometric Analysis (6th Ed., William H. Greene)
Solution manual Management : A Practical Introduction (4th Ed., Angelo Kinicki & Brian Williams)
Solution manual Forest Management and Planning (Pete Bettinger, Kevin Boston, Jacek Siry & Donald Grebner)

Solution manual Foundations of Multinational Financial Management (5th Ed., Shapiro)
Solution manual Foundations of Multinational Financial Management (6th Ed., Shapiro & Sarin)
Solution manual Multinational Financial Management (8th Ed., Shapiro)
Solution manual Multinational Financial Management (9th Ed., Shapiro)
Solution manual Doing Statistics for Business with Excel : Data, Inference, and Decision Making (2nd Ed. Pelosi & Sandifer)
Solution manual Data, Statistics, and Decision Models with Excel (Harnett & Horrell)
Solution manual Modern Portfolio Theory and Investment Analysis (7th Ed., Elton, Gruber, Brown & Goetzmann)
Solution manual Modern Portfolio Theory and Investment Analysis (8th Ed., Elton, Gruber, Brown & Goetzmann)
Solution manual Accounting : What the Numbers Mean (6th Ed., David Marshall, Wayne McManus, Dan Viele)
Solution manual Accounting : What the Numbers Mean (7th Ed., David Marshall, Wayne McManus, Dan Viele)
Solution manual Accounting : What the Numbers Mean (8th Ed., David Marshall, Wayne McManus, Dan Viele)
Solution manual Accounting : What the Numbers Mean (9th Ed., David Marshall, Wayne McManus, Dan Viele)
Solution manual Global Accounting and Control : A Managerial Emphasis (Gray, Salter, Radebaugh)
Solution manual International Accounting and Multinational Enterprises (6th Ed., Radebaugh, Gray, Black)
Solution manual Quality : A Corporate Force, Managing for Excellence (C. Harold Aikens)
Solution manual Quality Inspired Management : The Key to Sustainability (C. Harold Aikens)
Solution manual Value Driven Product Planning and Systems Engineering (H. E. Cook & L. A. Wissmann)
Solution manual Work Systems : The Methods, Measurement & Management of Work (Mikell Groover)
Solution manual Design and Analysis of Lean Production Systems (Askin & Goldberg)
Solution manual Occupational Safety and Health for Technologists, Engineers, and Managers (5th Ed., Goetsch)
Solution manual Occupational Safety and Health for Technologists, Engineers, and Managers (6th Ed., Goetsch)
Solution manual Manufacturing Facilities Design and Material Handling (3rd Ed., Meyers & Stephens)
Solution Manual Manufacturing Facilities Design and Material Handling (4th Ed., Stephens & Meyers)
Solution Manual Fundamentals of Forensic Science (Max Houck & Jay Siegel)
Solution Manual Project Management for Business and Engineering : Principles and Practice (2nd Ed., John Nicholas)
Solution Manual Project Management for Business and Engineering : Principles and Practice (3rd Ed., John Nicholas)

Solution Manual CIMA Official Learning System Integrated Management (4th Ed., Ann Norton)
Solution Manual CIMA Official Learning System Enterprise Management (6th Ed., Ann Norton & Jenny Hughes)
Solution Manual CIMA Official Learning System Financial Operations (6th Ed., Jo Watkins)
Solution Manual CIMA Official Learning System Financial Management (6th Ed., Luisa Robertson)
Solution Manual CIMA Official Learning System Enterprise Strategy (6th Ed., Neil Botten)
Solution Manual CIMA Official Learning System Fundamentals of Business Maths (4th Ed., Graham Eaton)
Solution Manual CIMA Official Learning System Financial Analysis (4th Ed., Catherine Gowthorpe)
Solution Manual CIMA Official Learning System Fundamentals of Financial Accounting (2nd Ed., Henry Lunt)
Solution Manual CIMA Official Learning System Fundamentals of Financial Accounting (6th Ed., Henry Lunt)
Solution Manual CIMA Official Learning System Performance Management (6th Ed., Jo Avis)
Solution Manual CIMA Official Learning System Fundamentals of Management Accounting (2nd Ed., Janet Walker)
Solution Manual CIMA Official Learning System Management Accounting Financial Strategy (4th Ed., John Ogilvie)
Solution Manual CIMA Official Learning System Financial Strategy (6th Ed., John Ogilvie)
Solution Manual CIMA Official Learning System Organisational Management and Information Systems (4th Ed., Bob Perry)
Solution Manual CIMA Learning System Enterprise Operations (Bob Perry)
Solution Manual CIMA Learning System Management Accounting - Performance Evaluation (4th Ed., Robert Scarlett)
Solution Manual CIMA Official Learning System - Performance Operations (6th Ed., Robert Scarlett)
Solution Manual CIMA Official Learning System Fundamentals of Business Economics (2nd Ed., Steve Adams & Paul Periton)
Solution Manual Operations Management in Context (2nd Ed., Rowbotham, Azhashemi & Galloway)
Solution Manual Accounting for Business Studies (Aneirin Sion Owen)
Solution Manual ISO 9001 : 2000 Quality Registration Step-by-Step (3rd Ed., Fred Dobb)
Solution Manual Systems for Planning and Control in Manufacturing (D. K. Harrison & D. J. Petty)
Solution Manual Facilities Planning (3rd Ed., Tompkins, White, Bozer & Tanchoco)
Solution Manual Facilities Planning (4th Ed., Tompkins)
Solution Manual Facilities Planning and Design (Alberto Garcia-Diaz & J. MacGregor Smith)
Solution Manual Planning and Control of Manufacturing Operations (John Kenworthy)
Solution Manual Professionalism: Real Skills for Workplace Success

(Anderson & Bolt)
Solution Manual Customer Service : Career Success Through Customer Loyalty (4th Ed., Timm)
Solution Manual Customer Service : A Practical Approach (3rd Ed., Harris)
Solution Manual Customer Service : A Practical Approach (4th Ed., Harris)
Solution Manual Serving Internal and External Customers (Anne Swartzlander)
Solution Manual The Theory of Interest (3rd Ed., Stephen G. Kellison)
Solution Manual Customer Relationship Management : The Bottom Line to Optimizing Your ROI (Anton & Petouhoff)
Solution Manual Engineering Economy and the Decision-Making Process (Joseph C. Hartman)
Solution Manual Engineering Management : Challenges in the New Millennium (C. M. Chang)
Solution Manual Cost Analysis and Estimating for Engineering and Management (Phillip F. Ostwald & Timothy S. McLaren)
Solution Manual Supply Chain Management (3rd Ed., Sunil Chopra & Peter Meindl)
Solution Manual Supply Chain Management (4th Ed., Sunil Chopra & Peter Meindl)
Solution Manual Supply Chain Management : From Vision to Implementation (Stanley E. Fawcett, Lisa M. Ellram, Jeffrey A. Ogden)
Solution Manual Industrial Safety and Health Management (5th Ed., C. Ray Asfahl)
Solution Manual Computer Numerical Control : Operation and Programming (3rd Ed., Jon S. Stenerson & Kelly Curran)
Solution Manual Introduction to Management Science (8th Ed., Bernard W. Taylor)
Solution Manual Introduction to Management Science (9th Ed., Bernard W. Taylor)
Solution Manual Introduction to Management Science (10th Ed., Bernard W. Taylor)
Solution Manual Operations Research : An Introduction (8th Ed., Taha)
Solution Manual Decision Support Systems and Intelligent Systems (7th Ed., Turban, Aronson, Ting-Peng Liang)
Solution Manual Decision Support and Business Intelligence Systems (8th Ed., Turban, Aronson, Ting-Peng Liang & Sharda)
Solution Manual Introduction to Information Systems : Canadian Edition (Rainer, Turban, Splettstoesser-Hogeterp, Sanchez-Rodriguez)
Solution Manual Introduction to Information Systems : Supporting and Transforming Business (1st Ed., Rainer, Turban, Potter)
Solution Manual Introduction to Information Systems : Supporting and Transforming Business (2nd Ed., Rainer, Turban)
Solution Manual Information Technology for Management : Transforming Organizations in the Digital Economy (5th Ed., Turban, Leidner, McLean, Wetherbe)
Solution Manual Information Technology for Management : Transforming Organizations in the Digital Economy (6th Ed., Turban, Leidner,

McLean, Wetherbe)
Solution Manual Information Technology for Management : Improving Performance in the Digital Economy (7th Ed., Turban & Volonino)
Solution Manual Operations Management (7th Ed., Krajewski, Ritzman)
Solution Manual Operations Management : Process and Value Chains (8th Ed., Krajewski, Ritzman & Malhotra)
Solution Manual Operations Management : Process and Supply Chains (9th Ed., Krajewski, Ritzman & Malhotra)
Solution Manual Operations Management : Process and Supply Chains - Global Edition (9th Ed., Krajewski, Ritzman & Malhotra)
Solution Manual Operations Management (8th Ed., Jay Heizer & Render)
Solution Manual Operations Management (9th Ed., Jay Heizer & Render)
Solution Manual Operations Management (10th Ed., Jay Heizer & Render)
Solution Manual Introduction to Operations and Supply Chain Management with Advanced Decision Support Tools (1st Ed., Cecil Bozarth)
Solution Manual Introduction to Operations and Supply Chain Management (2nd Ed., Cecil Bozarth, Robert B. Handfield)
Solution Manual Managing Business Process Flows : Principles of Operations Management (2nd Ed., Anupind, Chopra, Deshmukh, et al)
Solution Manual Principles Of Operations Management (6th Ed., Heizer & Render)
Solution Manual Principles Of Operations Management (7th Ed., Heizer & Render)
Solution Manual Principles Of Operations Management (8th Ed., Heizer & Render)
Solution Manual Foundations of Operations Management (Ritzman & Krajewski)
Solution Manual Foundations of Operations Management - Canadian Edition (2nd Ed., Ritzman, Krajewski, Malhotra & Klassen)
Solution Manual Basic Marketing : A Marketing Strategy Planning Approach (16th Ed., Perreault, Cannon & McCarthy)
Solution Manual Basic Marketing : A Marketing Strategy Planning Approach (17th Ed., Perreault, Cannon & McCarthy)
Solution Manual Foundations of Financial Management (11th Ed., Block & Hirt)
Solution Manual Foundations of Financial Management (12th Ed., Block & Hirt)
Solution Manual Foundations of Financial Management (13th Ed., Block, Hirt & Danielsen)
Solution Manual Decision Modeling with Microsoft® Excel (6th Ed., Moore & Weatherford)
Solution Manual Managing Quality : Integrating The Supply Chain (3rd Ed., S. Thomas Foster)
Solution Manual Six Sigma : Basic Tools and Techniques (Donna C.S. Summers)
Solution Manual A First Course in Quality Engineering (KS Krishnamoorthi)
Solution Manual Statistical Quality Design and Control (2nd Ed., DeVor, Chang & Sutherland)
Solution Manual Economics : A Tool for Critically Understanding

Society (7th Ed., Riddell, Shackelford, Stamos & Schneider)
Solution Manual Economics : A Tool for Critically Understanding Society (8th Ed., Riddell, Shackelford, Stamos & Schneider)
Solution Manual Introduction to Economic Reasoning (6th Ed., William D. Rohlf, Jr.)
Solution Manual Introduction to Economic Reasoning (7th Ed., William D. Rohlf, Jr.)
Solution Manual Economics (9th Ed., Michael Parkin)
Solution Manual Essential Foundations of Economics (3rd Ed., Robin Bade & Michael Parkin)
Solution Manual Essential Foundations of Economics (4th Ed., Robin Bade & Michael Parkin)
Solution Manual Understanding Modern Economics (Roger LeRoy Miller)
Solution Manual The Economics of Macro Issues (3rd Ed., Roger LeRoy Miller & Daniel K. Benjamin)
Solution Manual Foundations of Economics (3rd Ed., Robin Bade & Michael Parkin)
Solution Manual Foundations of Economics (4th Ed., Robin Bade & Michael Parkin)
Solution Manual International Economics (8th Ed., Dominick Salvatore)
Solution Manual International Economics (9th Ed., Dominick Salvatore)
Solution Manual International Economics (10th Ed., Dominick Salvatore)
Solution Manual Introduction to International Economics (1st Ed., Dominick Salvatore)
Solution Manual Introduction to International Economics (2nd Ed., Dominick Salvatore)
Solution Manual Economics Today (13th Ed., Roger LeRoy Miller)
Solution Manual Economics Today (14th Ed., Roger LeRoy Miller)
Solution Manual Economics Today (15th Ed., Roger LeRoy Miller)
Solution Manual Economics Today : The Macro View - Canadian Edition (4th Ed., Roger LeRoy Miller)
Solution Manual Economics Today : The Macro View (13th Ed., Roger LeRoy Miller)
Solution Manual Economics Today : The Macro View (14th Ed., Roger LeRoy Miller)
Solution Manual Economics Today : The Macro View (15th Ed., Roger LeRoy Miller)
Solution Manual Economics Today : The Micro View - Canadian Edition (4th Ed., Roger LeRoy Miller)
Solution Manual Economics Today : The Micro View (13th Ed., Roger LeRoy Miller)
Solution Manual Economics Today : The Micro View (14th Ed., Roger LeRoy Miller)
Solution Manual Economics Today : The Micro View (15th Ed., Roger LeRoy Miller)
Solution Manual Economics (Michael A. Leeds, Peter von Allmen & Richard C. Schiming)
Solution Manual Economics : Private Markets and Public Choice (7th Ed., Ekelund, Jr., Ressler & Tollison)
Solution Manual Principles of Economics, 7th Ed. (Roy J. Ruffin & Paul

R. Gregory)
Solution Manual The Economics of Public Issues (14th Ed., Miller, Benjamin & North)
Solution Manual The Economics of Public Issues (15th Ed., Miller, Benjamin & North)
Solution Manual Macroeconomics (7th Ed., Michael Parkin)
Solution Manual Macroeconomics (8th Ed., Michael Parkin)
Solution Manual Macroeconomics (9th Ed., Michael Parkin)
Solution Manual Foundations of Microeconomics (3rd Ed., Robin Bade & Michael Parkin)
Solution Manual Foundations of Microeconomics (4th Ed., Robin Bade & Michael Parkin)
Solution Manual Foundations of Macroeconomics (3rd Ed., Robin Bade & Michael Parkin)
Solution Manual Foundations of Macroeconomics (4th Ed., Robin Bade & Michael Parkin)
Solution Manual Microeconomic Theory (Andreu Mas-Colell, Michael D. Whinston, Jerry R. Green)
Solution Manual Microeconomics MyEconLab Homework Edition (Leeds, von Allmen & Schiming)
Solution Manual Macroeconomics MyEconLab Homework Edition (Leeds, von Allmen & Schiming)
Solution Manual Microeconomics (7th Ed., Michael Parkin)
Solution Manual Microeconomics (8th Ed., Michael Parkin)
Solution Manual Microeconomics (9th Ed., Michael Parkin)
Solution Manual Microeconomics (6th Ed., Robert Pindyck & Daniel Rubinfeld)
Solution Manual Microeconomics (7th Ed., Robert Pindyck & Daniel Rubinfeld)
Solution Manual Macroeconomics (2nd Ed., Stephen D. Williamson)
Solution Manual Macroeconomics (3rd Ed., Stephen D. Williamson)
Solution Manual Macroeconomics Update Edition (5th Ed., Andrew B. Abel, Ben S. Bernanke)
Solution Manual Macroeconomics (6th Ed., Andrew B. Abel, Ben S. Bernanke & Dean Croushore)
Solution Manual Macroeconomics (10th Ed., Robert J. Gordon)
Solution Manual Macroeconomics (11th Ed., Robert J. Gordon)
Solution Manual Macroeconomics - Canadian Edition (3rd Ed., Olivier Blanchard & David R. Johnson)
Solution Manual Macroeconomics (4th Ed., Olivier Blanchard)
Solution Manual Macroeconomics - Canadian Edition (4th Ed., Olivier Blanchard & David R. Johnson)
Solution Manual Macroeconomics (5th Ed., Olivier Blanchard)
Solution Manual Systems Engineering and Analysis (5th Ed., Benjamin Blanchard & Wolter Fabrycky)
Solution Manual Economic Growth (1st Ed., David N. Weil)
Solution Manual Economic Growth (2nd Ed., David N. Weil)
Solution Manual Money, the Financial System, and the Economy (5th Ed., R. Glenn Hubbard)
Solution Manual Money, the Financial System, and the Economy (6th Ed.,

R. Glenn Hubbard)
Solution Manual Money, Banking and Financial Markets (2nd Ed., Stephen G. Cecchetti)
Solution Manual The Economics of Money, Banking and Financial Markets (8th Ed., Frederic S. Mishkin)
Solution Manual The Economics of Money, Banking and Financial Markets (9th Ed., Frederic S. Mishkin)
Solution Manual Principles of Money, Banking, and Financial Markets (11th Ed., Ritter, Silber & Udell)
Solution Manual Principles of Money, Banking, and Financial Markets (12th Ed., Ritter, Silber & Udell)
Solution Manual Fundamentals of Corporate Finance (Parrino & Kidwell)
Solution Manual Financial Institutions, Markets, and Money (9th Ed., Kidwell, Blackwell, Whidbee & Peterson)
Solution Manual Financial Institutions, Markets, and Money (10th Ed., Kidwell, Blackwell, Whidbee & Peterson)
Solution Manual International Economics (3rd Ed., James Gerber)
Solution Manual International Economics (4th Ed., James Gerber)
Solution Manual International Economics (5th Ed., James Gerber)
Solution Manual International Economics (7th Ed., Steven Husted & Michael Melvin)
Solution Manual International Economics (8th Ed., Steven Husted & Michael Melvin)
Solution Manual International Economics (3rd Ed., W. Charles Sawyer & Richard L. Sprinkle)
Solution Manual World Trade and Payments : An Introduction (9th Ed., Caves, Frankel & Jones)
Solution Manual World Trade and Payments : An Introduction (10th Ed., Caves, Frankel & Jones)
Solution Manual International Economics : Theory and Policy (7th Ed., Krugman & Obstfeld)
Solution Manual International Economics : Theory and Policy (8th Ed., Krugman & Obstfeld)
Solution Manual International Money and Finance (7th Ed., Michael Melvin)
Solution Manual Economic Development (9th Ed., Todaro & Smith)
Solution Manual Microeconomics (4th Ed., Jeffrey M. Perloff)
Solution Manual Microeconomics (Don E. Waldman)
Solution Manual Microeconomics : Theory and Applications with Calculus (Jeffrey M. Perloff)
Solution Manual Microeconomic : Theory and Applications (9th Ed., Browning & Zupan)
Solution Manual Microeconomic : Theory and Applications (10th Ed., Browning & Zupan)
Solution Manual Environmental Economics and Policy (5th Ed., Tom Tietenberg)
Solution Manual Environmental and Natural Resource Economics (7th Ed., Tom Tietenberg)
Solution Manual Health Economics (3rd Ed., Charles E. Phelps)
Solution Manual Industrial Organization : Theory and Practice (3rd

Ed., Waldman & Jensen)
Solution Manual Modern Industrial Organization (4th Ed., Carlton & Perloff)
Solution Manual Modern Labor Economics : Theory and Public Policy (9th Ed., Ehrenberg & Smith)
Solution Manual Law and Economics (4th Ed., Cooter & Ulen)
Solution Manual Law and Economics (5th Ed., Cooter & Ulen)
Solution Manual Market Regulation (Roger Sherman)
Solution Manual Public Finance and the American Economy (2nd Ed., Neil Bruce)
Solution Manual The Economics of Sports (2nd Ed., Leeds & von Allmen)
Solution Manual The Economics of Sports (3rd Ed., Leeds & von Allmen)
Solution Manual Introduction to Econometrics, Brief Edition (James H. Stock & Mark W. Watson)
Solution Manual Introduction to Econometrics (2nd ed., James H. Stock & Mark W. Watson)
Solution Manual Econometrics : A Modern Introduction (Michael P. Murray)
Solution Manual Using Econometrics : A Practical Guide (5th Ed., A.H. Studenmund)
Solution Manual Mathematical Methods for Economics (2nd Ed., Michael Klein)
Solution Manual Personal Finance with Financial Planning Software (3rd Ed., Jeff Madura)
Solution Manual Finance : Investments, Institutions, and Management - Update (2nd Ed., Stanley G. Eakins)
Solution Manual Introduction to Finance (Lawrence J. Gitman & Jeff Madura)
Solution Manual Principles of Managerial Finance Brief (4th Ed., Lawrence J. Gitman)
Solution Manual Principles of Managerial Finance (11th Ed., Lawrence J. Gitman)
Solution Manual Corporate Finance (Jonathan Berk & Peter DeMarzo)
Solution Manual Corporate Finance (7th Ed., Stephen A. Ross, Randolph W. Westerfield, Jeffrey Jaffe)
Solution Manual Principles of Corporate Finance (7th Ed., Richard A. Brealey, Stewart C. Myers)
Solution Manual Risk Takers : Uses and Abuses of Financial Derivatives (John Marthinsen)
Solution Manual Theory of Asset Pricing (George Pennacchi)
Solution Manual Multinational Business Finance (10th Ed., Eiteman, Stonehill & Moffett)
Solution Manual Multinational Business Finance (11th Ed., Eiteman, Stonehill & Moffett)
Solution Manual Fundamentals of Multinational Finance (1st Ed., Moffett, Stonehill & Eiteman)
Solution Manual Fundamentals of Multinational Finance (2nd Ed., Moffett, Stonehill & Eiteman)
Solution Manual Fundamentals of Multinational Finance (3rd Ed., Moffett, Stonehill & Eiteman)

Solution Manual Cases in International Finance (2nd Ed., Dufey & Giddy)
Solution Manual Fundamentals of Investing (9th Ed., Gitman & Joehnk)
Solution Manual Fundamentals of Investing (10th Ed., Gitman & Joehnk)
Solution Manual OTIS : Online Trading (Wharton Learning Lab)
Solution Manual Derivatives Markets (2nd Ed., Robert L. McDonald)
Solution Manual Principles of Risk Management and Insurance (9th Ed., George E. Rejda)
Solution Manual Principles of Risk Management and Insurance (10th Ed., George E. Rejda)
Solution Manual Financial Markets and Institutions (5th Ed., Frederic S. Mishkin & Stanley G. Eakins)
Solution Manual Financial Markets and Institutions (6th Ed., Frederic S. Mishkin & Stanley G. Eakins)
Solution Manual Statistical Analysis of Financial Data in S-PLUS (Rene A. Carmona)
Solution Manual Statistics and Finance : An Introduction (David Ruppert)
Solution Manual Mathematical Statistics for Economics and Business (Ron C. Mittelhammer)
Solution Manual Job Hazard Analysis (James E. Roughton & Nathan Crutchfield)
Solution Manual Managerial Issues of Enterprise Resource Planning Systems (David L. Olson)
Solution Manual Business Driven Technology (1st Ed., Haag et al.)
Solution Manual Business Driven Technology (2nd Ed., Haag et al.)
Solution Manual Operations Management : An Integrated Approach (2nd Ed., R. Dan Reid & Nada Sanders)
Solution Manual Operations Management : An Integrated Approach (3rd Ed., R. Dan Reid & Nada Sanders)
Solution Manual Operations Management (4th Ed., R. Dan Reid & Nada Sanders)
Solution Manual Commercial Banking: The Management of Risk (3rd Ed., Gup & Kolari)
Solution Manual Essential Statistics for Economics, Business and Management (Teresa Bradley)
Solution Manual Calculus for Business, Economics, and the Social and Life Sciences (8th Ed., Hoffmann & Bradley)
Solution Manual Calculus for Business, Economics, and the Social and Life Sciences (9th Ed., Hoffmann & Bradley)
Solution Manual Calculus for Business, Economics, and the Social and Life Sciences, Brief Edition (10th Ed., Hoffmann & Bradley)
Solution Manual Applied Calculus for Business, Economics, and the Social and Life Sciences, Expanded Edition (10th Ed., Hoffmann & Bradley)
Solution Manual Accounting for Governmental and Nonprofit Entities (12th Ed., Wilson & Kattelus)
Solution Manual Accounting for Governmental and Nonprofit Entities (13th Ed., Wilson & Kattelus)
Solution Manual Accounting for Governmental and Nonprofit Entities

(14th Ed., Wilson, Kattelus & Reck)
Solution Manual Accounting for Governmental and Nonprofit Entities (15th Ed., Wilson, Reck & Kattelus)

Hi

Did you find the manual yet for the Kantronic?

I may have it at my other place so let me know and I can go there and look
around.

Good luck

536. HD Antenna?

Newsgroup: rec.radio.amateur.equipment
Date: 2010-09-30 22:45:49 UTC
From: Cannuck <abra@cadabra.com>
Message-ID: <5q8po.23768$qb.21290@newsfe12.iad>
Source record: 804

Looking to buy the Channelmaster HD 8bay for the HD TV.

I have heard some about putting two up each aimed at a different major city from where I am.

Any tips on best way to do this? or not to do this? or better way to do this?

http://cgi.ebay.ca/ws/eBayISAPI.dll?ViewItem&item=220389335719&ssPageName=ADME:X:RTQ:CA:1123

I found these cheaper somewhere else but it is this exact antenna.

Thanks for any advice

Hi

Wanting to put up the CHannelmaster HD antenna 8bay

I have heard some about putting two up. Each aiming towards a different major city to get the best reception for the HD.

Any advice on this? Any reason to or not to or better ideas?

Thanks

538. Crossposting Permitted to rec.radio.amateur.moderated

Revision: 1.1 2009/04/12 19:42:04
Posting-Frequency: posted monthly
URL: http://www.panix.com/~rram/usenet/rram/index.html

Changes followed by "|".

After a 30-day public discussion and feedback period to gauge reader
opinions in March of 2009:

http://groups.google.com/group/rec.radio.amateur.moderated/browse_thread/thread/d7d337db35
f23326

the rec.radio.amateur.moderated Moderation Team has decided to consider
amending its charter, and permit limited simultaneous crossposting to
rec.radio.amateur.moderated and one other unmoderated
amateur-radio-related discussion newsgroup. We are currently trying
this on a temporary basis (90 days, through early July 2009), and adopt
it permanently if successful.

Approved rec.radio.amateur.* newsgroups are those that are currently
listed in the latest version of the "List of Big Eight Newsgroups" which
is crossposted monthly to news.announce.newgroups, news.groups, and
news.lists.misc.

Approved alt.radio.amateur.* and alt.ham-radio.* newsgroups are those
that have been created consistent with the suggestions in "So You Want
to Create an Alt Newsgroup" at:

http://www.faqs.org/faqs/alt-creation-guide/

Approved regional hierarchy newsgroups are those that contain either
"radio.amateur" or "ham-radio" in their names, including
uk.radio.amateur and aus.radio.amateur.misc.

We will make every reasonable effort to keep our list of approved
newsgroups up-to-date. In case we have overlooked any, and a submission
is rejected in error as a result, the rejected submitter can E-mail us
at our administrative contact address (in the signature at the bottom of
this article, and the default Reply-To for the rejection message)
requesting that it be added, and that the article be approved. We may
still choose to reject articles crossposted to any alt.* newsgroup with
an inappropriate name, including obscene language, embedded
name-calling, or encouragement of unlawful conduct.
```

Please direct any comments, questions, or criticisms to
rec-radio-amateur-moderated-request@panix.com.

In order of preference

1: 2 antennas, 2 transmission lines, switch at receiver

2: 1 antenna, 1 rotor, 1 rotor cable/transmission line, rotor control
set top box

3: 2 antennas, 1 hybrid combiner on pole, 1 transmission line (many
opportunities for phasing weirdness and cancellations, etc.)

I found them mostly more expensive. Averag about $85 each.
I'm sure it good though. I myself would just use an combiner first
see how that works. If you got low band analog, does not necessarily mean you
will pick up anything far away.

No, just use one and see what you pick up first.

Hi
Thanks for the reply

I do have one up now. It is only a 4bay but I can only aim to one direction
to one major city. On the back of the antenna I pick up another major city's
broadcasts and just happens to be right behind. But when the clouds or rain
are there it gets poorer reception and the HD channels pixel a lot and I
loose them. Mostly the football and hockey games and always right at the
most awkward moments.

So I want two up to aim at each market. Ya, they are only about 70 dollars
each and a splitter.

Anyone had success with this? Some say you get a ghosting affect.

Thanks for any tips

No ghosts on digital. The decoders subtract multipath.

If you have trouble with moisture it is usually because your connections are not water tight. Is there a tropo duct to the station on the 180 degree beam of your antenna? Like San Diego into Santa Barbara? Not a reliable mode of propagation for entertainment use.

If, indeed, the two directions of interest are 180 degrees (+/- 20deg.)
with respect to each other, then I'd mount them back-to-back on the mast
and do the splitter lash-up right at that point.

Remember: You're not pointing lasers -- you're 'aiming' blunderbusses.

> Anyone had success with this? Some say you get a ghosting affect.

You'll be less likely to suffer multi-path reception (causing ghosting
with analog signals) with the two antennas at 180 degrees from each other.

The Real Difficulty with what you're trying to do would be (could arise)
if the two directions of interest were, say, only 50-80 degrees apart.

After it's all said and done, tho', a lot of it is Just Black Magic. :-)

Ok

Some good advice

Thanks

I will put them in 180deg. your comments were -or+20degrees. That will work
well.

I didn't know that the ghosting was only affected on the analog.

What about that splitter? Is that just a regular splitter or is there
something available to aid in the signal or signal strength? Any types of a
preamp splitter or would I have to power that?

I want to put this up high on the tower and leave it. One time. I simply do
not like climbing that thing anymore than I need to. I am sure you hams
with very high towers can relate to that.

Thanks

546. Looking for an IC for Yaesu FT-847 transceiver

Newsgroup: rec.radio.amateur.equipment

Does any one know where to find the Hitachi hybrid circuit PF0310A, which is the RF power driver for the Yaesu FT-847 transceiver?

On the Internet I (perhaps) only found a PF0310 (without the A), but it is somewhat different.

Thanks & regards.

A Radio Shack 75 Ohm 2 way splitter can also be used as a combiner to
put 2 antennas on a single transmission line. Be sure to ground it to
your tower. And use some kind of weatherproofing (i.e. drip loops and
co-ax seal). Use a UL/NEC approved grounding device where the
transmission line enters the building.

I would suggest this is not strictly true.

You won't *see* ghosting with digital TV, but if you're receiving the same signal via two different paths (which is what caused ghosting in analog)
your digital TV may not be able to decode that signal at all. You won't see ghosts on the screen, but you may not be able to receive *anything* from
some stations.

Digital TVs do have circuits that address this problem. It's not as if you stand no chance of receiving a digital station if you had any ghosting at
all from its analog predecessor. But the correction circuits aren't perfect and if you ignore the problem altogether, you may miss out on some channels.

>
>Any advice on this? Any reason to or not to or better ideas?

Combining two antennas can be rather tricky to do well; you can get odd cancellation and interference effects. Switching arrangement may work better.

Alternate approaches are:

- Use one antenna (single- or multi-bay) and a remote-controlled mechanical rotator.

- Use an "electrically steerable" antenna - some of these can be controlled/steered automatically by some newer digital television sets, via a control voltage sent up the coax.

565. Selective level meter

Newsgroup: rec.radio.amateur.equipment
Date: 2010-10-07 16:02:18 UTC
From: Theo Markettos <theom+news@chiark.greenend.org.uk>
Message-ID: <USr*cV3kt@news.chiark.greenend.org.uk>
Source record: 833

I'm reading the calibration section of the service manual for a spectrum analyser, and that tells me to connect the IF output to a 'selective level meter'. I've had a google and can find lots of (mostly antique) models, but I can't seem to find anything that describes what one of these is.

Am I right in guessing it's essentially a narrowband AM receiver with a power meter for the carrier? So a spectrum analyser with only one horizontal point? Are they typically more accurate than a spectrum analyser - or can I just use another analyser?

Thanks
Theo

An audio distortion analyzer has a kind of selective meter, i.e. a
voltmeter with a bandpass filter upstream.

Theo-

I expect a frequency selective voltmeter will have an accuracy in the
order of 5% (<1/2 dB) or 10% (<1 dB) of its full scale reading. The
spectrum analyzer probably has an accuracy measured in dB, probably
greater than 1 dB.

I might depend on another analyzer if that was the only option. Then
the question would be whether the second analyzer is less accurate than
the one you're trying to calibrate! Somewhere along the line you need a
standard to compare with.

20 high permeability ferrite toroids for sale on eBay, listing 150504494370, availabke to the EU, or further if you can convince me to do it.

http://cgi.ebay.co.uk/ws/eBayISAPI.dll?ViewItem&item=150504494370&ssPageName=STRK:MESELX:IT

I apologise to people in rec.radio.amateur.equipment if this posting is inappropriate. I checked there to see if FS postings were ok, and saw several relevant ones that weren't getting stamped on so I decided to take the risk. The odds are that high permeability ferrites are in such sghort supply in the UK or EU in general that few even think to look often enough on eBay to catch a one week listing, so I took the risk of posting. Most radio enthusiasts might have uses for them, so if it please just one person to see this, it justifies this single post, I hope.

Well bozo, you'd be wrong.

Rec.radio.amateur.equipment is for the discussion of amateur radio
equipment.

It's not a forsale newsgroup, never has been.

Just because clueless people put their ads here doesn't make it a forsale
newsgroup.

But you've done worse than that. You've seen ads and decided you can post
your ad here. But, even if ads were allowed, they would surely be limited
to ads for amateur radio equipment, ie transmitters, receivers,
transceivers, antennas, and accessories. That's what "equipment"
means. Parts do not fit into that misinterpretation of the newsgroup.

Nobody complains? I get tired, since virtually all of the traffic here is
ads. That doesn't make it right. And like I said a few weeks or months
back, it's absurd to see ads in this newsgroup, because there isn't even
content to ensure people are reading the newsgroup to see the ads. If a
newsgroup isn't being used, ads won't be an improvement, but they also
won't bring in those dollars you want, since few will read a relatively
dead newsgroup.

You've failed miserably, even in your silly pronouncement of "being
helpful". No, you don't care that someone would miss your ebay auction,
you care that you won't get enough bids to drive up the price, so you
won't make as much money on the transaction. Which is why you spam this
newsgroup, rather than rely on ebay that surely has far more readers than
this fairly dead newsgroup.

So I won't do it again. haven't done it before either. of course you don't notice a year of on-topic postings, often helping answer people, you just vent spleen high wide and plentiful because you feel self righteous. And you expect people to READ that drivel? You waste a lot more than I did. YOu must be a truly miserable son of a bitch.

You didn't even notice that I pointed out an eBay listing, did you? For what it's worth, your opinion means nothing. There are people I respect, and I'll listen to those if they speak, but you are NOT among them.

The standard newsgroupe etiquette for eBay postings is to use 'FA:'
instead of 'FS:' in the title. The readers that have an issue with auctions
can ignore that post. This newsgroup charter does not expressly forbid
sales items, but mostly frowns on them. It is mostly a place to share
information about various hardware used by radio amateurs.

Message-ID: <Frank.Husnik.6ff8489@radiobanter.com>
Source record: 848

I have two problems. One, I need to blank a logic board on a MaxTrac. I have the standard RSS, but not the LAB version. I looked on my MOL account, and they have discontinued all RSS for the MaxTracs. Second, I tried to load up my SM50 RSS, and when I try to read the radio, it says model definition file not found. If my files are corrupt, does anyone have this program where they could send me the missing files? Any help is greatly appreciated.

Hi folks,
I looking for the PA-cover of the IC-726. In the service manual the part ist shown on page 4-2, " PA unit and accessories" . Label number 2, order number 8510005462 . Is anyone out there who stripped an old radio and save this tin. Several parts were missing after a long lasting repair proceeding. This is the last part I need for completing this radio.

My MVA (Convert-A-Com) smoked the other day and now charging circut does
not
work. Replaced some electrolitic capacitors and it worked for a day or
so then
did the same thing. now the voltage reg. next to the capacitors blew up
as well.
need someone who knows his stuff to find the heart of the problem (or
find a new
circut board.) Help!

This MVA is the enhanced version for the 99 chan. MT1000

593. Crossposting Permitted to rec.radio.amateur.moderated

Newsgroup: rec.radio.amateur.equipment
Date: 2010-11-01 06:00:01 UTC
From: rram@panix.com
Message-ID: <radio/ham-radio/moderated/crossposting-1-1288591200@panix.com>
Source record: 761
Cross-posted to: rec.radio.amateur.antenna,rec.radio.amateur.dx,rec.radio.amateur.equipment,rec.radio.amateur.homebrew,rec.radio.amateur.misc,rec.radio.amateur.policy,rec.radio.amateur.space,rec.radio.info

```
Posted-By: auto-faq 3.3.2 beta (PGPMoose V2.0, Perl 5.005)
Archive-name: radio/ham-radio/moderated/crossposting
Revision: 1.1 2009/04/12 19:42:04
Posting-Frequency: posted monthly
URL: http://www.panix.com/~rram/usenet/rram/index.html

Changes followed by "|".

After a 30-day public discussion and feedback period to gauge reader
opinions in March of 2009:

http://groups.google.com/group/rec.radio.amateur.moderated/browse_thread/thread/d7d337db35
f23326

the rec.radio.amateur.moderated Moderation Team has decided to consider
amending its charter, and permit limited simultaneous crossposting to
rec.radio.amateur.moderated and one other unmoderated
amateur-radio-related discussion newsgroup. We are currently trying
this on a temporary basis (90 days, through early July 2009), and adopt
it permanently if successful.

Approved rec.radio.amateur.* newsgroups are those that are currently
listed in the latest version of the "List of Big Eight Newsgroups" which
is crossposted monthly to news.announce.newgroups, news.groups, and
news.lists.misc.

Approved alt.radio.amateur.* and alt.ham-radio.* newsgroups are those
that have been created consistent with the suggestions in "So You Want
to Create an Alt Newsgroup" at:

http://www.faqs.org/faqs/alt-creation-guide/

Approved regional hierarchy newsgroups are those that contain either
"radio.amateur" or "ham-radio" in their names, including
uk.radio.amateur and aus.radio.amateur.misc.

We will make every reasonable effort to keep our list of approved
newsgroups up-to-date. In case we have overlooked any, and a submission
is rejected in error as a result, the rejected submitter can E-mail us
at our administrative contact address (in the signature at the bottom of
this article, and the default Reply-To for the rejection message)
requesting that it be added, and that the article be approved. We may
still choose to reject articles crossposted to any alt.* newsgroup with
an inappropriate name, including obscene language, embedded
name-calling, or encouragement of unlawful conduct.
```

Please direct any comments, questions, or criticisms to
rec-radio-amateur-moderated-request@panix.com.

598. AVO transistor tester manual

Newsgroup: rec.radio.amateur.equipment
Date: 2010-11-03 20:22:44 UTC
From: Antonio Vernucci <vernucci@tin.it>
Message-ID: <4cd1c487$0$27972$4fafbaef@reader5.news.tin.it>
Source record: 766

Would any one be so kind to send me a scan of the AVO Transistor Tester Mark II manual?

Thanks and regards.

Tony, Rome Italy

599. Wanted: Coax Jumpers

Newsgroup: rec.radio.amateur.equipment
Date: 2010-11-05 11:18:04 UTC
From: Scott <acepilotREMOVE@bloomer.net>
Message-ID: <WrKdna9gJ5lxek7RnZ2dnUVZ_rcAAAAA@bright.net>
Source record: 767

Looking for about 20 Teflon type coax jumpers (RG-142 size coax or similar). Need N-Female chassis mount on one end. Remaining end can be any connector as I cut them off and solder direct to circuit board. Jumpers need to be about 16" long or so. Emailed Hangar 18 surplus with no reply.

There are places in The Valley that do this sort of thing.

Which valley? I live in Cook's Valley, but I'd be the only one doing
that sort of thing here and I'm not doing it so it must be a different
valley. ;)

604. Glen Martin Engineering = Rooftop Towers

Newsgroup: rec.radio.amateur.equipment
Date: 2010-11-06 03:31:58 UTC
From: Barry <none@nospam.org>
Message-ID: <L_3Bo.6711$xb.4221@newsfe10.iad>
Source record: 772
Cross-posted to: rec.radio.amateur.antenna,rec.radio.amateur.equipment

The addition of a new metal roof to my home has prompted my interest in a small rooftop tower. I am considering the Glen Martin Engineering 4.5- and 8-foot aluminum towers. However, in doing some research on the company, I have read many reviews (particularly on eHam.net) where people brought up shoddy workmanship such as misdrilled holes, double-punched slots, burrs, incorrect documentation, missing parts, etc. Many complaints were about shipping too. However there also were several people well-satisfied with their products.

Because of this, I decided to check with the Better Business Bureau of Boonville, MO, where the company is located. They have a B+ rating, and the judging criteria of the BBB tends to give the company an overly positive rating in my opinion. Interestingly, SalaryList.com gives the fall 2006 salaries of design engineers at Glen Martin to be $41K and that of a project manager to be $32K. The average salary for the county at that time was $26.4K. I consider these to be rather low. I have not seen any ads by the company in QST recently either, and the League has stringent standards for any company advertising in a League publication.

None of this gives me a "warm fuzzy feeling" about the company and its products, but I am willing to keep an open mind. I would therefore appreciate any readers of these newsgroups posting their experiences with the company and its products.

My application, by the way, is to support a 43-foot vertical and small Yagi's for 6- and 2-meter SSB.

609. Power Supply?

Newsgroup: rec.radio.amateur.equipment
Date: 2010-11-07 08:06:33 UTC
From: MrRas <MrRas.71c3f38@radiobanter.com>
Message-ID: <MrRas.71c3f38@radiobanter.com>
Source record: 777

Hi all,

I've decided to do something that I've wanted to do for a long time, and that is to get my ham license. I've got the book and I'm reading up. I'm signed up for a test in December. I'm pretty excited. But I've been looking around just "window shopping" for components to build a radio in the coming months. I have a probably really basic question. How do you power the radio itself? I have a scanner, and I know that it came with a wallplug, but when I'm looking around at radios I don't see any mention of this.

example; I look at a radio and it says "power; supplied DC power adapter 13.8v" or something to that effect.

How do I run this thing indoors? I don't want to run this in my car. I know it can be done, but how? I'm just not sure of the name of the thing that lets me go from wall plug --> radio. Once I get that, I'll be good. I've searched sites like radioshack for things like "power adapter" "radio power supply" to no avail. I live in a place with out many shops so my main shopping will be done online unfortunately.

Thanks for any help.

You'll probably want a "switch mode" supply, as they are way lighter and
more efficient. Get one built for amateur radio, as they don't make HF
noise.

Start with these folks.

http://www.mfjenterprises.com/

There are a few Hams that bad mouth MFJ (Mighty Fine Junk) but I have
been dealing with them for a long time and have never regreted a
purchase.

Acquire a recent copy of the ARRL Handbook (last five - ten years) and
use it as a reference.

Good luck with the test and I hope to meet you on the air!

What you are looking for is simply called a "Power Supply". I converts
the AC from the wall to DC...most commonly to 13VDC (often just called a
12 Volt Power Supply). You will need one appropriate to the radio you
will be using as far as current capability. If you are going to be
powering a modern solid state HF radio that puts out up to about 100
Watts, you should get a supply that can put out about 20 or 25 Amps. Is
is always OK to get one that can put out more current such as 37 Amps or
50 Amps, etc. than you need at present. It is nice to go "oversize"
right off the bat if cost is not a concern. As you add equipment (more
radios, amplifiers, etc.) you will require a power supply that can
supply all of the currents for each piece of equipment hooked up to the
power supply added together.

Most transceivers now do not have built in power supplies. They are
designed to operate on what most people just say 12 volts. This is just a
nominal value. They are really made to operate best around 13.8 volts.
That is the nominal value a car electrical system has when the motor is
running.

It depends on how much power the transceiver you want to get as to the power
supply you will need. The Astron brand is good. I have a 50 amp supply I
have used for 15 years without any problems. It is the analog type and not
the switching kind. The basic design goes way back over 30 years. Very
simple and almost fool proof. For most people I think a 35 amp supply is
the best for the money. It will power most of the so called 100 watt output
transceivers. That 35 amps is the most it can supply. You can always use
devices that pull less current. Just like a 120 volt socket in your house.
It does not mater what you plug into the 120 volt socket, the device will
only take wht current it needs if it is rated for 120 volts. You only get
into trouble if you have several devices that take more current. With my
50 amp supply I have several transceivers hooked up to it that draw a lot
of current on transmitt. As long as I only transmitt with one at a time, it

will handle the currrent just fine.

Here is a link to the Astron site.

http://www.astroncorp.com/showpage.asp?p=2

I like the RS-A series. The RS-35A is what I would recommend to most new hams.

I guess that you know you can go to www.qrz.com and take some practice tests. When you get to the 90% mark you should be ready for the real test.

I used these an Gordon West's Extra book to go from no license to
Amateur Extra in 5 weeks. Of course when I took my Extra test at Grumman
their were 12 year old Asian middle-schoolers getting theirs.

I didn't look for a VE until I was at 100% on 3 consecutive tries on the
practice exams. The FCC tests are easier than the practice exams.

I used the Gorden West tapes to learn the code. That was many years ago. They seem good to me. I did not use anything to learn the written tests. I have been in electronics for many years so the technical questions were easy, just had to learn the rules.

I don't see how you can say the FCC test are any easier than the practice exams. The question and answers are suspose to be the same. While I have been a ham for over 35 years, I hear how hard the tests are suspose to be. I do go to the QRZ practice tests about once a year just to see how well I can do without the pressure. Usually get over 90% in a very short time. Now the tests are just how well one can memorize the Q&As.

I always tell the new people to just memorize the Q&As and do not try to learn anything. Then if they are really serious about learning instead of talking, get a Handbook and study that. I almost think it should be required to own a Handbook before you take the test or get a license. Atleast have access to one if there are several hams in one family.

Tempo AC-1 power supply in the speaker cabinet. Works. Looks good.
$90.00
plus a shipping charge that would be for 25 pounds. No pickup.
http://www.muchstuff.com/11-12-10ham/p1000671.jpg
http://www.muchstuff.com/11-12-10ham/p1000672.jpg
http://www.muchstuff.com/11-12-10ham/p1000673.jpg

(2) Ohmite Dummy Antennas, 250 watts each. Standard tube type 4 pin
base.
The base on one needs replacing. See pic. $20.00, plus a shipping charge
that would be for 2 pounds. No pickup.
http://www.muchstuff.com/11-12-10ham/p1000674.jpg

Fluke Bench Power Supply. Model 407. $90.00 obo, plus a shipping charge
for
40 pounds. Will allow pickup here in Auburn, CA.
http://www.muchstuff.com/11-12-10ham/p1000675.jpg
http://www.muchstuff.com/11-12-10ham/p1000676.jpg
http://www.muchstuff.com/11-12-10ham/p1000677.jpg

UHF homebrew transmitter with a PL-4D21 tube. Great looking. A Motorola
Power Supply that has the high voltage transformer already removed for
shipping. However, I don't expect that anyone wants to pay for what I
would
charge for packing this PS and transformer. So this is for pickup here
in
Auburn. The actual net weight is: Transmitter 8 pounds. Power Supply
75
pounds. and the transformwer 50 pounds. If I pack, will want $75 for my
labor and materials, plus the actual FedEx charge.
I know nothing more than what one can see about these items. I would see
the power supply with transformer separate only after the transmitter is
sold. I have no way of setting a price for these items. Please make an
offer.

626. Vintage headphones wanted

Newsgroup: rec.radio.amateur.equipment
Date: 2010-11-18 15:25:30 UTC
From: Plotus <Plotus.72b1419@radiobanter.com>
Message-ID: <Plotus.72b1419@radiobanter.com>
Source record: 794

This is not an add for wanted/for sale, rather, I'm looking for information on finding vintage headphones for my Hammarlund shortwave radio. It was made in the 30's-40's (an HQ120) and I'm wondering what kind of phones would be in keeping with the 30's-40's theme here. I'm new to the Hammarlund, but not shortwave. I am at that point where I'm going to start collecting the older shortwave/ham stuff before it all dissapears (unlikely hopefully) and one thing for the older vintage stuff to aquire would be cosmetically appealing headphones fitting the earlier era of Radios. I'm aware these (Hammarlund) radios came with speakers, which interest me as well, however for now I'd like a bit of input from some of you vintage nuts out there. What ohms should I be looking for too? Any suggestions are greatly appreciated.....Rich AKA Plotus.

This guy carries 30 pounds of tools up the ladder with him? Most climbers I know take the end of a line with them, then attach a pulley where they'll be working, then they send the end of the rope back down. Then the ground crew can send up tools, parts, whatever, and you don't have to worry about not forgetting anything but the rope and the pulley.

Maybe he works alone...

The climbers you know probably climb 100 ft towers?

With this tower that would require 3,400 ft of rope, which probably
weighs more than the tools and will be very difficult to handle.

The climbers you know probably climb 100 ft towers?

With this tower that would require 3,400 ft of rope, which probably
weighs more than the tools and will be very difficult to handle.

Not to mention the extreme likelihood of the rope getting blown around
and/or snagged on any of dozens of appendages (microwave antennas, FM and
comms antennas, tower lighting, etc) that are on such tall structures.

You take a messenger rope (3/32") up with you. Once through the pulley
and back down that rope is used to lift a more substantial rope, all
done by the winch on the service truck. This is a safety feature. People
cramp up sometimes.

You usually have a ground crew person feeding the line and watching such
things. California has stricter laws than OSHA. I think you have to clip
on when climbing here.

9mm static line weighs 57 gm/meter. A 1000 meter loop would weight
57kg or 126 lbs. No thanks. Also, the line has quite a bit of wind
resistance and will probably cause the 30 lb tool bag to sway quite a
bit in the wind. However, since he rode the elevator almost to the
top, he might be able to handle a 50 meter single static line to the
top of the elevator.

Nice video. I wonder what they were repairing on top of the tower?
Replacing the tower light?

Press Release

Tower Association Responds to Erroneous and Dangerous Video

The following statement is being issued by the National Association of
Tower Erectors (NATE) regarding a dangerous video post erroneously
characterizing ï¿½free climbingï¿½ on towers as lawful and common.
NATE would like to publicly denounce the message of the recently posted
video depicting two men climbing a broadcast tower. NATE asserts that
the posting of the content was misguided and its messages should not be
given credence by any viewer.
The ï¿½Stairway to Heavenï¿½ video, reportedly launched by
TheOnLineEngineer.org, suggests that free climbing is an accepted method
of ascending and descending broadcast and telecommunication towers. The
video incorrectly asserts that free climbing is accepted by OSHA and
that ï¿½most tower workers climb this way.ï¿½ The video also depicts as
standard procedure other dangerous and prohibited conduct not condoned
by NATE or OSHA. There are many inaccuracies in this video.
NATEï¿½s efforts to establish a culture of safety in the wireless and
broadcast tower industry encourages everyone involved with tower work to
adhere to recognized safe practices. The video in question is an example
of a climber who is either unaware of recognized safety practices or is
unwilling to take the time to protect his life and the life of his
co-worker in the video. By extension it encourages others to employ
unsafe climbing techniques not endorsed by either OSHA or NATE.
Contractors who refuse to operate safely should never be hired. This
video is one more example of why the efforts of NATE, our membership and
industry partners are imperative.
NATE, the industryï¿½s leader in tower safety, continues to pursue working
relationships with carriers, broadcasters and other tower
owner/operators to ensure that only qualified contractors set foot on

tower sites. The Association has worked with OSHA to develop safety best practices and educational programs to ensure every tower worker goes home safely every day. Companies which allow free climbing and other violations of recognized safety practices are placing lives in danger and jeopardizing tower work services.
NATE is looking forward to OSHAï¿½s statement clarifying this matter for the industry.
Work Quality in Question
Employers who allow such practices will likely cut corners on other aspects of their work. NATE asks, ï¿½If a company or employee will cut corners with the lives of its workers, on what other aspects of work will they be willing to cut corners?ï¿½ Owners and operators who hire this type of contractor are opening themselves up to legal and regulatory actions and are additionally running the risk of system malfunctions, adding unnecessary costs on top of endangering lives.
NATE Requests Contact From Tower Owners and Operators
NATE is requesting contact from carriers, broadcasters and other entities who own, operate or control wireless and broadcast towers as well as the industry groups who represent them. NATE is doggedly pursuing working relationships with these organizations to ensure that a culture of safety exists throughout the industry and that only qualified contractors set foot on tower sites. If your organization fits this description, please contact Patrick Howey at 888-882-5865 or patrick@natehome.com.

Maybe the weight of his rope for that size of tower is more than 30
pounds....

Wow, has the price of tubes gone way up? You can buy a new solid state ricebox with all bands up to 440 (sadly minus 222) for just a bit more...I better dust off my old Kenwood 520S. I tried to sell it for $300 a couple years ago (at a hamfest where people could even see it!) and not even a bite....or even a lowball offer :(

It only has three tubes... a 12BY7 and two 6JS6C's.

For some reason the Yaesu FT-101 rigs got a large cult following with the
"freeband" illegal CB crowd - probably because they had an 11 meter
position on the bandswitch (receive only) and it only took a trivial
effort to get it to transmit there. They also had AM. In fact, I
believe there were more of these rigs sold to CB'ers than to hams.

I can remember one fellow who brought his Yaesu into the shop where I
worked during graduate school. He put in new tubes but did not know how
to neutralize the finals. I told him that the only way I would work on
it was if I restored the radio to its original condition. He agreed,
saying that even _he_ could modify it back the way it was. I learned
that one nearby CB'er even had a Collins S-line transmitter and receiver
on 11 meters!

A-ha! I have a plain FT-101 that was given to me years ago. I'll have
to check and see if it has the same 11M selection. Maybe I'm sitting on
enough cash to buy another transverter or two for the microwave bands :)

667. Crossposting Permitted to rec.radio.amateur.moderated

Newsgroup: rec.radio.amateur.equipment
Date: 2010-12-01 07:00:02 UTC
From: rram@panix.com
Message-ID: <radio/ham-radio/moderated/crossposting-1-1291186801@panix.com>
Source record: 635
Cross-posted to: rec.radio.amateur.antenna,rec.radio.amateur.dx,rec.radio.amateur.equipment,rec.radio.amateur.homebrew,rec.radio.amateur.misc,rec.radio.amateur.policy,rec.radio.amateur.space,rec.radio.info

```
Posted-By: auto-faq 3.3.2 beta (PGPMoose V2.0, Perl 5.005)
Archive-name: radio/ham-radio/moderated/crossposting
Revision: 1.1 2009/04/12 19:42:04
Posting-Frequency: posted monthly
URL: http://www.panix.com/~rram/usenet/rram/index.html

Changes followed by "|".

After a 30-day public discussion and feedback period to gauge reader
opinions in March of 2009:

http://groups.google.com/group/rec.radio.amateur.moderated/browse_thread/thread/d7d337db35
f23326

the rec.radio.amateur.moderated Moderation Team has decided to consider
amending its charter, and permit limited simultaneous crossposting to
rec.radio.amateur.moderated and one other unmoderated
amateur-radio-related discussion newsgroup. We are currently trying
this on a temporary basis (90 days, through early July 2009), and adopt
it permanently if successful.

Approved rec.radio.amateur.* newsgroups are those that are currently
listed in the latest version of the "List of Big Eight Newsgroups" which
is crossposted monthly to news.announce.newgroups, news.groups, and
news.lists.misc.

Approved alt.radio.amateur.* and alt.ham-radio.* newsgroups are those
that have been created consistent with the suggestions in "So You Want
to Create an Alt Newsgroup" at:

http://www.faqs.org/faqs/alt-creation-guide/

Approved regional hierarchy newsgroups are those that contain either
"radio.amateur" or "ham-radio" in their names, including
uk.radio.amateur and aus.radio.amateur.misc.

We will make every reasonable effort to keep our list of approved
newsgroups up-to-date. In case we have overlooked any, and a submission
is rejected in error as a result, the rejected submitter can E-mail us
at our administrative contact address (in the signature at the bottom of
this article, and the default Reply-To for the rejection message)
requesting that it be added, and that the article be approved. We may
still choose to reject articles crossposted to any alt.* newsgroup with
an inappropriate name, including obscene language, embedded
name-calling, or encouragement of unlawful conduct.
```

Please direct any comments, questions, or criticisms to
rec-radio-amateur-moderated-request@panix.com.

I was wondering if anyone has heard of a delivery date for the Wouxun
KG-UV920R mobile transmitter.
The specs look impressive and by the look of the digital readout, appears to
have a broadband receiver built in!
Cheers
John

I was looking in going into amature radio broadcasting, I plan to order my mic, mixer and all other cables. I was just wondering how to go about recording my show? The laptop soundcard is not the greatest and I would like to know if there is any cheap hardware £100 or lower to record for a while into mp3 format?

Oh and sorry one more thing, im not sure on the mic I have ordered, I dont want to link it because I dont know what rules I am breaking, but what would be the best mic for me? I just want a mic for recording me and it would be a bonus if it diddnt pick up noises other than my voice

My budget is £150 for that

Thanks in advance
Ben

But "amateur radio news bulletins" are legal in the USA.

§97.111 Authorized transmissions.-

(b) In addition to one-way transmissions specifically authorized
elsewhere in this Part, an amateur station may transmit the following
types of one-way communications:

(6) Transmissions necessary to disseminate information bulletins;

And here is what they say about broadcasting in general...

§97.113 Prohibited transmissions. -

(a) No amateur station shall transmit:

(2) Communications for hire or for material compensation, direct or
indirect, paid or promised, except as otherwise provided in these rules;

(3) Communications in which the station licensee or control
operator has a pecuniary interest, including communications on behalf of
an employer, with the following exceptions:

(4) Music using a phone emission except as specifically provided
elsewhere in this section; communications intended to facilitate a
criminal act; messages encoded for the purpose of obscuring their
meaning, except as otherwise provided herein; obscene or indecent words
or language; or false or deceptive messages, signals or identification;

(5) Communications, on a regular basis, which could reasonably be
furnished alternatively through other radio services.

(b) An amateur station shall not engage in any form of broadcasting, nor
may an amateur station transmit one-way communications except as
specifically provided in these rules; nor shall an amateur station
engage in any activity related to program production or news gathering
for broadcasting purposes, except that communications directly related
to the immediate safety of human life or the protection of property may
be provided by amateur stations to broadcasters for dissemination to the

public where no other means of communication is reasonably available
before or at the time of the event.

There are some hams who wished to be radio announcers in real life, and
there are radio announcers who only use digital modes.

I can get the ham radio news on podcast, seems silly to transmit it on 5
repeaters at a time once a week.

I didn't assume that he was in the US, in fact, since he used a UK pound
figure, I assumed he wasn't. In any case, he should read up on his
country's amateur rules in regards to broadcasting.

But that's not what the original poster is asking about.

He's talking about "radio broadcasting" but "amateur" as in
a hobby not being paid.

He's not talking about "amateur radio", he likely doesn't even know about
it. He wants to play radio DJ, and he's either going to bootleg or
stay within the miniscule power levels allowed for "unlicensed" use.

Since he's not talking professional, he stumbled on this newsgroup because
he saw the "radio" angle. Indeed, he may have latched on the notion of
"amateur radio" to describe what he wants to do by finding this newsgroup.
Unaware that amateur radio is a hobby of two way communication dating back
to nearly the origins of radio, he thinks he's in the right place.

I am big on the net. I would like to share tech. with locals in my area. broadcasting seems to be a very simple way of relaying information across said county. Ill need to patch in an AUX audio feed for programing. do not want to register with the FCC. CB is what I need from what I know. What is a simple & recommended:

120v Or 220v base unit
120v Or 220v Amp (not afraid to push some power)
Antenna

If there is another medium I should consider broadcasting over, please let me know.

Thanks, The Duck!

I See, Since I can find anyone who is not an asshole to answer a few
simple questions, I will do the research my self. thanks every one for
no help @ all. Have fun loosing ground to cell towers and the internet.

For about $25/hour, you can get onto shortwave and be heard all over the world. Try WWCR at 100000 watts. They may be only $12/hour. Cult of subgenius uses them. just don't say -fuck- all the time. http://www.wwcr.com/buying-airtime.html

Or you can spend $$$$ for 100watts and have the FCC grab it a week later when they raid your house ;)

My Chinese military receiver uses that same voltage. 90VDC & 1.5VDC The
D cells for the 1.5Fil and I used a stack of 10 rechargable NMHyDr 9V
batteries from Habor Frieght in series making 90VDC and its rechargable.
regards, Elmer

==========
If these 9v NiMH batteries are of the E-block type (also known as type
6LR61) their capacity is likely not in excess of 200mAh ,how long can
you run that radio on 1 charge ?

Is this for online publication or for radio broadcast? As others have suggested, you'll want to check what's permitted in your locality. It's also worth pointing out that this newsgroup (yes, this is Usenet, that comes as a surprise to some) is generally related to discussions on radio experimentation. That said, microphones feature here too.

One thing I've found to be a real nuisance, particularly on some Toshiba laptops, is internal noise pickup. The onboard sound interface is notorious for picking up all kinds of interference from 50Hz humm from mains, through to PCI bus activity. A combination of USB audio, and earthing the laptop chassis seems to work however.

When broadcasting via RF, it's also important to watch for RF feedback into the transmitter's input. I've had this happen to me a couple of times. A low-pass filter is needed to reject the high-frequency signal being induced into the audio signal lines. Often, this is done using ferrite suppression sleeves over the audio leads.

It also is wise to ensure there is separation between the transmitter, and any receivers — I had a very interesting "ringing" effect by accidence once when I had my FT-290RII, sitting on top of a FT-897D tuned to the same frequency. The FT-897D was monitoring my uplink whilst I was broadcasting the WIA news service on the FT-290R II (I'm backup transmitter for the service on VK4RBN; 147.000MHz in Brisbane).

Despite the netbook being connected via an audio transformer straight into the microphone port on the FT-290, I could hear this ringing noise on the transmission. Turned the volume down on the FT-897D, and the ringing went away.

No mystery. Actually, I love the 880H too. But, I already have two other 2m/440 radios which I use all the time. I bought the 880 (and accessories) to learn about and basically immerse myself in what D-Star was all about. And, it's very cool indeed, but at the moment, I'd like to sell that part of my ham radio life and use the funds to immerse myself in another part of ham radio life. The wonder of ham radio, always other avenues to explore.

I have a Grundig YB400PE which has been working well for several
years.
Within the last week, the steps for MW tuning have changed from 10/1
(North America) to 9/1.
I don't remember changing anything to have made this happen.
I have tried to revert to standard settings for North America by using
the reset switch, but this has not changed the step setting.
Does anyone have a suggestion on how to get back the North American
step setting for the MW band?

Thanks

IMPORTANT!

SET-UP FOR NORTH AMERICAN USE

North America's AM stations are exactly 10 kilohertz apart. At

the factory, the radio is set up for the 9 kilohertz spacing of

stations in Europe. To change this to the 190KHZ spacing:

1. With the radio OFF, press and release the AM button

once.

2. Immediately press and release the STEP button. "10

KHz" now appears in the right side of the display and will

disappear in a few seconds.

This change will be permanently in the radio's memory as long as

batteries are not taken out for a period of ten minutes or more.

When travelling outside of the Americas, use the same procedure

as above to set the spacing back to 9 kilohertz.

John

MY WANT LIST(Dec. 19/2010)

MANUALS NEEDED FOR THE FOLLOWING:
Codan, 8332 HS/SSB hand held transceiver.

Cubic, Astro-R 150R, HF/SSB transceiver, 5 band, black rack mount
commercial
version of the 150?
Cubic, Astro-B 150B, HF/SSB transceiver, 6 band channelized version of
the
above.
Cubic, Astro-C 150C, HF/SSB transceiver, like 150R except not rack
mounted
Cubic, Astro-D 150D, HF/SSB transceiver, also known as the "Ambasador"
or
"Diplomat", 1.6-30mc.

HULL, 922 & other Hull models HF/SSB transceivers.

SEA 223, HF/SSB marine transceiver.
SEA 106, HF/SSB marine transceiver.

SGC, SG-705, HF/SSB transceiver.
SGC, SG-711, HF/SSB transceiver.
SGC, SG-712, HF/SSB transceiver.
SGC, SG-712EX11, HF/SSB transceiver.
SGC, Q Match antenna tuner.

Texas Instruments TI3000n HF/SSB transceiver.
Vector VR-50, HF/SSB portable transceiver, schematic, service manual.

PARTS, ACCESSORIES, OR COMPLETE RADIOS NEEDED:
SGC SG-705, SG-711, SG-712, SG-715, SG-1700, SG-2020. HF/SSB
transceivers.
Texas Instruments TI3000n HF/SSB transceiver.
Transworld TW100(all versions) accessories, complete & parts radios.
SEA 222, SEA 322, SEA 330, or similar.

OTHER ITEMS OF INTEREST INCLUDE:
Portable HF/SSB transceivers, Military, Codan, SGC, Spilsbury, Kachina,
Southcom, Stoner, Paracom etc.
Especially interested in finding Hand held HF/SSB transceivers such as:

10H/WP
2-30mc 2ch 15w hand-held ssb transceiver.
Marketed by International Telecom Systems, Foster City Ca.
Possibly made by CR Electronics(CR-10H/WP).

Has anybody ever seen one?

Mini-Mitter II 40mtr SSB hand held transceiver(possible other bands).
Made by American States Electronics ca1972.

N888 Northern Radio Company
Hand-Held 10w 2-9mcSSB. ca1978.

RT/PMC-12S, 1.6-30mc synthesized 20w SSB manpack transceiver.
Stoner Communications Rancho Cucanonga Ca.(now SGC)

Thanks for the help. Sequence worked as stated and the step size for
MW is 10 again.

711. Manual programming of the Wouxun kg-uvd1p, Handy Talkies (HT's)

Newsgroup: rec.radio.amateur.equipment
Date: 2010-12-25 00:26:04 UTC
From: Grandpooba <Grandpooba.75b32d8@radiobanter.com>
Message-ID: <Grandpooba.75b32d8@radiobanter.com>
Source record: 679

Manual programming of the Wouxun Handy Talkies (HT's) can be confusing. This is a simplified procedure to manually program the HT. This is for the models in the kg-uv(XXX) family,

Overview;
To program the Wouxun HT you must understand that you must program the numerical information (the Channel - Frequency - Freq. Offset & direction - tones) in the Menu 21 "Frequency" mode and then save it, you then change the mode of menu 21 to "name" mode and then enter the (Repeater's Name) and save it.
Notes: when you are programming the HT in menu modes you have approximately a 4 second time window to make a change, if change is not made in that time window, the HT times out and you will have to re-do the entry, usually by pushing the red "menu" button twice takes you back to where you timed out. You may also use the Frequency knob nearest to the antenna, in place of the arrow up/down to change the parameters once in the programming mode.
Procedure;
First thing is to have the programming data avaiable. I would suggest make a programming sheet that has the following programming data.
1. Frequency in 6 digits (XXX.XXX)
2. PL / CTCSS Tone frequencies (if used)
3. Repeater frequency offset and direction (if used).
4. Name of the programmed frequency in 6 characters or less (repeater name etc.)
5. Assignment of the the Wouxun memory position number for the display.
Power on the HT and press the green "TDR" button. Press the red "Menu" button and then the 1 (menu 1), then the red "Menu" button again, using the arrow up/down until "STEP" "5.00" is indicated on display, then press red "menu" button to save it.

Menu 21 (frequency mode) Press the red "Menu" button and then the 2 and 1 (menu 21), then the red "Menu" button, press the arrow up/down until "FREQ" is indicated on display, then press red "menu" button to save it and then the "Exit" button (you should have a upper display with a frequency number on it (XXX.XXX). Using the HT's key pad input the desired "repeaters" frequency using all six digits (XXX.XXX) and verify on the display.

Menu 16 (PL Tone mode) Press the red "Menu" button and then the 1 and 6 (menu 16), then the red "Menu" button, using the arrow up or down buttons until "the desired tone freq" is indicated on display, then press red "menu" button to save it.
If you are using CTSS, tone encoded squelch, repeat the tone mode above,

using menu 15 in place of menu 16.

Menu 24 (Frequency offset DIRECTION) Press the red "Menu" button and then the 2 and 4 (menu 24), then the red "Menu" button, using the HTs key pad to enter the repeaters frequency offset direction "SHF-D"(+ / - / off), then press red "menu" button to save. The display should now display the offset direction.

Menu 23 (Frequency offset) Press the red "Menu" button and then the 2 and 3 (menu 23), then the red "Menu" button, using the key pad enter the repeaters frequency offset, then press red "menu" button. The display should now display the offset frequency (XX.XXX).

Menu 27 (Saving (MEM-CH)) This saves your entered data, Press the red "Menu" button and then the 2 and 7 (menu 27), press the red "menu" button, then using the UP/Down arrow buttons select the memory number you would like to save the data in, and once selected push the red "menu" button to save. NOTE: If the numbered memory location is used the "CH-"XX is displayed and if you push the red "menu" button you will over write that channel. If there is only the memory number displayed (NOT the "CH-"), that memory location is unused and available for storage.

Menu 21 (NAME mode) Press the red "Menu" button and then the 2 and 1 (menu 21), then the red "Menu" button, press the arrow up or down until "NAME" is indicated on display, then press red "menu" button. After 5 seconds, the display should now display a six digit name (CH-XXX).

Menu 26 (Channel Name) Press the red "Menu" button and then the 2 and 6 (menu 26), then the red "Menu" button, for this function you use the channel/frequency KNOB, nearest the HTs antenna. When the knob is rotated clockwise (CW) the digits advance (A-Z and 0-9) and then repeat, then you rotate the knob counter clockwise (CCW) the "space" advances. If you over advance, it will wrap around. Once you have the name spelled out, you must quickly save it (4 second time out) or you will loose it.

The above is for repeater setup, for simplex operation the menu 24, 16 & 15 ="OFF", Menu 23 = "00.000".

KENWOOD RC-D710 Control Panel. This is the special APRS-aware head replacement for Kenwood's TM-V71 VHF/UHF Dual-band Transceiver. I bought this new replacement head brand new in late August 2010 at the Boxboro Ham Fest in Massachusetts from HRO. The unit is just like brand new, perfect condition, used in the shack only, never mobile...the box (original box) includes everything: the replacement front panel itself, mounting brackets, hardware, cables, manual, still unfilled-out warranty, CDROM, etc. I'm also including the Kenwood TM-D710A/E Nifty! Mini-Manual ($19.95), an absolutely superb reference (with this you'll never refer to Kenwood's own docs!) If you want to learn about APRS and have a TM-V71, you're all set. You can see what's going on in the APRS world right on the front panel itself. A very cool product. Will sell the whole package including everything listed here for $295...and I'll pay insured Priority Mail shipping to the USA (lower 48 only.)
$295 for control panel, nifty manual and free shipping

Here's the link to my eHam ad...

Or, you can go to HRO and get one brand new for $150:

http://hamradio.com/detail.cfm?pid=H0-009227

No connection, just an FYI ported from the APRS reflector.

715. F/S Motorola MSR 2000 -CHEAP- Need info

Newsgroup: rec.radio.amateur.equipment
Date: 2010-12-27 22:48:06 UTC
From: Und3rthri11 <Und3rthri11.75ed2f8@radiobanter.com>
Message-ID: <Und3rthri11.75ed2f8@radiobanter.com>
Source record: 683

I have recently come across a Motorola MSR 2000 Repeater in an old warehouse that I purchased. I have no intentions on using this unit, nor do I know anything about it. It seems to be complete and was attached to a ton of other "radio" equipment when I found it. Almost 100% positive that it works.

The power supply reads 250w, but not exactly sure what it means as far as how it works or where it can be used.

If you have any information you can provide me, it would be very helpful.

Not sure what this thing is worth. Offer me something reasonable and you can be the happy new owner.

Thanks, Kyle
